Hi Lisa,

Can we look at moving all the remaining briefings to after the long weekend?

We have a meeting on Friday shaping up that would take priority.

It's also going to be such an absorbing rest of the week, and I want to make sure that the Good minister gets the most out of these.

Thank you so much,

Hi Mike,

I'm afraid with all the hustle and bustle of this last week I may have missed a note on email signature protocol.

Would you be able to have a guide and template sent from your team to all the MA's that outlines our email signatures? I've cc'd the list here for your convenience.

If this has already been done and one of the MAs reading this has it, would you mind please helping me and sending me your template?

Thanks so much!

Good Morning, Jenn

GCPE media relations have been setting up a lot of media for Minister Fleming.

I have been batting away anything not simply related to his election and general excitement about MRF's new education portfolio.

With that said, I am concerned with the volume as it heightens the risk he may find himself in media that pushes him too hard on a file he's only recently adopted.

I am often told about a scheduled media hit as the first piece of information I get about it. And never told which show, who the host will be, what the topic of the request is, etc until I ask repeatedly.

For example, 5 interviews were attempted to be scheduled yesterday on top of the two he had done in the morning.

Would be able to please help me reduce the number of media requests that are committed to before I'm engaged in the process?

Have a great day!

Cheers

Hi all,

We need all cabinet members to have blocked in their calendars the full days for September 6-7 for the BC Cabinet First Nations Gathering in Vancouver. This event offers an opportunity for FN leaders to meet directly with Cabinet, similar to UBCM. Each Cabinet member should be prepared to have full days of meetings over those two days. Once I get a grasp on how the scheduling will work I will let you know. For now we need those days help in all Cabinet members calendars.

Hi Liam,

Please find below bullets regarding status update on Williams Lake and 100MH.

\* Currently both Williams Lake and 100 Mile House remain on evacuation order.

\* As such the school districts' administrative functions have moved north to Prince George and are operating out of the Prince George School District office.

\* We have no reports of school structure loss in these areas and have been in regular contact with the School District staff. That said, they are not able to access the area to survey damage and First Responders in the area are focused on firefighting activities and securing the area and are not currently undertaking survey and reporting of damage.

\* There is a military convoy on route from the north to Williams Lake from Edmonton today to aid the first responders.

\* We have been informed by the School District that summer programming has been cancelled and that they will need relief on the contractual expectations regarding the delivery of their School Enhancement Program (SEP), Annual Facilities Grant (AFG), and Memorandum of Agreement (MoA) capital project delivery; which we will do in writing once they have a sense of the total impacts.

Please let me know if you require anything else.

Hi Liam,

Please find below bullets regarding status update on Williams Lake and 100MH.

- \* Currently both Williams Lake and 100 Mile House remain on evacuation order.
- \* As such the school districts' administrative functions have moved north to Prince George and are operating out of the Prince George School District office.
- \* We have no reports of school structure loss in these areas and have been in regular contact with the School District staff. That said, they are not able to access the area to survey damage and First Responders in the area are focused on firefighting activities and securing the area and are not currently undertaking survey and reporting of damage.
- \* There is a military convoy on route from the north to Williams Lake from Edmonton today to aid the first responders.
- \* We have been informed by the School District that summer programming has been cancelled and that they will need relief on the contractual expectations regarding the delivery of their School Enhancement Program (SEP), Annual Facilities Grant (AFG), and Memorandum of Agreement (MoA) capital project delivery; which we will do in writing once they have a sense of the total impacts.

Please let me know if you require anything else.

Zita

Hello Everyone,

I have been asked to have your offices put place holds in your Ministers' calendars for the upcoming First Nations Leaders' Gathering (FNLG), to be held at the Vancouver Convention Centre, on September 5th (registration and possibly a reception event) and 6<sup>th</sup> and 7<sup>th</sup> (for the one-on-one meetings and speeches). Your DM's have also been advised.

Once I receive more details and information, I will forward that along to you all!

Here's the email I sent yesterday morning to Jen regarding the media requests from GCPE.

**Subject:** Fleming media

Good Morning, Jenn

GCPE media relations have been setting up a lot of media for Minister Fleming.

