MINISTRY OF EDUCATION DECISION BRIEFING NOTE

DATE:

January 18, 2021

CLIFF:

243737

PREPARED FOR:

Honourable Jennifer Whiteside, Minister - FOR DECISION

SUBJECT:

Federal COVID-19 Funding

PURPOSE:

Phase II of the Federal COVID-19 funding decisions.

BACKGROUND:

- In September 2020, it was announced that the Federal government is providing up to \$242.4 million to BC in one-time funding for the 2020/21 school year to support BC's COVID-19 response for K-12 education, to be provided in two payments of \$121.2 million.
- The Ministry of Education (EDUC) used 2019/20 student enrolment data to allocate the first payment (Phase I) to school districts and independent schools.
- Phase I was disbursed in September 2020 as a lump sum:
 - 1. \$101.1 million to school districts
 - 2. \$8.0 million to independent schools
 - \$12.1 million held in reserve for COVID-19 cost issues that emerge after September 2020.
- School districts and independent schools were directed to spend the funding in the following areas, based on local needs:
 - 1. Learning resources and supports
 - 2. Health and safety
 - 3. Transportation
 - 4. Before-and-after school childcare
- School districts were directed to consult with Indigenous organizations in their district and to consider the needs of Indigenous students when budgeting for the use of the funding.
- The \$12.1 million Phase I holdback was allocated to public and independent schools in January 2020, with the public school allocation based 80% on enrolment and 20% on COVID-19 case counts as reported to EDUC as of December 16, 2020.
- Appendix A summarizes the committed and planned use of Phase I funding by public school districts.
- EDUC is proceeding at this point based on the assumption that BC will receive the entire \$121.2M Phase II funding committed by the Federal government, as per advice from Ministry of Finance and the Intergovernmental Relations Secretariat.

DISCUSSION:

- Decisions are now required in the following areas:
 - 1. Data, information and priorities to use to allocate out the funding.
 - 2. The amount of school district and other allocations.

- 3. Directions for spending of the funding.
- Information to consider:

Indigenous Funding Requests (\$8.7M)

- EDUC has received proposals from the First Nations Education Steering Committee (FNESC) and Métis Nation BC (MNBC) for funding to address COVID-19 related educational costs in their communities (Appendix C).
- Their proposals (FNESC: \$8.2M, MNBC \$0.5M) seek to address learning loss and student health by providing:
 - Technology for remote learning
 - Educational and mental health and mental health supports
 - Space adaptations and enhanced cleaning to provide instructional space in Indigenous communities
- School districts reported spending 6.9% of the Phase I allocation on services and supports for Indigenous students. FNESC has raised concerns with the accuracy of this figure and the engagement process that school districts used and have indicated that providing some Phase II funding through FNESC would ensure it reaches the communities and students that are most in need.

Federation of Independent School Associations (FISA) (\$6.8M)

- COVID-19 funding is due to independent schools (standard schools) because of the legislated link between public and independent schools funding. It is estimated that the funding due to independent schools is 7.3% of public school funding.
- For Phase I, the 7.3% of the funding was allocated to standard schools at \$93 per student and for online schools at \$117 per student.
- Because independent online schools did not receive a portion of the Provincial restart funding (because they are not standard schools and therefore the investment in public schools did not result in an increase to their funding rates) an additional \$23 was added to the per student allocation to arrive at \$117.
- There is no need for this approach for the Phase II payment, resulting in a lower allocation overall to independent schools.
- FISA has requested that students in independent schools generate the same per student funding as students in public schools, claiming that this is health and safety related funding and thus that no distinction should be made between the systems.
- If implemented, it is estimated that this approach would almost double the funding going to Independent Schools in Phase II and lower allocations to public schools.

COVID Rapid Response Teams (\$0.9M)

- In <u>November 2020</u>, Dr. Henry outlined the idea of developing Rapid Response Teams to assess significant school exposure events and to support school districts and independent schools as they implement their COVID-19 safety plans (Appendix D). This approach has not yet been implemented due to lack of funding.
- EDUC proposes developing six regional rapid response teams at an estimated total cost of \$0.9M (one in each Health Authority and one dedicated to support independent

- schools) with each Response Team run by a single school district or FISA and would be headed by an Environmental Health specialist. The teams would be supported by representatives from unions and administrative staff.
- The teams would be trained by public health personnel to complete COVID-19 school safety assessments. Each Response Team would support the school districts within a health authority and the FISA team would support independent schools.

Consultations

- EDUC has consulted with the Funding Equity Committee (FEC), the BC Association of School Business Officials Executive (BCASBO), and the Provincial K-12 COVID-19 Steering Committee on use of the Phase II funding.
- BCASBO Executive and the Steering Committee were clear with their request that Phase II
 allocations should at least match Phase I allocations as school districts have already
 budgeted for the use of the funding, including hiring additional staff through to the end of
 the 2020/21 school year.
- FEC also provided feedback that the sooner all the funding is released the better the planning process for the funding.
- School districts will be required to report back to EDUC at the end of the school year on how they have spent their Federal funding. A similar reporting process would be established for FNESC and MNBC if their proposals are funded.
- The Phase II funding will need to be fully allocated prior to the end of the current fiscal year (March 31, 2021) as authority for EDUC to access the contingency vote to spend the funding only exists this fiscal year.
- Phase I funding was allocated with four general areas of spending specified, but with flexibility for each school district to spend funding within those four areas to address their unique local challenges related to COVID-19 (Appendix B).
- Most K-12 stakeholders (other than BCTF and FNESC) recommended this approach for Phase I and recommend it be continued for Phase II.
- The BCTF has recently indicated in the media that it believes that the needs of schools have not been addressed and that EDUC needs to direct where school districts should spend the Phase II funding, in particular on mandatory masks in all schools, fewer students in classrooms, more space between students in schools, and improved ventilation for classrooms
- There is no evidence that this is true, or that directing spending will result in a better outcome; school districts are in the best position to determine how best to meet the needs of their local communities and address their safe return to school plans.
- If a portion of funding is allocated to school districts based on case counts, BCASBO
 Executive recommends using the most recent case counts, i.e. incremental case counts since the Phase 1 allocation was calculated. School districts would be asked to use this funding to address health and safety concerns caused by new COVID cases in schools.

This may include additional masks for staff and students. School districts will be required to
prioritize any purchase of masks (or other PPE) using the Phase II Federal funding through
the provincial supply hub.

OPTIONS

| Table 1: Phase 2 Options | Phase 1 Option | | on 1 | Option 2 | Option 3 |
|--|----------------|------------|-------------|------------|----------|
| Table 1. Phase 2 Options | Funding | Funding | Change | s.13; s.17 | |
| Anticipated Phase 2 funding | \$ 121.2 M | \$ 121.2 M | \$ - M | | |
| FNESC | | \$ 8.2 M | \$ 8.2 M | | |
| Métis Nation British Columbia | | | | | |
| Rapid Response Teams | | \$ 0.9 M | \$ 0.9 M | | |
| Holdback | \$ 12.1 M | | \$ (12.1 M) | L | |
| Amount to be split between Indy and Public | \$ 109.1 M | \$ 112.1 M | \$ 3.0 M | | |
| Public Schools Allocation | \$ 101.1 M | \$ 101.1 M | \$ - M | | |
| Independent Schools | \$ 8.0 M | \$ 7.5 M | \$ (0.5) M | | |
| Remaining for Public Exposures in schools | | \$ 3.5 M | \$ 3.5 M | | |

Option 1: Fund FNESC's request, establish Rapid Response Teams. Do not establish a holdback. Match Phase I allocations to public school districts and allocate 7.3% of that funding to independent schools based on September enrolment. Allocate the remaining funding in February based on incremental COVID-19 case counts in public schools as reported to EDUC. Work with MNBC through the spring to further identify issues impacting Métis students and how school districts can support them.

Pros:

- The needs of First Nations communities are addressed, and school districts and independent schools receive additional support to deal with COVID-19 cases.
- Provides \$3.5M allocated based on the number of school exposure since reported on December 16 for the Phase I holdback allocation.
- All the Federal funding is allocated in February 2021 ensuring that there is sufficient planning for the use of the funding.

Cons

- EDUC does not have a holdback to address any emerging issues between now and the end of March 2021.
- FISA will be disappointed with not receiving the same per student amount as public schools.
- Engagement with MNBC on Métis student needs may not satisfy them.

