Hi There – Minister is available for South Asian media re: JTT's announcement from this morning. I've included the News Release and Minister has the QA and KMs on the topic.

Possible to see if there is interest from outlets and if so, can you let me know the proposed timing and I'll help coordinate in her calendar. She is in her riding tomorrow and has time in the afternoon for interviews.

Any English media would be referred to JTT for response.

Thanks,

Hi Lois,

Our contact centre has provided the following info; however, the Ministry of Jobs, Trade and Technology would be the best ministry to provide this type of information.

1. Link from the Jobs, Trade, & Technology ministry "Small Business Supports" there is a link to programs, which shows Canada-BC Job Grant and a link to learn more details.  
<https://www2.gov.bc.ca/gov/content/employment-business/business/small-business/bc-small-business-accord#Programs>

3. Other links

A link to a site called "Economic Development Funding & Grants Search"

A quick Google search found some information to add:

- Federal Government information on government grants and financing for businesses: <https://canadabusiness.ca/grants-and-financing/government-grants-and-financing/>

Our office has had a request from an individual that would like to immigrate from Germany to Canada and open a business here in British Columbia. Can you tell me if there are any grants or programs that he may apply for to assist in the opening of this business?

Thank you.

Hi Param,

The Ministry of Finance has responsibility for publishing the Public Accounts each year and they should provide the response that can be shared back with the MLA office.

But I did take a look, and in the section that the constituent refers to would be the names of the public sector employees at that time, their salaries and any travel costs they incurred in that fiscal year.

Thanks.

Dear Kim and Param,

I hope this email finds you well. Sorry that I am emailing the both of you, as I am not sure where to send this inquiry to, but I think the Ministry of Finance and the Ministry of Citizens' Service may be a good start.

I have a constituent here who is concerned about some information he found in the British Columbia Public Accounts (1979-80) online, which he believes to be disclosing personal information about **s.22**

**s.22** I've attached 2 documents for your reference. Here is a link to the full record

[https://archive.org/stream/britishcolumbiap02brit\\_0#page/n7/mode/2up](https://archive.org/stream/britishcolumbiap02brit_0#page/n7/mode/2up)

If you can please clarify what these records are, that would be very helpful and appreciated.

It is our constituent's understanding that these logs disclose information about the types of health services that individuals are accessing, including how much the government has spent on them. He is worried and concerned that if this is the case, it means that the public can have access to the types of healthcare services that he and his family is receiving, if the public searched for it. From my knowledge, and I shared this with the constituent, these logs are disclosing the salary of employees who's worked in the ministry, and it is unlikely that these records are disclosing information about the types of services individuals are receiving.

Any type of information you have on the Public Accounts and the attached records would be appreciated.

Thanks for your time and guidance.

Warmly,  
Thuy

Hello Amanda,

It would be nice to have Minister Sims welcome the delegates and the guests briefly. As you suggested, speaking after SFU Elder Margaret would certainly be the appropriate. We really appreciate your assistance in this matter. Minister Sims would be honoured to be at the conference even if it is for the morning session. Thank you so much.

Warm Regards,  
Param Grewal

Hi Param - sorry for the delay in getting back to you.

As per my earlier email, we are looking forward to seeing Minister Sims at tomorrow's conference.

It would be wonderful if she would like to take part in our welcoming remarks but there is no pressure - please let me know if she would like to offer a brief welcome.

The schedule for opening remarks is as follows:

8:30 am Conference chair Dr. Lisa Shapiro welcomes delegates and introduces SFU Elder Margaret who will give a traditional welcome.

After this we have the Deans from the faculties of Education and of Arts and Social Science speaking 5-10 minutes each.

If speaking, Minister Sims could welcome our delegates after Elder Margaret has spoken.

The main conference begins with a plenary address at 9am for an hour.

Our conference delegate audience is quite diverse, speaking to issues of teaching critical thinking in BC high schools with a view to transferring to post-secondary institutions.

We have teachers and educators from around BC, mostly Lower Mainland, but also flying in from Edmonton too.

We have a group of guests from Queensland in Australia who bring a wealth of experience in teaching critical thinking within the school system and also with its success in Indigenous education, promoting academic success.

Other guests include policy makers and those involved in administration.

Please let me know if Minister Sims would like to speak, and also if there is any further information I can provide.

This is an email that was in MLA Leonard's email from this weekend. I'm

wondering if you are looking at other places, like Dove Creek, for expanded internet. I know that The Dove Creek area has been severely underserved with internet access for a very long time. I think they were hoping that Dove Creek would have been looked at when the announcement was made.

Do you have any information that I can provide to the residents of Dove Creek area?

Dear Ronna-Rae Leonard

We live in Dove Creek. s.22  
s.22

I just wanted to bring to your attention the fact that much of the millions in grant money from the federal government for connecting communities to the internet is being spent on communities that already have adequate service (example Tofino - Telus just used grant money to buy out a small Internet company that already serviced Tofino) and that there are many areas on the island that still have no service and no plans for providing service. Did you know Telus also recently upgraded Mt Washington? They already had internet up there and I'm pretty sure no school kids live there year round.

For example, we live s.22 Courtenay in Dove Creek and have no option for internet other than satellite or cellular, both of which are expensive, slow and prone to weather disturbance related connectivity problems. And as far as I understand there are no immediate plans to help connect these un-served areas of some of our bigger communities on the island. We have repeatedly contacted them and as of yet, we are still not in their 5 year plans. s.22

s.22  
s.22  
s.22

I know I don't have to tell anyone how important reliable, affordable internet service is in today's world. Dove Creek is an agricultural area with many families with children, those children are at a disadvantage as their internet is slow and unreliable, if they even have it! It is also depreciating our residential resale value, as reliable, fast internet is not available here, but is elsewhere.

