WILDLIFE ACT CAS PERMIT VI16-95558

PERMIT HOLDER	<p>Cinezo</p> <p>163 Des Tulipes</p> <p>Otterburn Park Quebec J3H 5Y4</p> <p>ATTENTION: Jean Cardinal</p> <p>PHONE: (514) 235-7071 (450) 446-4481</p>
---------------	---

IS AUTHORIZED UNDER s. 4 (f)(iii) and 4 (h) of the Permit Regulation, B.C. Reg. 253/2000,

TO	<p>Possess the following species individual of controlled alien species for the purpose of commercial filming of the TV Series "Zoo season 2".</p> <p>1. Male, 12 year old, Siberian Tiger</p> <p>(the species individuals together the "CAS" and each species individual a "CAS individual")</p> <p>at the following location(s):</p> <ul style="list-style-type: none"> Filming: <ul style="list-style-type: none"> s.15 Not filming (off-set): <ul style="list-style-type: none"> s.15 <p>and while transporting as permitted below.</p> <p>Ship or transport the above species individual of controlled alien species in British Columbia only to and from the following locations:</p> <p>Vancouver International Airport; s.15 and s.15</p>
----	---

SUBJECT TO THE FOLLOWING:

TERMS OF PERMIT	The permit holder must comply with the terms in Appendix A.
COMPLIANCE ADVISORY	Failure to comply with any term of this permit is an offence under the <i>Wildlife Act</i> , and may result in any or all of prosecution, suspension of the permit, cancellation of the permit, ineligibility for future permits, and denial of future permit requests.
PERIOD OF PERMIT	This permit is only valid from February 25, 2016 to July 10, 2016..
DATE OF ISSUE	February 25, 2016
 SIGNATURE OF ISSUER	Dan Peterson Director of Wildlife
	PERMIT FEE N/A HCTF SURCHARGE N/A

CAS PERMIT VI16-95558

APPENDIX A – TERMS OF PERMIT

REPORTING REQUIREMENTS:

Within 72 hours of a CAS individual leaving British Columbia, the permit holder **MUST** submit to the Fish and Wildlife Branch via fax (250-387-0239) or by email (FishandWildlife@gov.bc.ca or ControlledAlienSpecies@gov.bc.ca) an affidavit by a person other than the permit holder (e.g. veterinarian, registered professional biologist) attesting to the fact that the CAS individual, identified as on the face page of this permit, has left British Columbia and the date of departure.

GENERAL CONDITIONS:

1. The permit holder must comply with all laws applicable to the activities carried out under this permit.
2. This permit extends to the permit holder's employees and volunteers, but only when they are engaged in the activities authorized by this permit on behalf of the permit holder.
3. The permit holder must not authorize an employee or volunteer under the age of 19 to handle a CAS individual.
4. The permit holder must ensure that no person handles a CAS individual under authority of this permit unless the person has at least 2 years of experience working with controlled alien species of that taxonomic Family.
5. This permit extends to a person authorized to practise veterinary medicine in BC while that person possesses a CAS individual for the purpose of veterinary medical treatment, but is only effective for the first 72 hours after the person takes possession of a CAS individual for any given treatment.

NOTE: If veterinarian is in possession of a CAS individual for the purpose of longer term treatment (greater than 72 hours) the veterinarian will need to apply for a Rescue Centre permit.

6. The permit holder must ensure that any person transporting a CAS individual under authority of this permit carries a copy of this permit on their person.
7. The permit holder must not display the CAS for public viewing, including public contact and media use, other than what is required for commercial filming and production of the TV Series "Zoo season 2".
8. The permit holder must not house a CAS individual in the same enclosure as wildlife or a domestic animal (to reduce the possibility of the transmission of disease and parasites).
9. The permit holder must take all steps reasonably necessary to ensure that public safety is not jeopardized by any action taken under authority of this permit.
10. Prior to the CAS species individual named on this permit entering the Province of BC and the commencement of activities carried out under this permit, the permit holder must notify the Fish and Wildlife Branch (email: Nurie.Aliperti@gov.bc.ca) and the Conservation Officer Service (email contact: Inspector Chris Doyle: Chris.Doyle@gov.bc.ca; phone (not for wide spread distribution) 604-892-7823) the details pertaining to locations and times for transporting and locations and times for commercial filming.
11. On demand of an officer under the *Wildlife Act*, the permit holder must allow an officer safe and secure access to inspect the containment of the CAS species individual that is the subject of this permit during times of transport, housing and filming.
12. The permit holder must ensure that the CAS individual named on this permit is under the control of a qualified animal wrangler when the CAS individual is out of its enclosure for commercial filming.

