BC Government Corporate Calendar

GCPE Strategic Communications | Events & Corporate Planning Unit

Please do not email the GCPE Corporate Calendar mailbox

Phone: 778 698-3498

The Look Ahead is an edited product of the BC Government Corporate Calendar system and is published daily between 4:15 to 4:45pm whenever possible.

Executive Summary: What is the Corporate Calendar?

The Corporate Calendar provides a bird’s eye-view of all communications activities across ministries and major agencies. The purpose is to:

- *Inform senior government officials of all government activities.*
- *Prevent scheduling conflicts within government departments.*
- *Improve efficiencies within the organization.*
- *Streamline the business process of planning and executing government activities.*

Recently Published News Releases can be found here:

BCGov Newsroom: <https://news.gov.bc.ca>

News Archive: <https://archive.news.gov.bc.ca/>

CORPORATE CALENDAR LINK (RESTRICTED ACCESS):

<https://hub.gcpe.gov.bc.ca/Legacy/Calendar/>

MO & Comm Shops – Important Process

Reminders:

For a number of reasons, ALL events and releases are to be scheduled Corporately as far in advance as possible.

- Final news releases, statements and info bulletins etc. are to be sent for final processing **at least 24-48hrs ahead of publishing time (wherever possible)**, unless otherwise arranged. Please keep approvals moving and don't hold them up.
- Significantly **more lead time** is needed if **translation** is required, per recent emails from HQ Exec on this topic.
- Send all finals to the larger '**GCPE Editors'** list (NOT the Editorial Services list please). Include the approved publishing date, time and Corp Cal ID # in that email.

This email is intended solely for the person or entity to which it is addressed and may contain confidential and/or privileged information. Any review, dissemination, copying, printing or other use of this email by persons or entities other than the addressee is prohibited. If you have received this email in error, please contact the sender immediately and delete the material from any computer.

Subject: FYI - Wood Buffalo Action Plan Draft Decision

Hi Melissa: FYI, on May 20 or June 3, the draft decision for the World Heritage Committee (WHC) will be released on the Action Plan to protect Wood Buffalo National Park (WBNP).

You will recall the federal government submitted its completed Action Plan for WBNP to the WHC on Feb. 1, 2019. The Action Plan was developed in response to the WHC's Reactive Monitoring Mission to WBNP in 2016, which made 17 recommendations for the Government of Canada to address to protect the site.

Canada accepted the report's recommendations with the exception of a recommendation which called for "an environmental and social impact assessment of the Site C project." Canada rejected this recommendation as it relates to Site C.

The Government of Canada developed the Action Plan in collaboration with provincial and territorial governments, Indigenous communities, and stakeholders. It includes more than 140 actions responding to all the recommendations of the WHC (with the exception of the recommendation related to Site C as referenced above). The Government of Canada is investing \$27.5 million to support the development of the Action Plan and its early implementation, which is already underway.

In advance of the release of the draft decision on the Action Plan, Parks Canada has developed a high level Ministerial Statement and Twitter posts. Their standard backgrounder on all the actions that have been taken to preserve Wood Buffalo, and their Q&As have also been updated.

Parks Canada has shared these materials with us to ensure we're comfortable with them. The only reference in the materials to Site C is on page 7/8 of the QA, and I don't see any reference to the WAC Bennett dam. I have also shared the materials with BC Hydro and Les.

The date of release and content of the draft decision will not be known until the decision is publicly released. Whether
s.16

While the draft decision is expected on May 20 or June 3, the WHC's formal response to the Action Plan will be announced during the 43rd session of the World Heritage Committee that will be held in Baku, Azerbaijan from 30 June to 10 July 2019.

Thanks,
Colin

Hi Melissa,

Request for review from Ben Parfitt. Note this is for a commentary for Vancouver Sun. The response below has been approved by Nate Amann-Blake.

Kent.

Reporter: Ben Parfitt, Vancouver Sun (Commentary)

Deadline: Friday, June 7, 2019 4:30 PM

Request:

I am working on a commentary for The Vancouver Sun on the use of administrative monetary penalties to try to encourage compliance with provincial laws. Could you tell me whether the Ministry of Energy and Mines has issued any such penalties to Placer Mining companies in the last while, and if so what the penalty amount(s) was, which company(its) were issued the penalties and for what offences.

Suggested Response:

The Ministry of Energy, Mines and Petroleum Resources issued an Administrative Monetary Penalty (AMP) in the amount of \$28,000 to placer miner Pinegreen Gold Mining (Canada) on March 4, 2019. This penalty was issued for operating without a *Mines Act* permit, in contravention of *Mines Act* s.10(1), near Quesnel British Columbia. The penalty has been paid in full, money goes into general revenue.

This was the first AMP issued under the new regulation which came into effect in 2017 through amendments to the Mines Act. There are a number of AMPs awaiting decision but as they are currently in front of the Statutory Decision Maker (SDM), we are not able to share specifics about these ongoing enforcement processes.

Another Compliance & Enforcement tool for placer titles is under the Mineral Tenure Act. Last year (Fiscal 2018-2019), there was one Section 40 complaint which was upheld and the claim ordered cancelled. Under Section 10, there were 18 notices actioned (12 of which were placer) and 6 Free Miner Certificates cancelled or suspended (5 of which were placer).

EMPR recently announced an additional \$20 million investment over the next three years to facilitate the implementation of the Mines Competitiveness and Authorizations Division, making it completely independent of Mines Health, Safety and Enforcement Division within EMPR. This ensures clear separation that aligns with other provincial regulators including the Ministry of Environment and Climate Change Strategy.

The Mines Health, Safety and Enforcement Division will include a greater number of mines inspectors and a new auditing function to increase industry safety. The division's priorities will be focused on increased health, safety, compliance management and enforcement activities. A new compliance auditing and effectiveness monitoring team within the division will function as an independent oversight unit.

Attachments: 19.06.06 Sat. Phone Presentation (June 7 Tutorial) - Final.pptx

Hi – thanks for your engagement with the sat phone training today – I would love to have seen all of you in the courtyard!

As a follow-up, karen sent the attached presentation for distribution to you. It includes details about the difference between the Globalstar and Iridium sat. phones; the contact information for sat. phone support; and, the number to call if the sat. phone is misplaced/lost:

Support: EMBCIT@gov.bc.ca

Lost phone: (250) 952-4278 (Provincial Duty Manager, EMBC)

Also, if you were not able to return the Globalstar phones today, please mail them asap to:

Alex Delaney
Director, IT & Operational Emergency Systems
Emergency Management BC
Block A – Suite 200, 2261 Keating Cross Rd
Saanichton, BC CANADA V8M 2A5

Cheers and have a great weekend.

Vanessa

Subject: new series of MEM/BCH meetings

Hi Melissa,

As you are aware, parliament isn't in session again until October 7, 2019. Please advise whether you would prefer that future MEM/BCH meetings be scheduled on Tuesdays at 1:00PM rather than Friday, until October.

Thank you & regards,

Judy

Hi, all. FYI, the message below has been shared with PO and DMs of EMPR, GCPE, FLNR and MIRR.

Michelle

1. The injunction hearing will be held next week from June 12 – 14 in Prince George. Please find attached an updated note that canvasses key issues.

Please note that next week and beyond, the Secretariat will be engaging with relevant ministries across government and monitoring the hearings. We will provide updated messaging in collaboration with AG as appropriate.

2. The regulatory interface has been launched and an IB has been web posted on the EMPR news feed at: <https://news.gov.bc.ca/ministries/energy-mines-and-petroleum-resources> The interface is at <https://lng.gov.bc.ca/>

The interface significantly advances the regulatory transparency about the project, bringing together the authorizations, plans, compliance matters and provincial agreements with Indigenous Nations in one place for the first time. Please note that the regulatory information currently relates to OGC and EAO matters and the aim will be to add other authorizations over time.

I will also share this information with relevant ADMs and key leads.

Michelle

Subject: BULLETS for Follow up Request: Prince George-Valemount -- Plug In BC

Hi Danika. Follow up information to the SUVI program is below. Thank you.

Marlene Cochrane
Executive Coordinator | Deputy Minister's Office
Ministry of Energy, Mines and Petroleum Resources
Victoria | British Columbia
Phone (778) 698 7254

If the applicant is able to provide documentation indicating that a deposit was paid from the applicant to MasonLift for the two units prior to September 21, 2018, the Ministry would be happy to review the application in order to determine eligibility for the SUVI program incentive. If documentation regarding deposit payment is available, please send via email to: Nick Clark, Senior Economist, Clean Vehicles - Nick.Clark@gov.bc.ca

To: Cochrane, Marlene EMPR:EX <Marlene.Cochrane@gov.bc.ca>
Subject: RE: Follow up Request: Prince George-Valemount -- Plug In BC

Hello Marlene

The constituency assistant has provided the additional following information for this case file.

Regarding the part - "Applicants that had placed deposits on vehicles that were removed from the eligibility list prior to September 21, 2018 had their applications honoured and received the incentive. Applicants who did not place deposits or complete a vehicle sale prior to September 21, 2018 are not eligible to receive the SUVI program incentive. The applicant was denied the SUVI incentive in this case as the invoice was dated January 18, 2019 which is beyond the September 21, 2018 requirement"

On June 1, Mason Lift wrote up the terms and conditions of the order, also stating that the balance would be due on delivery of the vehicle.s.22 signed this form on July 19, 2018 and created a Purchase Order (PO) on July 26, 2018 It stated on the terms and conditions that delivery would be between 21-23 weeks; however, it was delivered at 31 weeks and s.22 were officially invoiced at 33 weeks – January 18, 2019.

It stated on the terms and conditions proposal that signing it constitutes as an order. I am just curious if this signed proposal would constitute as confirmation of an order, even though mason lift did not officially invoice them until after the vehicles were delivered?

Do you know of anything else that can be done for the applicant in this situation? Or if there is an answer to this question?

Many thanks,

Danika

Phone (778) 698 7254

1. Question from Prince George-Valemount Constituent on SUVI Program:

s.22 purchased two units from Masonlift Ltd. to build for them. The two units at the time were listed as an eligible vehicle under the SUVI program (Toyota 8HBW23). They received approval and Plug in BC emailed them requiring that they would just need the VIN and proof of payment. When s.22 did submit the required information after the two machines were built, their application was denied and they were told that the vehicle was no longer eligible for the SUVI program.

In September 2018, the Ministry reviewed the Specialty-Use Vehicle Incentive (SUVI) Program vehicle eligibility list as the intent of the program is to support the adoption of hydrogen fuel cell and plug-in electric vehicles in sectors that have not fully shifted to electrification. As a result of this review, the forklift category of the program was adjusted on September 21, 2018 to only include vehicles that are four-wheel sit-down counterbalance forklifts or three wheel sit down counterbalance forklifts. This resulted in several models being removed from the program. This program change was communicated to vehicle dealers and manufacturers, so they could inform their customers regarding orders that were no longer eligible.

Applicants that had placed deposits on vehicles that were removed from the eligibility list prior to September 21, 2018 had their applications honoured and received the incentive. Applicants who did not place deposits or complete a vehicle sale prior to September 21, 2018 are not eligible to receive the SUVI program incentive.