I have been batting away anything not simply related to his election and general excitement about MRF's new education portfolio.

With that said, I am concerned with the volume as it heightens the risk he may find himself in media that pushes him too hard on a file he's only recently adopted.

I am often told about a scheduled media hit as the first piece of information I get about it. And never told which show, who the host will be, what the topic of the request is, etc until I ask repeatedly.

For example, 5 interviews were attempted to be scheduled yesterday on top of the two he had done in the morning.

Would be able to please help me reduce the number of media requests that are committed to before I'm engaged in the process?

Have a great day!

Cheers

**Subject:** Important Notice re: Treasury Board Meetings

Good afternoon all,

Please note that should your Member's schedule conflict with a scheduled Treasury Board meeting time you must send me an email and cc Alex Chandler with a request for leave and state the reason why the leave is being requested. We will do our best to accommodate but if quorum is an issue, leave may not be granted.

Also, if your Member is in Vancouver during a scheduled Treasury Board time, we are able to them participate from the Premier's Vancouver Office via video conferencing or on occasion we may be able to have them dial in from a secured landline. Any of these options must be cleared by our office first.

Thanks so much for your help with this. Should you have any questions or concerns, please feel free to contact me.

Hi Zita,

As a quick heads up for Friday briefings -

MRF will be asking for more details regarding the \$150,000 grant issued by the province in 2015 to the Old Massett Village Council re: the feasibility study for the expansion of the on reserve elementary school.

He's looking for rationale, decision making processes, and ultimately wants to know why the province used provincial funds to fund a feasibility study for an elementary school ultimately under the purview of the Federal Government.

MRF is the largest supporter of all peoples being able to access quality facilities and the best education we can provide; in this case he is only hoping to understand the rationale of the province funding a third feasibility study in ten years.

I hope you are having a great weekend and we are really excited to be working with you.

Hi Zita,

As a quick heads up for Friday briefings -

MRF will be asking for more details regarding the \$150,000 grant issued by the province in 2015 to the Old Massett Village Council re: the feasibility study for the expansion of the on reserve elementary school.

He's looking for rationale, decision making processes, and ultimately wants to know why the province used provincial funds to fund a feasibility study for an elementary school ultimately under the purview of the Federal Government.

MRF is the largest supporter of all peoples being able to access quality facilities and the best education we can provide; in this case he is only hoping to understand the rationale of the province funding a third feasibility study in ten years.

I hope you are having a great weekend and we are really excited to be working with you.

Thanks so much,

-L

**Subject:** FW: Follow-up Media Request: Interview request - Jim Harrison  
Hi Liam, please see the note below-CHNL is renewing their request for an interview with MRF. They would like to tape the interview sometime between 7am and 830am on Tuesday, to be aired on the Jim Harrison Show at 9am that day. It would be about 10 minutes long and cover education issues in Kamloops and BC in general. Please let me know if the minister is available and I can set it up-or can suss out more details if you like.  
Thanks and cheers!

[fran@nlradio.com](mailto:fran@nlradio.com)  
250-571-5244 c: 250-374-1610

**Request:** Would we be able to arrange a recorded interview Tuesday morning any time

between 7 – 8:30am? We'll then air it on our show at 9am.

**Recommendation:** Please advise if Minister Fleming can call for an interview at that time.

**Deadline:** Monday, July 31 @ 3 p.m.

**Note:** *This is a follow-up to a media request from July 26, 2017.*

**REQUEST:**

Reporter asks: I'm wondering if Education Minister Rob Fleming would be able to join us on Radio NL's Jim Harrison Show. The interview would be around ten minutes long.

Here are some openings:

- Thursday, July 27th – 9:35am
- Tuesday, August 1st – 9:08am or 9:35am

Please let me know what day/time works best! You can reach me through email or at the newsroom: 250-374-1610.

**RESPONSE:** Let the reporter know Minister Fleming has other commitments on those dates.

Hi Yvette,

Minister Fleming has a speaking engagement at the school board super intendants association meeting in Kelowna on aug 17 -

Will he be able to receive leave from treasury board on that day?

