Understood – I wonder if it would be worthwhile to ask Keith Baldrey to clarify which press release he is referring to.

Sorry if I wasn't clear George, I didn't find a press release related to this one, is what I meant to say.

Hi Meghan,

I haven't heard anything. I've left voicemail messages with Ben Wither and Eric Strom of Newcrest to request a quick call back. I'll let you know if I hear anything. Do you have a copy of the Tahltan press release? I can't find anything online.

George

Sorry folks, I'm in interviews right now, but see below. Any intel? I checked Tahltan press releases, saw nothing.
