Notes for Table 1:

- * This table only includes new facilities that applied to the CCFRI in 2019/20. This contrasts with Tables 2-18 that include all new facilities enrolled in CCOF.
- * The total number of new facilities was 131. 87 (66.4%) charged fees above the 70th percentile of SDA fees.
- * 49 facilities (56.32%) are Family providers and 38 facilities (43.68%) are Group providers.
- * 3 facilities (3.45%) are non profits.

Notes for Tables 2-3:

- * All Provider Profile 2019/20 responses were used — not just providers who used April 2019 as a reporting month
- * Parent fees of 0 were excluded from calculations
- * Daily fees were multiplied by 21, weekly by 4
- * New facilities are defined as having a start date of 201804 or higher
- * Calculations include "Before CCFRI" and "Not in CCFRI"
- * Facilities can appear in different lines. For example, a family provider who cared for different age groups would be counted in each family row.

Notes for Tables 4-7:

1. Parent fees calculations are based on the reported April 2019 parent fees from the 2019/20 Provider Profile Survey.
2. Only facilities with a valid April 2019 CCOF contract were included.
3. Facilities with a reported parent fee of \$0 were not included.
4. All parent fees considered for this analysis were the reported parent fees before the CCFRI reduction was applied.
5. Reported daily and weekly parent fee rates were converted to monthly rates with the assumed ratio of 21 days per month and 4 weeks per month.
6. Due to the small number of facilities in the region SDAs 41,42 and 43 have been combined.
7. OOS - Kindergarten (Full-day K) – for children in full-day kindergarten, reflects the parent fees for child care surrounding a full-day of kindergarten

Notes for tables 10-13:

- * Only providers who used April (and had a valid April contract) as their reporting month in the PP1920 were used
- * Parent fees of 0 were excluded from calculations
- * Daily fees were multiplied by 21, weekly by 4
- * Calculations include "Before CCFRI" and "Not in CCFRI"

Appendix D: CCFRI Fee Limit Policy

Stakeholder Communications Approach (for ED and ADM information)

Updated: Dec 23, 2020

Context:

The Child Care Fee Reduction Initiative (CCFRI), launched in April 2018, provides funding to participating child care facilities to reduce their monthly parent fees by up to \$350 per enrolment. Providers seeking to participate in the CCFRI must apply each fiscal year and disclose any recent or proposed fee increases, which the Ministry reviews to ensure that they do not unreasonably dilute the intended fee reduction for families.

In its review of each facility's CCFRI application, the Ministry approves a recent or proposed fee increase if it is in line with the facility's historical fee increases. This can result in some facilities being approved for significant increases.

The Ministry also reviews whether the facility's fee increase is nominal, whether the facility's fees are below median for its region, and whether the facility is in an exceptional situation.

Currently, new facilities may establish their initial fees at any level, giving them a perceived advantage over existing CCFRI-enrolled facilities, whose fee increases need to be approved by the Ministry.

Fee Limits for New Facilities – launch April 2021

Under the "New Facilities Policy", New, New-to-CCFRI and Modified facilities will only be eligible to receive CCFRI if their fees are at or below the 70th percentile of the previous year's fees for their care type and Service Delivery Area (SDA), subject to limited exceptions.

For example, the following table shows the Kootenay regional 70th percentile fees. If this policy were effective in 2019/20, the new facility would be approved for CCFRI if its fees met or fell below these rates for the specified categories of care.

Region (Service Delivery Area):	Infant	Toddler	3 Years to Kindergarten	Kindergarten Out of School Care
11 Kootenays				
70th Percentile	\$1,198	\$1,152	\$949	\$648
Regional Median Fee	\$1,101	\$1029	\$830	\$471

The effects of the policy are not retroactive, and do not impact facilities already approved for CCFRI. Facilities that have applied for space creation funding from any stream (New Spaces Fund, UBCM, Rapid Renovation Fund) prior to April 1, 2021 are exempt from this policy update.