Thank you,

Good afternoon all,

Please note that should your Member's schedule conflict with a scheduled Treasury Board meeting time you must send me an email and cc Alex Chandler with a request for leave and state the reason why the leave is being requested. We will do our best to accommodate but if quorum is an issue, leave may not be granted.

Also, if your Member is in Vancouver during a scheduled Treasury Board time, we are able to them participate from the Premier's Vancouver Office via video conferencing or on occasion we may be able to have them dial in from a secured landline. Any of these options must be cleared by our office first.

Thanks so much for your help with this. Should you have any questions or concerns, please feel free to contact me.

Would it be possible for Minister Fleming to do this interview next week?

**Request:** The reporter understands we cannot comment on specific cases but he is wondering if there are any rules surrounding teachers engaging in relationships or having physical contact with former students (who are now adults)?

Also, he is wondering what it means for a teacher be "reprimanded?"

**Note:** The reporter knows the Ministry does not comment specifically on TRB rulings.

**Recommendation:** Send this response from the Ministry of Education on background:

**Response 1:** There are standards pertaining to professional conduct for teachers in B.C.

For example, Standard 1 says "...Educators do not abuse or exploit students or minors for personal, sexual, ideological, material or other advantage."

And Standard 2 states that "Educators act with integrity, maintaining the dignity and credibility of the profession. They understand that their individual conduct contributes to the perception of the profession as a whole. Educators are accountable for their conduct while on duty, as well as off duty, where that conduct has an effect on the education system...."

Standards for teachers in B.C. can be found here:

<https://www.bcteacherregulation.ca/Standards/StandardsOverview.aspx>

More information about the professional conduct discipline process can be found here:

<https://www.bcteacherregulation.ca/ProfessionalConduct/TheDisciplineProcess.aspx>

**Response 2:** Reprimand is not defined in the Teachers Act, but a reprimand is one of the consequences listed under s. 64 of the Act that either the Commissioner can reach an agreement on or a panel can determine as a penalty.

It effectively means that the person's conduct was found to be improper and is noted on their record, but they are not limited in their practise.

**Request:** The reporter is following up on his discussion with Minister Fleming yesterday morning.

**Reporter:** “In speaking with the minster, he said one of the big challenges facing the new government is that many schools have fallen into disrepair. I asked if he had any figures on the total cost of the backlog, but he wasn’t able to provide any. I notice a recent Tyee story cited a ministry figure of \$5 billion in deferred maintenance. Can you confirm whether that came from the ministry, how recently and whether it’s accurate?”

**Note:** Here is a link to the Tyee story that the reporter is referring to:

<https://thetyee.ca/News/2017/07/18/BC-School-Maintenance-Bills/>

**Recommendation:** Send background info from the Ministry:

The Ministry does not rely on “deferred maintenance estimates” to establish provincial needs or to distribute capital funding but is aware that the provincial estimate for deferred maintenance is approximately \$5 Billion.

Deferred maintenance does not indicate the actual condition of components or systems in schools nor the costs for replacements – as it does not recognize replacement parts within components in schools – or regular maintenance undertaken. Nor does it represent when components will actually need to be replaced. Only regular inspection and maintenance investment tracking can inform this.

For example, if a boiler has a 25 year manufacturer’s suggested life, then at year 26 the full cost of replacement would be tracked as a potential “deferred

maintenance liability” – regardless of whether it actually needs to be replaced due to condition or performance.

Given school districts employ significant expertise in trades people, they regularly maintain and often replace wearable parts within components and are able to greatly prolong the life of building components beyond the manufacturer’s suggested life.

### **Media Request 2**

**Sent:** Monday, July 31, 2017 2:27 PM

**Subject:** EDUC Media Request: Science curriculum concerns

**Reporter:** Claire Gilmore , Associate Editor

Watershed Sentinel

[clairedelaluz@gmail.com](mailto:clairedelaluz@gmail.com) or 250-650-6104

**Request:** Reporter: "I'm doing a number of interviews for a commissioned article for the Watershed Sentinel that will be written by Briony Penn on the new BC curriculum, and I'm looking for an NDP response to the current curricula, given the background story of the controversial curriculum changes between 2014 and 2016, which I'm sure you're very familiar with.