13. The permit holder must immediately notify the Fish and Wildlife Branch (email: FishandWildlife@gov.bc.ca or ControlledAlienSpecies@gov.bc.ca ; fax: 250-387-0239) should a CAS individual cause harm to any person or animal.
14. The permit holder must ensure that no CAS individual is released or escapes.
15. The permit holder must immediately notify the Conservation Officer Service (1-877-952-7277) or the Ministry of Forests, Lands and Natural Resource Operations, Fish and Wildlife Branch Regional Manager if a CAS individual escapes or is released.
16. The permit holder is responsible for all costs associated with the keeping and care of the CAS, and any damage, loss or injury to persons or property caused by the CAS.
17. The following applies to each CAS individual and the term "described" means "described in the attached detailed enclosure description applicable to the taxonomic group to which the CAS individual belongs." e.g. a detailed enclosure description for Pythonidae applies to each CAS individual that is a member of the Family Pythonidae.

The permit holder must do the described things, including, without limitation, the following:

- (a) keep the CAS individual only in an enclosure
 - made of materials described,
 - constructed in the described way,
 - padlocked in the described way, and
 - which includes the described elements;
- (b) while the CAS individual's enclosure is being cleaned
 - move the CAS individual to the described secure area, and
 - take the described security measures;
- (c) maintain the described features in the CAS individual's enclosure in the described way, and
- (d) keep no more than one CAS individual in the described enclosure unless the detailed enclosure description provides for a greater number, in which case, no more than that number.

The permit holder may depart from the strict observance of a specific requirement in this paragraph by substituting an alternate measure, but only if that alternate measure will clearly result in persons and animals being no less safe than if the specific requirement had been strictly observed.

18. The following applies to each CAS individual and the term "described" means "described in the attached public safety plan applicable to the taxonomic group to which the CAS individual belongs." e.g. a public safety plan for Pythonidae applies to each CAS individual that is a member of the Family Pythonidae.

The permit holder must do the described things, including, without limitation, the following:

- (a) not allow the CAS individual to come into contact with people except in the described way;
- (b) ensure in the described way the safety of those that come into contact with the CAS individual;
- (c) in the described way, prevent the CAS individual from escaping or coming into unintended contact with other people;
- (d) if the CAS individual escapes, notify others in the described way and recapture it in the described way;
- (e) if the CAS individual is transported,
 - transport it only in the described way,
 - transfer it to its transport container only in the described way, and
 - follow the described emergency plan if it escapes during transport
- (f) if the CAS individual is being transported into or from BC, transport it into or from BC only in the described way.

APPENDIX B ADVISORY

CAS PERMIT VI16-95558

GENERAL

- It is the permit holder's responsibility to be aware of all applicable laws and the limits of this permit. For example, the welfare of animals, including CAS is regulated under the Prevention of Cruelty to Animals Act and the Criminal Code.
- The Province is not liable for any harm caused by the CAS or illness contracted through handling the CAS. It is the responsibility of the permit holder to inform themselves of possible dangers and health hazards, and to ensure that all reasonably necessary safety measures are undertaken.
- To assist you in complying with federal law requiring humane treatment of animals, please be aware that international standards for the humane transport of animals exist and are available at:

Air transport:

Live Animals Regulation from the International Air Transport Association (IATA) for \$94US at https://www.iataonline.com/Store/Products/Product+Detail.htm?cs_id=9105%2D30&cs_catalog=Publications

Ground transport:

AATA Manual for the Transportation of Live Animals from the Animal Transportation Association (AATA) for £45 at http://www.tim-harris.co.uk/aata_orderform.html

LEGISLATION

Here are some, but not all, relevant excerpts from the **Wildlife Act**:

Application of this Act to controlled alien species

6.6 (1) Sections 3, 82 (4), 89, 93, 94 (1), 95 and 107 (2) apply in relation to controlled alien species as if those species were wildlife.

