Hi Ryan,

I haven't had the opportunity to meet you yet, however, I understand that you are involved with the LNG files. Our group has had meetings with Dave, Simon, Garth and Geoff so they are all familiar with our project. I would be happy to have a conversation with you to provide further background.

Also, I have requested a meeting with Minister Mungall for mid-April. Dave suggested that Simon &/Ryan attend the meeting as well. I haven't heard back from the Minister's office yet. I'll let you know the status and try to coordinate dates when I hear back from them. Thanks.

Donna

Subject: EAO/EMPR meeting with LGN consortium

Donna,

Thanks for the call this morning.

Scott, the LNG Consortium, which has been working primarily with Nisga'a would like to meet soon with EAO to discuss project development timelines. We've discussed project development issues very generally, the Nasoga challenges and the need for early EA planning. I've recommended they meet with you and your staff, and Donna would like to meet when you're available. I can join you folks and would suggest next week some time. Perhaps you could let Donna know who could look at scheduling on your end.

Analise can help coordinate time options on my end.

Thanks,

Simon Coley

Hi Don,

Apologies - was off at the tail end of last week and still getting caught up. Attached is a draft NDA along with a draft communications protocol for your consideration and execution. I've filled in the places that I could, and have highlighted those and any other part that would require your input. Any questions or concerns please let me know.

Also during our conversation you had enquired about our Federal counterpart who is responsible for ITMOs. Her name is Catherine Stewart - Assistant Deputy Minister for the International Affairs Branch, Ministry of Environment and Climate Change Canada.

Best,
Mark

Correct. Attached is s BN from last year that provides a bit of history/context on Ksi Lisims LNG.

Spoke with Bartek recently about the meeting. He sees it as an opportunity for introductions (we've had very little involvement with the project to date), and to highlight the main challenge being faced by the project at the moment – electrification. s.13

s.13

Was thinking of connecting with BC Hydro prior to the meeting (and would be happy to have you join that call if interested) – and was wondering if we should have Les involved during future calls?

Subject: Couple of questions

Morning,

Couple quick questions for you this weekend.

1. Last year we helped Fazil to organize an EMLI focused China relations event for IGRS. IGRS was hosting a series of such events and had asked specific Ministries (EMLI, AGRI, AVED & JERI) to host focused events. Following the event we now have some summary notes which IGRS intend to circulate amongst Deputy Ministers (and will also be used as an appendix to a briefing note they will do for the PO).

Q: Would you like to have a look at the notes prior to them going to our DMO for approval, or be copied on the email to Fazil and Monica?

2. We're making good progress on the one-pagers to support the LNG focused cab sub (attached is the draft project summary). s.13; s.16
s.13; s.16

Q: Should we refine the current one-pager on FN relations, or create a separate more encompassing one?

Sorry to pest over the weekend with this

Thanks!
Mark

MINISTRY OF ENERGY, MINES AND LOW CARBON INNOVATION

BRIEFING NOTE FOR INFORMATION

PREPARED FOR: Honourable Bruce Ralston, Minister of Energy, Mines and
Low Carbon Innovation

ISSUE: Ksi Lisims LNG

BACKGROUND:

Rockies LNG Partners is a group of western Canada natural gas producers collaborating to develop an LNG export project on the north coast of British Columbia (BC). They have been exploring potential sites around the Prince Rupert area and working collaboratively with the Nisga'a Nation and Western LNG, a Texas-based LNG developer.

Ksi Lisims LNG is a partnership between the Nisga'a, Rockies LNG Partners and Western LNG. The project envisions a floating liquefaction facility capable of exporting upwards of 12 million tonnes per annum of LNG near the village of Gingolx in the Prince Rupert area. The project aims to be a net-zero LNG facility and could employ as many as 4,000 people during construction. If sanctioned, production could start by late 2026 or 2027. The project has been negotiating for pipeline access with both TC Energy on the Prince Rupert Gas Transmission Project (PRGT) and Enbridge on the Westcoast Connector Gas Transmission Project (WCGT). Both pipeline projects face seeing their Environmental Assessment Certificates (EAC) expire if the projects are not substantially started by November 25, 2024. Ksi Lisims LNG faces a challenging and tight timeline to develop their project to secure the means to transport natural gas feedstock from one of these pipeline projects.

