

Fee Paying Teachers by School-Year, School System, and First TEP Location

Notes:

1. TRB data goes back to the 2010/2011 school-year.

2. School-Years begin on Jul-1 and end on Jun-30.

3. Certification location is based on first observed TEP location in place for each teacher.

If a teacher's first TEP is in a foreign country, but they later attend a BC school to update their credentials or obtain a different certification, they are still labeled as a fee paying teacher from 'Rest of World,' for example.

4. In instances where there are more than one TEP location for a teacher in their first observed year, BC institutions take priority, followed by institutions in Canada, then the rest of the world. If the TEP location does not have exist in the TRB, or there is no data available on that teachers TEP, it is listed as 'Unknown.'

Historic Teacher Certification Success Rates Along Certification Process

Notes:

1. Teacher Certification application data goes back to the 2011/2012 school-year.
2. School-Years begin on Jul-1 and end on Jun-30
3. Geographical groupings are based on an applicant's home address. Keep in mind that BC applicants will be mix of those trained in BC, across Canada, and in other countries.
4. Data is grouped according to the school-year when an application is first made.
5. Results less than 3 years old are subject to change as applicants have 3 years to complete their applications