Release or escape of animals

77 (1) A person who releases or abandons an animal or from whose captivity an animal escapes

- (a) is, despite section 11 (4) of the *Livestock Act*, liable to the government for loss or damage to wildlife or wildlife habitat caused by the animal, and for all costs incurred by the government in pursuing, recovering, holding or destroying it, and
- (b) is not entitled to any compensation from the government if the animal is destroyed under section 79

(2) If a person releases or abandons an animal, other than a domestic animal, the person commits an offence.

(3) If an animal, other than a domestic animal, escapes from the possession of a person, the person commits an offence if he or she fails to make every reasonable effort to recover the animal.

(4) This section does not apply if the person is authorized by the regional manager to release the animal.

Destruction of animals

79 (1) An officer may kill an animal, other than a domestic animal, that is at large and is likely to harm persons, property, wildlife or wildlife habitat.

Documents not transferable

81 Except as authorized by regulation or as otherwise provided under this Act, a licence, permit or limited entry hunting authorization is not transferable, and a person commits an offence if the person

- (a) allows his or her licence, permit or limited entry hunting authorization to be used by another person, or
- (b) uses another person's licence, permit or limited entry hunting authorization.

Failure to pay fine

85 (1) This section applies if a person

- (a) fails to pay, within the time required by law, a fine imposed as a result of the person's conviction for an offence under this Act or the *Firearm Act*, and
- (b) has been served with notice of this section.

(2) In the circumstances referred to in subsection (1),

- (a) the person's right to apply for or obtain a licence, permit or limited entry hunting authorization under this Act is suspended immediately and automatically on the failure to pay the fine,
- (b) all licences, permits and limited entry hunting authorizations issued to that person under this Act are cancelled immediately and automatically on the failure to pay the fine, and
- (c) the person commits an offence if, before that fine is paid, the person
 - (i) applies for, or in any way obtains, a licence, permit or limited entry hunting authorization under this Act, or
 - (ii) does anything for which a licence, permit or limited entry hunting authorization under this Act is required.

Entering premises

89 (1) For the purpose of ensuring that this Act and the regulations are being complied with, an officer may enter and inspect any premises or enclosure in which live wildlife or live fish is kept but, at the request of the owner or occupier, the officer must produce proof of identity.

(2) Despite the *Trespass Act*, an officer exercising duties under this Act may enter any land, whether enclosed or not but, at the request of the owner or occupier of the land, the officer must produce proof of identity.

Production of licence or permit

97 If a person who is required to hold a licence, permit or limited entry hunting authorization issued under this Act

- (a) fails to produce it for inspection to an officer on request, or
- (b) fails or refuses to state his or her name and address to an officer on request,

the person commits an offence.

REGULATIONS

Here are some, but not all, relevant excerpts from the **Controlled Alien Species Regulation** made under the Wildlife Act:

Possession

3 A person must not possess a prohibited species individual unless the person holds a permit authorizing the possession of that prohibited species individual.

Breeding

4 (1) Subject to subsection (2), a person who possesses a prohibited species individual must prevent the prohibited species individual from breeding.

(2) A person who possesses a prohibited species individual referred to in subsection (1) may allow the prohibited species individual to breed if

- (a) the person operates a zoo or is an educational or research institution,
- (b) the person holds a permit authorizing the person to allow that prohibited species individual to breed, and
- (c) the breeding is in accordance with a management plan approved by a regional manager.

Release prohibited

5 A person must not release a restricted species individual or a prohibited species individual or allow a restricted species individual or a prohibited species individual to be released.

Shipping or transportation

5.1 A person must not ship or transport in British Columbia a prohibited species individual unless the person holds a permit authorizing the shipping or transportation of the prohibited species individual.

This excerpt from the **Permit Regulation**, made under the Wildlife Act, is relevant:

8 A person who holds a permit under the Act or the Permit Regulation commits an offence if he or she fails to comply with a term of the permit.

APPENDIX 1 DETAILED ENCLOSURE DESCRIPTION

CAS PERMIT VI16-95558

Please complete a Detailed Enclosure Description for each type of CAS. Please provide photographs showing critical details of the enclosure(s) to support your answers (see checklist on the permit application).

This plan is for the following CAS Siberian Tiger
Common Name - e.g. Tiger

1. What is the length of the enclosure?

69' inches.

2. What is the height of the enclosure?

49' inch.

3. What is the width of the enclosure?

37' inches.