The applicant was denied the SUVI incentive in this case as the invoice was dated January 18, 2019 which is well beyond the September 21, 2018 requirement.

Subject: RE: REPLY TO REQUEST: Prince George-Valemount -- Plug In BC

Hello Marlene

We have some additional information about the specific question from Price George-Valemount.

s.22 purchased two units from Masonlift Ltd. to build for them. The two units at the time were listed as an eligible vehicle under the SUVI program (Toyota 8HBW23). They received approval and Plug in BC emailed them requiring that they would just need the VIN and proof of payment. When s.22 did submit the required information after the two machines were built, their application was denied and they were told that the vehicle was no longer eligible for the SUVI program.

Can we provide any information about why the application was denied? Or should they just contact Fraser Basin Council?

Thanks

Danika

Hi Danika. Please see the response below. Thank you.

Marlene Cochrane
Executive Coordinator | Deputy Minister's Office
Ministry of Energy, Mines and Petroleum Resources
Victoria | British Columbia
Phone (778) 698 7254

The specialty-use vehicle incentive is managed by the Fraser Basin Council on the Ministry's behalf. Without knowing the exact context of the application the constituent should follow up with the program. However, we can provide bullets if the applicant can supply some further information regarding the issue.

Subject: RE: Prince George-Valemount -- Plug In BC

Hello again

It sounds like his concern involves the Specialty-Use Vehicle Incentive Program through Plug-In BC. It looks like they were initially approved to receive the rebate then the application was denied as the model was no longer shown under the eligible vehicles.

Danika

From: Hammond, Danika S EMPR:EX
Sent: Friday, March 22, 2019 10:35 AM
To: Cochrane, Marlene EMPR:EX
Subject: Prince George-Valemount -- Plug In BC

Hello Marlene

We have the following question from Prince George-Valemount

They have a constituent who has a concern with Plug In BC. But based on the website it doesn't show that the Ministry manages it – only says that, "Plug In BC is a program of the Fraser Basin Council and works in collaboration with **government**, industry, academic institutions, EV owners, NGOs and utilities. The program lays the groundwork for plug-in electric vehicles and related charging infrastructure in British Columbia."

Should the constituent be directed towards the Fraser Basin Council for assistance? Or can we assist with anything?

I don't know the constituent's actual concern at this time.

Thanks

Danika

Attachments: Canada Country Visit PR_INT_CV_PRT_CAN_14737_E_F.PDF; Canada SR Toxics EOM Statement 06 06 2019.docx

Hi Melissa: FYI - Please find attached the press release and end-of-visit statement from the United Nations Special Rapporteur (SR) on the implications for human rights of the environmentally sound management and disposal of hazardous substances and wastes.

As I had communicated earlier, the SR conducted a tour of Canada recently which included a stop in Vancouver. When in Vancouver he participated in a conference call with representatives from ENV, EMPR, and the OCG and had private meetings with other interest groups and stakeholders.

There's not a lot about B.C. specifically. I have highlighted references in the statement to the Trans Mountain Pipeline (pg. 5), coal mining in the Elk Valley (pg. 6) and Mount Polley (pg. 8/9).

Generally:

- There is a big focus on Indigenous Peoples and rights. He did mention there has been important progress made on UNDRIP but he feels the FPIC was not adequate yet.
- He felt those impacted by industry development are in areas in which individuals are unable protect their rights and do not have the resources, which could possibly be seen as discrimination. He said that he will look at this issue more closely and the access to justice.

These are only preliminary observations from the SR. A full report which will contain a more comprehensive analysis of the situation and recommendations from a human rights perspective, will be prepared and presented to the September 2020 session of the Human Rights Council.

BC Government Corporate Calendar

GCPE Strategic Communications | Events & Corporate Planning Unit

Please do not email the GCPE Corporate Calendar mailbox

Phone: 778 698-3498

The Look Ahead is an edited product of the BC Government Corporate Calendar system and is published daily between 4:15 to 4:45pm whenever possible.

Executive Summary: What is the Corporate Calendar?

The Corporate Calendar provides a bird's eye-view of all communications activities across ministries and major agencies. The purpose is to:

- *Inform senior government officials of all government activities.*
- *Prevent scheduling conflicts within government departments.*
- *Improve efficiencies within the organization.*
- *Streamline the business process of planning and executing government activities.*

Recently Published News Releases can be found here:

BCGov Newsroom: <https://news.gov.bc.ca>

News Archive: <https://archive.news.gov.bc.ca/>

CORPORATE CALENDAR LINK (RESTRICTED ACCESS):

<https://hub.gcpe.gov.bc.ca/Legacy/Calendar/>

MO & Comm Shops – Important Process

Reminders:

For a number of reasons, ALL events and releases are to be scheduled Corporately as far in advance as possible.

- Final news releases, statements and info bulletins etc. are to be sent for final processing **at least 24-48hrs ahead of publishing time (wherever possible)**, unless otherwise arranged. Please keep approvals moving and don't hold them up.
- Significantly **more lead time** is needed if **translation** is required, per recent emails from HQ Exec on this topic.
- Send all finals to the larger '**GCPE Editors'** list (NOT the Editorial Services list please). Include the approved publishing date, time and Corp Cal ID # in that email.

This email is intended solely for the person or entity to which it is addressed and may contain confidential and/or privileged information. Any review, dissemination, copying, printing or other use of this email by persons or entities other than the addressee is prohibited. If you have received this email in error, please contact the sender immediately and delete the material from any computer.

best.

Starting Monday, Alissa Brandt is the Senior Ministerial Assistant in the Social Development and Poverty Reduction Office. Alissa has several years senior experience serving Ministers in the Doer Government in Manitoba and in Alberta, most recently as the Chief of Staff to the Minister of Health. Alissa is delighted to join our team and return to the province she grew up in, having been raised in Fort St. John.

On Tuesday, Whitney Morrison is joining the Office of the Minister of Indigenous Relations and Reconciliation as a Ministerial Assistant. Whitney has recently returned to British Columbia after serving as Policy Advisor in the Office of former Minister of Justice Jody Wilson-Raybould. Whitney s.22 and was born and raised around Hazelton, BC.

Leah Squance is leaving her role at the end of the month and we are grateful for all her contributions since day one. Leah started with Minister Simpson the day he was sworn into Cabinet and had a key role in the development of British Columbia's first legislated Poverty Reduction Plan.

Please join us in welcoming Alissa and Whitney and sending best wishes to Leah and Sheena.

Importance: High

Tim:

Thank you for the meeting with Minister Donaldson and Mercer Celgar on Tuesday. I had a chance to speak to Melissa Sanderson yesterday and brief her on the meeting. As you will recall, David Gandossi of Mercer promised the Minister he would assemble a comprehensive brief about Celgar – its history in terms of its dealings with the Province and its potential. That briefing has been sent today to the Minister's general in-box. I wanted to make sure that you have a copy sent directly to you. I am also including Melissa. In the cover letter accompanying the brief is a call to temporarily suspend MWh volume allocations under the BC BioEnergy Program until such time the impact on Celgar can be assessed. I would expect those allocations to be in process now so this consideration would be urgent if any solution for Celgar's investment impasse is to be achieved within the context of the Program.

Please let me know if you have any questions.

Regards,

Mark

Subject: Week in Review: June 3-6

Good afternoon,

Here are a few highlights from our New Democrat government this week:

Premier's statement on the 75th anniversary of D-Day, Battle of Normandy

- Premier John Horgan released the following statement in commemoration of the 75th anniversary of D-Day and the Battle of Normandy:
- "On June 6, 1944, 14,000 Canadian soldiers landed on Juno Beach in France as part of the Battle of Normandy during the Second World War. This day has since become known as D-Day; a day that cost 359 Canadians their lives."
- "The sacrifices made by our veterans must never be forgotten. I wish to express my deep gratitude for the veterans who served our country and liberated our allies from tyranny."
- "Building a more peaceful and tolerant world begins with respectfully acknowledging the past and learning from our history. On this important anniversary, let us all commit to upholding the values of peace and freedom."

Raj Chouhan: Making sure you are safe at work

- [Read](#) Raj Chouhan's piece on workers' safety:
- "The exploitation of anyone working in our province runs against the values of British Columbians. While the BC Liberals allowed employers to willfully ignore and abuse the rights of workers in this province, we are standing up for them so they can make a safe and fair living."

Sheila Malcolmson: Clean BC supports affordable, lower-carbon living

- [Read](#) Sheila Malcolmson's piece on CleanBC:
- "I know that to achieve our climate goals as a government, we need to do everything we can to ensure that environmentally friendly choices are made as accessible as possible, to as many people as possible. The economy of the future needs to be one that works for everyone."

Increasing access to education for former youth in care

- For too long, youth aging out of care lacked the proper programs and services to help them successfully transition into adulthood. Our government is breaking down barriers and opening doors for former youth in care to thrive.
- This afternoon, Minister Mark announced \$250,000 in provincial government funding to help cover the cost of books, groceries, bills, and basic necessities for former youth in care attending post-secondary institution on a tuition waiver.
- The funding will be distributed through the Vancouver Foundation's [Youth Futures Education Fund](#).

Cascadia tour promotes CleanBC and economic opportunities

- The New Democrat Government is working with climate leaders across the world to cut carbon pollution, while making life more affordable for people and creating good jobs.
- Minister James is currently travelling to Washington state and California to meet with government officials and clean tech industry leaders. Her goal is to promote CleanBC, encourage cross-border business investment and raise the profile of B.C.'s diverse and sustainable economy.
- Today, James visited magniX, a Washington-based aviation company which is working with Vancouver-based Harbour Air Seaplanes to build the world's first all-electric airline

Collective efforts aim to prevent sexual violence on campus

- Students need and deserve safe spaces to study, and our government is committed to working with them, with institutions and with other stakeholders to make that a reality.
- Our government is investing \$760,000 in initiatives to prevent and respond to sexual violence on campus. This includes funding for coordinated resources and training, plain language policies and processes, and student outreach.
- One of the initiatives is the Moving Forward Together: Building Capacity to Prevent and Respond to Sexual Violence on Campus forum that took place this week. This closed-door forum brought together 125 student, post-secondary, community and ministry representatives to discuss issues and learn about support tools to prevent and respond to sexualized violence on campus.

Government taking action on local meat production recommendations

- The previous government's short-sighted agricultural policies led to a decrease in local meat production, severely harming our farmers and our rural economy. Last June, our government consulted with local farmers, producers, and processors across B.C. to find ways to strengthen our meat industry.
- The Province has accepted all 21 of the Select Standing Committee on Agriculture, Fish and Food's recommendations on improving local meat production in B.C., and has already made progress on several fronts.
- New initiatives include launching food safety and animal welfare training for producers and processors, seeking public input on new Class D licence regions, featuring more local meat products as part of the Buy BC Program, and increasing the budget for Grow/Feed/Buy BC.

Mining Done Right

By Michelle Mungall
Minister of Energy, Mines and Petroleum Resources

June 2019
(253 words)

As Minister of Energy, Mines and Petroleum Resources, I fully appreciate that there are many views on the way that mining is done in this province. On May 15, several advocacy representatives came together to publicly release their 'Mining Law Reform' report which proposed several environmental and financial initiatives for the Province to consider. While we certainly recognize that there is more work to be done, it's also important to note that this report doesn't speak to any of the hard work we're doing right now.

