## **SCHEDULE A - SERVICES**

### **Contract Term**

The expected term is October 25, 2017 to March 31, 2020 with the Ministry having 2 additional 2 year options to renew the contract at its sole discretion.

### **Overview**

MCFD provides funding to support the development of preschool children, birth to school entry, who are blind or partially sighted. There is a current need for provincial coordination of early intervention services for blind or partially sighted children aged birth to school age. The services are required to promote child development, family capacity, awareness and accessibility for community service providers, and school readiness for successful transition into the education system.

### **Service Deliverables**

The Contractor will be expected to:

1. Provide strength-based, culturally sensitive services Province wide;
2. Provide child-focused, family-centred services in settings (e.g. in a preschool, child development centre, child's home or in a group setting) that are comfortable and relevant for the child and family;
3. Deliver the services utilizing qualified staff such as early interventionists, occupational therapists, physiotherapists, vision teachers, orientation and mobility specialists and/or family support professionals;
4. Services include:
  - a. Individualized Family Service Plans (IFSP);
  - b. Family education and support
  - c. Home visits;
  - d. Individual and group programs;
  - e. Consultation with other service providers;
  - f. Transition support to school entry;
  - g. Orientation and mobility consultation.
5. Complement rather than duplicate existing child development services such as vision screening, identification and assessment; Infant Development Program services; Supported Child Development services; child care and preschool programs; and community services;
6. Promote understanding of parents' role in their child's development. Ensure each family has an Individualized Family Service Plan (IFSP) that includes the parents in monitoring their child's development;
7. Work directly with families to ensure understanding of their child's vision diagnosis and recommendations to support healthy development of their child – this could entail working collaboratively with the family's ophthalmologist, the Sunny Hill Visual Impairment Team, and/or other specialized service providers;
8. Ensure families are connected with early intervention service providers – including Infant Development Program, Supported Child Development, Strong Start, and community services based on the family's needs;

9. Consult with service providers to ensure understanding of the child's needs specific to vision – this will entail working collaboratively with the Sunny Hill Visual Impairment Team, especially for children with complex vision and health and developmental diagnoses;
10. Ensure each family has opportunities to connect with other families with children who are blind/partially sighted, and blind and partially sighted adults and role models;
11. Work directly with families to engage in early learning programs and support transition to school entry – this will entail working collaboratively with the family's school district and the Provincial Resource Centre for the Visually Impaired. Ideally, the family's most recent IFSP will align with their child's first IEP (Individualized Education Plan);
12. Submit biannual program reports that provide a summary of services delivered, outcome measures (both service measures and client outcomes) and client feedback; and
13. Submit financial reports on budget expenditures.

### **Outcomes**

- (a) To optimize developmental opportunities for preschool children who are blind and partially sighted.
- (b) To enhance confidence, knowledge and network of families supporting blind and partially sighted children.
- (c) To increase the capacity of community service providers to provide supportive and accessible services to pre-school children who are blind and partially sighted.