4. What is the enclosure made of (i.e. a glass aquarium/terrarium, a fenced in area, etc)? Please be specific for each surface, for example, if wire is used for a side of a cage, what gauge is it?

Fence: welded metal wire.
Floor: metal floor board and plywood.

5. Is there an indoor and outdoor component to the enclosure? Please explain.

Fence: welded metal wire

6. Is the enclosure padlocked? If no, please explain why.

yes, Two Place.

7. Is the enclosure double-walled? If no, please explain why.

no, because have not need.

8. Is the entrance double-doored? If no, please explain why.

no, because have not need.

9. Is there a roof to the enclosure? If yes, explain what it is made of. If no, explain why.

Conilling: metal mesh

10. If applicable, is there a den area where the CAS can sleep and/or hide? If yes, please provide detailed information about the size of this area.

yes, space is sufficient for the comfort and safety of the animal.

11. What is the floor of the enclosure made of? For example, is the floor of the enclosure made of cement, dirt, rocks, etc.

metal Floor Board and plywood

12. Is there a secure area to place the CAS while the enclosure is being cleaned? Please explain details of how the CAS is moved and what the security measures are for the time the animal is in the area.

Utilisation zoo Security Protocol

13. Describe natural or unnatural fixtures in the enclosure (pool, rocks, trees, branches, toys etc.) and their maintenance.

natural Day Light

APPENDIX 2 PUBLIC SAFETY PLAN

CAS PERMIT VI16-95558

Please complete a Public Safety Plan for each type of CAS. The purpose of the Public Safety Plan is to ensure that people are safe from the CAS.

This plan is for the following CAS Siberian Tiger
Common Name - e.g. Tiger

1. With whom, and how often does the CAS come into contact with people (including handler)?

no, just animal wrangler
animal trainer

2. How are you ensuring the safety of those that come into contact with the CAS?

just animal wrangler and
animal trainer

3. How will you prevent the CAS from coming into unintended contact with other people?

with Two animal Trainers and
wrangler supplied by Production

4. How will you prevent the CAS from escaping?

everything is filmed in the cage

5. If the CAS does escape how will it be recaptured?

by Tranquilliser

6. If the CAS does escape, who do you plan to notify (e.g. landlord, police, etc.)? Please provide use with your plan.

by Tranquilliser

7. If the CAS does escape, what is the threat to the public?

No public

Not applicable

8. What is the location of the nearest hospital? Has the medical staff been notified of any specific need in case of human injury with this species?

Lions Gate Hospital.

231 East 15 Street North

Vancouver BC V7L2A7

9. What is the proximity of the Conservation Officer Service (COS), Royal Canadian Mounted Police (RCMP) or local police and your veterinarian?

Vancouver Police

1-604-717-3321

2120 Cambie Street Vancouver BC V5Z2N6

If the CAS is being transported:

10. How is/are the CAS to be transported while in British Columbia? (i.e. what kind of transportation container is used? Is the container locked?)

by Plane

11. What is the method of transferring the CAS into the transport container?

A cage in a container by Air Canada

12. What is the expected duration of transport?

About 6 hours.

13. What is the emergency plan if the CAS escapes?

we follow the protocol 1ATA

14. If applicable, how is/are CAS being transported into/from British Columbia? (I.e. are International Air Transport Association (IATA) or Animal Transportation Association (ATA) standards (as applicable), for live animal transportation being followed?)

ADDENDUM TO APPENDIX 2 - PUBLIC SAFETY PLAN

Additional details regarding transport and containment (as provided by the permit holder to the Fish and Wildlife Branch on February 22, 2016 and February 24, 2016):

There are no other animals on the set other than Jean Cardinal's tiger. There are no other animals being housed with this tiger at the offset housing.

The tiger is loaded in a cube van truck to travel in this travel cage from the Cinezoo to Dorval Airport then onto Air Canada. The flight time is 4 hours and 23 minutes – animals are not allowed to fly over 5 hours. This flight will be direct from Dorval to Vancouver.

Jean Cardinal's assistant trainers will fly out to Vancouver in advance to meet the tiger when he arrives. The tiger is the last freight loaded on the plane and the first offloaded. The tiger will be offloaded into an enclosed trailer with double locks. Another trainer who possesses the permit of a shotgun and tranquilizer dart gun will be added to the delivery of the tiger from the airport to the off-set housing location (s.15).