Firstly, Briony is seeking a general response.

And secondly: does the New ministry of Education have there any plans to revisit the

curricula, given teachers' concerns about the second, behind-closed-doors edit in 2016 (that again removed topics of weather, interdependence of living and non-living things in ecosystems, and sustainability in the harvesting of natural resources, from grades three, four, and five)?”

**Recommendation:** Send the following information on Background from the Ministry of Education:

B.C.'s new curriculum ensures that in each grade students are expected to demonstrate the knowledge and understandings acquired in relation to the environment.

One of the challenges with the shift to a concept-based curriculum is that there can sometimes be a perception of missing or not covering topics.

Concepts within the new curriculum model can and do include multiple topics and provide the white space (flexibility) for a variety of topics to be explored in various levels of detail. The concept of weather, as an example, has not been removed and is explicitly covered in a variety of ways and in a variety of grades. The concept starts in Kindergarten at the simplest of levels and progresses each year to expand and add more complexity and dimensions.

Similar to the concepts at each grade, students start off at a more simple level, such as demonstrating their experiences and interpretations of the local environment, and progress with each grade where they are expected to begin demonstrating their understandings through observations, analyses, and predictions.

As in every curricular area, the final editing processes result in change. The changes may be grammatical, conceptual, or topical to ensure consistency within the area of learning and/or across all areas of learning or with the overall curriculum model.

B.C.'s science curriculum review team included experts in environmental education, environmental education teachers, as well as representatives from environmental education organizations.

With the K-9 science curriculum, once the changes were completed, they were shared with the entire curriculum team and posted in July 2016.

Feedback received was for a clear conceptual flow of science concepts through the grades where concepts could be built upon in subsequent years. B.C.'s science curriculum will be discussed again in the next round of review and considerations (following the 2017/2018 school year).

Moving forward, Minister Fleming's mandate includes prioritizing the implementation of B.C.'s new curriculum and ensuring that teachers have the tools they need in the classroom to be successful.

## **OUTSTANDING**

### **Media Request 1**

**Date:** Monday, July 31, 2017 12:11 PM

**Subject:** EDUC Media Request: Financial Literacy

**Reporter:** Jason Unrau, Blacklocks <https://www.blacklocks.ca/>

[jason@blacklocks.ca](mailto:jason@blacklocks.ca) or 613-899-9599

**Request:** I'm writing about the following report on financial literacy of students aged 15 in Canada and how they stack up against each other and students from other countries.

[http://publications.gc.ca/collections/collection\\_2017/acfc-fcac/FC5-51-2017-eng.pdf](http://publications.gc.ca/collections/collection_2017/acfc-fcac/FC5-51-2017-eng.pdf)

According to the results, "students in the majority-language school system outperformed students in the minority-language school system by 62 points in Canada overall." (page 4 of report). While there was no statistical difference in majority/minority students in Manitoba and New Brunswick, majority language students in B.C., Nova Scotia and Ontario outperformed their minority language counterparts.

My questions are: Is the provincial government aware of the results and if so, is there an explanation?

As well, does it have a plan to improve financial literacy knowledge among students in the minority language set?

**Recommendation:** Send this response on background from the Ministry: Financial literacy is an important part of a comprehensive education for all students.

B.C.'s new curriculum explicitly includes financial literacy in all grades as part of mathematics. Historically, financial literacy was typically covered in the graduation years.

The Canadian Results of the OECD PISA 2015 Study have been shared with the Ministry of Education. This assessment took place prior to implementation of the new curriculum.

While there is room for improvement, the average scores for both majority and minority language students in B.C. were higher than the Canadian average and higher than all other participating provinces.

Hi Liam

I hope your first week on the job has gone well. This isn't a priority, and feel free to ignore this, but this might interest you. I did want to follow up on the Canadian Geographic "energy in the classroom" and the giant floor map I mentioned previously. The content was independently created by the Royal Canadian Geographical Society, but CAPP contributed financially to the initiative, including the "where does energy come from" map which I think is a very interesting visualization. (link below).

