Subject: reimbursement for Dec. Victoria trip

Hello Lisa

Here are the details for my expenses for the December trip. As I was paid additional funds for the November trip, these will just go against that balance.

1. Private vehicle use – 280kmX2 = 560km total (Silverton to Kelowna airport) X \$0.54 = \$302.40
2. Taxi – Victoria airport to Parkside Hotel = \$65 (provided physical receipt).
3. I spent \$70 to park my car in Kelowna for the week but I can't find the receipt. I am hoping it is in my desk at the Nelson office. Once found I will send it to you.
4. Per diems

I used the new corporate card instead of my personal cards for the baggage fees and the hotel.

Lastly, attached are the hotel receipts with MM's signature.

Kind regards,

Danika

Hi Debra,

We have a couple of hotel receipts for our EA's travel to Victoria and last I recall you said we needed the Minister to sign off on them because of the nightly room rate was over the allowable limit. Our Minister said it's not her responsibility, that it's our MA's responsibility. Whose signature do we need? Is it the Minister's?

Thank you,

Subject: Potential Visit to Columbia River Dams

Good Morning Minister Conroy and Minister Mungall,

I hope you are both well and enjoyed your weekend.

I just wanted to let you know that when our Austin team was out east recently at the Canadian Dam Association Conference in Quebec City that we were invited to a lunch with the CDA's Business Development team and some interesting international dam owners.

At that lunch we were informed that the CDA wanted to organize some side trips around the International Conference on Large Dams (ICOLD) that will take place this year in Ottawa June 9-14. I mentioned that when I was in China last December with members of the Austin Team and Brian Fry, that several people within the academic and business community there were interested in our large dams.

I found it somewhat surprising as our infrastructure is more dated and their dams (such as the Three Gorges) are brand new, but they told me that they are very interested in the manner that “our” Canadian dams are maintained to such a high level that they have safely and successfully operated for many years. The people I spoke with were very interested to learn more about our operations methods so that they can ensure the safe and successful operation of their dams for many decades to come as well.

Therefore I spoke up in that lunch and mentioned that I would be very interested in supporting a plan to organize a delegation to our region. I have already spoken with Tanya Laing-Hahr with Fortis Kelowna and her team as well as the Principal Engineer for Dam Safety with BC Hydro Kofi Addo. They both said they would be interested in learning more and ideally participating in a tour like this.

Would this be something that you might be would be interested in participating in as the Minister responsible for Columbia Power and the Minister of Natural Resources? We are only in the feasibility stage right now and I am having a conversation with Clare Raska and Tony Bennet of the CDA Board on Wednesday morning. If you and your teams would like to know more please just let me know and I’m happy to keep you in the loop following that call.

I think this could be a very positive event highlighting our region’s strengths.

Have a great day,

Best Regards,

Mary Austin

Subject: RE: Site C

Hi Melissa,

s.22

I believe Melissa Sanderson would like to see the Site C draft response updated and then take another look at the correspondence to see which ones need a response. For now she has advised me to keep them separate until we get an updated copy of the Site C response. I will bring up that point about Info filing with Melissa and see what she suggests. In the meantime, I can totally move the folder though to a subfolder under the MO folder!

Thank you,

Lisa Pommelet

Subject: RE: Site C

Hi Lisa,

s.22

Just getting caught up over here – do you mind moving this folder from being a subfolder of the info/file to instead being a subfolder of the MO draft reply folder, if that is the response the MO wishes to have for these?

Another thing to bring up to Scott and Melissa would be that a lot of the Site C letters have been info/filed in the past. Especially now with the project well under way, it may not be appropriate to choose to respond to every one of them. If the writer is not asking any questions and is only just stating their opinion of Site C, then we should most likely be info/filing. Of course it is their call, but it is just a suggestion. We will still have the wording updated for future assignments regardless.

Thanks! ☺

Hi Melissa,

The attached Site C approved standard wording was MO approved in 2016 & has not undergone a thorough revision since. We have not been using most of that standard wording, as it is outdated. EAED has drafted responses using more current text. I have included 2 samples of more recent responses, 1 related to jobs & 1 on Site C itself.

Hi Lisa,

Just wanted to follow up on this – have you had a chance to ask Scott about 105067 re: BCH rates? It is currently with him in e-Approvals, and the response was to a letter that came in in May. We shouldn't be responding at this point. If he agrees, can you please let me know and I'll pull the e-Approval from him and close the log. It looks like 105163 came back approved by the MO and was sent out while I was away.

Thanks,
Melissa

Hello,

I live in a single family detached home that is heated primarily by wood with a propane wall heater for backup.

As I am a senior over 70, heating with wood is becoming more onerous and I wish to convert to an environmentally friendlier, more sustainable heating source that is less work.

After reviewing my options, I have decided that I would like to install an air source heat pump. Then I discovered I would not be eligible for a rebate on the heat pump purchase or installation.

According to FortisBC, terms and conditions, eligibility, #4 d. Premises primarily heated by oil, propane, wood or other solid fuels are not eligible
(See https://www.fortisbc.com/Rebates/RebatesOffers/HomeRenovationRebatesPost/Documents/HomeRenovationRebateEfficiencyBCProgram_TermsConditions.pdf)

There are many homes like mine in rural areas that are heated with wood where the residents would love to switch their heating source. In my case, hooking up to natural gas would cost \$6,000 before the cost of a furnace or fireplace. In many rural areas, natural gas is not even available.

Can someone please explain why those who heat with wood are not eligible for the heat pump rebate? I do not understand why I am being discriminated against.

Yours truly,

s.22

I went through the December calendar and sent it to you. I couldn't filter it, but when I was Googling how to do it there were a bunch of different filters that didn't apply to what I wanted. You may have to show me again when you're in the office.

Does the latest calendar still need editing?

Thank you,

Lisa

Yeah you may have to show me how to do it again. I think because our filters are organized by categories like "govt" and "personal" it made it difficult to Google how to do it. And I couldn't recall how you filtered them. Mine would only appears as colours with no labels attached. Does that make sense?

Hello,

Here is my reconciled PCard and receipts. Please let me know fi there is a problem and I can fix it.

Thank you,

Lisa Pommelet