B.C.'s mining sector has made great strides this year, and our government is making sure industry has the tools it needs to do mining right. We've invested more than \$20 million over three years for enhanced regulatory oversight, improved authorizations processes, permitting and compliance and enforcement. That means putting more boots on the ground to ensure that every mining operation in B.C. is a safe place to work and respects our environmental values. That's doing mining right.

We're also taking a staged approach to acting on the 25 recommendations made by the Mining Jobs Task Force. We will use these to create more certainty and more great jobs around this province.

Mining is a key part of our government's plan to build a stronger economy for today, tomorrow and beyond; but the benefits of mining shouldn't come at the expense of safety or our natural environment. We believe we can do both and we will work with industry to make sure mining in B.C. is done right.

Subject: BCUC decision CoV Fortis biogas agreement

Good morning

On September 21, 2018, FortisBC Energy Inc. filed with the BCUC an application for acceptance of a Biogas Purchase Agreement between FEI and the City of Vancouver.

Under the BPA, FEI intends to:

- purchase raw biogas (such as landfill gas) from the City of Vancouver;
- construct and operate facilities to upgrade landfill gas to biomethane; and
- construct interconnection facilities including a 500 metre pipeline to connect to FEI's existing natural gas distribution system.

Section 3.8 of the Greenhouse Gas Reduction Regulation allows utilities to

(3.8) The public utility acquires renewable natural gas
(a) for which the public utility pays no more than \$30 per GJ, and
(b) that, subject to subsection (3.9), in a calendar year, does not exceed 5% of the total volume of natural gas provided by the public utility to its non-bypass customers in 2015.

Definition of "acquire"

Given the accepted principles of statutory interpretation and these broad definitions, the Panel is satisfied that, when considered together, the process of purchasing and taking possession of raw landfill gas from the COV and upgrading it to RNG satisfies the meaning of "acquires renewable natural gas" in section 2(3.8) of the GGRR.

s.14

\$30 price cap

If this were an application to acquire finished RNG supply at a contract price of, say \$30.50 per GJ, our decision would be much more straightforward. A contract price of \$30.50 per GJ is above the cost cap provided by the GGRR and therefore the acquisition of RNG would not be a prescribed undertaking. Conversely, if the contract price were \$29.50 per GJ, the acquisition of RNG could be a prescribed undertaking, if the other relevant conditions were met. In this proceeding though, we are asked to approve, as a prescribed undertaking, a contract with a levelized cost that is “significantly below” \$30 per GJ and is “unlikely” to exceed that cap.

The Panel finds that FEI has not provided a certain, fixed cost for the acquired RNG during the term of the contract. As such, the Panel is unable to determine with any degree of certainty whether the cost is below, at or above the \$30 per GJ threshold and therefore cannot find this Project to be a prescribed undertaking.

The Ministry’s intention was such that should project costs exceed the \$30 cap, the project would no longer be a prescribed undertaking under the GGRR.

Contracted volumes

The Panel is satisfied that given FEI’s current contracted maximum supply of RNG is 639,000 GJ annually, the projected RNG volume for the Project remains well within the maximum annual RNG acquisition volume of 8,900,000 GJ that would qualify under section 2(3.8)(b) of the GGRR.

Panel Determination

The Panel declines to make any determination with regard to FEI’s request for acceptance of the COV BPA in its current form under section 71 of the UCA.

The Panel finds that FEI has adduced sufficient evidence to demonstrate that the Project amounts to an acquisition of RNG within the volumes stipulated under section 2(3.8)(b) of the GGRR but has failed to satisfy the Panel that FEI would be paying no more than \$30 per GJ of RNG throughout the life of the Project, even on a conservative levelized cost basis. Accordingly, the Panel finds that the Project does not meet the requirements as a prescribed undertaking under the GGRR, and hence section 18(3) of the CEA does not apply.

Section 18 (3) stipulates that the commission must not exercise a power under the Utilities Commission Act in a way that would directly or indirectly prevent a public utility referred to in subsection (2) from carrying out a prescribed undertaking.

The Panel adjourns this proceeding for 60 days to allow FEI, should it so choose, to restructure and resubmit the Project and its BPA with the COV in a way that provides the required certainty to FEI’s acquisition cost of the RNG so as to qualify as a prescribed undertaking within the specified cost threshold. Alternatively, FEI may withdraw this application and file a new application for approval of a CPCN for the Project should it wish to do so.

Thank you

Subject: Interview request — “BC government proposes to sell Nine Tribes land to the Nisga’a Nation”

Hi Sarah and Tania,

would it be possible to set up a short 10min interview with Minister Scott Fraser at some point today or tomorrow morning?

There is a full page ad in our newspaper this week from Metlakatla and Lax Kw’alaams on “BC government proposes to sell Nine Tribes land to the Nisga’a Nation”.

In the ad it says that Metlakatla and Lax Kw’alaams proposed a solution involving the transferring of the Nasoga Gulf Lands to the Nisga’a Nation, but the Provincial government won’t meet with them.

I plan to write up a story within the next 24 hours. Please let me know if you can set up an interview with Minister Fraser.

Sincerely,

Shannon Lough

Dear Chief Mueller, Chief Nooski and Chief Patrick:

Thank you for your follow-up letter of May 2, 2019, which was also addressed to my colleague, the Honourable Michelle Mungall, Minister of Energy, Mines and Petroleum Resources, regarding the Blackwater Gold Project (Blackwater).

As you know, on May 17, 2019, Blackwater was referred to Minister Mungall and me for decision. You have requested a meeting to discuss your concerns about accommodation and your recommendation as to a decision on the Environmental Assessment. You will by now be aware that a meeting has been scheduled for the Carrier Sekani First Nations to represent your views to Minister Mungall and me in advance of our decision on Blackwater.

Should you have any questions or concerns in the meantime, please feel free to reach out to Kevin Jardine, Associate Deputy Minister for the Environmental Assessment Office at 250 356-7479 or

Kevin.Jardine@gov.bc.ca, or Shelley Murphy, Executive Project Director for the Environmental Assessment Office at 778 698-9311 or Shelley.Murphy@gov.bc.ca.

Thank you again for taking the time to write and for sharing your concerns with me.

Sincerely,

George Heyman
Minister

Hi there,

Attached is one of two decision notes on the CleanBC Industrial Incentive Program Design. The attached sets out two decisions on the program (benchmark review period and carbon price) that that requires approval by your DM and Minister. The second decision note (re: new entrant period) will come in the next few days.

My understanding is that your DM agreed to brief your respective ministers, should they request one and that sign-off is required by June 14th in order to meet timelines set out in the LGN-Canada agreement.

Is it possible to receive the attached back in word format with MCJ, MMM and MBR esigs attached by June 14?

Importance: High

Hi all – please see the below memo with respect to the MA meeting tomorrow.

Hello,

On June 7, Emergency Management BC staff will be providing a 45 minute orientation on satellite phones.

IMPORTANT: During the session, your Minister's Globalstar satellite phone will be replaced with a new Iridium phone, **so please bring your Minister's satellite phone to the session.**

Session Outcomes

At the end of the session you should have a basic understanding of:

- How the satellite phones work.
- How to program the phones (hands-on).
- Who to contact for support—so that you are able to support your Minister.
- The importance of ensuring your Minister has their satellite phone at all times.

Future

- Following the session, it is hoped that you will support one another as you learn how to use the phones and orient your ministers.
- EMBC will follow-up with regular satellite phone orientation and testing (schedule to be determined)—or alternative support service option.

Session Materials

You will receive the following:

- Presentation, including the agenda (attached)

- Satellite phone operational instructions (in advance of the session).
- Senior Officials' Guide for ministers and deputy ministers (attached).
- Satellite phone dialing instructions and the contact list of ministers' satellite phone numbers (during the session)
- Senior Officials' ID card (to allow ministers access through road blocks, etc.) (during the session)

I think this will be a helpful and interesting session.

Please feel free to contact Karen at the below number if you have any questions.

Hi Judy,

We had ~12 attendees (Johnson, can you confirm?) including MLA Stewart and one reporter that writes for a few of the local papers including westside weekly. Her questions and comments asserted that she thinks the project is cancelled. Dag did the interview and emphasized repeatedly that all alternatives are still on the table but her tone sounds similar to the reporter who got a lot of facts wrong a few weeks ago. We'll have to watch to see what she ends up writing. MLA Stewart is happy that we are being thorough in reviewing the project costs. He cited NTL as an example of a project with increased costs. Overall, not many attendees but they all stayed for a long time and conversations were all reasonable. Not a lot of negativity.

My understanding is that your DM agreed to brief your respective ministers, should they request one and that sign-off is required by June 14th in order to meet timelines set out in the LGN-Canada agreement.

Is it possible to receive the attached back in word format with MCJ, MMM and MBR esigs attached by June 14?

To: MINISTERIAL ASSISTANTS
ADMIN CO-ORDINATOR

Enclosed please find the Minister's monthly transactions that have been redacted to remove items that require severing. If you hover over the text that shows the redaction with a red box around it, you will see why that information is being redacted. Please review the file for accuracy. If there is an item that you feel should be redacted please contact me via email by the 22nd day of the month for resolution/correction. If there are no edits to be made, we do not require a response at this time.

Please share the package with your GCPE contact within 1 business day.

This email is a preliminary copy and approval will be required for the Quarterly release which will include this month and the other months in the quarter.

Thank you and please give me a call if you have any questions.

Best regards,

Debra

The PO would like us to just webpost this IB and not distribute. There is no quote and it's planned to be put out tomorrow. Happy to discuss more.

New website details regulatory oversight for LNG Canada

VICTORIA – A new online interface has been launched to provide information about British Columbia's regulatory oversight related to the LNG Canada project.

Effective immediately, online visitors can find details about the initial environmental assessment process, partnerships with Indigenous Nations, permitting, regulations, and compliance updates as they relate to LNG Canada and its connecting pipeline – Coastal GasLink.

Government documents, including those from the BC Oil and Gas Commission and British Columbia's Environmental Assessment Office, can be searched and downloaded. There is an FAQ section that provides answers related to the provincial government's regulations and authority. And visitors can also access a map for visual reference and additional content.

Updates to the site will occur frequently as new information is uploaded and supplementary features are added to improve user experience and access to information.

The website was established as part of the provincial government's work to ensure the LNG industry continues to meet British Columbia's four conditions for liquefied natural gas development.

The LNG regulatory interface is available at lng.gov.bc.ca.

Top Stories in South Asian Media:

- Surrey Police report - RED FM - Mr Thind reports that the federal government via a letter has said that they support Surrey's transition to a municipal Police Force. He said the letter by Ralph Goodale also states that if the municipal government approves the report, they would even be willing to help pay for some of the costs. He said this is a very positive sign for the city. Mr Thind said that the Mayor despite many obstacles is very clear that he will bring a municipal police force as promised in his campaign for the people of Surrey.
- Surrey Police report - Media Waves. Hosts Ashiana Khan and Kuljit Kaur criticize councillors Jack Hundial, Brenda Locke and Linda Annis for going against the Mayor in his plans for bringing a municipal police force. Talking about Locke and Hundial they said that they campaigned alongside the Mayor on his platform, on this issue and are now going against him, which is morally and ethically wrong. He also levelled allegations against the BC Liberal party saying that perhaps Brenda Locke is doing this at the behest of them who want to gain seats in Surrey by creating an atmosphere of dissent thereby pressuring NDP to reject this report and as a result gain support here. They said Ministers such as Harry Bains should advise the Solicitor General to approve the report.