If it interests you I can get you a printed copy easily.

More info about the giant energy floor map teaching tool and curriculum is below. Any school in Canada can request to have the map come visit their school.

Regards

Geoff

**School tools: Energy in the classroom**

Students and teachers can explore Canada's energy production and transmission on a giant floor map that measures about 11-by-8 metres.

The map comes complete with an activity trunk and curriculum-linked learning activities. To request a giant floor map, visit

These are great.

In the future, would we be able to have review of these notes before they are provided to cabinet operations? I understand the quick turnaround needed in this instance, of course.

Hello – I was speaking with a new Ministerial Assistant today and mentioned 'Validating Your IDIR'. I thought I would send a quick message to you folks, so you could validate your IDIR. Here is a link to the information on MyHR - <http://www2.gov.bc.ca/gov/content/careers-myhr/all-employees/new-employees/first-week>

Here is the information closer to the bottom of that web page –

## Your Government IDIR ID

### What is an IDIR?

Your IDIR is the unique identifier you use to log on to your workstation and to access many government applications, including Employee Self Service, where your leave and pay information is located, and AskMyHR, where you can get answers for a variety of questions related to your employment.

Your branch administrator or supervisor will let you know your IDIR ID and your temporary password on or near your first day of work. You will have to change this password when you log on to your workstation for the first time.

It is recommended that you restart your computer after logging on for the first time. After you've successfully rebooted and logged back on to your workstation, you will have to validate your IDIR.

### Validating Your IDIR

**You won't be able to validate your IDIR on your first day of work if you are new to the BC Public Service.**

Follow these steps:

- Start at the [Time & Pay Portal](#)
- Click on the Self Service (PeopleSoft) tab and launch the application by clicking the

icon in the middle of the window

- Click on Click here to begin ESS Validation
- Enter your six digit employee number and use the drop-down calendar to enter your date of birth
- Click Submit. You should get a response that says, "You have successfully validated your IDIR"
- Wait 30 minutes
- Go back to Employee Self Service. When you launch the application this time you will be taken to the icons to view your pay, and other features
- If you don't see the icons, go to the [Time & Pay Portal](#), click on the Self Service (PeopleSoft) tab and follow the instructions in the yellow box to clear your cache

You will now have access to most government websites, but there are a few such as the Learning Centre and the Hiring Centre that will take an overnight refresh before you will be able to access them.

You will need your employee number and date of birth to validate.

If you do not know your employee number, please let me know and I will give it to you. Also, if you have any problems, please let me know.

Thank you.....dl

Thank you very much for all the details and the save the date.

I'll be your point person for contact in Minister Fleming's office going forward feel free to call the office or email any time - Lisa will be in touch regarding scheduling.

We will do our best to accommodate a meeting on the 3rd or 4th between Minister Fleming, myself, Marc and the Deputy Minister of Education. As I'm sure you're aware calendars are very full at this point in the year. There is also a possibility that a meeting may be bumped due to the wild fires we are experiencing here as I know the Minister is eager to get to the affected communities as soon as the evacuation order is lifted.

As for We Day, please put Scott McDonald and Zita Teng (cc'd here) on the guest list as well, Mr. McDonald is the newly appointed Deputy Minister of Education and Ms. Teng is the Executive Director of strategic planning and executive operations in the Deputy Minister's office.

We should have a quick call early this coming week.

Lisa (the office super hero) will be in touch during the week regarding Minister Fleming's schedule for early August and setting up a call for us in the week.

Hey crew,

We don't have a number for Graeme Wood at Richmond news for tomorrow at 10am.

I'm sure you guys do, can you help me, please?

Lisa - we are at SD 19 at the moment - could you please print us 2 copies of the next few districts from this attached file?

37,47,38,70,46,81 -

And hopefully the rest binders will arrive for the rest of the afternoon and tomorrow.

Thank you :)

Jen,

The media relations team at GCPE has promised interviews with Minister rob Fleming with the tyee and the van sun for today.

I'm hesitant for print at the moment, MRF says he's ok with the Vancouver sun, I'd rather hold him back.

What's your read on this?

Go/no go?