The tiger will be transferred to a much larger enclosure while at the offset housing and exercised every morning and evening. The tiger will also have a large cage to move to the movie set and to relax in during filming. The cage to travel in is an approved IATA cage. There will be 24 hour security on the tiger wherever he goes.

The tiger will be moved in the same trailer that he is picked up in from the plane. It is 24 feet long and 8'6" in width and the tiger will have circulation vents in the roof. This trailer will accommodate a large cage to bring the animal to set. The cage contains a built in water supply. Jean Cardinal has flown this animal to other shows and sets.

The housing of the tiger will be in a large cage to transport him to the set inside the enclosed trailer. Once at the set, the tiger truck and trailer will be brought into the compound where we are going to film. The compound where the filming takes place is a 10 foot steel fence. The interior of the compound will have a hot wire within which the tiger will work. No one except trainers will be allowed into the compound.

The tiger will be transported in a cage in an enclosed trailer with double locks. There will be four trainers with the trailer and one American Humane Association officer with the trailer.

A safety trailer contains electric fence, bear spray, CO2 fire extinguisher. Canes, ropes and heavy duty leashes are available and used if needed. The tiger is in a double contained holding at the set, inside a hot wire which is inside a 10 foot high steel mesh fence.

The tiger will be removed from the trailer and walked on a leash by two trainers from Point A to Point B, where the tiger will work. Then the tiger will be allowed to work free from Point A to Point B, but a cable leash is still attached to his collar while working free. There will be veterinarian present at the film location at all times. There is also two City of Vancouver police officers present all day during filming.

Should the tiger escape, there are two police officers, one trainer licensed with a shotgun. The tranquillizer gun is loaded with a combination of ketaset and rompen.

We will be contacting the Conservation Officer Service (COS) to monitor everything we are doing when the tiger arrives. The transport routes and schedules would be relayed to the COS.

Wildlife Act of British Columbia
Transitory* Controlled Alien Species Permit Application

CAS-01

Please complete all sections of this form that are relevant to your situation. Type or print legibly. Attach additional sheets as needed.
For use by the film industry or circuses or in other special circumstances for the possession and transportation of species individuals of Controlled Alien Species listed below ("CAS") that will be brought into British Columbia and remain only for a short time before leaving. Do not use this application for any other CAS permit or for any wildlife species. Please refer to the FrontCounter BC website for the appropriate application instead.

*A circus is a travelling company, consisting of CAS, that will be used for public entertainment or public display.

APPLICANT:

Last Name: CARDINAL First Name: JEAN Middle Initial: JE
Organization (if applicable): CINEZOO
Incorporation/Registry # (if applicable): 9060-7763 QUEBEC INC.
Name of Contact Person (if different from applicant): JEAN CARDINAL
Street or PO Box: 163 rue DES TULIPES
City or Town: OTTERBURN PARK Province/State: Quebec Postal/Zip Code: J3H 5Y4
Phone (day): 450-446-4481 Fax: _____ E-mail: CINEZOO@VIDEOTREN.CA

PART A: CAS details

List each CAS individually and provide a recent (taken within the past 6 months) photograph of each CAS. If necessary, please use a separate sheet of paper. If the CAS has an identifying mark, please indicate that information below.

<u>Simbad</u> COMMON NAME*	<u></u> LATIN NAME**	<u>M</u> M/F	<u>12</u> AGE	<u>NO</u> IDENTIFYING MARK (E.g. band #, tattoo, microchip)
<u></u> COMMON NAME*	<u></u> LATIN NAME**	<u></u> M/F	<u></u> AGE	<u></u> IDENTIFYING MARK (E.g. band #, tattoo, microchip)
<u></u> COMMON NAME*	<u></u> LATIN NAME**	<u></u> M/F	<u></u> AGE	<u></u> IDENTIFYING MARK (E.g. band #, tattoo, microchip)

* Tiger ** *Panthera tigris*

PART B: Activity

Fill out one of sub-section a., b., or c. as applicable

a. The applicant is proposing to use the CAS for a film that is intended to be distributed commercially ☐

Type of production (i.e. feature film, TV series, commercial): ZOOSEASON 2 ULTRA Production inc

Permit number as issued by the Authority Having Jurisdiction for film production: B119 0025832