Subject: RE: ENV Media Request: Electric vehicles, recycling batteries and CleanBC

Environment MO has approved the following response – some rearranging of order, plus removing line about China, EV number projections and line about battery recycling not being regulated in BC. I okayed to send to the reporter:

Recommendation

- The producers of these batteries and car manufacturers are best suited to answer questions on the end-of-life management of EV batteries and any associated costs and fees charged at purchase.
- The ministry is currently reviewing products that may be suitable for future inclusion under recycling legislation and, given the growth in EV batteries, they will be part of this
- There are a number of things that industry and jurisdictions are looking at for extending the life of and recycling batteries from EVs.
- When EV batteries no longer meet power requirements of cars, they are usually still sufficient for stationary power needs.
- Automakers are ramping up efforts to deploy these old batteries for stationary power for street light power, remote island power, and home back-up power.

Subject: FW: ENV Media Request: Electric vehicles, recycling batteries and CleanBC

Hi,

Below are the bullets that Enviro's MO has approved. I've highlighted the bullets we provided – any concerns?

Thanks,
Holly

Recommendation

- Currently the recycling of EV batteries is not regulated by government.
- The producers of these batteries and car manufacturers are best suited to answer questions on the end-of-life management of EV batteries and any associated costs and fees charged at purchase.
- The ministry is currently reviewing products that may be suitable for future inclusion under recycling legislation and, given the growth in EV batteries, they will be part of this review.
- There are a number of things that industry and jurisdictions are looking at for extending the life of and recycling batteries from EVs.
- When EV batteries no longer meet power requirements of cars, they are usually still sufficient for stationary power needs.
- Automakers are ramping up efforts to deploy these old batteries for stationary power for street light power, remote island power, and home back-up power.
- By 2030, we anticipate over 350,000 zero-emission vehicles on the road.

Reporter Randy Shore, Vancouver Sun

Deadline ASAP

Request

Could you direct me to the part of the CleanBC plan that deals with the end of life recycling systems for EVs and their batteries?

Who is doing this work now?

Are there plans to scale up as more EVs reach the end of their life or have their batteries replaced?

Are there projections about how many expiring electric cars and batteries will need to be recycled and what that means in terms of volume of the constituent elements in the coming years? Perhaps you have numbers up to 2030 and 2040?

Do you have projections about how much energy will be expended, what toxic materials will be left and how we will dispose of those?

What is the anticipated cost of recycling an entire electric car? Just a retired battery?

Is a recycling fee charged when electric car batteries or EVs are purchased?

Who bears the cost of that recycling process? How will electric car battery recycling be funded when the numbers start to ramp up?

Hi Melissa,

Request for review from Ben Parfitt. Note this is for a commentary for Vancouver Sun. The response below has been approved by Nate Amann-Blake.

Kent.

Reporter: Ben Parfitt, Vancouver Sun (Commentary)

Deadline: Friday, June 7, 2019 4:30 PM

Request:

I am working on a commentary for The Vancouver Sun on the use of administrative monetary penalties to try to encourage compliance with provincial laws. Could you tell me whether the Ministry of Energy and Mines has issued any such penalties to Placer Mining companies in the last while, and if so what the penalty amount(s) was, which company(its) were issued the penalties and for what offences.

Suggested Response:

The Ministry of Energy, Mines and Petroleum Resources issued an Administrative Monetary Penalty (AMP) in the amount of \$28,000 to placer miner Pinegreen Gold Mining (Canada) on March 4, 2019. This penalty was issued for operating without a *Mines Act* permit, in contravention of *Mines Act* s.10(1), near Quesnel British Columbia. The penalty has been paid in full, money goes into general revenue.

This was the first AMP issued under the new regulation which came into effect in 2017 through [amendments to the Mines Act](#). There are a number of AMPs awaiting decision

but as they are currently in front of the Statutory Decision Maker (SDM), we are not able to share specifics about these ongoing enforcement processes.

Another Compliance & Enforcement tool for placer titles is under the [Mineral Tenure Act](#). Last year (Fiscal 2018-2019), there was one Section 40 complaint which was upheld and the claim ordered cancelled. Under Section 10, there were 18 notices actioned (12 of which were placer) and 6 Free Miner Certificates cancelled or suspended (5 of which were placer).

BC Government Corporate Calendar

GCPE Strategic Communications | Events & Corporate Planning Unit

Please do not email the GCPE Corporate Calendar mailbox

Phone: 778 698-3498

The Look Ahead is an edited product of the BC Government Corporate Calendar system and is published daily between 4:15 to 4:45pm whenever possible.

Executive Summary: What is the Corporate Calendar?

The Corporate Calendar provides a bird's eye-view of all communications activities across ministries and major agencies. The purpose is to:

- *Inform senior government officials of all government activities.*
- *Prevent scheduling conflicts within government departments.*
- *Improve efficiencies within the organization.*
- *Streamline the business process of planning and executing government activities.*

Recently Published News Releases can be found here:

BCGov Newsroom: <https://news.gov.bc.ca>

News Archive: <https://archive.news.gov.bc.ca/>

CORPORATE CALENDAR LINK (RESTRICTED ACCESS):

<https://hub.gcpe.gov.bc.ca/Legacy/Calendar/>

MO & Comm Shops – Important Process

Reminders:

For a number of reasons, ALL events and releases are to be scheduled Corporately as far in advance as possible.

- Final news releases, statements and info bulletins etc. are to be sent for final processing **at least 24-48hrs ahead of publishing time (wherever possible)**, unless otherwise arranged. Please keep approvals moving and don't hold them up.
- Significantly **more lead time** is needed if **translation** is required, per recent emails from HQ Exec on this topic.
- Send all finals to the larger '**GCPE Editors'** list (NOT the Editorial Services list please). Include the approved publishing date, time and Corp Cal ID # in that email.

This email is intended solely for the person or entity to which it is addressed and may contain confidential and/or privileged information. Any review, dissemination, copying, printing or other use of this email by persons or entities other than the addressee is prohibited. If you have received this email in error, please contact the sender immediately and delete the material from any computer.

Hi there,

Attached is one of two decision notes on the CleanBC Industrial Incentive Program Design. The attached sets out two decisions on the program (benchmark review period and carbon price) that requires approval by your DM and Minister. The second decision note (re: new entrant period) will come in the next few days.

My understanding is that your DM agreed to brief your respective ministers, should they request one and that sign-off is required by June 14th in order to meet timelines set out in the LGN-Canada agreement.

Is it possible to receive the attached back in word format with MCJ, MMM and MBR esigs attached by June 14?

To: Minister, EMPR EMPR:EX <EMPR.Minister@gov.bc.ca>
Subject: Meeting request

Dear Minister Mungall,
I would like to request a meeting to discuss ITM Powers recently completed feasibility study for BC based large scale hydrogen production and export.

The project was undertaken in close discussion with Guy Gensey and his group together with our partner companies Mitsui and Chiyoda corp.

The meeting would be to provide you with a summary of the main findings and discuss potential next steps to deploy a commercial plant in the region.

I would very much like to invite senior representatives from Chiyoda and Mitsui as well as Guy Gensey if appropriate.

If the meeting is possible I would welcome a few dates that would work for you so that we can ensure all parties can be present (some may be travelling from Japan)

Thank you

Subject: FW: Correspondence regarding the Blackwater Gold Project
Attachments: 2019-06-04-Letter to BC Ministers.pdf

This letter pertains to New Gold's proposed Blackwater Gold Project current under consideration by Ministers Heyman and Mungall. The EAO will review and provide a response, should one be required.

As you are both aware, EAO's collaboration agreement with Carrier Sekani First Nations (CSFNs) provides for an audience with Ministers, which is scheduled for next Tuesday AM. Administrative fairness necessitates a meeting with other involved Indigenous groups – currently scheduled for next Friday PM - and potentially the proponent. We will advise accordingly should anything change.

Please don't hesitate in the meantime to contact me with any questions you may have.

K.

From: Employee News PSA:EX
Sent: June 5, 2019 11:31 AM
Subject: Workplace Impairment Policy Resources

Employee News

Workplace Impairment Policy Resources

Impairment Policy Updates

Non-medical cannabis became legal in Canada on October 17, 2018. At that time, the BC Public Service updated:

- [The Standards of Conduct](#)
- [HR Policy 4 – Workplace Health and Safety](#)

The policy updates clarified and confirmed our existing approach to workplace impairment. These updates were communicated in [an executive message](#) in October 2018.

BC Public Service employees are responsible for their own workplace conduct. They must follow all applicable laws, by-laws, policies, and guidelines governing cannabis.

Consistent with these changes, employees are not permitted to consume non-medical cannabis products in any BC Public Service workplace.

Your Role

Supervisors are key players in setting and managing expectations about workplace impairment and health and safety in the workplace.

As a supervisor, it's important you know your role and responsibilities related to workplace impairment. If you don't feel confident in dealing with these issues, talk to your supervisor.

What is Impairment?

Workplace impairment can be caused by many substances and conditions.

Substances include legal drugs, like cannabis and alcohol, illegal drugs like cocaine and ecstasy, prescription drugs like painkillers and over-the-counter drugs like decongestants and sleep aids.

Conditions that can cause impairment include fatigue, insomnia, disability and chronic health conditions.

Impairment at work is not safe or acceptable. It poses a risk to employees, their colleagues, the public and the environment.

The BC Public Service expects employees to:

- Be fit for work
- Effectively perform their job duties
- Conduct themselves in a manner that upholds public trust
- Conduct themselves in a manner that supports the integrity of the BC Public Service

Resources

Supervisors and managers said they needed more support in dealing with workplace impairment.

In response to this, new tools for employees and supervisors are available on MyHR.

- MyHR: [Impairment in the Workplace](#)

Frequently Asked Questions:

- [Impairment in the Workplace: Questions & Answers \(All Employees\)](#)
- [Impairment in the Workplace: Questions & Answers \(Managers & Supervisors\)](#)

Resources and supports:

- [Supervisor's Guide to Recognizing & Managing Impairment in the Workplace](#)
- [Meeting in a Box – Impairment in the Workplace](#)
- [Tools and Resources](#)

As a supervisor, you are responsible for familiarizing yourself with these resources.

If employees need help with addiction, there are many services available to support supervisors and employees. These include counselling and other services offered by [Morneau Shepell](#), the [Occupational Health and Safety Program](#), and the [Substance Use Disorder Treatment Funding program](#). [Contact MyHR](#) for more information.

Questions?

If you have questions about workplace impairment, contact [David Hay](#).

Hi Alison,

Below is approved quote for the mines rescue competition NR.

“This event showcases the skill and professionalism of B.C.’s mine safety and rescue personnel,” said Michelle Mungall, Minister of Energy, Mines and Petroleum Resources. “Our government has put new resources in place to support mine safety and the frontline workers who are making a difference in communities across the province. Thank you to everyone who participated in this year’s Mine Rescue and First Aid Competition for their dedication to mine safety.”