TC Energy owns PRGT, a proposed 900-kilometre natural gas pipeline that would run from Hudson's Hope to Lelu Island, near Prince Rupert. The pipeline route would include both terrestrial and marine sections and would have an initial capacity of 2 billion cubic feet per day (Bcf/d) (expandable to 3.6 Bcf/d). PRGT has an Environmental Assessment Certificate (EAC) from the BC Environmental Assessment Office (EAO) and all primary pipeline permits from the BC Oil and Gas Commission (OGC). PRGT must be substantially started by November 25, 2024, or the EAC will expire.

Enbridge owns the WCGT, a proposed 850-kilometre natural gas pipeline from the Cypress area in northeast BC to Ridley Island, near Prince Rupert. The pipeline route would include both terrestrial and marine sections and would have an initial capacity of 2.2 Bcf/d (expandable up to approximately 8.4 Bcf/d). WCGT's EAC is set to expire on November 25, 2024.

DISCUSSION:

On March 12 of this year, Nisga'a Nation president Eva Clayton said it is undertaking a "collaborative endeavours" process with Western LNG and Rockies LNG on the Ksi Lisims

LNG project. Clayton has noted that attracting an economic base to the Nass Valley has been a major priority for the Nisga'a Nation. Ksi Lisims LNG has spent the last several months collaborating, preparing documents for regulatory processes and just recently started community outreach. To date, Ksi Lisims LNG has not formally met with Ministry of Energy, Mines and Low Carbon Innovation (EMLI) staff to discuss the project.

Discussions between the Nisga'a and Rockies LNG Partners are ongoing. The project has yet to apply for an export license from the Canada Energy Regulator and has just recently submitted initial paperwork to provincial and federal environmental assessment agencies. The project has been negotiating with both TC Energy and Enbridge on pipeline access to transport feedstock to the proposed facility.

Ksi Lisims LNG External Relations Manager, Paul Anderson, spoke to the Terrace City Council on June 29 regarding the project, outlining the timelines and environmental approvals required to see the project reach a positive Final Investment Decision (FID) by late 2023. The Ksi Lisims LNG project faces a tight timeline for its environmental approvals and development timelines, as both possible feedstock pipelines, Enbridge's WCGT and TC Energy's PRGT, face having their EACs expire if they do not meet the substantially started requirement in November 2024. This implies that financial commitments required to proceed with Ksi Lisims must be in place by the end of 2023.

On July 5 Ksi Lisims LNG filed initial paperwork seeking environmental assessment with both the provincial and federal environmental assessment agencies. In the Initial Project Description submitted to the EAO, Ksi Lisims LNG states the proponents are designing the project to be one of the lowest carbon emitting LNG export facilities in the world and targets to be Net Zero within 3 years of operating. This will be achieved by connecting to the BC Hydro power grid for its power source in combination with a monitoring and measurement program, design elements to reduce emissions, purchase of carbon offsets and the potential for carbon capture and sequestration.

After several multi-billion dollar LNG export projects have cancelled their development plans in western Canada, proponents are looking at different options for structuring their potential projects. Ksi Lisims LNG, like Cedar LNG, aim to de-risk their projects by having meaningful partnerships with First Nations. However, a significant barrier to meaningful project involvement is lack of equitable access to capital.

CONCLUSION:

The proposed Ksi Lisims LNG project could play an important role in Canada's natural gas industry and further allow domestic producers of natural gas access to new markets. Like Cedar LNG, the structure of ownership of the Ksi Lisims LNG project marks a new direction for major industrial development in the province. Furthermore, this project could become the anchor tenant that would allow either the PRGT or WCGT projects to move forward and unlock further developments in the northwest.

Hello Suzanne,

As a follow up to our introductory meeting on April 13th, we mentioned that we would share a copy of an upcoming New Release pertaining to the Ksi Lisims Project. We are pleased to announce today that we have filed the Detailed Project Description with the Environmental Assessment Office and an Export Licence with the Canadian Energy Regulator.

