Hi Danielle,

Somehow I thought I had replied to this already... obviously, I did not. How long to you think we will need? If only 1 or 1.5 hours then Thur or Fri at 10am PST could work.

On my team, in addition to myself, we would need Lauren, Tyler and Warren invited (all CC'd). As indicated below, Warren is off but he may be available to attend. I would also invite Blair Gowan and he or someone on his team on the policy side of things may wish to listen in.

I will

Jeff

Hi Neil,

s. 22

Jeff, can you kindly provide your teams availability (in **PST**) for next week for an update on Woodfibre? It has been sometime since we met last, so if you can kindly provide a list of attendees with their email that would be greatly appreciated.

Many thanks,

D.

Hi Warren, hope you are keeping well. Woodfibre has now signed off in modeling assumptions and we would like to engage your team to present results of both the competitiveness and returns to governments.

Could you please let us know who should participate and we will organize from our side.

Thanks,
Suzanne

We can definitely make the 2nd week of Jan work but let's not let it slip beyond that as I'll be away the 3rd and 4th week of Jan ☺

Jeff

Hi Jeff,

Unfortunately I'm away the first week of January but I'm back the week after.
Hoping that would still work for you and your team?

I believe either Kyla or Danielle (cc'd) will follow up with your team so we can align on a date.

Regards,
Ruben

Hi Jeff,

Thanks for following up.

We did present our Monte Carlo analysis results last week and are just putting some finishing touches on our presentation.

We'd be more than happy to have a call with your team for a discussion on this. Unfortunately our availability is a bit limited this week going into the holidays. Would it work on your end if we coordinate a meeting for after the holidays? Alternatively, I can check with Andre to see if we can find some time for later this week.

Kind regards,
Ruben

Dear All,

I wanted to follow up on your requests from our Friday Nov 4 call.
Please find attached the following files:

s. 15, s. 17

Lastly, and as discussed, we would be pleased to have a more in-depth discussion around the assumptions and results of the Monte Carlo analysis once we had a chance to present analysis results to BC Ministry of Finance.

Kind regards,
Ruben

Apologies, in advance of your meetings with WLNG, I should note that the modeling and competitiveness analysis is not complete and WLNG has several key data items to provide. WLNG has been instructed that provincial supports in the form of PST deferral (operating performance payment agreement) will not be considered until the work is complete. This message has been consistent and WLNG and our Ministry of Finance have been working through a checklist on those requirements.

Confidentially, I have attached that checklist, could be useful for your team to see what is outstanding from a provincial perspective.

As always, pleased to discuss and provide any briefing materials as needed.

Suzanne

Subject: WLNG model update

[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.

Good morning Suzanne,

NRCan is preparing for a meeting between WLNG and our Deputy Minister next week, in Ottawa ^{s. 13, s. 16}
s. 13, s. 16

Coincidentally, we learned yesterday from WLNG that they updated the model on Oct 28, which was a surprise to our team. Should the company not be presenting that info to the joint working group for discussion, to ensure we all move along with the same information? Without that insight, it could put us in a difficult position of not being able to explain the changes within our internal analysis.

We appreciate your hand in this to sort out an appropriate way forward,
Blair