Subject: Re: MMM quote for Mine_Rescue_Competition news release

Thanks - I would think they may if they published stories on it and haven’t announced the winners. We will see what we can do about approval.

Sent from my iPhone

On Jun 4, 2019, at 1:05 PM, Giles, Alison GCPE:EX <Alison.Giles@gov.bc.ca> wrote:

So....they’ve already published three stories on the competition so whether they’ll pick this news release up is questionable. They are a Wednesday/Friday paper.

We’ll be sending it province-wide so it may get picked up elsewhere.

Melissa/Andrew,

Quote approved and now embedded:

"This event showcases the skill and bravery of B.C.'s mine safety and rescue personnel," said Michelle Mungall, Minister of Energy, Mines and Petroleum Resources. "Our government has put new resources in place to support mine safety, and it's the people on the ground who make a difference. Congratulations to this year's competition winners, to all the women and men who competed, and to your colleagues throughout the province, who embody the professionalism that keeps mining safe in B.C."

Hi David,

We have a virtual office and the 120-5951 No 3 Road is just a post office box.

I like to suggest that the visit be held at our manufacturing location as below:

Foreseeson Technology
#2105-11980 Hammersmith Way
Richmond, BC, Canada V7A 04A

Please let me know what time your team will be at the above address on June 11.

Edward Li

and the frontline workers who are making a difference in communities across the province. Thank you to everyone who participated in this year's Mine Rescue and First Aid Competition for their dedication to mine safety."

The 2019 Provincial Mine Rescue and First Aid Competition, hosted by the Province of British Columbia in Williams Lake, was an all-day event that provided an opportunity for teams to not only practice and showcase their skills, but to learn from one another – knowledge that is vital in real rescue situations.

The competition pits teams of mine safety and rescue professionals from across the province against one another in head-to-head competitions involving simulated mine rescue situations.

This annual event follows the announcement of new resources allocated to the Ministry of Energy, Mines and Petroleum Resources in Budget 2019 that will improve mine safety for workers and the environment. The ministry now has two expanded mining divisions: The Mines Health, Safety and Enforcement Division and the Mines Competitiveness and Authorizations Division. This supports recommendations from the Mining Jobs Task Force released earlier this year.

Through the ongoing co-operative efforts of mine employees, mine management, unions and regulators, mining continues to be one of the safest heavy industries in B.C. A complete list of the winners follows in a backgrounder.

Learn more: Provincial Mine Rescue Competition:

Where did the address in Burnaby (7475 Headley Ave) for the ARC announcement come from?

AVL's headoffice in Canada (see below) is actually in another riding (Burnaby-Lougheed). Is the project that we're funding going to be at their location in Burnaby-Edmonds?

Betreff: ARC-related AVL visit on June 11

Hello Simon,

Please let me introduce you to Amber and Jason from the Burnaby Edmonds constituency office. They will be your contacts for arranging a visit of MLA Raj Chouhan on June 11, between 11am-noon. Best wishes!

As discussed, please send me the AVL quote for the news release when you have that prepared.

Kind regards,
David

Subject: 30/60/90 reports

As I have mentioned at exec and discussed with a couple of you, you will soon be seeing a long memo from Don Wright Re cabinet process and priority setting. As part of that we will need to start doing monthly 30/60/99 reports of upcoming and planned priorities. Suffice to say if it isn't on these reports then it won't be getting agenda time. So this process is important. As such I will ask Rhonda to be the gatherer of this info. There was talk of a template but for now just a document with items listed with expected cabinet/tb/eluc/big announcements dates will do. Rhonda will send a separate note to you all Re any specific instructions she may have. Let's try to get this to me at least a few days before it's due.

See below for an excerpt I have cribbed from Don's omnibus note. I don't have permission to share the whole memo yet as he wants to send something to ministers first. Note that we already missed this month which I'm not fussed about. But we do need something for next month. ...

My office (DMPO) will be taking a more-active role in priority setting. Deputy Ministers are asked to provide your Cabinet Confidential 30-60-90-day work plans or other priority trackers to Amanda Shortt monthly, with the first being due on June 3, 2019. This should include Cabinet Committee items as well as ongoing Ministry programming and is incremental to and more detailed than the "forward agendas" that DM Committees and Ministries provide to their Cabinet Operations contacts. Please highlight Cabinet items in yellow, so that Cabinet items can be easily differentiated from Ministry work items. We will review work plans with you during regularly scheduled meetings.

Dave Nikolejsin
Deputy Minister
Energy, Mines and Petroleum Resources

BC Government Corporate Calendar

GCPE Strategic Communications | Events & Corporate Planning Unit

Please do not email the GCPE Corporate Calendar mailbox

Phone: 778 698-3498

The Look Ahead is an edited product of the BC Government Corporate Calendar system and is published daily between 4:15 to 4:45pm whenever possible.

Executive Summary: What is the Corporate Calendar?

The Corporate Calendar provides a bird's eye-view of all communications activities across ministries and major agencies. The purpose is to:

- *Inform senior government officials of all government activities.*
 - *Prevent scheduling conflicts within government departments.*
 - *Improve efficiencies within the organization.*
 - *Streamline the business process of planning and executing government activities.*
-

Recently Published News Releases can be found here:

BCGov Newsroom: <https://news.gov.bc.ca>

News Archive: <https://archive.news.gov.bc.ca/>

CORPORATE CALENDAR LINK (RESTRICTED ACCESS):

<https://hub.gcpe.gov.bc.ca/Legacy/Calendar/>

MO & Comm Shops – Important Process

Reminders:

For a number of reasons, ALL events and releases are to be scheduled Corporately as far in advance as possible.

- Final news releases, statements and info bulletins etc. are to be sent for final processing **at least 24-48hrs ahead of publishing time (wherever possible)**, unless otherwise arranged. Please keep approvals moving and don't hold them up.
- Significantly **more lead time** is needed if **translation** is required, per recent emails from HQ Exec on this topic.
- Send all finals to the larger '**GCPE Editors' list** (NOT the Editorial Services list please). Include the approved publishing date, time and Corp Cal ID # in that email.

This email is intended solely for the person or entity to which it is addressed and may contain confidential and/or privileged information. Any review, dissemination, copying, printing or other use of this email by persons or entities other than the addressee is prohibited. If you have received this email in error, please contact the sender immediately and delete the material from any computer.

Energy, Mines & Petroleum Resources Media Report – June 04, 2019

New

Reporter: Ben Parfitt, Vancouver Sun (Commentary)

Deadline: Friday, June 7, 2019 4:30 PM

Request: I am working on a commentary for The Vancouver Sun on the use of administrative monetary penalties to try to encourage compliance with provincial laws. Could you tell me whether the Ministry of Energy and Mines has issued any such penalties to Placer Mining companies in the last while, and if so what the penalty amount(s) was, which company(its) were issued the penalties and for what offences.

With Program

Ongoing

NA

Complete

Reporter: Jake Richardson, CleanTechnica.com

Deadline: Wednesday, June 5, 2019 4:30 PM

Request:

1. All new light duty trucks and cars sold in the province will be ZEV by 2040. Does that mean only electric vehicles or are some also fuel-cell vehicles?
2. Does light duty mean vehicles used for personal transportation but not delivery vans and trucks?
3. How many ZEVs are on the roads in the province currently?
4. Are most of them electric?
5. Can you provide some details about how the CEVforBC rebate program works?
6. In your release it says, "British Columbians who purchase electric vehicles typically save about 75% on their fuel and maintenance costs, which currently add up to about \$1,500 per year." That's a lot of money to save every year...is the public aware yet of how much they could save?
7. With all the new ZEVs on the roads and the greater number that is coming, are you also increasing the number of public charging stations?
8. Does the government promote EVs with outreach events?

GCPE provided information on background

1. All new light duty trucks and cars sold in the province will be ZEV by 2040. Does that mean only electric vehicles or are some also fuel-cell vehicles?

In this legislation, a CEV is a motor vehicle that:

- never emits tailpipe emissions (i.e. battery-electric vehicles (BEVs) and hydrogen fuel cell electric vehicles (HCFVs)); and
- does not emit tailpipe emissions at least some of the time while being operated (i.e. plug-in hybrid electric vehicles (PHEV) and extended range electric vehicles (EREV)).

2. Does light duty mean vehicles used for personal transportation but not delivery vans and trucks?

Forthcoming regulations will determine the vehicle class that ZEV Act applies to. However, it is anticipated that it would apply only to on-road light-duty vehicles, with weight ratings of less than 3,856 kilograms. This would include cars,

crossovers, SUVs and light pick-up trucks (e.g. Ford F150), but not heavier, medium- and heavy-duty trucks (e.g. Ford F250, buses, transport trucks and medium-duty delivery vans). Crossovers and SUVs like the Honda CR-V and Chevrolet Tahoe would be included.

The legislation has been written to be able to, by regulation, exclude certain vehicles like motorcycles or farm equipment, as well as, set targets for other vehicle classes.

3. How many ZEVs are on the roads in the province currently?

There are currently more than 20,000 electric vehicles on the road – with 350,000 expected on the roads by 2030. (battery electric, plug-in hybrid electric, and hydrogen fuel cell electric).

4. Are most of them electric?

The majority of CEVs on the road are plug-in vehicles. (We don't have a breakdown between BEV/PHEV currently). There are less than 15 FCEVs in B.C. with more expected in the near future.

5. Can you provide some details about how the CEVforBC rebate program works?

Information on how the program works can be found [HERE](#). Other FAQ's can be found [HERE](#).

6. In your release it says, "British Columbians who purchase electric vehicles typically save about 75% on their fuel and maintenance costs, which currently add up to about \$1,500 per year." That's a lot of money to save every year...is the public aware yet of how much they could save?

B.C. is a leader in clean energy vehicles (CEVs) with one of the largest public charging infrastructure networks in Canada (over 1,700 charging stations), the first public hydrogen fuelling station in Canada with plans to build out more, and the highest per capita adoption of CEVs in the country (4% of new light-duty vehicle sales in 2018, and over 6% of new light-duty vehicle sales in the first quarter of 2019).

Media attention on CEVs from both provincial and federal incentives to increased public demand and the number of CEVs on the road has been widespread. Government has also held two annual 'CEV Day at the Legislature' events to draw attention to the benefits of CEV ownership, which has garnered both public and media attention. Word-of-mouth among the public can also not be overlooked, and has helped to bring awareness to the money you can save by owning a CEV.

7. With all the new ZEVs on the roads and the greater number that is coming, are you also increasing the number of public charging stations?

Funding will support a range of initiatives, including supporting the creation of new public fast-charging and hydrogen fueling stations.

The CEVforBC program is also offering advisor and consultation services for the installation of electric vehicle charging in multi-unit residential buildings and workplaces. Information on the advisor and consultation services available is located at <https://pluginbc.ca/incentives/charging-solutions-incentives/>. The provincial "Plug-In BC EV Advisor" can provide services to help find charging solutions for a site, including onsite presentations and education and general site consultations; these consultations are primarily an introductory overview and are not a substitute for an electrician.

8. Does the government promote EVs with outreach events?

Yes. As mentioned above, the provincial government has held two annual CEV Day events at the B.C. Legislature to highlight the vehicles and incentives available. Government has also been active in promoting the available incentives, details of which are available at [CEVforBC.ca](https://cevforbc.ca).