Attached is a copy of the draft News Release which will be publicly available on the Ksi Lisims website once the DPD is available on the EPIC website (likely by Wednesday this week).

As part of our BC Government outreach, Global Public Affairs will be also sharing a draft of the News Release on the project's behalf with the following Ministries:

- Premier's Office

- Environment and Climate Change Strategy
- Indigenous Relations and Reconciliation
- Land, Water & Resource Stewardship
- Jobs, Economic Recovery and Innovation

Should you have any questions pertaining to the News Release or the Ksi Lisims LNG project, please feel free to follow up with me.

Look forward to further communication in the future.

Regards, Chris

Dear: Suzanne Manahan

RE: Ksi Lisims LNG Project Milestone Update

The Nisga'a Nation, Rockies LNG and Western LNG are pleased to share that the Ksi Lisims LNG – Natural Gas Liquefaction and Marine Terminal Project has reached two important project milestones today with the filing of a Detailed Project Description (DPD) with the BC Environmental Assessment Office and an Export License Application with the Canada Energy Regulator. Attached is a copy of our news release which will be shared with local media and posted on the project site once the DPD is posted by regulators.

Ksi Lisims LNG (pronounced *s'lisims*), meaning “from the Nass River” in the Nisga'a language, is a proposed net-zero liquefied natural gas (LNG) project at Wil Milit on the northern tip of Pearse Island near the Nisga'a village of Gingolx. It will produce clean, reliable and affordable energy for export to Asia-Pacific markets transitioning away from higher emissions sources.

Ksi Lisims is a unique project between the Nisga'a Nation and a group of Canadian natural gas producers known as Rockies LNG, along with Western LNG, a North American leader in developing innovative LNG export facilities to help meet growing global demand for secure low-carbon energy. The project's innovative floating design will use clean BC hydroelectricity to convert natural gas for export, creating thousands of jobs and training opportunities.

Ksi Lisims LNG has adopted an innovative governance and commercial collaboration with the Nisga'a Nation focused on meaningful, direct participation, economic inclusion and environmental stewardship and protection. Since filing the Initial Project Description in July 2021, we have been involved in robust consultation with rightsholders and stakeholders, and the DPD incorporates meaningful input from all participants.

Nisga'a Lisims
Government

ROCKIES
LNG Partners

Page 1

KSI LISIMS LNG

We look forward to the next phase of the regulatory process and commend the adjustments your government has made to the regulatory process which emphasizes early, consistent and meaningful engagement throughout all phases of the project life.

We look forward to our DPD being accepted by regulators and moving the project to the next stage of the Environmental Assessment. If you have any questions or are interested in learning more about the project, we would be happy to schedule a presentation by our team at your convenience.

Yours truly,

Eva Clayton

Hello Suzanne,

Thank you for your note.

Yes - we are open to have a kickoff meeting with your government colleagues to make introductions and discuss more about the project.

What was your thinking in terms of timing?

Chris

Subject: Re: Ksi Lisims LNG Project Update

Hello Chris, congratulations on the major milestone and thank you for the advance notice on the release.

In the future, I would like to propose a project kickoff meeting with my government colleagues. This would give your team an opportunity to meet leads from various ministries and allow your team to introduce the project.

Would welcome your thoughts.

Thank you

Suzanne

Hello Suzanne,

As a follow up to our introductory meeting on April 13th, we mentioned that we would share a copy of an upcoming New Release pertaining to the Ksi Lisims Project. We are pleased to announce today that we have filed the Detailed Project Description with the Environmental Assessment Office and an Export Licence with the Canadian Energy Regulator.

Attached is a copy of the draft News Release which will be publicly available on the Ksi Lisims website once the DPD is available on the EPIC website (likely by Wednesday this week).

As part of our BC Government outreach, Global Public Affairs will be also sharing a draft of the News Release on the project's behalf with the following Ministries:

- * Premier's Office
- * Environment and Climate Change Strategy
- * Indigenous Relations and Reconciliation
- * Land, Water & Resource Stewardship
- * Jobs, Economic Recovery and Innovation

Should you have any questions pertaining to the News Release or the Ksi Lisims LNG project, please feel free to follow up with me.

Look forward to further communication in the future.

