- We need 2nd quote for the painting.
- Lastly, in our accounting system we have an Alisha Neumann at s. 22

As a result, the \$5,000.00 granted to your organization will be considered due for repayment to the Province.

In order not to be in default of your Child Care BC Maintenance Fund for Repair, Replacement and Relocation grant agreement and to remain eligible to receive child care operating funding and other funding, please submit the overdue financial reconciliation report and supporting documentation by February 4th, 2019 .

Good morning,

The worst rooms are 12 and 14, so I was going to start there. I have attached pictures, but not sure they show how bad the floor really is. It is the same vinyl that was put down in the 1950s and hasn't been replaced. It is indented, bubbling, and rubbed down to the subfloor. Both the floors are in this green vinyl. First three are of room 14 and last three are room 12.

Additional Information:

The flooring is from the 1950's.

We had a report done showing that it contains asbestos.

It is wearing down to the subfloor making it unsanitary to keep clean.

It impacts health and safety because our children are infants and toddlers crawling on the floor wearing it further and possibly putting asbestos into the air.

It molds when anything wet is left on it further making it unsanitary.
