Power Ex in California

s.21

L California is a big import market but also a monopsony buyer.

L FERC has been letting them restrict power sales through California on a temporary basis.

L some counter-pressure from Arizona and Nevada
~~expect they will go~~

L Highest-priced markets have been in the Northwest.

L How could gov't help?

L the US ^{Govt} v. promote more transmission builds (e.g. Infrastructure bills)
which would help in local

Washington State is implementing
cap-and-trade by 2023.
