Ereg Hiltz

CACHE Creek - did interview w/ Ashcroft Journal

"Definitely unprecedented"

- not like a hurricane

- had to work hand in glove with Forestry to
- following a hurricane, everything is down & just needs to be put back up. After, it's like starting over.
- Have to rebuild what took 50 yrs to put up in 2 weeks
- Heat, smoke, safety gear increases heat exposure
- Hard to get lunches b/c
- physical conditions
- their job is to make sure of safety a line is down, they deal with it after evacuation
