The monthly average number of Child Care Operating Funding (CCOF) and Universal Prototype sites for 2018/19 to 2020/21. This shows the trend in the number of spaces over time; however, we are not able to identify which spaces are new builds. Any increases over time may be the result of a combination of new builds and/or expansion of existing facilities, and/or existing child care facilities that newly opt into the CCOF program.

Average Monthly Spaces by License Type, Child Care Operating Fund (CCOF) and Universal Child Care Prototype (PT) Sites¹

Notes:

1. Universal Child Care Prototype (PT) Sites program started in November 2018, average monthly spaces between 2018/19-2020/21 included spaces from PT sites.
2. Average monthly spaces by license type may not add up to yearly subtotals due to rounding.
3. Includes In-Home Multi-Age or Multi-Age Child Care License for eight or fewer children in the licensee's personal residence.
