We are not commenting on the internal governance of Malaysia.
There seems to be a process underway to examine these issues in Malaysia.

Here in BC we are not spending taxpayers dollars on the LNG facility. It's not our place to comment except to say the basis of these complex agreements, which are now being made transparent for public review, along with development of these projects under BC and Canadian law, creates certainty for both the BC government and the consortium of PNW for the next 25 years.