It seems incongruous to me that our tax dollars which have been designated for connecting areas just like ours seem to be going to further upgrade areas that already have reliable, high-speed internet service.

I hope you will consider looking into this issue to at least see where the money is going and if it is really being used appropriately. I suspect you might be surprised at what you find. I would be happy to

help you organize a Dove Creek town hall meeting on this issue.

Thank you very much for your time, consideration and service.

Hello Leanne,

This is the response that I have got from the Ministry to share with you on the issue of connectivity for Dove Creek. It does provide the guidelines and the contact person to engage in the process of addressing local broadband issues. Please let us know if there is anything else we can assist you with. Thanks.

### Dove Creek Internet Connectivity

- The Province encourages the expansion of connectivity in rural and remote areas across the province where possible, in association with the government's stated commitment to partner with local governments in rural communities to ensure local digital infrastructure is affordable, accessible and business ready.
- In this context, Network BC in the Ministry of Citizens' Services works to facilitate and improve connectivity in rural and remote communities that have no or very poor internet connections.
- —Telecommunications are regulated by the Canadian Radio-television and Telecommunications Commission (CRTC) and the Province cannot compel carriers to make their investments in particular areas. However, in recognizing how costly it is to provide high-speed internet in rural areas, both the federal and the provincial governments have created dedicated programs to help pay for infrastructure required to deliver high-speed internet connectivity to these locations in BC.
- 
- The federal government Connect to Innovate (CTI) program primarily focused on providing backhaul connection to rural communities which is a vital component to improving connectivity. A recently announced project will provide backhaul connection to a number of communities along the BC coast and provide opportunities for ISPs to expand into nearby rural communities. More information on CTI can be found at this link:  
<https://www.canada.ca/en/innovation-science-economic-development/programs/computer-internet-access/connect-to-innovate.html>
- Network BC works closely with organizations such as the Northern Development Initiative Trust, which administers the *Connecting British Columbia program*, to improve internet connectivity in rural and remote communities province-wide.

- I also want to share with you a new *Connectivity Handbook* to help community leaders, private providers and local governments develop practical plans that can lead to local broadband solutions. The publication can be found at this link:  
<https://www.northerndevelopment.bc.ca/wp-content/uploads/2015/06/Connectivity-Handbook.pdf>.
- We encourage community champions to reach out and engage with Regional District to see if there has been a connectivity strategy developed for your region.
- The ministry will continue to work with other levels of government, the national telecommunications regulator and the private sector to find new ways of expanding internet coverage in BC. Ministry staff are monitoring Telecom Notice of Consultation CRTC 2017-112 (<http://crtc.gc.ca/eng/archive/2017/2017-112.htm>), where the CRTC is currently examining accountability frameworks, eligibility and assessment criteria for a new regulatory funding mechanism that could include support for the expansion of internet services. We encourage you to express your view directly to the CRTC, which from time to time solicits public opinion as part of its regulatory process. The CRTC can be reached via the CRTC Support Centre: <http://www.crtc.gc.ca/eng/contact/>.
- Should you have further questions regarding connectivity in BC, please reach out Howard Randell, Executive Director- Network BC by phone at (250) 415-6867 or by email at [NetworkBC@gov.bc.ca](mailto:NetworkBC@gov.bc.ca).

Dove Creek is an agricultural area with many families with children, those children are at a disadvantage as their internet is slow and unreliable, if they even have it! It is also depreciating our residential resale value, as reliable, fast internet is not available here, but is elsewhere.

It seems incongruous to me that our tax dollars which have been designated for connecting areas just like ours seem to be going to further upgrade areas that already have reliable, high-speed internet service.

I hope you will consider looking into this issue to at least see where the money is going and if it is really being used appropriately. I suspect you might be surprised at what you find. I would be happy to help you organize a Dove Creek town hall meeting on this issue.

Thank you very much for your time, consideration and service.

Warm Regards, s.22

**Hello Angelina,**

Hopefully this addresses your issue. Take care. Cheers.

Hi Param,

Both the Community, Culture and Recreation Infrastructure and the Rural and Northern Communities Infrastructure Funding Streams are part of the Federal Investing in Canada Phase 2. Minister Trevena of the Ministry of Transportation and Infrastructure is the lead for negotiations with support by Minister Robinson. Both Ministers will sign the Agreement with Canada.

There is a subcategory under Rural and Northern Communities that includes connectivity, and specifically broadband projects (these areas fall under CITZ).

These funding streams are not yet in place.

Please let me know if you need any additional information. Thanks.

JC

Hi Korleen and Matt!

I have a request from MP Wayne Stetski to find out which minister is responsible for the following:

- **Community, Culture and Recreation Infrastructure Funding Stream**
- **Rural and Northern Communities Infrastructure Funding Stream**

While the funds are federal they are negotiating cost sharing agreements with B.C. who will then run the application processes. The federal government anticipates the agreements with B.C. will be signed off in the next 30 to 60 days, and MP Stetski would like to be in touch with the minister(s) responsible on the provincial end.

Do you know if your minister is responsible for the cost sharing negotiation of the above funds? Or any other ideas who it might be?

Hello Jeannette,

Do you have any clue about this at all??? Would the funding of these projects be in our mandate, if not whose jurisdiction would this fall under!!! Thanks.
