Good afternoon, Lindsay!

First I should say thank you for taking the time to speak with me a few moments ago regarding an invitation for Minister Fleming to provide welcome remarks at the 2018 Co-operative Congress, which runs from June 19<sup>th</sup>-21<sup>st</sup> in Victoria. I am writing on behalf of Denyse Guy, Executive Director of Co-operatives and Mutuals Canada.

The event will take place at the Delta Ocean Pointe Resort and the event will explore the theme of Co-operation in a Changing World.

Minister Fleming was suggested to make representation on behalf of the Premier who cannot attend. However, I think it's important to make a number of connections to the Co-operative sector for B.C. that would be of interest to him, particularly given his involvement in the Sustainable Shared Prosperity Committee and the Social Initiatives Committee.

The annual Co-op Congress is attended by hundreds of co-operators from coast-to-coast, ranging across sectors, including housing, natural resources, retail, agriculture, and financial services. These community owned and operated enterprises start with the goal of solving local and national challenges, rather than simply generating profits. Hundreds of co-operatives operate in British Columbia, with substantial overlap in objectives with your government. For example, there are 30 housing co-operatives in Victoria alone.

It would be CMC's honour to host Minister Fleming for remarks. I can check the flexibility of schedule to make sure we accommodate the Minister at a time that works for him, as well. If you or your colleagues have any questions I would be happy to answer them at your convenience.

Thank you very much,

Rob

Dear Mr Fleming;

I represent Sengled Technologies of Canada which is owned by one of the largest global LED light manufacturers. We OEM for companies like GE, Phillips, Sylvania and others. For Canada we are head quartered out of the Marine building in downtown Vancouver.

During the past successful election campaign, the NDP made a commitment to better education with the implementation of energy efficient lighting in schools across British Columbia and I would like to help you achieve this.

I have created a program specifically for education in Canada that I am calling LaaS (Lighting as a Service – [www.LaaS.ca](http://www.LaaS.ca) ). I will provide LED lights to schools for **no capital investment**; while reducing the schools overall operating costs.

I think there is a great opportunity to partner together. This would help the government achieve an election commitment with very little impact to your overall budget.

I would love to meet with you to discuss this in more detail at your earlier convenience.

Sincerely,

Mat Sadler

I am sure he is busy... but the information I would like to share impacts one third of the children entering school.

The Constitution says they are entitled to an education, and because they are not being taught in the way that they learn, they are not getting that education.

They end up being labelled learning disabled, which is not true. I respectfully request that we make this work.

These graphs show the financial and academic benefit.

**Conference: *Creating Partnerships*** which is scheduled for November 7-9, 2018 in Richmond, British Columbia. We have not received any response in regards to sponsorship yet, and I wanted to follow up to see if this would be feasible for you at this time. Please note: there is no deadline for sponsorship confirmation but we are sending out the program in June and in order to be recognized appropriately at this time we would need your **response by Thursday, June 14th**.

Interprofessional Continuing Education bears sole financial responsibility for this conference and as we are a not-for-profit self-supporting unit, we **rely heavily on sponsorship funds to help keep registration costs down for those parents and professionals working with children, youth, adults, and their families who have limited budgets**.

We anticipate over 400 professionals in attendance. This interactive conference will focus on practical strategies and partnerships to optimize the potential of individuals with DD. Our goal is to help clinicians and caregivers learn effective ways to work with individuals with DD, and their families, in partnership to improve their quality of life experience. The conference will also provide educational and informative psychiatric, behavioural, mental health, and complex physical health updates specific to individuals with DD, and showcase best practices in the field. This conference will engage health care providers and educators from a wide range of professional disciplines in knowledge transfer and interdisciplinary collaboration. We are requesting financial support in the amount of an unrestricted educational grant in four different levels (please refer to page 3 of the prospectus attached).

You will find the items indicated below (included with the original sponsorship request) attached:

**Subject:** Sponsorship Invitation – Health and Wellbeing in Children, Youth and Adults with Developmental Disabilities Conference

Dear Honourable Rob Fleming,

On behalf of Interprofessional Continuing Education and the conference planning committee, I would like to invite Ministry of Education to be a part of **The 6<sup>th</sup> Health and Wellbeing in Children, Youth, and Adults with Developmental Disabilities Conference – Creating Partnerships**. This conference will be held November 7 – 9, 2018 at the Sheraton Vancouver Airport Hotel in Richmond, BC.

The 2018 conference will focus on practical strategies and partnerships to optimize their potential. Our goal is to help clinicians and caregivers learn effective ways to work with individuals with DD, and their families, in partnership to improve their quality of life experience. The enclosed sponsorship prospectus will outline the conference description and goals in detail.

Interprofessional Continuing Education bears sole financial responsibility for this conference and as we are a not-for-profit self-supporting unit, we **rely heavily on sponsorship funds to help keep registration costs down for those parents and professionals working with children, youth, adults, and their families who have limited budgets**. We are requesting financial support in the amount of an unrestricted educational grant in four different levels (refer to Page 3 of the enclosed prospectus) to help fund this important learning event. I am also enclosing the post conference report for the 2016 Health and Wellbeing Conference.

If you have any questions or concerns in your deliberations, please do not hesitate to contact me directly at (604) 822-4965 or by email at [kristina.ipce@ubc.ca](mailto:kristina.ipce@ubc.ca). I look forward to your response and possible collaboration in this excellent educational event.

Sincerely,
