Hello Lindsay,

I did take a look at the site and it looks like the lowest minimum orders for pens are 300.

I can suggest looking at the pens on our website; as there is no order minimum. We do carry a .95 pen with the BC ID logo or there is a \$5.95 pen with the Coat of Arms.

I reviewed the attached requisition with our Sr. MA and she said that we do not need 300 of the pens, rather 50 would be enough. I'll continue to look into finding something else, but I would love some suggestions!

Hello Rob!

I would very much appreciate an actual phone conversation with you to discuss ACEbc's ongoing work and our intention of creating an "ask" related to the enhancement and potential expansion of Community Education and Community Schools in BC.

We have intentionally waited awhile to give you a chance to settle into your position as Minister of Education before trying to move forward with you and the BC Government on the enhancement and expansion of Community Schools, as we had previously discussed with you prior to the election.

I personally would like to have the opportunity to first, personally congratulate you on your appointment and second, to get some general direction from you about moving forward. ACEbc Board of Directors have been working to prepare an "ask" and now have someone in place to write it for/with us. I would appreciate your support and guidance in this process.

I look forward to working with you and the NDP government, utilizing the Community Education approach and the proven track record of Community Schools in BC, to deliver on government promises in Education and the other social policy ministries.

We are excited by the possibilities of making a real difference - community by community across BC!

In CommUNITY

Good Morning,

My name is Taylor Lambert and I am writing from the NATO Association of Canada. I am writing to invite Minister Fleming to a summit on computer education. The event will take place in Waterloo, Ontario at the historic Langdon Hall Country Inn from September 14-16, 2018. The event will coincide with the University of Waterloo's Hack the North, the world renowned hack-a-thon that brings the best and the brightest in emerging technologies, start-ups, academia and industry to Waterloo.

Our summit aims to bring together educational ministers from across Canada to discuss primary and secondary computer science curriculums in Canada. Tech-industry leaders and leading computer science and engineering professors will also be in attendance. We are seeking to provide a forum where academic and industry professionals can discuss the skills they look for in young applicants, and address where there are gaps or areas where Canadian students fall behind in terms of their computer literacy.

Further, as a security organization, the NATO Association will also be hosting security professionals to discuss the importance of adapting elementary and secondary curriculums to help our youth develop the skills they need to succeed, and keep Canada competitive in the realm of cyber-security.

NATO believes in integrative security solutions, and places a large focus on education and emerging security. We hope this summit is the first of many discussions that will help shape Canada's future in computer science and cyber-security.

It would be an honour to host Minister Fleming at the event, and we hope he will be able to attend.

Should you have any questions or concerns, please do not hesitate to reach out.

We thank you for your time and consideration of our invitation.

Sincerely,  
Taylor Lambert

Hi Andra,

Thank you so much for your kind response, it's lovely to hear that Minister Fleming enjoyed his time at WE Day last year!

We certainly understand if Thursday is not an option. However, in case the Minister is interested, I wanted to share that we are also hosting our **first every WE Day Family Vancouver on the evening of Wednesday, November 21<sup>st</sup>**. This event will be similar to WE Day Vancouver in its scale and level of energy, but has a significant focus on the role that entire families can play in creating meaningful change.

This would be a more informal invitation, no speaking request involved. We would also love to host the Minister's wife and kids if they are interested, and it would be no trouble to set up a really fun backstage experience for the whole family.

This is a brand new event in Vancouver, and so many inspired families and teachers will be present. Please let us know if this might be of interest – WE Day family runs from **6:15 p.m. - 8:00 p.m.**, and it

would be wonderful to have the Minister and his family join us for a super VIP experience.

Thank you for your help in organizing this, and for all of your office's amazing support. If anyone at all from the ministry would like to attend as well, you are more than welcome, and we would be thrilled to host you. Lauren Helene, copied above, is happy to make the arrangements.

Sending best wishes,

Marc

Hello,

I am writing to follow up on our previous meeting request. Scott S. has met with DM MacDonald and was hoping to brief one of the Ministers MAs. Scott is available in Vancouver over the summer but would be happy to travel over to Victoria if there is a specific date you had in mind.

Thanks in advance,

Good Afternoon Veronica,

I am emailing you today to request a meeting on behalf of Scott Sampson, President and CEO of Science World. As you know, Science World British Columbia is a charitable organization that engages British Columbians in science and inspires future science and technology leadership throughout our province.

Scott would like to meet to discuss how Science World can work collaboratively with government to provide a program update that would help address the growing need to scale education in the areas of Science, Technology, Engineering, and Math (STEM) as well as a specific request regarding help with Federal infrastructure funding.

I will follow with your office by phone.

Thank you for your time,

Geoff Ingram
