

MINISTRY OF ENERGY, MINES AND NATURAL GAS

BRIEFING NOTE FOR DECISION

I PREPARED FOR: Mark Messmer, Director

II ISSUE:

Request to add 48 new sites to the Mineral and Coal Land Reserve (No Mineral Claim Registrations) Regulation by amending B.C. Reg. 171/2011 and to add 6 sites to the Mineral and Coal Land Reserve (No Mineral or Placer Claim Registrations) Regulation by amending B.C. Reg. 280/2007

III BACKGROUND:

The Ministry of Aboriginal Relations and Reconciliation (MARR) the Province of B.C. and Canada presented a treaty Agreement-in-Principle (AIP) land and cash offer to the Ktunaxa Kinbasket Treaty Council (KKTC) in October 2010, under Cabinet direction. In February 2012, the KKTC accepted the offer in writing and now the treaty table is completing the negotiations to conclude an AIP by summer 2013. The provincial negotiator worked closely with KKTC and Canada and reviewed Crown land parcels with resource ministries, including the Ministry of Energy, Mines and Natural Gas (MEMNG) and received deputy minister approval from all agencies. Canada, B.C. and KKTC agree that these lands will become treaty settlement lands on the effective date of a Final Agreement. In the offer, the province committed to place protection measures over the Crown land parcels under the *Mineral Tenure Act* and the *Coal Act*, which would be in place until the effective date when ownership of the parcels, including the subsurface resources, is transferred to the KKTC.

IV DISCUSSION:

Following the public information meetings, the provincial negotiation team received several requests for the parcel maps from the public, media and stakeholders. The treaty table is considering publically releasing the offer maps but is reluctant to do so without the appropriate *Mineral Tenure Act* and *Coal Act* protections. There is a risk that individuals could use the maps for mineral claim registrations which potentially could impede the KKTC's plans for the parcels.

The current subsurface tenures will be identified in the final agreement appendices and will continue under the same terms and conditions after the effective date under the provincial tenure system.

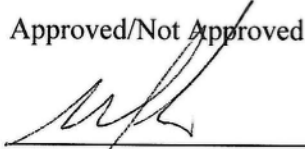

Mineral and Coal Land Reserves have been requested for 48 of the 54 sites identified where the Provincial Placer Reserve already prohibits placer claim registrations (B.C. Reg. 287/88) Mineral, Placer and Coal Land Reserves have been requested for 6 sites where the Provincial Placer Reserve does not prohibit placer claim registrations.

V RECOMMENDATION:

MEMNG staff will request that Legislative Counsel review and tag the attached B.C. Regulations amending B.C. Reg. 280/2007 and B.C. Reg. 171/2011 for the review and signature of the Chief Gold Commissioner.