Regards, Chris

Hi Chris, May 12 is very booked and we will likely need a couple of hours. May 17-19 is good for my team if you have an availability, could you also provide the contact information for you Nisga'a representative.

Thanks,
Suzanne

Hi Suzanne,

The afternoon of May 18th (after 2 pm) works best for our team.

FYI - Bartek is the technical representative for the Nisga'a Nation.

We can make arrangements to include a Senior level Nisga'a representative assuming there is senior level representation from your side.

Is this something of interest?

Look forward to connecting.

Chris

Hello Suzanne,

As a follow up to our introductory meeting on April 13th, we mentioned that we would share a copy of an upcoming New Release pertaining to the Ksi Lisims Project. We are pleased to announce today that we have filed the Detailed Project Description with the Environmental Assessment Office and an Export Licence with the Canadian Energy Regulator.

Attached is a copy of the draft News Release which will be publicly available on the Ksi Lisims website once the DPD is available on the EPIC website (likely by Wednesday this week).

As part of our BC Government outreach, Global Public Affairs will be also sharing a draft of the News Release on the project's behalf with the following Ministries:

- * Premier's Office
- * Environment and Climate Change Strategy
- * Indigenous Relations and Reconciliation
- * Land, Water & Resource Stewardship
- * Jobs, Economic Recovery and Innovation

Should you have any questions pertaining to the News Release or the Ksi Lisims LNG project, please feel free to follow up with me.

Look forward to further communication in the future.

Regards, Chris

Hi Suzanne,

The afternoon of May 18th (after 2 pm) works best for our team.

FYI - Bartek is the technical representative for the Nisga'a Nation.

We can make arrangements to include a Senior level Nisga'a representative assuming there is senior level representation from your side.

Is this something of interest?

Look forward to connecting.

Chris

Hi Chris, May 12 is very booked and we will likely need a couple of hours. May 17-19 is good for my team if you have an availability, could you also provide the contact information for you Nisga'a representative.

Thanks,
Suzanne

Hi Suzanne,

Attendees from our side:

Chris Chong-Ping (cping@westernlng.com) Brandon Holterman (bholterman@ksilisimslng.com) Bartek Kienc (bartek@ceicorp.ca) Matt Williamson (mwilliamson@globalpublic.com)

Would Thursday May 12th work for your side?

We are looking forward to making introductions and providing additional overview on the Ksi Lisims LNG project.

Regards, Chris

Hello Chris, congratulations on the major milestone and thank you for the advance notice on the release.

In the future, I would like to propose a project kickoff meeting with my government colleagues. This would give your team an opportunity to meet leads from various ministries and allow your team to introduce the project.

Would welcome your thoughts.

Thank you

Suzanne

Hello Jennifer, Simon suggested that I contact you with respect to representation at a kick off meeting we are organizing with the province, its regulators, Nisga'a Nation and leads from Ksi Lisims LNG. These are usually a light touch meeting but an opportunity for introduction and information sharing. Afternoon of May 18 is the date and would appreciate your thoughts on MIRR representation.

Thanks,
Suzanne

Hi Suzanne,

The afternoon of May 18th (after 2 pm) works best for our team.

FYI - Bartek is the technical representative for the Nisga'a Nation.

We can make arrangements to include a Senior level Nisga'a representative assuming there is senior level representation from your side.

Is this something of interest?

Look forward to connecting.

Chris

Hi Chris, May 12 is very booked and we will likely need a couple of hours. May 17-19 is good for my team if you have an availability, could you also provide the contact information for you Nisga'a representative.

Thanks,
Suzanne

Hi Suzanne,

Attendees from our side:

Chris Chong-Ping (cping@westernlng.com) Brandon Holterman (bholterman@ksilisimslng.com) Bartek Kienc (bartek@ceicorp.ca) Matt Williamson (mwilliamson@globalpublic.com)

Would Thursday May 12th work for your side?

We are looking forward to making introductions and providing additional overview on the Ksi Lisims LNG project.

Regards, Chris

Hello Suzanne,

The EAO has accepted the detailed project description and it is now available on their website.

Would a kick off call next week or the following week work for your side?