Option 2: s.13; s.17

s.13; s.17

s.13; s.17

Cons:

s.13

Option 3: s.13; s.17 s.13; s.17

Pros: s.13; s.17

Cons: s.13; s.17

FINANCIAL IMPLICATIONS:

There are no financial implications for government if all the Federal funding is allocated out by March 31, 2021. The entire \$242.2M has been approved to be expended by EDUC and offset by the Federal funding recovery.

Option 1 is approved

RECOMMENDATION:

Approved Not Approved

MINISTRY OF EDUCATION DECISION BRIEFING NOTE

Appendix B: Guidelines for the use of the Federal Return to School Fund

Learning resources and supports

- Implementation of online and remote learning options including internet access / Wifi hubs for Indigenous communities
- Hiring additional teachers and staff, including staff to support Indigenous students remaining in their communities and for those students transitioning back into the classroom over the school year
- Health and safety training for staff
- Mental health support for staff and students

Health and safety

- Increasing staff and covering salary costs for additional hours needed to meet health and safety guidelines in schools
- Installing plexiglass and other barriers, providing outdoor learning spaces, and adapting classrooms and school buses to minimize physical contact
- Increasing hand hygiene, including additional hand sanitizing stations, installing touchless faucets or additional supplies
- Improving air systems in schools, such as HVAC and ventilation improvements, portable air scrubbers and increased utility costs
- Purchasing additional cleaning supplies such as sprayers or fogger machines for frequent cleaning and disinfecting high-touch surfaces
- Purchasing additional masks, face shields or other personal protective equipment, as needed

Transportation

- Cover additional transportation costs to accommodate new schedules
- Student and route tracking and planning technology
- Alternate bus transportation strategies

Before- and after-school child care

- Opening up more space and covering the cleaning costs for before- and after-school care so that groups can be smaller, and to ensure students can remain within their learning groups
- Additional staff to support before- and after-school care during the pandemic

Métis Nation British Columbia (MNBC) represents nearly 90,000 self-identified Métis people in BC. To date, over 20,500 Métis Citizens are provincially registered with MNBC. The Métis National Council and the Provincial Government of British Columbia, as well as the Federal Government of Canada, recognize Métis Nation British Columbia as the Governing Nation for Métis in BC.

COVID-19 SCHOOL RAPID RESPONSE TEAMS - PROPOSAL

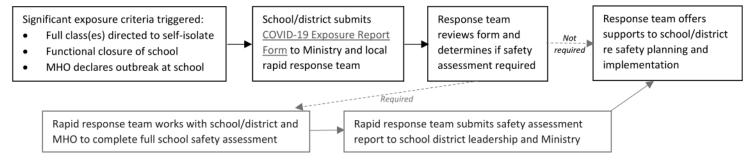

Project Details

- Establish regional K-12 rapid response teams to conduct assessments of significant school exposure events (e.g. outbreaks, closures) and support to schools and school districts regarding their COVID-19 safety plans.
- Response teams would be composed of school district and Federation of Independent School Associations (FISA) staff. Public health personnel train teams to complete COVID-19 school safety assessments.
- Each response team would support multiple school districts and independent schools.
- Response team functions would include:
 - Meeting with relevant school/district staff and health authority personnel to review timeline of events and actions taken to date in response to significant school exposure events.
 - o Reviewing school/district COVID-19 safety plans, including related policy & procedure documentation.
 - Conducting physical or virtual site inspections of school premises.
 - Reviewing school/district and health authority communications, and local medical health officer findings and recommended measures, regarding specific exposure event(s).
 - Creating school safety assessment reports with recommendations, vetting the reports with the local Medical Health Officer and sharing reports with school district leadership and Ministry of Education.
 - Connecting schools/districts with resources and information to support implementation of safety plans and safety assessment report recommendations.
- Safety assessment report findings would be used to inform improvements to local school/district safety plans as well as provincial planning and communications in response to commonly identified themes.

Funding and Resources

- Holdback portion of 2nd phase federal funding for school districts and FISA to support rapid response teams.
- Ministries of Education and Health co-develop a provincial school assessment tool for the teams to use.

School Assessment Process

Prevention vs Intervention - Division of Responsibilities

| Area | Lead | Activities/Resources |
|--------------|---------------------|--|
| Prevention | EDUC | Provincial K-12 Health and Safety Guidelines |
| | | COVID-19 School Safety Checklist |
| | | Review of school district safety plans |
| | | K-12 Health Check App |
| | | Federal COVID-19 Funding for K-12 |
| Intervention | HAs/PHO | School Exposure Notifications |
| | | Case Management and Contact Tracing |
| | EDUC | School Exposure Report Forms (significant event) |
| | K-12 response teams | School Exposure Audits (outbreaks/closures) |

COVID-19 EXPOSURE REPORT FORM

School districts and independent school authorities are required to complete and submit this form to the Ministry in any of the following circumstances:

- One or more classes have been directed by the local health authority to self-isolate;
- · Self-isolation directives from the local health authority have resulted in functional closure of the school; or
- The local Medical Health Officer has declared an outbreak at the school.

PLEASE DO NOT INCLUDE ANY PERSONAL INFORMATION RE: CONFIRMED CASES.

MINISTRY OF EDUCATION INFORMATION BRIEFING NOTE

DATE: December 21, 2020

CLIFF: 243040

PREPARED FOR: Honourable Jennifer Whiteside, Minister - **FOR INFORMATION**

SUBJECT: Delegation of Ministerial Authority under the *School Act*

PURPOSE: To formally designate Ministry of Education staff to act on behalf of

the Minister of Education, specifically regarding the approval of a board of education's use of its restricted capital funds and the signing

of Capital Project Funding Agreements.

BACKGROUND:

- Section 168 (1) (c) of the *School Act* provides that the Minister of Education may designate a member of the public service to act on their behalf.
- To assist operational efficiency, in September 2019, former-Minister Rob Fleming provided written notification to authorize the Assistant Deputy Minister, Resource Management Division, and the Executive Director, Capital Management Branch, Resource Management Division, to approve requests from boards regarding the use of their restricted capital funds and to sign Capital Project Funding Agreements (CPFA) on his behalf.
- Restricted capital funds are used by boards as a part of their approved cost share for major capital projects, approved under a Ministry of Education capital plan.
- Restricted capital funds may also be used by boards to fund lesser-valued capital projects, which are not eligible for funding under any of the Ministry's capital programs.
- The delegated authority to approve a board's use of restricted capital funds specifically relates to sections 100 (4) (b) and 156 (10) (b) of the *School Act*.
- Those sections provide the two ways in which boards of education may generate restricted capital funds, namely:
 - Proceeds from the disposal of a board-owned property; and
 - Cost-savings incurred from an approved capital plan project.
- A CPFA is a formal agreement between the Minister and a board of education that provides the terms and conditions for the undertaking of a capital project approved by Treasury Board.

DISCUSSION:

s.13; s.14

- A Minister's letter, to be held in EDUC administrative records system, has been drafted to replace the current authorization for the positions of Assistant Deputy Minister and Executive Director to act on behalf of the Minister in the two noted instances:
 - Under s. 100 (4) (b), to provide approval for a board of education's use of "money allocated to the minister", which the board has received in respect of the disposition of an asset that was the subject of a capital expenditure; and
 - Under s. 156 (10) (b), to provide approval for a board of education to expend "surplus capital funds" obtained in respect of a capital project.
- In both instances, a board may only use its restricted capital funds for capital projects.

CONCLUSION:

Attached for signature is a letter that formally delegates statutory authority to the Assistant Deputy Minister, Resource Management Division, and Executive Director, Capital Management Branch, Resource Management Division, to act on behalf of the Minister of Education.

MINISTRY OF EDUCATION INFORMATION BRIEFING NOTE

Enclosure 1: Sections of the *School Act*

Definitions and interpretation

1 (1) In this Act:

"capital plan expenditure" means a capital expenditure with respect to a project that is included in a board's capital plan bylaw, and includes a capital expenditure that was a capital plan expense under this Act, as it read immediately before this definition was enacted, and was included in a capital plan;

"capital plan project" means a project that is budgeted for as a capital plan expenditure; "capital project" means an undertaking that requires capital expenditures to be incurred.

Disposition of proceeds on alienation 100 (1) In this section:

"board's contribution" means the percentage of the capital expenditure that was a local capital expenditure or was not paid for by the minister under a former Act;

"capital expenditure" does not include an annual facility expenditure;

"minister's contribution" means the percentage of the capital expenditure that was not a board's contribution.