Subject: introduction to new President & CEO of AME

Hello Minister Mungall:

I hope this message finds you well after a very busy session!

As you may know, I will be leaving the Association for Mineral Exploration (AME) at the end of June and first, I wanted to thank you for your support and leadership on our file.
It has been a pleasure getting to know you and also feel the real support from yourself and your office.

As the first female President and CEO of AME, I am thrilled to let you know that the second female President was appointed and will be confirmed at our June 13th, 2019 Board of Directors meeting!

Kendra Johnston is a Professional Geologist with an MBA and incredible, on the ground experience. She is also a long time supporter of AME and is very familiar with the exciting work we have done together, including the Mining Jobs Task Force report.

Kendra was also most recently our Board Chair; I am very proud of our 25 person Board of Directors made up of 12 women, 3 indigenous leaders and 8 regional representatives. It's also important to note that 28% of our Board is under 45 years of age.

Kendra and I will be in Victoria on June 25th for a meeting with the five key Deputy Ministers and would love to pop by and say "hello" (and thank you!) in person, if possible.

Can you let me know if that day or another may work for you?

Thanks again and I hope we can keep in touch!

E.

Subject: BMO Travel card - authorizations being declined

Importance: High

To BMO Travel cardholders:

There seems to be a marked increase in declined authorizations on a number of BMO Travel cards where the decline reason is 'Invalid CVC / Expiry Date'.

BMO believes these cards have been targeted in a BIN attack where combinations are tested on online sites for small dollar values until the right combo of account number, expiry, and CVC code are identified. BMO's system is blocking these types of transactions. Because this is a brute force attack, there are/will be instances where cards become compromised because the account number, expiry, and CVC code have been successfully identified.

BMO's Fraud Department are monitoring transactions and will block cards that have become compromised. If your card has been compromised, BMO will contact me and I will contact you to confirm the charges.

Please closely review your recent transactions as well as your May 3rd and June 3rd statements for fraudulent transactions.

Please Email me if you see any transactions which you do not recognize.

Thank You.

Top Stories in Chinese Media:

- **30th anniversary of Tiananmen Square:**
 - In commemoration of the 30th anniversary of June 4th, the Vancouver Society in Support of Democratic Movement (VSSDM) held a wreath-laying ceremony at UBC's Goddess of Democracy statue on Sunday. Nearly 100 people participated in the event. (Sing Tao Daily News, Ming Pao News)
 - This year is the 30th anniversary of June 4th, but there are many young people born in China in the 90s don't know that Tiananmen Square protest happened. The commemoration activities were held in North America and Hong Kong. (Sing Tao Daily)
- **MMIWG report:** Premier Horgan says the provincial government is committed to learning from the stories, taking action and enacting change, adding that the report and its recommendations will be reviewed in detail. They will also be considered in context with the New Democrat government's work to implement the United Nations Declaration on the Rights of Indigenous Peoples and the findings of the Truth and Reconciliation Commission. (TNO Fairchild Radio)
- **Huawei works with B.C. company to improve internet speed in rural areas.** Huawei public affairs director for Canada Christopher Pereira said the company has been in Canada since 2008, and it has never had a security incident in Canada. The company submits to third-party scrutiny in multiple locations around the world and meets or exceeds all network cybersecurity standards. (TNO Ming Pao News)

- **Surrey residents sign online petition against a municipal police force.** The online petition to "Keep the RCMP in Surrey" has more than 5,200 signatures of support. Earlier this week, Public Safety Minister Mike Farnworth said the transition is complicated and it will take time before details are released. (TNO Sing Tao Daily News)

Top Stories in South Asian Media:

- Surrey police transition plans
- Release of report into murdered and missing indigenous women and girls 2. Anniversary of Indian government attack on Golden Temple.
- Analysis of Indian federal elections.

Oil lobby group calls for parties to campaign on regulatory help for pipelines

CP News

Monday, June 03, 2019

By Teresa Wright 0

OTTAWA _ The country's largest oil-and-gas lobby group is urging political parties to ensure their campaign platforms include support for major pipeline and LNG projects and a regulatory regime that would allow projects to be completed faster.

The Canadian Association of Petroleum Producers released its election wish list on Monday, outlining the issues facing the industry and ways the federal government can create better conditions for growth in the sector.

CEO Tim McMillan said Canada has lost its competitive edge as a result of regulatory and policy changes that have scared investors away.

He said it should be a priority for government to ensure major pipeline projects like Trans Mountain are completed to allow oil producers to sell to global markets where energy demand is growing.

"With global demand at an all-time high and with global demand increasing at near-record rates and global investment following, it is incumbent on the next government to create conditions necessary for Canada's oil and natural gas industry to succeed and play a key role on the world stage," McMillan said at a morning press conference.

BC Government Corporate Calendar

GCPE Strategic Communications | Events & Corporate Planning Unit

Please do not email the GCPE Corporate Calendar mailbox

Phone: 778 698-3498

The Look Ahead is an edited product of the BC Government Corporate Calendar system and is published daily between 4:15 to 4:45pm whenever possible.

Executive Summary: What is the Corporate Calendar?

The Corporate Calendar provides a bird's eye-view of all communications activities across ministries and major agencies. The purpose is to:

- *Inform senior government officials of all government activities.*
- *Prevent scheduling conflicts within government departments.*
- *Improve efficiencies within the organization.*
- *Streamline the business process of planning and executing government activities.*

Recently Published News Releases can be found here:

BCGov Newsroom: <https://news.gov.bc.ca>

News Archive: <https://archive.news.gov.bc.ca/>

CORPORATE CALENDAR LINK (RESTRICTED ACCESS):

<https://hub.gcpe.gov.bc.ca/Legacy/Calendar/>

MO & Comm Shops – Important Process

Reminders:

For a number of reasons, ALL events and releases are to be scheduled Corporately as far in advance as possible.

- Final news releases, statements and info bulletins etc. are to be sent for final processing **at least 24-48hrs ahead of publishing time (wherever possible)**, unless otherwise arranged. Please keep approvals moving and don't hold them up.
- Significantly **more lead time** is needed if **translation** is required, per recent emails from HQ Exec on this topic.
- Send all finals to the larger '**GCPE Editors'** list (NOT the Editorial Services list please). Include the approved publishing date, time and Corp Cal ID # in that email.

This email is intended solely for the person or entity to which it is addressed and may contain confidential and/or privileged information. Any review, dissemination, copying, printing or other use of this email by persons or entities other than the addressee is prohibited. If you have received this email in error, please contact the sender immediately and delete the material from any computer.

Energy, Mines & Petroleum Resources Media Report – June 03, 2019

New

Reporter: Rebecca Dyok, The Goat 97.5 - Williams Lake

Deadline: ASAP

Request:

Would the Ministry be able to provide the results from Saturday's Competition in Williams Lake?

Where the Competition will be held next?

Overall thoughts on how the competition went in Williams Lake? Was there good public turnout?

Was there anything different at the Provincials in Williams Lake compared to the previous provincials?

Following provincials what is next for the winners?

GCPE provided information on background

Would the Ministry be able to provide the results from Saturday's Competition in Williams Lake?

Attached PDF on award winners

Where the Competition will be held next?

Details are to be confirmed but generally we try to keep the competition at the same location for consecutive years to take advantage of the experience.

Overall thoughts on how the competition went in Williams Lake?

Ministry of Energy, Mines and Petroleum Resources staff in attendance have called the competition a great success, and received a lot of positive feedback. The support received to help make this competition a success was great.

Was there good public turnout?

Similar to past years, public turnout for the competition was good.

Was there anything different at the Provincials in Williams Lake compared to the previous provincials?

The Williams Lake Stampede grounds is quite unique and offered the opportunity to put together some creative tasks.

Following provincials what is next for the winners?

The top Surface and Underground teams will move on to the National Western Regional competition, being held in Fernie on September 6th & 7th.

Ongoing

Request:

1. All new light duty trucks and cars sold in the province will be ZEV by 2040. Does that mean only electric vehicles or are some also fuel-cell vehicles?
2. Does light duty mean vehicles used for personal transportation but not delivery vans and trucks?
3. How many ZEVs are on the roads in the province currently?
4. Are most of them electric?
5. Can you provide some details about how the CEVforBC rebate program works?
6. In your release it says, "British Columbians who purchase electric vehicles typically save about 75% on their fuel and maintenance costs, which currently add up to about \$1,500 per year." That's a lot of money to save every year...is the public aware yet of how much they could save?
7. With all the new ZEVs on the roads and the greater number that is coming, are you also increasing the number of

public charging stations?

8. Does the government promote EVs with outreach events?

With MO

Complete

Reporter: Jocelyn Doll, Revelstoke Review

Deadline: Monday, June 03, 2019 4:30 PM

Request: I am currently working on a story about citizen concerns regarding a crown land application for a gravel/sand operation (crown land file number 4406027). One of the concerns is dust and air quality in the area. I am wondering about the progress on a Westside Road Dust Control Plan?

I have previous emails between a concerned citizen and the ministry of energy etc. saying it was in the works and that a working group met in January 2019, but have no new information since then.

GCPE provided information on background

Staff from the Ministry of Energy, Mines and Petroleum Resources met with the Industrial group on Wednesday, May 29th, 2019 to discuss the management plan. The Industrial Group can comment until June 29th. The application will be open for public comment sometime this week.

Subject: FOR REVIEW: MEDIA REQUEST: CEV Questions

Hello Melissa,

Media request for review. This has been approved by Les MacLaren.

Kent.

Reporter: Jake Richardson, CleanTechnica.com

Deadline: Wednesday, June 5, 2019 4:30 PM

Request:

1. All new light duty trucks and cars sold in the province will be ZEV by 2040. Does that mean only electric vehicles or are some also fuel-cell vehicles?
2. Does light duty mean vehicles used for personal transportation but not delivery vans and trucks?
3. How many ZEVs are on the roads in the province currently?
4. Are most of them electric?
5. Can you provide some details about how the CEVforBC rebate program works?
6. In your release it says, "British Columbians who purchase electric vehicles typically save about 75% on their fuel and maintenance costs, which currently add up to about \$1,500 per year." That's a lot of money to save every year...is the public aware yet of how much they could save?
7. With all the new ZEVs on the roads and the greater number that is coming, are you also increasing the number of public charging stations?
8. Does the government promote EVs with outreach events?

Suggested Response:

1. All new light duty trucks and cars sold in the province will be ZEV by 2040. Does that mean only electric vehicles or are some also fuel-cell vehicles?

In this legislation, a CEV is a motor vehicle that:

- never emits tailpipe emissions (i.e. battery-electric vehicles (BEVs) and hydrogen fuel cell electric vehicles (HCFVs)); and
- does not emit tailpipe emissions at least some of the time while being operated (i.e. plug-in hybrid electric vehicles (PHEV) and extended range electric vehicles (EREV)).