Chris

Hello Suzanne,

Thank you for your note.

Yes - we are open to have a kickoff meeting with your government colleagues to make introductions and discuss more about the project.

What was your thinking in terms of timing?

Chris

Hello Chris, congratulations on the major milestone and thank you for the advance notice on the release.

In the future, I would like to propose a project kickoff meeting with my government colleagues. This would give your team an opportunity to meet leads from various ministries and allow your team to introduce the project.

Would welcome your thoughts.

Thank you
Suzanne

Hello Suzanne,

As a follow up to our introductory meeting on April 13th, we mentioned that we would share a copy of an upcoming New Release pertaining to the Ksi Lisims Project. We are pleased to announce today that we have filed the Detailed Project Description with the Environmental Assessment Office and an Export Licence with the Canadian Energy Regulator.

Attached is a copy of the draft News Release which will be publicly available on the Ksi Lisims website once the DPD is available on the EPIC website (likely by Wednesday this week).

As part of our BC Government outreach, Global Public Affairs will be also sharing a draft of the News Release on the project's behalf with the following Ministries:

- * Premier's Office
- * Environment and Climate Change Strategy
- * Indigenous Relations and Reconciliation
- * Land, Water & Resource Stewardship
- * Jobs, Economic Recovery and Innovation

Should you have any questions pertaining to the News Release or the Ksi Lisims LNG project, please feel free to follow up with me.

Look forward to further communication in the future.

Regards, Chris

Hi Danielle –

I believe this is the NDA signed between BC, Rockies LNG, Western and Nisga’a Nation. Note that Canada is not a signatory – and a joint template with them looks a little different.

Hello Suzanne,

Hope things are well with you. Our project team is having a bit of difficulty in getting traction on an Arch permit from the Archaeology department (see e-mail below).

The team has asked that we escalate this upwards to get some assistance in resolving this issue. We understand that there has been some resourcing / capacity challenges; however, this is an issue that has been on-going for over 12 months.

Are you able to help assist us by flagging this to an appropriate senior level staff member?

If you need any context, please feel free to reach out to me.

Thanks, Chris

Subject: Arch permit

Hi Chris,

We have come up against a significant schedule challenge due to delays in our effort to obtain a Section 12 permit from the Archaeology Branch. On May 6, 2021, Stantec submitted a section 12 permit to the Archaeology Branch. This was following notification to all potentially affected Nations in April 2021 of our intent. The permit is for District Lots (DLs) 5431 and 7235, which are both located on fee simple, Category A Lands as defined under the Nisga'a treaty, and a proposed water lot to the east of DL 5431. On January 10, 2022, we were notified by the Branch that the Metlakatla had shared comments on the permit that required our input; our responses were shared on February 9, 2022. We have received no further correspondence on the status of the permit since this time - apart from learning that Emily Wilkerson, who had been managing our file, had left the Branch.

On May 19, 2022 Mansell Griffin spoke with Damian Hind, (Supervisor, Permitting and Assessment) to try to get some movement on the file. Damian followed up with Mansell on May 30 indicating that he had reached out to Nedinska Donaldson about the issue and had pulled in the engagement team to try to get things resolved. As of end of last week we have yet to hear anything further.

Ksi Lisims LNG is planning on completing geotechnical work starting in September 2022. Prior to commencing this work we will need to complete an Archaeological Impact Assessment, and obtain a Nisga'a Investigative Use Permit (IUP) for the terrain portion of the Geotech work and a marine IUP through the OGC for works proposed in the water lot and intertidal area. Given that the IUPs are anticipated to take a minimum of 2 months to obtain and that the archaeological work and associated reporting will also take a month it is imperative that we get the permit by mid-June latest to not risk delaying (or worst case losing) the window for completing the geotechnical work.

Please let me know if you require any additional detail,

Cheers,

Sandra

Hi Suzanne,

The afternoon of May 18th (after 2 pm) works best for our team.

FYI - Bartek is the technical representative for the Nisga'a Nation.

We can make arrangements to include a Senior level Nisga'a representative assuming there is senior level representation from your side.

Is this something of interest?

Look forward to connecting.