- (2) Subject to subsection (3), if a board receives money in respect of the disposition of any asset that was the subject of a capital expenditure, the money must be allocated between the board and the minister according to the board's contribution and the minister's contribution to the capital expenditure.
- (3) The minister may allocate the money between the minister and the board if
 - (a) the minister is not able to determine the board's contribution or the minister's contribution to the capital expenditure, or
 - (b) in the opinion of the minister, the allocation under subsection (2) is not appropriate in the circumstances.
- (4) Money allocated to the minister must be used by the board only
 - (a) for capital projects, and
 - (b) with the minister's approval.
- (5) Money allocated to the board must be used by the board only for capital projects.

Accounting practices

156 (10) A surplus in respect of a capital plan may be spent only

- (a) on capital expenditures, and
- (b) with the minister's approval.

Jurisdiction of minister

- 168 (1) The minister, subject to this Act and the regulations,
 - (a) may designate a member of the public service to act on behalf of the minister.

December 21, 2020

Ref: 243040

Reg Bawa Assistant Deputy Minister Resource Management Division

Re: Delegation of Ministerial Authority under the School Act

This letter provides the delegation of various ministerial approval authorities to designated members of the Ministry of Education, as is permitted under s. 168 (1) (c) of the *School Act*.

Firstly, in accordance with s. 168 (1) (c), I hereby delegate to the positions of Assistant Deputy Minister, Resource Management Division, and Executive Director, Capital Management Branch, Resource Management Division, the power to act on behalf of the Minister of Education under s. 100 (4) (b) of the *School Act*.

The Assistant Deputy Minister and Executive Director may therefore approve a board of education's use of money allocated to the Minister, which the board has received in respect of the disposition of an asset that was the subject of a capital expenditure. Section 100 (4) (a) of the *School Act* provides that such money allocated to the Minister must be used by the board only for capital projects.

Secondly, in accordance with s 168 (1) (c), I further delegate to the positions of Assistant Deputy Minister, Resource Management Division, and Executive Director, Capital Management Branch, Resource Management Division, the power to act on behalf of the Minister of Education under s. 156 (10) (b) of the *School Act*.

The Assistant Deputy Minister and Executive Director may therefore approve a board of education's expenditure of surplus capital funds obtained in respect of a capital project. Section 156 (10) (a) of the *School Act* provides that such funds may only be spent by the board on capital expenditures as may be required for a capital project.

Thirdly, in accordance with s. 168 (1) (c), I also delegate to the positions of Assistant Deputy Minister, Resource Management Division, and Executive Director, Capital Management Branch, Resource Management Division, the power to approve Capital Project Funding Agreements with boards of education on behalf of the Minister of Education.

.../2

These delegations will continue until expressly replaced by the Minister of Education, in writing. Sincerely,

Jennifer Whiteside Minister of Education

pc: Scott MacDonald, Deputy Minister

shirefull

Keith Godin, Assistant Deputy Minister, Governance and Analytics Division Francois Bertrand, A/Executive Director, Capital Management Branch

MINISTRY OF EDUCATION INFORMATION BRIEFING NOTE

DATE: January 15, 2021

CLIFF: 243582

PREPARED FOR: Honourable Jennifer Whiteside, Minister – FOR INFORMATION

SUBJECT: CYSN Framework Implementation Meeting

PURPOSE: Meeting with MCFD regarding the Children and Youth with Special Needs

(CYSN) framework cabinet submission on February 2, 2021

BACKGROUND:

- The Minister of Children and Family Development's Mandate letter, MCFD is directed to "Improve support for families of children with special needs, ensuring that the new Child and Youth with Special Needs (CYSN) framework is designed to serve the needs of a broad range of families."
- Both the Ministries of Children and Family Development (MCFD) and Education (EDUC) currently use a medical model that focuses on specific diagnoses related to service delivery.
- There are approximately 78,000 children and youth with disabilities or diverse abilities (special needs) in BC and more than 30,000 children/youth accesses one or more MCFD CYSN programs
- **11.8%** of BC's student population was identified as having disabilities/diverse abilities in 2019/2020, up 5.2% from 2018/2019.

MINISTRY OF EDUCATION INFORMATION BRIEFING NOTE

DATE: February 8, 2021

CLIFF: 244190

PREPARED FOR: Honourable Jennifer Whiteside, Minister – FOR INFORMATION

SUBJECT: Meeting Regarding Standardization and Regulation of Education Assistants

PURPOSE: Provide information for meeting with CUPE on February 9, 1:00 pm

BACKGROUND:

- Educational Assistants (EAs) are paraprofessional support staff who work under the guidance of the classroom teacher to support a range of teaching and non-teaching tasks (as outlined in Section 18 of the School Act).
- There were 13,404 EAs or 11,359.5 FTE EAs in BC public schools at Q1 2020/21.
- EA work is organized predominantly in part-time assignments (85%) at 0.7 FTE or more.
- The EA workforce is predominantly female (91%) and the median age is mid 40's.
- The EA average salary was \$42,560 in 2019/20, with the lowest salary being \$27,110 (North Okanagan Shuswap) and the highest being \$55,589 (Cariboo Chilcotin).
- The EA workforce has grown by nearly 42% since the start of the 2015/16 school year resulting in pressure on recruitment and retention.
- The demand for EAs is driven by student enrolment, policy shifts and attrition. EAs are unique as their demand is particularly impacted by the number of students with diverse needs and changes in classroom composition language in teacher collective agreements.
- BC doesn't have provincial credentialing requirements, standards or regulation for the EA profession.
- The lack of provincial credentialing requirements provides school districts flexibility to meet workforce demand - but raises issues about the consistency and quality of the EA workforce across school districts.
- The supply source (candidate pool) for Early Childhood Educators (ECEs) and EA's overlaps.
- The EA workforce is unionized with 69 collective agreements for support staff across the province.
- The BC Public School Employers Association (BCPSEA) and the K-12 Presidents' Council and Support Staff Unions provide local unions with a Provincial Framework Agreement which outlines high-level guidelines (i.e. term, percentage of wage increases based on the negotiating mandate, funding to support local bargaining).
- The current Provincial Framework took effect in July 2019 and will expire in June 2022.

DISCUSSION:

• In January 2021, CUPE provided the Ministry with a Position Paper regarding standardizing credentialing of EAs (see Appendix 1).

- In this paper, CUPE advocates for:
 - Provincially mandated standards for EAs with all new hires to meet these new standards by 2025.
 - Training to be offered by public post-secondary institutions through a standardized program leading to EA credentials.
 - Grandfathering current EAs and offering them the opportunity to participate in additional education, only if desired.
- CUPE is not supportive of the creation of a regulatory body as they would find it disruptive.
- CUPE's position paper articulates other considerations pertaining to EAs, including:
 - Compensation advocating for an increase.
 - Linkages between EAs and ECEs requesting to leverage EAs to support before and after school care (to increase EAs' working hours) and establishing pathways between EA and ECE credentialing programs to eventually enable laddering between the two programs.
- In 2019, the Ministry drafted a research paper on EAs and the potential implications of regulation for this profession (see Appendix 2).
- This work was initiated following several calls to actions from partners, such as the
 Education Assistants Committee (established under the 2014 Provincial Framework
 Agreement), the BC Coalition of Parent Advisory Councils (BCCPAC), the BC School Trustees
 Association (BCSTA), and the Education Assistants Standards of Practice Working Group
 (chaired by Cindy Dalglish).
- More recently, AEST contacted the Ministry to request a discussion about the linkages between ECEs and EAs, and how ECEs can currently transition to an EA role. The purpose of this meeting was to inform the development of Government's ECE retention strategy.
- The table in Appendix 3 outlines key considerations regarding the implementation of standards of practice and summarizes the positions of the Education Assistants Standards of Practice Working Group and CUPE.

OPTION 2 - APPOINT SPECIAL ADVISOR AS WELL AS DIRECTLY APPOINT AN INDIGENOUS EXPERT AS A SPECIAL ADVISORY COMMITTEE

• Allows the Minister to appoint an individual with expertise in Indigenous education and an individual with expertise in school district administration / workplace issues to review the conduct and affairs of the Board.

s.13

- The appointment of a Special Advisory Committee will result in greater remuneration costs to the Ministry than a Special Advisor appointment.
- To date, a Special Advisory Committee has not been appointed to address similar governance issues in school districts.

