119382	s.22	U Gender Marker - I have applied to have the gender marker on my BC Services Card, BCID, MSP account, and BC Birth Certificate to be correctly identified as (blank) or U several times and have been wrongfully denied and told this is "impossible" or would somehow lead to fraud. The denial of my basic right to gender expression and freedom from discrimination on the basis of gender is legally unsound and morally reprehensible. This has had a material effect on how I can function in society but is also willfully causing psychological harm and discrimination. I am happy to refute any questions about this matter, however, I have already done this multiple times to Service BC, ICBC, Vital Statistics, and the Ministry of Health itself and am more interested in just getting the documents I need to survive and to stop being misgendered and degraded.
