**Subject:** FYI: Draft Clean Econ Recovery Framework  
**Attachments:** Framework for Clean Econ Recovery Draft 7.pptx

Silas and Les:

I've attached a draft framework for clean economic recovery that was requested by MGH. Mark has shared this with your Deputies, Don, and Christine. MGH may use it to inform discussions with Geoff and MCJ.

It's meant as a conversation starter on how a recovery agenda could support our clean growth and climate preparedness priorities. The ideas in the deck are meant to be one component of economic stimulus/recovery and could be combined/integrated with a more comprehensive presentation at some point. Obviously much more analysis and coordination to be done.

Happy to discuss.

Thanks,

Jeremy

**Subject:** RE: FYI: Draft Clean Econ Recovery Framework

We provided initial input into a draft discussion paper on the framework last week at a CleanBC ED Strategy Group call. CAS had pulled some ideas from the EMPR COVID response/recovery list for the paper. Unclear where they got their hands on it. In any event, I think the deck is a good conversation starter, though I would suggest they coordinate with line ministries on the proposed actions they profile. For example on the BE side, I would have preferred they referred to our subsidized training and low-middle income direct install retrofit concepts.

Did we have input into this, or is CAS peeing on our pitch?

Les

This is what your Minister will have. We've been doing some further thinking to develop something better for the process being led out of PO.

Is there an updated version for the call with Ministers today?