Copyright

Catherine McGregor, Associate Professor and Associate Dean, Graduate Programs and Research, University of Victoria

Dr. McGregor has been a successful SSHRC grant holder, completing projects in partnership with Dr. Darlene Clover (women in politics in India and Canada, 2008-2009) as well as a project that traced the impacts of community based work on pre-service teachers in training (2008-2012). She has also been funded by the Ministry of Education to complete research on quality teaching and learning initiatives in BC (2013; 2014) and to trace the impact of the Aboriginal Enhancement

Schools Network (AESN) on Aboriginal and non-Aboriginal learners and teachers (2014). Other recent research has involved exploring the impact of LGBTQQ policy measures on heteronormative learning environments and school cultures.

Areas of Focus:

- Social justice leadership, including democratic, distributed, and teacher leadership
- Civic and social justice learning, including situated- and/or place-based learning
- Women and gender in leadership
- Educational leaders as allies and advocates, particularly in marginalized or stigmatized communities
- Policy and politics in education, particularly socially just policy enactment
- Qualitative design in educational research, including narrative and discourse analysis, arts-based, participatory, feminist, critical, and post-structuralist approaches to research

Kory Wilson, Executive Director of Indigenous Initiatives and Partnerships at BCIT.

As well as a lawyer, Kwakwaka'wakw, writer, speaker and educator, Ms. Wilson has designed and taught many innovative programs and courses such as Langara College's Haida Gwaii Field School and Aboriginal Studies program and SFU's Good Governance, Moving Beyond the Indian Act course, among many others. She was instrumental in the creation of six open-sourced BC Campus Indigenization Guides and recently created and launched the BCIT

Indigenous Vision. Kory Wilson, a sought-after advocate for Reconciliation, assists BCIT in Indigenous awareness training, cultural activities, policy reviews, hiring and student support. Ms. Wilson serves on more than 10 non-profit boards and as a founding member of UBC's President's Advisory Committee, has been involved in two UBC Indigenous Strategic Plans. Page 1 of 3

SCHEDULE

- 1 Catherine McGregor of Cobble Hill, BC and Kory Wilson of Vancouver, BC are appointed as a special advisory committee to the Board of Education for School District No. 57 (Prince George) (the "Board").
- 2 The term of the appointment ends on June 1, 2021.
- 3 The special advisory committee will:
 - (a) inspect and evaluate the Board's governance practices, including the following:
 - i. capacity;
 - ii. roles and responsibilities;
 - iii. culture and practices, including approach to conflicts of interest;
 - iv. the Board's ability to assess and respond to systemic racism in school communities and to establish and maintain safe, welcoming and inclusive school communities for all students, including Indigenous students;
 - v. relationships with district management;
 - vi. relationships with education partners and local Indigenous communities;
 - vii. compliance with legal requirements;
 - viii. adherence of the Board's trustees to the Board's Policy "Trustee Code of Ethics";
 - ix. accountability and evaluation mechanisms, including for senior Board staff; and
 - (b) assist the Board in:
 - i. establishing best practices for culturally-appropriate and racially-sensitive
 Board governance;

- ii. developing and amending, as appropriate, Board policies, practices and planning documents that will assess and respond to systemic racism in District No. 57 school communities;
- iii. recruiting, hiring and evaluating senior Board staff;
- iv. understanding and carrying out effective board governance practices to improve outcomes for all students in District No. 57;
- v. any other matter arising from the evaluation described in subsection 3 (a) as required by the Minister.
- 4 The special advisory committee must submit reports to the Minister in respect of progress made in carrying out the duties set out in section 3 as follows:
 - (a) at least every two months, and
 - (b) a final report on or before June 1, 2021.
- 5 Remuneration for the special advisory committee will be paid by the Ministry of Education.

MINISTRY OF EDUCATION DECISION BRIEFING NOTE

DATE: January 15, 2021

CLIFF: 243425

PREPARED FOR: Honourable Jennifer Whiteside, Minister – FOR DECISION

SUBJECT: Public Release of 2020/21 Class Size and Composition Datasets

PURPOSE: For approval of public release of class-size and composition information

BACKGROUND:

• The finalized class size and composition data sets are used to produce the Ministry of Education's annual Class Size and Composition Data Summary, which provides data on class size and composition in the BC school system.

DISCUSSION:

BC public school system highlights in 2020/21 report:

 The average class size in 2020/21 for all students was 21.3, a decrease of 0.8% as compared to 2019/20

| Grade | Average class size | Change from last year |
|--------------|--------------------|-----------------------|
| Kindergarten | 17.4 | ↓3.3% (was 18.0) |
| Grades 1-3 | 19.2 | ↓1.5% (was 19.5) |
| Grades 4-7 | 23.2 | ↓0.4% (was 23.3) |
| Grades 8-12 | 21.4 | ↓4.5% (was 22.4) |

School Districts with the highest average class size, 2020/2021

| School District | All G | irades | Kinder | garten | en Grades 1-3 | | Grades 4-7 | | Grades 8-12 | |
|----------------------|-------|---------|--------|--------|---------------|--------|------------|--------|-------------|--------|
| School District | Avg | Change* | Avg | Change | Avg | Change | Avg | Change | Avg | Change |
| 45-West Vancouver | 24.7 | ↓0.2 | 18.0 | ↓0.4 | 20.7 | ↓0.7 | 26.1 | ↑1.2 | 25.0 | ↓0.3 |
| 59-Peace River South | 23.8 | ↑0.8 | 18.5 | ↑0.1 | 19.0 | ↑0.7 | 22.4 | ↑0.2 | 24.5 | ↑0.9 |
| 43-Coquitlam | 23.4 | ↑1.0 | 18.0 | ↑0.5 | 19.9 | ↑0.6 | 24.7 | ↑0.4 | 24.2 | ↑0.9 |
| 34-Abbotsford | 23.3 | ↑1.1 | 18.7 | ↑0.2 | 20.6 | ↑0.5 | 26.7 | ↑0.6 | 23.6 | ↑1.2 |
| 39-Vancouver | 22.9 | ↓0.3 | 17.5 | ↑0.6 | 19.8 | ↑0.4 | 25.0 | ↑0.3 | 23.1 | ↓0.4 |
| 60-Peace River North | 22.9 | ↓0.7 | 17.9 | ↑0.9 | 19.0 | ↑1.4 | 24.0 | ↑0.6 | 23.2 | ↓1.6 |

^{*} Change from last year

School Districts with the lowest average class size, 2020/2021

| School District | All G | All Grades Kind | | Kindergarten Gra | | Grades 1-3 | | Grades 4-7 | | Grades 8-12 | |
|------------------|-------|-----------------|------|------------------|------|--------------|------|-------------|------|-------------|--|
| School District | Avg | Change | Avg | Change | Avg | Change | Avg | Change | Avg | Change | |
| 10-Arrow Lakes | 13.8 | ↓1.4 | 14.2 | ↓0.1 | 15.4 | ↓0.6 | 16.0 | ↑1.5 | 13.7 | ↓1.6 | |
| 92-Nisga'a | 13.4 | ↑0.2 | 14.7 | ↓6.1 | 14.4 | ↑1.3 | 14.0 | ↑2.8 | 13.3 | ↑0.3 | |
| 50-Haida Gwaii | 13.0 | ↑1.1 | 12.9 | ↑0.3 | 15.3 | ↑1.7 | 17.2 | ↑1.2 | 12.5 | ↑0.9 | |
| 49-Central Coast | 11.2 | ↓2.5 | 14.6 | ↓1.6 | 13.0 | ↓ 5.6 | 13.7 | ↓6.3 | 10.5 | ↑0.8 | |
| 87-Stikine | 10.3 | ↓1.4 | 9.4 | ↓2.7 | 9.4 | ↓2.0 | 10.3 | ↓1.5 | 10.9 | ↓1.0 | |

- Fewer than 1% of classes have more than 30 students.
- Many classes with more than 30 students are in Fine Arts such as band and theatre and these are largely in secondary schools.
- This year, 81.6% of classes have at least one student with an Individual Education Plan (IEP).
- This year, 49% of classes have at least one English Language Learner (ELL).