Chris

Hello Chris, congratulations on the major milestone and thank you for the advance notice on the release.

In the future, I would like to propose a project kickoff meeting with my government colleagues. This would give your team an opportunity to meet leads from various ministries and allow your team to introduce the project.

Would welcome your thoughts.

Thank you
Suzanne

Hello Suzanne,

As a follow up to our introductory meeting on April 13th, we mentioned that we would share a copy of an upcoming New Release pertaining to the Ksi Lisims Project. We are pleased to announce today that we have filed the Detailed Project Description with the Environmental Assessment Office and an Export Licence with the Canadian Energy Regulator.

Attached is a copy of the draft News Release which will be publicly available on the Ksi Lisims website once the DPD is available on the EPIC website (likely by Wednesday this week).

As part of our BC Government outreach, Global Public Affairs will be also sharing a draft of the News Release on the project's behalf with the following Ministries:

- * Premier's Office
- * Environment and Climate Change Strategy
- * Indigenous Relations and Reconciliation
- * Land, Water & Resource Stewardship
- * Jobs, Economic Recovery and Innovation

Should you have any questions pertaining to the News Release or the Ksi Lisims LNG project, please feel free to follow up with me.

Look forward to further communication in the future.

Regards, Chris

Hello Chris, congratulations on the major milestone and thank you for the advance notice on the release.

In the future, I would like to propose a project kickoff meeting with my government colleagues. This would give your team an opportunity to meet leads from various ministries and allow your team to introduce the project.

Would welcome your thoughts.

Thank you
Suzanne

Hello Suzanne,

As a follow up to our introductory meeting on April 13th, we mentioned that we would share a copy of an upcoming New Release pertaining to the Ksi Lisims Project. We are pleased to announce today that we have filed the Detailed Project Description with the Environmental Assessment Office and an Export Licence with the Canadian Energy Regulator.

Attached is a copy of the draft News Release which will be publicly available on the Ksi Lisims website once the DPD is available on the EPIC website (likely by Wednesday this week).

As part of our BC Government outreach, Global Public Affairs will be also sharing a draft of the News Release on the project's behalf with the following Ministries:

- * Premier's Office
- * Environment and Climate Change Strategy
- * Indigenous Relations and Reconciliation
- * Land, Water & Resource Stewardship

* Jobs, Economic Recovery and Innovation

Should you have any questions pertaining to the News Release or the Ksi Lisims LNG project, please feel free to follow up with me.

Look forward to further communication in the future.

Regards, Chris

Hi Suzanne,

As a follow up to our meeting last month, we mentioned we would share a copy of the slides we walked through (please see the attached file)

We are in the process of finalizing our Lobbying Registry today – would you be able to send a list of all of the attendees that were present at the meeting May 18th meeting?

Lastly – How are things going on the Arch permit?

Thanks, Chris

Hi Suzanne,

The afternoon of May 18th (after 2 pm) works best for our team.

FYI - Bartek is the technical representative for the Nisga'a Nation.

We can make arrangements to include a Senior level Nisga'a representative assuming there is senior level representation from your side.

Is this something of interest?

Look forward to connecting.

Chris

Hi Suzanne,

Attendees from our side:

Chris Chong-Ping (cping@westernlng.com) Brandon Holterman (bholterman@ksilisimslng.com) Bartek Kienc (bartek@ceicorp.ca) Matt Williamson (mwilliamson@globalpublic.com)

Would Thursday May 12th work for your side?

We are looking forward to making introductions and providing additional overview on the Ksi Lisims LNG project.

Regards, Chris

Hello Suzanne,

The EAO has accepted the detailed project description and it is now available on their website.

Would a kick off call next week or the following week work for your side?

Chris

Hi Tess, Kyla,

Amy (Sopinka) is asking for 30 minutes next week, with Keith (Anderson) and Suzanne (Manahan).

Amy has availability as follows (Suzanne's calendar looked clear too):

- Wed., Apr. 20: between 9-10:30am, or 4-5pm
- Fri., Apr. 22: between 8:30am-10am

What works for Keith? Please confirm for Suzanne.

If nothing works, back to the drawing board!

I just realized, no Subject was mentioned! I will find out and advise tomorrow.

