Good morning/afternoon Allisson,

Thanks again for meeting earlier this week. As discussed, I've drafted an email (below) in follow-up to the last agenda item we weren't able to discuss, for your review/feedback.

Good morning Committee Members,

Thank you again for a productive meeting on Tuesday morning. Your feedback, comments and dialogue on the various agenda topics are invaluable, and provided important insight into how the CW-ELCC actions and priorities are impacting BC communities, and what we need to pay attention to moving forward as we begin planning for the next three years of the Agreement.

As we ran out of time for our last agenda item, due to our fantastic discussions, and as discussed at the end of our meeting, please find attached the template provided by the Government of Canada meant to inform/guide the development/drafting of the December 1, 2022 Implementation Report. As a quick refresher, the December 2022 report is intended as a one-time progress report, and is required under section 6.0 of the CW-ELCC Agreement to provide information to the Governments of Canada and British Columbia on progress made to date towards shared goals, with a particular focus on early actions to improve affordability of early learning and child care for families.

In terms of next steps, could you please review the attached template, and let me know if you have any questions, comments or concerns, ideally before Friday, October 14th? We are planning to start populating the template shortly, in order to be able to move the draft up through various internal approvals before it is finalized and submitted on December 1, 2022. During your review, please let us know if there is anything missing from the template that you would like included, and/or if you (or the organization(s) you represent) would like to contribute to any particular section(s) in the template. Please note, this one-time report does not replace BC's reporting requirements under the CW-ELCC Agreement – e.g., we will still be producing an Annual Report for each year of the Agreement, that will detail investments, outcomes, across all areas of the Agreement.

We will endeavor to share a draft of the report with this Committee, prior to finalization, so Committee members have the opportunity to review and provide feedback before public release.

As always, please don't hesitate to reach out with any questions.

Respectfully,

Teresa Butler, (she/her/hers)

Thanks for the update Teresa! We have received a few urgent follow-up questions I was hoping you can answer please. With the delayed creation of 2,000 \$10aDay spaces by December, what do you anticipate being the average fee for parents in December 2022? Original target was \$21/day by December 2022 from the expansion of the CCFRI and the creation of 12,500 \$10aDay spaces.

Also, would you be able to share the current (or most recent) number of CCFRI spaces and their starting average?

Apologies for the urgency, but any information you can provide today would be greatly appreciated.

Many thanks,

A

Thanks very much Allisson –s.16

Regarding your request for an update on BC's target for \$10 a Day spaces under the CW-ELCC – I believe our comm's teams have been in consultation regarding a potential joint federal-provincial announcement in December.

As you know, BC committed to increase the number of \$10 per day spaces to a total of 12,500, and reduce average parent fees for regulated and funded child care for children aged 0 to 5 by 50%, for a combined impact of \$21 per day on average, by December 2022.

BC is on track to significantly reduce parent fees to \$21 a day for children 5 years and under in December 2022 through the fee reductions we announced with Minister Gould on September 23. We anticipate reaching a total of 10,500 \$10 a

Day spaces by December. The remaining 2,000 are now expected to be in place by February 2023. The primary reasons for this delay are due to receiving the majority of applications in the last week of the intake, and most applications requiring longer than expected to rectify incomplete information. We have also had numerous applicants withdraw from consideration and opt to participate in the fee reduction program instead following the announcement in September.

We are working as quickly as we can to confirm the remaining 2,000 \$10 a Day spaces and look forward to sharing confirmation of reaching the 12,500 target early in 2023.

Thank you,

Teresa

Hi Julie,

Hope you are doing well! Our communications teams are working together on an echo announcement for additional spaces creation in the \$10 a Day program. There are few figures in the communication product that we cannot validate. Grateful if you can confirm the following figures:

- 728 or 725 more child care spaces have transitioned to the \$10 a Day ChildCare – which space figure is correct?
- Can you confirm that a total of 12,700 \$10 a Day ChildCare spaces have been created across the province?
- Can you confirm that 71,000 families are benefitting from fee reductions (either through CCFRI or the \$10 a Day sites) in BC?

As the announcement is scheduled for January 31, our comms team is hoping for a confirmation as soon as possible.

Many thanks,

Allisson