Provincial Number of Classes of 30 or more students by Subject Area, 2020/21

| Subject Name | Percent of Classes > 30 students. |
|-------------------------------------|-----------------------------------|
| Applied Skills | 2.9% |
| English Language Arts | 4.4% |
| Fine Arts | 39.1% |
| Full Grade | 1.5% |
| Health and Career Ed | 0.8% |
| Information and Communications Tech | 1.7% |
| Languages | 4.4% |
| Mathematics | 7.1% |
| Other | 13.5% |
| Physical Education | 10.6% |
| Sciences | 6.9% |
| Social Studies | 6.2% |
| Special Education | 1.0% |

- The provincial approach to disseminate results will be conducted via the following two media:
 - Updated Class size visualizations on the Ministry's Student Success website (public): http://www.bced.gov.bc.ca/reporting/systemperformance/
 - Full release of Class size datasets as open data on government's Data BC Catalogue (public – academic and research – interest groups): https://catalogue.data.gov.bc.ca/dataset/bc-schools-class-size,

 $\frac{https://catalogue.data.gov.bc.ca/dataset/class-size-by-composition}{https://catalogue.data.gov.bc.ca/dataset/class-size-by-grade},\\$

CONCLUSION:

• Class sizes show a slight and consistent decrease since 2017.

OPTIONS:

- 1. Release the data
 - Pros:
 - i. Pro-active public disclosure of information
 - ii. Positive messaging around smaller class sizes
 - Cons:
 - i. Potential criticism regarding contents

s.13

FINANCIAL IMPLICTIONS:

N/A

INFORMATION TECHNOLOGY AND PRIVACY IMPLICATIONS:

N/A – standard data release, incremental update of files already released

DATE: February 9, 2021

CLIFF: 244331

PREPARED FOR: Honourable Jennifer Whiteside, Minister – FOR INFORMATION

SUBJECT: COVID-19 WorkSafe BC Claims

PURPOSE: Information on COVID-19 WorkSafe claims submitted to date in the K-12

sector, as well as applicability of "presumptive" policy.

BACKGROUND:

• The K-12 sector has 85,768 employees currently working (Appendix 1).

- All K-12 staff are covered by WorkSafe BC and have the right to refuse unsafe work as well
 as to be compensated if they acquire a work-related injury or disease.
- WorkSafe BC has made several policy shifts to adapt to the COVID-19 context. One of these
 pertains to the definition of an "occupational disease" and the list of occupational diseases
 in Schedule 1 of the Workers Compensation Act.
- WorkSafe BC lists a disease in Schedule 1 when it is satisfied by expert medical and scientific advice that there is a substantially greater incidence of the particular disease in a particular employment than there is in the general population.
- In the summer of 2020, Worksafe BC added an additional "occupational disease" criteria to cover the risk of COVID-19 transmission during the pandemic (see Appendix 2).
- Under s.137(2) of the *Workers Compensation Act*, if a worker is employed in one of the sectors or environments described in Schedule 1, it is presumed that they acquired the disease at work unless proven otherwise.
- In the COVID-19 context, education is one of the sectors considered to have a higher "risk of exposure to a source of infection significantly greater than that of the public at large" and therefore when claims are made from K-12 staff, the lens of presumption is applied.
- As of February 5th, 200 claims have been submitted by staff in the K-12 sector, with 93 of those accepted by WorksafeBC (See Appendix 3).
- There have been media stories about the number of teachers who have filed WorkSafe BC claims.
 s.13

DISCUSSION:

• As of February 5th, COVID-19 WorkSafe BC claims are overwhelmingly in the Health sector (61%). While the Education sector is second at 5.3%, it is closely followed by retail (4.3%); self-insured employees (3.7%); business/professional (3.7%); and agriculture (3.5%)

- Public school districts have the third highest claims submitted to date (189), but significantly below long-term care and acute care (each about 900). Public schools have similar claim submissions to community health support, residential services and supermarkets.
- The highest number of school-based claims submitted are by cleaning staff¹, then elementary school teachers, then teaching assistants, then secondary school teachers.
- The number of claims to date represents an extremely small amount of K-12 staff:

| Employee Type | Total | COVID Claims submitted | COVID Claims allowed | | | |
|--|--------|------------------------|------------------------|--|--|--|
| Teachers | 44,708 | 81 (0.2% of staff) | 65 (80% approval rate) | | | |
| Custodians | 3,661 | 67 (1.8% of staff) | 57 (85% approval rate) | | | |
| Education Assistants 13,404 44 (0.3% of staff) 17 (39% approval rate) | | | | | | |
| Note: data not available for other employee types as WorkSafeBC only reports claims >5 | | | | | | |

- Each WorkSafe BC claim is adjudicated on its own merits. If the conditions that govern presumption exist, then it is presumed that the infection is due to the nature of the work.
- While it is not an "automatic" acceptance of a claim from a K-12 employee, they do benefit from presumption that they acquired COVID in the work environment. This presumption can be rebutted if there is evidence to indicate that the infection was due to non-work factors (e.g. contact tracing evidence; worker was not at work during acquisition period).
- It is important to note that K-12 staff must also test positive for COVID-19 to be eligible for a claim. WorksafeBC has not approved claims for staff who have been asked to self-isolate or take a COVID-19 test but who have not tested positive.
- Actions taken to date to provide clarity on this issue include conversations between Ministry staff and the WorksafeBC representative on the K-12 Steering Committee. Worksafe BC is also confirmed to attend a future meeting of the Ministry's Sector Leadership Committee to present on this issue to Superintendents, School Trustees and School Business Officials.

CONCLUSION:

WorkSafe BC has updated their approach to claims in the COVID-19 context. Despite the K-12 sector now having a "presumption" around COVID-19 acquisition, actual claims to date represent an extremely small percentage of overall staff.

DATE: February 3, 2021

CLIFF: 244138

PREPARED FOR: Honourable Jennifer Whiteside, Minister – **FOR INFORMATION**

SUBJECT: Announcement of public school operating grants – 2021/22

PURPOSE: Background on the announcement of updated public school operating

Grants and Classroom Enhancement Fund.

BACKGROUND:

 By March 15, 2021, EDUC must announce (by legislation) the operating grant rates for the 2021/22 school year (SY) and publish the preliminary operating grant funding tables, calculated using enrolment estimates provided by school districts.

- The preliminary grants are used by school districts to develop their budgets, staffing and operational plans for the following school year and are required to submit balanced budgets to the Ministry by June 30, 2021.
- In the March 2020 operating grant announcement, \$55.2M for the years 1 and 2 of the Support Staff collective agreement was added to the operating block and allocated through the operating grant rates.
- After the ratification of the BC Teachers' Federation (BCTF) agreement in May 2020, \$151.3M was allocated to school districts through a special purpose grant to cover the cost of year 1 and 2 of the agreement.
- This year, EDUC will have approximately \$250M of labour settlement funding that should be allocated through the operating grant; approximately \$228M to cover 3 years of the BCTF settlement and \$23 million for year 3 Support Staff settlement.
- EDUC also needs to announce preliminary Classroom Enhancement Fund (CEF) funding for next school year; Last year EDUC announced a preliminary amount of 90% of the current CEF staffing funding, full overhead funding, and no remedy funding until October when actual remedies are known.

DISCUSSION:

- There are three key decisions that staff with seek prior to the March 15 operating grant announcement:
 - 1. Do we add labour settlement funding to the operating block or remain as a special purpose grant?
 - 2. If yes to 1, how to allocate labour settlement funding across the operating grant rates?
 - 3. Do we continue approach to announce 90% of the Classroom Enhancement Fund staffing component.

CONCLUSION:

The announcement of operating grants for SY 2021/22 is required, by legislation, by March 15, 2021, to enable school districts to budget for that year.

Staff are working closely with Treasury Board Staff to ensure they understand the importance of announcing operating grants by March 15 despite the late government budget announcement this year

EDUC is seeking input from Treasury Board Staff on the approach to labour settlement funding for SY 2021/22 so that more detailed proposals may be presented.

PREPARED FOR: Honourable Jennifer Whiteside, Minister – FOR INFORMATION

SUBJECT: First Nations funding from Federal COVID-19 transfer

PURPOSE: To outline how the Federal COVID-19 funding being provided to the First

Nations Education Steering Committee will be used and what the oversight

and reporting requirements are.

BACKGROUND:

- In February 2021, Government announced the allocation of \$121.1M of Federal COVID-19 funding. \$8.2M of this funding is to be provided to the First Nations Education Steering Committee (FNESC) to implement their proposal to assist First Nations in BC as they make every effort possible to promote continued learning opportunities and address extraordinary COVID-related student needs, while protecting the health, safety, and wellbeing of their citizens during the pandemic (Appendix A).
- To implement this transfer of funds the Ministry of Education (EDUC) will develop and sign a
 "Transfer Under Agreement" (TUA) with FNESC which will contain appropriate reporting
 and oversight metrics to comply with government policies regarding the transfer of funds to
 non-government entities.
- Ministry staff will be meeting with FNESC staff in the next few weeks to discuss the oversight and reporting that will be detailed in the TUA.