Cheers,
Michele

Subject: Hold the Date - Ksi Lisims LNG

Good morning, on May 18 @1PM, EMLI will be hosting a MS Teams kick off meeting with representatives from Ksi Lisims LNG. As the project has now entered the environmental assessment process, this will allow the project proponent to meet each of you and provide information related to the proposed project.

For those of you who have participated in a kick off meeting in the past, we usually ask each department to provide an overview of roles and responsibilities. If you are not available or are not the correct resource, could you please identify an alternate.

Agenda will be out early next week and pleased to connect on any questions you may have.

Thanks,
Suzanne

Looks great, lets replace Hurrian with Adria Fradley.

Good to go out after that change.

Thanks.

Hi Marc. Thank you for your note.

You are included on the correspondence, I will make sure you remain on our list. The below agenda is the only correspondence sent thus far. I will remove Hardy going forward – many thanks.

Hi Kyla,

Could you please make sure I'm included on the correspondence for this project. I am the project manager who has been assigned this project at the Commission. You can remove Hardy from this distribution list.

Thanks,
M.

Hi Suzanne,

Yes – Bartek and I can talk through a brief slide deck and discuss the project.

FYI:

Collier Azak, CEO from Nisga’a Lisims will join the meeting tomorrow (we have forwarded him the meeting invite)

Matt Williamson’s e-mail address is mwilliamson@globalpublic.com (we have forwarded him the meeting invite as well)

Look forward to tomorrows meeting

Thanks, Chris

Hi Suzanne,

The afternoon of May 18th (after 2 pm) works best for our team.

FYI - Bartek is the technical representative for the Nisga'a Nation.

We can make arrangements to include a Senior level Nisga'a representative assuming there is senior level representation from your side.

Is this something of interest?

Look forward to connecting.

Chris

Hi Chris, May 12 is very booked and we will likely need a couple of hours. May 17-19 is good for my team if you have an availability, could you also provide the contact information for you Nisga'a representative.

Thanks,
Suzanne

Hi Suzanne,

Attendees from our side:

Chris Chong-Ping (cping@westernlng.com) Brandon Holterman (bholterman@ksilisimslng.com)
Bartek Kienc (bartek@ceicorp.ca) Matt Williamson (mwilliamson@globalpublic.com)

Would Thursday May 12th work for your side?

We are looking forward to making introductions and providing additional overview on the Ksi Lisims LNG project.

Regards, Chris

Hello Suzanne,

The EAO has accepted the detailed project description and it is now available on their website.

Would a kick off call next week or the following week work for your side?

Chris

For timing, I would suggest after the EAO accepts the project description. Pleased to coordinate in advance of that decision if you feel that's best.

Thanks,
Suzanne

Hello Suzanne,

Thank you for your note.

Yes - we are open to have a kickoff meeting with your government colleagues to make introductions and discuss more about the project.

What was your thinking in terms of timing?

Chris

Hello Chris, congratulations on the major milestone and thank you for the advance notice on the release.

In the future, I would like to propose a project kickoff meeting with my government colleagues. This would give your team an opportunity to meet leads from various ministries and allow your team to introduce the project.

Would welcome your thoughts.

Thank you
Suzanne

Hello Suzanne,

As a follow up to our introductory meeting on April 13th, we mentioned that we would share a copy of an upcoming New Release pertaining to the Ksi Lisims Project. We are pleased to announce today that we have filed the Detailed Project Description with the Environmental Assessment Office and an Export Licence with the Canadian Energy Regulator.

Attached is a copy of the draft News Release which will be publicly available on the Ksi Lisims website once the DPD is available on the EPIC website (likely by Wednesday this week).

As part of our BC Government outreach, Global Public Affairs will be also sharing a draft of the News Release on the project's behalf with the following Ministries:

- * Premier's Office
- * Environment and Climate Change Strategy
- * Indigenous Relations and Reconciliation
- * Land, Water & Resource Stewardship
- * Jobs, Economic Recovery and Innovation

Should you have any questions pertaining to the News Release or the Ksi Lisims LNG project, please feel free to follow up with me.

Look forward to further communication in the future.

Regards, Chris