Name of animal wrangler* (if different from applicant): The North Wood Zoo

*Is the animal wrangler a member of the Teamsters Local 155 Union? Yes ☐ No ☒

If the wrangler is not a member of the Teamsters Local 155, please provide proof of the wrangler's qualification(s):

Ministry of
Forests, Lands and
Natural Resource Operations

Wildlife Act of British Columbia
Transitory* Controlled Alien Species Permit Application

CAS-01

b. The applicant is a circus ☐ Will the CAS be performing or exhibited while in BC? Yes ☐ No ☐

If no, please explain in detail the purpose of coming into BC.

c. The director of wildlife may authorize a person to possess a species individual of a CAS even though it was not in BC on March 16, 2009, but only if satisfied that special circumstances exist. Please explain in detail why the director should be satisfied that special circumstances exist

PART C: Shipping or transportation

Provide all the destination(s) (complete physical address) in BC where each CAS is (are) being brought.

s.15

s.15

s.15

s.15

PART D: Dates CAS will enter and leave BC

It is Ministry policy to normally require species individuals of CAS subject to Transitory CAS possession permits to be taken back out of BC following the completion of the activity they were initially brought in for; therefore, the Fish and Wildlife Branch needs to know the final date that the CAS is needed in BC. It is also Ministry policy to set the final removal date as one week after the CAS is no longer needed in BC.

DATE CAS WILL BE BROUGHT INTO BC: Feb 12 2016 FINAL DATE THAT CAS NEEDED IN BC: July 10 2016

Applicant **should provide** detailed information regarding the enclosure(s) in which the CAS will be housed. Photographs showing critical details of the CAS enclosure(s) are also required. See **Appendix 1** for the CAS detailed enclosure description form.

Applicant **should complete** a public safety plan that explains the measures they will take to ensure that public safety will be protected. See **Appendix 2** for the public safety plan form.

Applicant **should complete** a detailed CAS animal welfare plan that explains the measures they will take to ensure the health and welfare of the CAS. See **Appendix 3** for the CAS animal welfare plan form.

Applicant **should provide** proof of \$2 million in public liability and property damage insurance. See **Appendix 4** for the certificate of insurance.

Applicant **should provide** a veterinarian health certificate or other documentation from a licenced veterinarian; dated no earlier than 30 days before the date of this application, for each of the CAS indicating that each is free of disease (no particular form is required).

NOTE: The applicant is unlikely to receive a permit if the applicant does not provide a public safety plan, an animal welfare plan, a detailed description of all CAS enclosures with photographs, and proof of \$2 million in public liability and property damage insurance.

APPENDIX 1

CONTROLLED ALIEN SPECIES
DETAILED ENCLOSURE DESCRIPTION

Please complete a Detailed Enclosure Description for each type of CAS. Please provide photographs showing critical details of the enclosure(s) to support your answers (see checklist on the permit application).

This plan is for the following CAS Siberian Tiger
Common Name - e.g. Tiger

1. What is the length of the enclosure?

69' inch.

2. What is the height of the enclosure?

49' inch.

3. What is the width of the enclosure?

37' inch.

4. What is the enclosure made of (i.e. a glass aquarium/terrarium, a fenced in area, etc)? Please be specific for each surface, for example, if wire is used for a side of a cage, what gauge is it?

Fence: welded metal wire.

Floor: metal floor board. And plywood.

5. Is there an indoor and outdoor component to the enclosure? Please explain.

Fence: welded metal wire

6. Is the enclosure padlocked? If no, please explain why.

Yes, Two Place.

7. Is the enclosure double-walled? If no, please explain why.

no, because have not need.

8. Is the entrance double-doored? If no, please explain why.

no, because have not need

9. Is there a roof to the enclosure? If yes, explain what it is made of. If no, explain why.

Grilling: metal mesh

10. If applicable, is there a den area where the CAS can sleep and/or hide? If yes, please provide detailed information about the size of this area.

Yes, space is sufficient for the comfort and safety of the animal.

11. What is the floor of the enclosure made of? For example, is the floor of the enclosure made of cement, dirt, rocks, etc.

metal Floor Board and plywood

12. Is there a secure area to place the CAS while the enclosure is being cleaned? Please explain details of how the CAS is moved and what the security measures are for the time the animal is in the area.