DISCUSSION:

- The Ministry has a longstanding working with relationship with FNESC as evidenced through our BC Tripartite Education Agreement (BCTEA).
- Through BCTEA, FNESC and the Ministry work together to monitor joint transportation plan funding and reporting to School Districts and First Nations in the amount of approximately \$5.2M (2019/20) and \$3.8M for 2020/21. The working relationships and governance structures provide the foundation for a strong and coordinated approach.
- FNESC has partnered with the Ministry on previous projects and has always met the reporting requirements.
- The TUA will specify three key areas:
 - The use of the funding.
 - Timing of payments.
 - o Reporting.

Funding Use

- FNESC's proposal fits within the guidelines specified in the Federal 'Term Sheet' which
 includes "Support the needs of students and staff, including equipment for adapted learning
 environments, to meet public health and safety measures." Specific measures are;
 - Space / adaptations to facilities to accommodate students who need a place for learning while addressing social distancing requirements
 - Additional hand washing sites / safety equipment
 - Signage for health and safety requirements
 - Plexiglass barriers to make facilities used to accommodate students safe
 - Additional cleaning supplies and sanitizers
 - Personal protective equipment for staff and students
 - Teaching / tutoring / supervisory staff for students while they are learning in the community
 - Supplies, especially of "high touch" materials, such as art supplies, learning materials, etc.
 - o Transportation for staff and students, technology equipment, connectivity, etc.
- Given the increased risks of exposure to COVID-19 by First Nations members, and the
 increasing numbers of First Nations who are self-isolating to protect their members, the
 proposal and the proposed uses for the funding meet the Federal requirements.

Funding Flow

- The Ministry proposes flowing the funding in two phases:
 - \$1.0M on signing of the agreement
 - \$7.2M after the first reporting deadline is met (March 15, 2021)
- The Ministry will also stipulate that any funding that is not allocated to First Nations by April 30, 2021 must be returned to the Ministry so it can be allocated to public school districts.
- Any funding that has not been spent my June 30, 2021 will be recovered from FNESC by the Ministry.

Reporting and Oversight

The Ministry suggests the following reporting and oversight requirements.

| Date | Reporting Requirement | Impact |
|-------------|---|--|
| March 15 | Funding allocations by First Nation the number of First Nations students supported, both on and off reserve. A provincial level summary of the planned expenditures for the Funding using the same format as has been required of public school districts. | If this requirement is not met then the remaining \$7.2M of Federal funding will not flow to FNESC |
| April | Confirmation by FNESC to the ADM, Resource Management Division, that all of the \$8.2M of Federal Funding has been disbursed to First Nations in accordance with the March 15 reporting. | If this requirement is not met then the funding that has not been disbursed to First Nations will be recovered from FNESC |
| 30 | A summary of the engagement between each First Nation and their local public school district to ensure alignment of supports and that there is no overlap or duplication. | by EDUC and allocated to public school districts |

| | Reporting of actual funding expenditures by First Nation with an indication of the number of First Nations students supported, both on and off reserve. | Funding that is reported as unspent will be recovered by EDUC and may need to be |
|---------|---|--|
| July 31 | A provincial level summary of the actual expenditures for the Funding using the same format as has been required of public school districts | returned to the Federal government. |

- These requirements ensure that there is sufficient planning and reporting on the use of the funding, and that this broadly aligns with the requirements of public school districts.
- In addition, FNESC will be asked to update the Funding Equity Committee at regular intervals on the allocation mechanism and how the funding has been allocated and spent.
- In addition FNESC will need to report on how First Nations have engaged with school
 districts on the spending plans and supports provided for First Nations students, and how
 these supports align with supports that school districts have in place to ensure that there is
 no overlap or duplication.

CONCLUSION:

EDUC believes that these reporting and oversight requirements match, or exceed, those required of public school districts and are in general alignment with Government requirements for funding provided under a TUA to a non-government entity.

Appendix A: Proposal from the First Nations Education Steering Committee to the BC Ministry of Education for COVID-Related Supports for First Nations in BC

Program ADM/Branch: Reg Bawa / Resource Management Division

Program Contact (for content): Jonathan Foweraker, Funding and Financial Accountability Branch

Drafter: Jonathan Foweraker Date: February 10, 2021

Appendix A

Proposal from the First Nations Education Steering Committee to the BC Ministry of Education for COVID-Related Supports for First Nations in BC

Proposal Background

The BC First Nations Education Steering Committee (FNESC) is pleased to submit this proposal to the BC Ministry of Education requesting funding to assist First Nations in BC in responding to COVID-related education needs, recognizing that First Nations, as rights holders and a distinct level of government, are undertaking a range of actions to protect their communities and attend to the urgent needs of their students.

FNESC appreciates that, building on the Province's \$45.6 million investment to support a safe restart for BC's schools, the federal government provided \$242.4 million in one-time funding for the public education system in the 2020-21 school year. We are aware that the Ministry of Education initially allocated \$101.1 million of that funding to school districts and \$8.0 million to independent schools, and the Ministry reserved \$12.1 million for emerging COVID-19 related issues between September and December 2020.

As the pandemic-related educational needs of First Nation students have yet to be fully met following the Ministry's initial allocation, and recognizing that growing cases of COVID-19 in this province are expanding First Nations' unique educational needs substantially, we are now requesting a portion of the \$12.1 million holdback from the federal COVID-19 funding – consistent with previous communications between the Ministry of Education and FNESC representatives.

We understand that our proposal should align with the guidelines of the federal government for this funding – i.e. that the funding must:

- help the education sector adapt to the COVID-19 environment, including by taking measures to reduce the spread of COVID-19 among students and staff; and
- support the needs of students and staff, including equipment for adapted learning environments, to meet public health and safety measures.

Our proposed use of the requested funding, as outlined below, is entirely consistent with those requirements, recognizing that First Nations themselves are a key component of the education sector. Many First Nations are currently implementing pro-active, comprehensive measures to protect the health and well-being of their students and other citizens – including efforts to reduce the spread of COVID-19 by implementing alternative education delivery options – although they are not receiving

adequate financial assistance for their efforts. Other First Nations are struggling to find feasible and effective options for their students while facing critical resource constraints and far too limited funding.

Accordingly, all First Nations in BC have significant financial needs related to their efforts to effectively address the COVID-19 situation and its impact on their students. In particular, given the rising numbers of cases, an increasing number of First Nations now taking emergency precautions and placing restrictions on their citizens travelling in and out of their communities. Increasing the complexity and complications of effectively responding to COVID-related educational challenges is the fluid landscape resulting from the pandemic itself; circumstances evolve daily, as new exposures and transmissions mean First Nations must adapt to changing health risks and evolving responses from students, families, and other citizens. As such, First Nations continue to explore and implement a range of learning options in response to student and family needs and perspectives during these exceptionally difficult times.

Outlining First Nations' COVID-Related Educational Needs

In order to keep all of their citizens safe and secure, many First Nations are providing direct, community-based supports and educational services to many or all of their students this school year as they strive to provide a reasonable alternative to students attending in-person classes outside of their communities, attempting to prevent the spread of COVID-19 to their vulnerable citizens. Other First Nations, unfortunately, are unable to take alternative approaches, given a lack of sufficient funding. This is a particularly acute issue for First Nations given the tragic history of First Nations in regard to past pandemics.

In providing education programs and services themselves, First Nations are incurring significant costs related to, among other things, hiring teachers and tutors to support learning, setting up and cleaning spaces for students to receive supervision and instruction, providing personal protective equipment for students and staff who will be working in proximity, purchasing safety materials and equipment that might include plexiglass barriers and added hand-washing stations, and accessing technology and learning resources. First Nations also are focusing considerable attention on addressing the serious mental-health needs of their students during these difficult and stressful times, which is a concern regardless of where students are now attending school.

The costs of delivering services locally are now being directly borne by First Nations; the costs are additional to those school districts might be incurring, and they are being paid primarily by First Nations themselves with limited or no financial contributions from their neighbouring districts – even though the students would normally be attending public schools.

