	FOI Requests	Other Directives	Total
19/20	2,570	1,494	4,064
20/21	1,841	1,680	3,521

* Re: Reduced FOI requests published for FY 20/21

- IAO prioritized publication of old, large historical files, rather than an increased output of request per day

* Re: Greater number of directives published in 20/21

- The change in government in Nov 2020 meant IAO reported out monthly and quarterly travel expenses for 3 months past the date that any individuals left government.
- Publication of Transition Binders only started in Nov 20/21

Hey Natalie, looking for a couple of numbers that I'm hoping you can fire my way by end of week (if possible)

For each of 2019-20 and 2020-21, the number of FOI requests we posted on OI and the number of other directive publications we posted on OI

For reference, see page 35 of the FOIPPA Annual Report - I'm basically just going to be updating the table there