2. Does light duty mean vehicles used for personal transportation but not delivery vans and trucks?

Forthcoming regulations will determine the vehicle class that ZEV Act applies to. However, it is anticipated that it would apply only to on-road light-duty vehicles, with weight ratings of less than 3,856 kilograms. This would include cars, crossovers, SUVs and light pick-up trucks (e.g. Ford F150), but not heavier, medium- and heavy-duty trucks (e.g. Ford

F250, buses, transport trucks and medium-duty delivery vans). Crossovers and SUVs like the Honda CR-V and Chevrolet Tahoe would be included.

The legislation has been written to be able to, by regulation, exclude certain vehicles like motorcycles or farm equipment, as well as, set targets for other vehicle classes.

3. How many ZEVs are on the roads in the province currently?

There are currently more than 20,000 electric vehicles on the road – with 350,000 expected on the roads by 2030. (battery electric, plug-in hybrid electric, and hydrogen fuel cell electric).

4. Are most of them electric?

The majority of CEVs on the road are plug-in vehicles. (We don't have a breakdown between BEV/PHEV currently). There are less than 15 FCEVs in B.C. with more expected in the near future.

5. Can you provide some details about how the CEVforBC rebate program works?

Information on how the program works can be found [HERE](#). Other FAQ's can be found [HERE](#).

6. In your release it says, "British Columbians who purchase electric vehicles typically save about 75% on their fuel and maintenance costs, which currently add up to about \$1,500 per year." That's a lot of money to save every year...is the public aware yet of how much they could save?

B.C. is a leader in clean energy vehicles (CEVs) with one of the largest public charging infrastructure networks in Canada (over 1,700 charging stations), the first public hydrogen fuelling station in Canada with plans to build out more, and the highest per capita adoption of CEVs in the country (4% of new light-duty vehicle sales in 2018, and over 6% of new light-duty vehicle sales in the first quarter of 2019).

Media attention on CEVs from both provincial and federal incentives to increased public demand and the number of CEVs on the road has been widespread. Government has also held two annual 'CEV Day at the Legislature' events to draw attention to the benefits of CEV ownership, which has garnered both public and media attention. Word-of-mouth among the public can also not be overlooked, and has helped to bring awareness to the money you can save by owning a CEV.

7. With all the new ZEVs on the roads and the greater number that is coming, are you also increasing the number of public charging stations?

Funding will support a range of initiatives, including supporting the creation of new public fast-charging and hydrogen fueling stations.

The CEVforBC program is also offering advisor and consultation services for the installation of electric vehicle charging in multi-unit residential buildings and workplaces. Information on the advisor and consultation services available is located at <https://pluginbc.ca/incentives/charging-solutions-incentives/>. The provincial "Plug-In BC EV Advisor" can provide services to help find charging solutions for a site, including onsite presentations and education and general site consultations; these consultations are primarily an introductory overview and are not a substitute for an electrician.

8. Does the government promote EVs with outreach events?

Yes. As mentioned above, the provincial government has held two annual CEV Day events at the B.C. Legislature to highlight the vehicles and incentives available. Government has also been active in promoting the available incentives, details of which are available at CEVforBC.ca.

Hi Nicole,

I have met with Suzy a few times and will not be in the office on those days otherwise I would happily have a coffee with her to catch up.

Andrew Cuddy, our new MA is copied on this email. I am not sure what his schedule is like but he has the EV file so may want to fit something in.

Thanks

Subject: ChargePoint Meeting Request - Early June 2019

Hi Melissa,

We work with a woman named Suzanne (Suzy) Goldberg, who is the Director of Policy for Canada with ChargePoint, the world's largest network of electric vehicle (EV) charging stations in the U.S., Europe and Australia.

Suzy is looking to schedule an introductory meeting with you when she is in Victoria next in early June, preferably Thursday, June 6 . The discussion would focus on ChargePoint's commercial and residential EV infrastructure, its cloud software, support services, and mobile app, as well as its growth across Canada, particularly in British Columbia.

It is very exciting to see the government's momentum on Bill 28, the Zero Emission Vehicle Act! ChargePoint is keen to meet with you to discuss its turnkey solutions and have an informal discussion on where its services may be able to assist government in achieving its targets in CleanBC.

Thanks very much for considering this request and we look forward to hearing from you.

Kindest regards,

Subject: Embargoed Press Release-Kendra Johnston announced as new AME President and CEO

As you may know, I am leaving AME at the end of June. I am pleased to let you know that Kendra Johnston will be the new President & CEO beginning June 13th, 2019. Please find attached the embargoed press release which will go out a bit later today.

I look forward to introducing you to Kendra as we transition over.

Please join me in welcoming Kendra to this great role!

E.

Subject: FW: Blackwater Meetings - URGENT

Importance: High

Hello,

Below is what ENV has offered as possibly times to hold 3 of the meetings that need to happen before the final decision meeting.

I have looked at the calendar and with constituency events, I don't see a lot of time within her off season working hours to get these meetings completed. I am thinking if MMM will agree to taking these calls in the morning we should be ok.

We still have the issue with the 20th but if she would do the decision meeting right after Cabinet on the 19th, it could work.

We will need to discuss this at the staff meeting.

Thanks

Kate Duncan

Subject: Blackwater Meetings - URGENT
Importance: High

Hi Kate,

For the 4 Blackwater meetings, (1 pre-brief, 2 FN calls, 1 final decision meeting) both MGH and EAO are available:

June 10 – 9 am to noon
June 11 – 11 am to 1 pm
June 13 – 9 am to 2 pm
June 14 – all day

As we have discussed, June 20th is the **absolute latest** we can have the final decision meeting (45 minutes). Can we please confirm this for June 18, 19 or 20th immediately following cabinet.

We need to book 1 hour on one of the days above for the pre-brief (30 mins) and Call #1 (30 mins). We will need 30 minutes the following day for Call #2.

Call 1:

Meeting Purpose: Discuss CSFNs views on Blackwater

Staff Attending: Kevin Jardine, Scott Bailey and Shelley Murphy from EAO

External Guests Attending: CSFNs (EAO will determine who from this group would be appropriate shortly)

Materials: Yes – Memo KJ to Ministers, Legal Advice Memo

Cliff #: N/A

Call 2:

Meeting Purpose: Discuss Blackwater with Lhoosk'uz and Ulkatcho

Staff Attending: Kevin Jardine, Scott Bailey and Shelley Murphy from EAO

External Guests Attending: Members of Lhoosk'uz and Ulkatcho (EAO will determine who would be appropriate shortly)

Materials: Yes - Memo KJ to Ministers, Legal Advice Memo

Cliff #: N/A

Please let me know as soon as possible what you can make work. Feel free to give me a shout to discuss.

Thanks!

Best Regards,

Kirsten Neilson

Subject: Fortis environmental irresponsibility

Hi Ravi Kahlon:

This morning my Fortis bill arrived, and enclosed with it was an invitation for British Columbians to run their gas lines outdoors to fuel heaters and firepits. I am shocked at the wastefulness of attempting to heat the outdoors. Why is this being encouraged?

Most British Columbians consider themselves to be environmentally responsible, yet are so hypocritical when it comes to their own consumption of non-renewable resources. What can we do to stop the fires?

Yours,

s.22

Subject: FYI: MEDIA REQUEST: Mine Safety Competition (Follow-up)
Attachments: Mine Rescue 2019 Awards Banquet program.pdf

Hey Melissa,

FYI.. Follow-up to a media request from late last week on the Mine Competition in Williams Lake.

Please let me know if you have any questions.

Kent.

Suggested Response:

Would the Ministry be able to provide the results from Saturday's Competition in Williams Lake?

Please see the attached document.

Where the Competition will be held next?

Details are to be confirmed but generally we try to keep the competition at the same location for consecutive years to take advantage of the experience.

Overall thoughts on how the competition went in Williams Lake?

Ministry of Energy, Mines and Petroleum Resources staff in attendance have called the competition a great success, and received a lot of positive feedback. The support received to help make this competition a success was great.

Was there good public turnout?

Similar to past years, public turnout for the competition was good.

Was there anything different at the Provincials in Williams Lake compared to the previous provincials?

The Williams Lake Stampede grounds is quite unique and offered the opportunity to put together some creative tasks.

Following provincials what is next for the winners?

The top Surface and Underground teams will move on to the National Western Regional competition, being held in Fernie on September 6th & 7th.

Hello All,

Can we please confirm the 1st briefing for May 16th, at 12:00, in the Oak Room #303 and Ministers can bring their lunch! I am hoping to tighten the timing up to ½ hr., but if you could allow for 45 min. that would be great. Please confirm staff attendees as soon as possible.

For the 2nd briefing, can we please confirm June 11th, at 2:30 pm, for 1 hr., for this meeting. This is fine as a conference call and call in details are below, however, I have booked the Oak Room as well, in case we need it. Please confirm staff attendees when you can and just let me know if they will be attending in person or calling in.

Conference call details:

Dial In: 1-877-353-9184

s.17 (Van. local)

Moderator: Scott Fraser

Participant ID:s.17

I hope to have a confirmation of the actual meeting with the Nations for June 18th, for you very soon.

Thanks,

Connie Roberts

Hello All,

I have been asked to set up 2 briefings with our Minister's prior to the not yet confirmed meeting with the Nations on June 18th. We are looking to schedule the first briefing next week. MSF has the following times available next week. We likely need 45 min/1 hr.

1st briefing:

May 13th: between 10 & noon

May 14th: 8 am; 12 noon (as a working lunch); 6 pm

May 15th: 8 am; 11:30 (as a working lunch); anytime between 4:15 and 7 pm

May 16th: 8 am; 12 noon (as a working lunch)

2nd briefing:

June 11: 9:00 am; anytime after 1 pm

Thanks,
Connie Roberts

Subject: Quinsam coal - employees on leave

Hi Melissa and Andrew,

I wanted to flag that approx 50 people are on mandatory leave at Quinsam coal due to the sudden departure of the mine manager. We are working on getting further details and understanding the company's plans going forward.

Background:

- On April 10th we received notice that the certified mine manager at Quinsam had resigned and would be leaving the mine on May 2nd. After some delay the mine's general manager wrote his certificate and EMPR expedited the process to get him certified.
- On May 31 the Chief Inspector received an email from Quinsam's general manager that he was leaving Quinsam with immediate effect. Later that day we received notification from the mine that s.22 (the current fireboss) had been appointed mine manager and that no more than 9 people would be underground per day. This is in line with his level of certification under the Health, Safety and Reclamation Code.
- The Chief Inspector then received an email from the Steelworkers Union, voicing their concern about the financial wellbeing of the company and notified Herman that all their members have been placed on forced leave.
- Quinsam has 53 hourly and 18 staff employees. We have confirmed with the company that all employees with the exception of the first-aid/security (24/7 coverage) and s.22 (daily UG and pump checks) are on mandatory vacation. There is also a minimal amount of administration activity at the mine as well (finance, payroll).
- We are following up with company executives to understand their plans going forward.

We'll work with GCPE to do an issues note and will provide more info as it's available.

Nate

Reporter: Jocelyn Doll, Revelstoke Review
Deadline: Monday, June 3, 2019 4:30 PM

Request: I am currently working on a story about citizen concerns regarding a crown land application for a gravel/sand operation (crown land file number 4406027). One of the concerns is dust and air quality in the area. I am wondering about the progress on a Westside Road Dust Control Plan?

I have previous emails between a concerned citizen and the ministry of energy etc. saying it was in the works and that a working group met in January 2019, but have no new information since then.