In order to support an evidence-based proposal for the resources needed to offset this financial burden, data gathered through a survey of all First Nations in BC has been used to estimate First Nations' actual funding needs. As shown below, the survey information has been analyzed to show the percentage of survey respondents who identified specific funding priorities as an area of need for their First Nation, as well as the average amount of funding respondents indicated is required to address each area of need.

| | % of respondents identified this as an area of need | Average needed funding amount identified by respondents | Total Estimated Need |
|---|---|---|----------------------------|
| 203 First Nations in BC | | | |
| Space / adaptations to facilities to accommodate students who need a place for learning while addressing social distancing requirements | 46% | \$ 15,000 | \$ 1,400,700 |
| Additional hand washing sites / safety equipment | 44% | \$ 800 | \$ 71,456 |
| Signage for health and safety requirements | 48% | \$ 450 | \$ 43,848 |
| Plexiglass barriers to make facilities used to accommodate students safe | 33% | \$ 1,300 | \$ 87,087 |
| Additional cleaning supplies and sanitizers | 58% | \$ 1,500 | \$ 176,610 |
| Personal protective equipment for staff and students | 58% | \$ 1,400 | \$ 164,836 |
| Teaching / tutoring / supervisory staff for students while they are learning in the community | 61% | \$ 44,000 | \$ 5,448,520 |
| Supplies, especially of "high touch" materials, such as art supplies, learning materials, etc. | 60% | \$ 2,100 | \$ 255,780 |
| Other: transportation for staff and students, technology equipment, connectivity, etc. | 47% | \$ 6,000 | \$ 572,460 |
| | | Total Needed | \$ 8,221,297 |
| | That is appr | oximately 3% of S | |

Proposed Use of the Funding

- FNESC will use the funding accessed through this proposal to provide grants to all First Nations in BC that they can use to provide continued supports to their students.
- The funding will be distributed using an equitable funding formula, reflecting direction from the First Nations Leadership Council that all COVID-related educational resources should be shared fairly amongst all First Nations, reflecting the universal need for financial assistance.
- First Nations will be required to use the funding provided through this proposal to address COVID-related issues and priorities, including:
 - the provision of instruction, supervision, and learning supports for students who would normally attend public schools (including, where appropriate and possible, individualized supports for students with disabilities and diverse abilities);

- o the provision of much-needed mental health supports for students;
- the purchase of safety equipment and materials, as well as high touch supplies needed for students;
- space and transportation alterations to promote access while accommodating safe distancing practices;
- the purchase and distribution of technology equipment for community-based and, if relevant, home-based learning options; and
- o other directly related activities.
- FNESC will implement thorough accountability practices in allocating the resources accessed
 through this proposal, requiring First Nations to submit clear letters of intent that describe intended
 uses of the funding in order to access their grants, and requiring signed contribution agreements
 that will outline the obligations of all funding recipients.

FNESC respectfully requests \$8,221,297 (i.e. approximately 3% of the \$242 million initially provided), as calculated above, to address these greatly needed supports, to assist First Nations in BC as they make every effort possible to promote continued learning opportunities and address extraordinary COVID-related student needs, while protecting the health, safety, and well-being of their citizens during the pandemic.

DATE: February 16, 2021

CLIFF: 243894

PREPARED FOR: Honourable Jennifer Whiteside, Minister – **FOR INFORMATION**

SUBJECT: Education Assistants

PURPOSE: Provide information in advance of advocate meeting regarding

standardization and regulation of education assistants.

BACKGROUND:

• Educational Assistants (EAs) are paraprofessional support staff who work under the guidance of the classroom teacher to support a range of teaching and non-teaching tasks (as outlined in Section 18 of the School Act).

- There were 13,404 EAs or 11,359.5 FTE EAs in BC public schools at Q1 2020/21.
- EA work is organized predominantly in part-time assignments (85%) at 0.7 FTE or more.
- The EA workforce is predominantly female (91%) and the median age is mid 40's.
- The EA average salary was \$42,560 in 2019/20, with the lowest salary being \$27,110 (North Okanagan Shuswap) and the highest being \$55,589 (Cariboo Chilcotin).
- The EA workforce has grown by nearly 42% since the start of the 2015/16 school year resulting in pressure on recruitment and retention.
- The demand for EAs is driven by student enrolment, policy shifts and attrition. EAs are unique as their demand is particularly impacted by the number of students with diverse needs and changes in classroom composition language in teacher collective agreements.
- BC doesn't have provincial credentialing requirements, standards or regulation for the EA profession.
- The lack of provincial credentialing requirements provides school districts flexibility to meet workforce demand - but raises issues about the consistency and quality of the EA workforce across school districts.
- The supply source (candidate pool) for Early Childhood Educators (ECEs) and EA's overlaps.
- The EA workforce is unionized with 69 collective agreements for support staff across the province.
- The BC Public School Employers Association (BCPSEA) and the K-12 Presidents' Council and Support Staff Unions provide local unions with a Provincial Framework Agreement which outlines high-level guidelines (i.e. term, percentage of wage increases based on the negotiating mandate, funding to support local bargaining).
- The current Provincial Framework took effect in July 2019 and will expire in June 2022.

DISCUSSION:

• Cindy Dalglish is the Chair of the Education Assistants Standards of Practice Working Group (EASPWG), which was established in fall 2020 (http://eastandardsbc.ca).

- Ms. Dalglish is also an instructor with a private institution that provides EA certificates and a member of the Surrey Parent Advisory Committee.
- EASPWG's purpose is to advocate for the implementation of provincially mandated standards of practice for EAs.
- Ms. Dalglish has been advocating for standards of practice for EAs for years. She met with Minister Fleming in February 2019 to present a report authored by herself and Tracy Humphreys, founder and chair of BCEdAccess, and has since been in regular contact with Ministry staff.
- In 2019, the Ministry drafted a research paper on EAs and the potential implications of regulation for this profession (see Appendix).
- This work was initiated following several calls to actions from partners, such as the Education Assistants Committee (established under the 2014 Provincial Framework Agreement), the BC Coalition of Parent Advisory Councils (BCCPAC), the B.C. School Trustees Association (BCSTA), as well as Ms. Dalglish.
- In January 2021, CUPE provided the Ministry with a Position Paper regarding standardizing credentialing of EAs (see Appendix).
- More recently, AEST contacted the Ministry to request a discussion about the linkages between ECEs and EAs, and how ECEs can currently transition to an EA role. (A meeting between MCFC and EDUC staff is scheduled on February 3).
- The table in Attachment 2 outlines key considerations regarding the implementation of standards of practice and summarizes the positions of the Education Assistants Standards of Practice Working Group and CUPE.

PREPARED FOR: Honourable John Horgan, Premier – **FOR INFORMATION**

SUBJECT: Capital Funding Program by Fiscal Year in Chilliwack SD33

PURPOSE: Premier Meeting with Chilliwack Mayor and Council

BACKGROUND:

 Breakdown of capital investment by program provided to School District 33 – Chilliwack fiscal 2018/19 through 2020/21.

DISCUSSION:

- Fiscal 2018/19 provided approval for 8 capital investments with a total provincial investment of \$57.7M (Appendix 1)
- Fiscal 2019/20 provided approval for 9 capital investments with a total provincial investment of \$32.0M (Appendix 2)
- Fiscal 2020/21 provided approval for 7 capital investments with a total provincial investment of \$29.2M (Appendix 3)
- Appendix 4 details SD33 2021/22 Capital Plan request priorities.

s.12

CONCLUSION:

Chilliwack has received 24 capital investments over three fiscal years with a total provincial investment of \$118.9M.

PREPARED FOR: Honourable Jennifer Whiteside, Minister – FOR INFORMATION

SUBJECT: Meeting with Lheidli T'enneh Nation and McLeod Lake Indian Band

PURPOSE: To provide the Minister with background information in preparation for the

meeting with the Chiefs of the Lheidli T'enneh Nation and McLeod Lake

Indian Band scheduled for February 24, 2021, 2:30-3:00 p.m.

BACKGROUND:

 On January 12, 2021, the Minister met with Dayi Clayton Pountney, Lheidli T'enneh Nation, and Chief Harley Chingee, McLeod Lake Indian Band, to discuss a proposal to add two Indigenous trustees to the Board of School District No. 57 (Prince George).

