

## **Deputy Minister's Bulletins : Accessible BC Act**

**September 15<sup>th</sup>, 2023**

### **Accessible B.C. Regulation: Compliance Support from BC CAISE**

The Accessible B.C. Regulation requires prescribed organizations, including all school districts, to have an accessibility plan, accessibility committee, and a tool to receive public feedback by September 1, 2023. [BC CAISE](#), in partnership with the ministry, the Disability Alliance of BC, and Untapped Accessibility, continues to provide support for school districts where this work is in progress. School districts can access [BC CAISE resources](#) online, or request support from an Untapped Accessibility consultant free of charge by emailing [info@untappedaccessibility.ca](mailto:info@untappedaccessibility.ca). School districts are also encouraged to share the [What to Expect resource](#) with members of your school communities who have questions about the regulation.