Suggested Response:

Staff from the Ministry of Energy, Mines and Petroleum Resources met with the Industrial group on Wednesday, May 29th, 2019 to discuss the management plan. The Industrial Group can comment until June 29th. The application will be open for public comment sometime this week.

Subject: Upcoming IM117 Session - June 20

To: All Premier's Office and Ministers' Office Staff

Thank you to all you were able to attend an IM117 session in the past couple of weeks.

We have another session scheduled in Victoria coming up, please plan on attending as this will be the last face to face session scheduled and it is mandatory for all staff to complete by July 15, 2019.

Wednesday, June 12
10:00AM-11:30AM
Room 223, Legislature

A calendar invitation will be sent to all staff shortly – please decline or ignore if you have recently taken the revised course.

There is a webinar session offered to staff working outside of Victoria, a calendar invitation has already been sent for that.

Please share this with anyone in your office we may have missed.

Thank you,
Maura

Subject: Support letter for Huron Clean Energy's Phase 1 project application

Hello Melissa and Andrew

The Minister does not recall the decision to support Huron Clean Energy's Phase 1 project application but I received a letter from correspondence and had assumed there had been one. Do you know anything about this? MMM wants to talk about it at today's staff meeting.

Thanks - Danika

Dear Minister Champagne:

I am writing to you, in your role as Minister responsible for Canada's Infrastructure Bank, regarding a transformational project for Canada's economy and environment. I understand that Canada's Infrastructure Bank is considering financing for Huron Clean Energy's Phase 1 project application to design and build Direct Air Capture and Air to Fuels plants. As Minister responsible for British Columbia's Innovative Clean Energy (ICE) Fund, I would like to express the support of the Ministry of Energy, Mines and Petroleum Resources for Huron Clean Energy's project application. The ICE Fund is a funding supporter for Huron's partner, Carbon Engineering, and its pilot plant validating both technologies in Squamish, British Columbia.

BC welcomes the actions being taken by Canada to both reduce Canada's greenhouse gas emissions in accordance with the Paris Agreement, and also enact the Pan Canadian Framework on Clean Growth and Climate Change.

The Government of British Columbia's CleanBC plan is aimed at reducing climate pollution, while creating more jobs and economic opportunities for people, businesses and communities. Huron Clean Energy's project is an important example of how this commitment to advancing clean technology can bring strong economic development as well as environmental benefits.

The deployment of Direct Air Capture and Air to Fuels technology provides the infrastructure needed to sequester atmospheric carbon dioxide and create ultra-low carbon fuels. These infrastructure projects will have a significant impact on our ability to achieve our respective national and provincial decarbonization targets. I support Huron Clean Energy's ambition to build ten Direct Air Capture and Air to Fuels plants across Canada, beginning with plants for both technologies in British Columbia.

I fully endorse this approach to build revenue-generating projects that will benefit Canada's economy and the environment. I urge you and the Canada Infrastructure Bank to support this important project for Canada.

Sincerely,

Michelle Mungall

Minister

Hi Kate, we received the attached redline from the IAO yesterday, letting us know that this is the proposed redline for release which contains GCP's redactions.

We've been told that unless they hear back from us before June 4, that this is what will be getting released.

My opinion is that the attached redline looks acceptable, but if you or Melissa would like any changes if you could please let me or Janine know by Monday at the latest that would be much appreciated.

Thank you,

Kevin McNeil

Subject: GCP-2019-91725 - EMPR Consultation Due May 9

Good morning Kate,

We wanted to give MO a chance to review this consultation we received. It is 7 pages of emails between GCPE and Melissa. Please let us know if there are anything you would like removed and send approval to us at the same time.

Our Ministry has received a consultation from **Government Communications and Public Engagement**

Please review section one below and indicate if/what harms apply and who will be approving, and return to me by **May 9** ?

1. Ministry Program Harms Assessment:

Please indicate which applies:

1. *There are no harms in these records. They can be released in full.*
2. *There are harms in releasing all of these records. They should be withheld in their entirety.*
3. *There are harms in portions of the records. Please give details so that IAO can apply the appropriate sections of FOIPPA. Please feel free to write directly on the attached records and send back to IAO. If you are unsure of why it is harmful please call the IAO to discuss the appropriate severing.*

Program Area Approval Authority:

Name, Title, Program

If you feel that I have forgotten to include a program area/office, please let me know.

Original email from IAO included below but please ignore the dates and use the ones above. This allows us time to ensure all materials are compiled, reviewed and submitted to IAO correctly.

Janine Crockett | FOI Analyst | Executive Operations Branch, Deputy Minister's Office | Phone: 778 698 7245
Ministry of Energy, Mines and Petroleum Resources

To: EMPR FOI EMPR:EX <MEM.FOI@gov.bc.ca>

Subject: GCP-2019-91725 - EMPR Consultation Due May 14, 2019

Hello,

Government Communications and Public Engagement received this FOI request from a Political Party:

Records of any and all emails, text messages, BBMs, slack messages, and WhatsApp messages - excluding attachments - sent from Leila Farmer (Date Range for Record Search: From 01/01/2019 To 01/31/2019)

They identified the attached document(s) as responsive records and wish to get your views on disclosure. If you need help determining harms, please see the attached harms assessment or contact me directly.

Your program area's response is due **May 14, 2019**.

IAO may take one to two business days to apply any severing.

If you are not able to respond by this date, we are required to continue processing this file without your recommendations.

1. Ministry Program Harms Assessment:

Please indicate which applies:

1. *There are no harms in these records. They can be released in full.*
2. *There are harms in releasing all of these records. They should be withheld in their entirety.*
3. *There are harms in portions of the records. Please give details so that IAO can apply the appropriate sections of FOIPPA. Please feel free to write directly on the attached records and send back to IAO. If you are unsure of why it is harmful please call the IAO to discuss the appropriate severing.*

Program Area Approval Authority:

Name, Title, Program

2. IAO's review of harms assessment and recommendations on release

Comments/Recommendations:

IAO will assess the program area's harms and recommend full release, withhold in its entirety or partial release.

3. Ministry Executive approval for release

Comments/Recommendations:

Please indicate which applies:

1. *Approved for release with no changes.*
2. *Approved for release with the following changes... (insert changes).*
3. *Not approved for release and why.*

Ministry Executive (Delegated Signoff):

Name, Title

Note that all general FOI request records that are released to an applicant should be published on the Open Information website unless the exemption criteria apply. The exemption criteria can be found on page 11 of the [Open Information and Open Data Policy](#). Consultations from outside provincial public bodies are not published on the Open Information website.

Exercise of Discretion:

The *Freedom of Information and Protection of Privacy Act* (FOIPPA) contains both mandatory and discretionary exceptions to disclosure. Sections 13 to 20 are the discretionary exceptions. Where Information Access Operations (IAO) has advised the head that a discretionary exception may apply, it is important that the head consider the possibility of releasing the information despite the fact that an exception may apply.

Factors relevant to the exercise of discretion include:

- the general purposes of the legislation: public bodies should make information available to the public; individuals should have access to personal information about themselves;
- the wording of the discretionary exception and the interests which the section attempts to balance;
- whether the individual's request could be satisfied by severing the record and by providing the applicant with as much information as is reasonably practicable;
- the historical practice of the public body with respect to the release of similar types of documents;
- the nature of the record and the extent to which the document is significant and/or sensitive to the public body;
- whether the disclosure of the information will increase public confidence in the operation of the public body;
- the age of the record;
- whether there is a sympathetic or compelling need to release materials;
- whether previous orders of the Commissioner have ruled that similar types of records or information should or should not be subject to disclosure; and
- when the policy advice exception is claimed, whether the decision to which the advice or recommendations relates has already been made.

Thank you,

Aaron Hofman | FOI Analyst | Information Access Operations | Ministry of Citizen's Services

Subject: introduction to new President & CEO of AME

Hello Minister Mungall:

I hope this message finds you well after a very busy session!

As you may know, I will be leaving the Association for Mineral Exploration (AME) at the end of June and first, I wanted to thank you for your support and leadership on our file. It has been a pleasure getting to know you and also feel the real support from yourself and your office.

As the first female President and CEO of AME, I am thrilled to let you know that the second female President was appointed and will be confirmed at our June 13th, 2019 Board of Directors meeting!

Kendra Johnston is a Professional Geologist with an MBA and incredible, on the ground experience. She is also a long time supporter of AME and is very familiar with the exciting work we have done together, including the Mining Jobs Task Force report.

Kendra was also most recently our Board Chair; I am very proud of our 25 person Board of Directors made up of 12 women, 3 indigenous leaders and 8 regional representatives. It's also important to note that 28% of our Board is under 45 years of age.

Kendra and I will be in Victoria on June 25th for a meeting with the five key Deputy Ministers and would love to pop by and say "hello" (and thank you!) in person, if possible.

Can you let me know if that day or another may work for you?

Thanks again and I hope we can keep in touch!

E.

Subject: Fwd: Blackwater Meetings - URGENT

Hello Minister,

Environment has been in touch to confirm the joint meetings that have to take place before the final decision briefing. 4 in total.

They have provided us with windows of time over the next week that Minister Heyman and EAO are available.

June 10 – 9 am to noon

June 11 – 11 am to 1 pm

June 13 – 9 am to 2 pm

June 14 – all day

After reviewing your schedule I can see you are committed to Constituent work during a lot of this time or it is outside your off season working hours.

I am hoping you would be willing to take two of the meetings the morning of June 10 (one hour in total) then another on the morning of the 13th (30 minutes). Please tell me if see better options.

Let me know when you can.

Thanks

Kate

Subject: Blackwater Meetings - URGENT
Importance: High

Hi Kate,

For the 4 Blackwater meetings, (1 pre-brief, 2 FN calls, 1 final decision meeting) both MGH and EAO are available:

Jdayune 10 – 9 am to noon

June 11 – 11 am to 1 pm

June 13 – 9 am to 2 pm

June 14 – all

As we have discussed, June 20th is the **absolute latest** we can have the final decision meeting (45 minutes). Can we please confirm this for June 18, 19 or 20th immediately following cabinet.

We need to book 1 hour on one of the days above for the pre-brief (30 mins) and Call #1 (30 mins). We will need 30 minutes the following day for Call #2.

Call 1:

Meeting Purpose: Discuss CSFNs views on Blackwater

Staff Attending: Kevin Jardine, Scott Bailey and Shelley Murphy from EAO

External Guests Attending: CSFNs (EAO will determine who from this group would be appropriate shortly)

Materials: Yes – Memo KJ to Ministers, Legal Advice Memo

Cliff #: N/A

Call 2:

Meeting Purpose: Discuss Blackwater with Lhoosk'uz and Ulkatcho

Staff Attending: Kevin Jardine, Scott Bailey and Shelley Murphy from EAO

External Guests Attending: Members of Lhoosk'uz and Ulkatcho (EAO will determine who would be appropriate shortly)

Materials: Yes - Memo KJ to Ministers, Legal Advice Memo

Cliff #: N/A

Please let me know as soon as possible what you can make work. Feel free to give me a shout to discuss.

Thanks!

Best Regards,

Kirsten Neilson

Administrative Coordinator to the **Honourable George Heyman**

Minister of Environment and Climate Change Strategy