MINISTRY OF EDUCATION DECISION BRIEFING NOTE

DATE: February 17, 2021

CLIFF: 225541

PREPARED FOR: Scott MacDonald, Deputy Minister – FOR DECISION

SUBJECT: Special Education (Data Reporting on Inclusive Education)

PURPOSE: Performance reporting in the Ministry of Education's 12 special education

categories

BACKGROUND:

"Students with special needs" are identified in 12 special education categories.

- Only 5 of the 12 special education categories are included in publicly available performance reports (Foundation Skills Assessments, Six Year Completion and Graduation Rates etc.). All 12 categories are included in most internal reports and data sets.
- The 5 categories included in the publicly available performance reports are clustered together and are referred to as the "performance-oriented reporting groups".

Highlighted categories are Included in Publicly available Performance Reports:

- A Physically Dependent
- **B** Deafblind
- C Moderate to Profound Intellectual Disability
- D Physical Disability or Chronic Health Impairment
- **E** Visual Impairment
- F Deaf or Hard of Hearing
- G Autism Spectrum Disorder
- H Intensive Behaviour Interventions / Serious Mental Illness
- K Mild Intellectual Disability
- Q Learning Disability
- R Moderate Behaviour Support / Mental Illness
- P Gifted

DISCUSSION:

- Inclusive education practices allow each learner to reach their potential and acquire the knowledge, skills and abilities needed to contribute to a healthy society and a prosperous and sustainable economy.
- All students have the right to equitable access to education, including being provided with
 the supports needed access the provincial curriculum and achieve equitable outcomes. The
 Ministry has a responsibility to monitor and report out on the educational achievements of
 all students.
- Historically, only students in five of the "Special Needs" categories were included on
 performance reports as it was believed they were the subset more likely to graduate with a

- Dogwood. However, Ministry data shows that students in all 12 "Special Needs" categories are earning Dogwood Certificates (Appendix 1).
- When comparing public school graduation rates of all 12 categories over a seventeen year average, students from the non-reported categories D (physical impairment) and G (Autism Spectrum) have better graduation rates (at 47 and 43 percent, respectively) than those in the reported category of H (Intensive Behavior) which has an average graduation rate of 37 percent (Appendix 2).
- Concerns with the current reporting practices include confusion among school districts and
 the public on which groups of students are included in specific reports; a lack of alignment
 with inclusive education by excluding specific student groups and reinforcement of an
 inaccurate perception that students with some disabilities/diverse abilities are not expected
 to graduate.
- The Ministry of Education commonly receives concerns from stakeholders, BC Council of Administrators of Inclusive Support in Education (BC CAISE), parents, advocacy groups, regarding the omission of groups of students in reporting practices. In 2017, BC CAISE issued a letter that fully endorsed the reporting of all students (Appendix 4).
- Provincial level public school completion rates will decrease slightly if all students are included in performance reports (Appendix 3). Some school districts show an increase in graduation rates while the majority (43) show a decrease

OPTIONS:

Option 1 Include all 12 categories of designated students in the "Students with Special Needs" subpopulation in all Ministry reports

Pros

- Reports will include all students and reflect a philosophy of inclusion in the 21st Century
- Reports will align with the Ministry's policy position- all students can learn and succeed
- Consistency and clarity on student included in data sets/sub-populations
- Responsive to the recommendations of BC CAISE, stakeholders, parents and advocacy groups

Cons

- The Ministry will need to alter the way reports are created
- The Ministry's reporting results will vary from previously reported performance reports
- Completion rate will go down as a result of the change

Option 2:^{s.13}

s.13

FINANCIAL IMPLICATIONS:

There are no financial implications associated with reporting on all students.

INFORMATION TECHNOLOGY AND PRIVACY IMPLICATIONS:

Reports generated from Governance and Analytics will require field and system updates to include all 12 categories. Staff hours will need to be dedicated to making this change within EAO systems as updated reports are run and new reports developed, but no external resources will be required for these IT changes.

RECOMMENDATION:

B.C. Council of Administrators of Special Education

Attention: Jennifer McCrea, Assistant Deputy Minister, Learning Division,

As a professional organization dedicated to improving the educational success of all children, British Columbia Council of Administrators of Special Education (BCCASE) is proud to work in partnership with the Ministry of Education. Working in partnership helps to advance the BC school system by improving the outcomes for students with diverse abilities (special needs) while enhancing education success for all learners.

Our recent collaboration with the Ministry of Education to provide direction and support the development of the draft Inclusive Education Strategic Plan was the beginning of a renewed relationship with the Learning Division.

Further meetings with you and Keith Godin, ADM of Governance and Analytics, to discuss the non-representation of specific categories of students on public facing performance reports, led to many additional conversations within our organization and school districts. Our organization agrees that reporting on select categories of students as does not present an accurate picture of BC students.

BC CASE endorses the proposed change to report on all 12 categories of students with diverse abilities (special needs) in the Province. Data on all 12 categories of students will better situate educators to provide learning and opportunities to enable students to achieve the goals of their educational programs.

As administrators of inclusive education across the Province, we have a strong interest in understanding how all students, including those with diverse abilities, are progressing on their educational journeys.

Thank you for the opportunity to work together.

Sincerel

President BCCASE

MINISTRY OF EDUCATION INFORMATION BRIEFING NOTE

DATE: February 25, 2021

CLIFF: 224751

PREPARED FOR: Honourable Jennifer Whiteside, Minister – FOR INFORMATION

SUBJECT: Indigenous education programs (Nisaika Kum'Tuks and Tsawalk) in School

District 68 (Nanaimo-Ladysmith)

PURPOSE: To provide an overview of the issues

BACKGROUND:

- There are two Indigenous education programs (Nisaika Kum'Tuks and Tsawalk) that Vancouver Island West (SD 84) has operated since 2014, within the Nanaimo-Ladysmith School District (SD 68).
- The two programs were created in collaboration by the Nanaimo Aboriginal Centre, the Mid-Island Metis Nation, the Boys and Girls Club of Central Vancouver Island and SD 84.
- As of 2020/21 school year, the Nisaika Kum'tuks program serves 34 students and the Tsawalk Learning Centre serves 57 students.
- It is unusual for a board to operate an educational program in another school district. The School Act contemplates that if a board decides to acquire or hold land in another district, that it would seek consent from that other district's board. SD84 did not seek approval, nor did SD68 condone the arrangement.
- The Ministry has worked with the two boards since 2016, to attempt to mediate an agreement between the two boards about the governance of the two programs.
- In August 2018, the Minister appointed Piet Langstraat as special advisor to SD 68, for a term expiring on February 28, 2019.
- Mr. Langstraat was appointed as special advisor to both SD 68 and SD 84 to June 30, 2019.
- On February 11, 2019, the Minister appointed Mr. Langstraat as a special advisor to both SD68 and SD84 to assist them in completing a Memorandum of Agreement (MOA). The aim of the MOA was to have SD68 assume the operation of the Nisaika Kum'tuks and Tsawalk educational programs from SD 84 in a manner that ensures continuity of the educational programs and a seamless transition for students.

- To address this outstanding issue, the Minister of Education issued a letter on February 10, 2020, requiring the Board Chair of SD 84 to complete a process to allow the transition of the educational programs from SD 84 to SD 68.
- On May 28, 2020, both school districts signed a Memorandum of Understanding (MOU) which confirms:
 - responsibility for the programs will transfer from SD 84 to SD 68 effective June 30,
 2021

- community partners, staff, parents, and students will be fully consulted on any changes to future programming
- reasonable efforts will be made to ensure the current program staff may remain with the program
- SD 84 will provide notice of termination of any contracts related to programs by June 30, 2021, including employment, consulting, services, and leases
- SD 84 will provide SD 68 any information related to contracts that can't be terminated by June 30, 2021
- SD 84 and SD 68 will engage a transition consultant for 1 year.

The Mid-Island Metis Nation issued a press release on February 22, 2021. The News Release states:

"The British Columbia (BC) Ministry of Education and the Nanaimo-Lady Smith School District 68 are closing two urban Indigenous Learning Centres, the Nisaika Kum'tuks Learning Centre which has 33 elementary school Learners, and the Tsawalk Learning Centre which has 60 secondary school Learners, but had 99 Learners last year before the cuts began. The closures will be effective June 30, 2021. Neither the Ministry of Education nor School District 68 have revealed why they are closing the Learnings Centres, nor why enrollment was cut by 40% at Tsawalk Learning Centre this school year. The Ministry of Education advised the Indigenous Partners it expects to meet with them this week to discuss their Independent School application to prevent the forced assimilation of their Indigenous Learners back into the public education system that has failed them."