PUBLIC SAFETY PLAN

Please complete a Public Safety Plan for each type of CAS. The purpose of the Public Safety Plan is to ensure that people are safe from the CAS.

This plan is for the following CAS Siberian Tiger
Common Name - e.g. Tiger

1. With whom, and how often does the CAS come into contact with people (including handler)?

no, just animal wrangler.
animal trainer

2. How are you ensuring the safety of those that come into contact with the CAS?

just animal wrangler and
animal trainer

3. How will you prevent the CAS from coming into unintended contact with other people?

with two animal trainer and
wrangler supplied by Production.

4. How will you prevent the CAS from escaping?

everything is filmed in the cage

5. If the CAS does escape how will it be recaptured?

by Tranquillisant

6. If the CAS does escape, who do you plan to notify (e.g. landlord, police, etc.)? Please provide use with your plan.

by Tranquillisant

7. If the CAS does escape, what is the threat to the public?

No public
Not applicable.

8. What is the location of the nearest hospital? Has the medical staff been notified of any specific need in case of human injury with this species?

Lions Gate Hospital
231 East 15 Street North
Vancouver BC V7L2L7

9. What is the proximity of the Conservation Officer Service (COS), Royal Canadian Mounted Police (RCMP) or local police and your veterinarian?

Vancouver Police
1-604-717-3321
2120 Cambie Street Vancouver BC V5Z4N6

If the CAS is being transported:

10. How is/are the CAS to be transported while in British Columbia? (i.e. what kind of transportation container is used? Is the container locked?

by Plane

11. What is the method of transferring the CAS into the transport container?

A cage in a container by Air Canada

12. What is the expected duration of transport?

About 6 hours.

13. What is the emergency plan if the CAS escapes?

we follow the protocol 1ATA

-
-
-
14. If applicable, how is/are CAS being transported into/from British Columbia? (I.e. are International Air Transport Association (IATA) or Animal Transportation Association (ATA) standards (as applicable), for live animal transportation being followed?)
-
-
-

APPENDIX 3

CONTROLLED ALIEN SPECIES
ANIMAL WELFARE PLAN

Please complete an Animal Welfare Plan for each type of CAS. The Animal Welfare Plan should answer in full the following questions that are based on the BC SPCA's Five Freedoms:

This plan is for the following CAS Siberian Tiger
Common Name - e.g. Tiger

Freedom from hunger and thirst

1. How often is the CAS fed?

Once a day

2. What kind of food does the CAS receive? And is it commercially available to you?

CHICKEN, available

3. If applicable, is the CAS receiving adequate and appropriate dietary and/or nutritional supplements? Please explain.

NOT applicable

4. Does the CAS have access to clean/potable water? If applicable, how is freezing mitigated?

yes, access to potable water

5. If there is more than one CAS in an enclosure, how are you ensuring that each CAS has access to adequate food and water? (i.e. how are you ensuring that both alpha and beta CAS receive adequate food and water?)

no, only one

Freedom from pain, injury or disease

6. How often are the enclosure and fixtures cleaned and if applicable, bedding replaced?

Twice a day by Trainer

7. How often is the CAS assessed by a veterinarian licenced in B.C.?

Twice

8. What is the course of action if the CAS becomes sick or injured?

Dr Ken Macquisten Town Line Vet Hospital Unit 7

31005 Macdune Road Abbotsford BC V4T 5E5

Dr Bruce Benton 23481 Star Road Abbotsford BC

V4X 2C5

Freedom from distress

9. What is the course of action if the CAS starts showing signs of fear, frustration, anxiety or depression?

Veterinary Supervision

Animal accustomed to travel

Freedom from discomfort

10. How is the CAS protected from environmental factors such as too much or too little heat, light, wind, humidity, etc?

Installation according to the protocol of the Zoo

and Veterinary Supervision

11. How is the CAS protected from physical factors that may cause pain or discomfort (e.g. concrete flooring, exposed wire caging)?

Veterinary Supervision and

Installation according to the protocol of the Zoo

Freedom to express behaviours that promote well-being

12. What are you doing to ensure the promotion of the CAS' natural behaviour? (For example, if applicable, is there a tree for CAS to climb, is there space for the CAS to jump, is there dirt for CAS to dig, is there an opportunity for social interactions?).

The protocol of The Zoo.

An exam of the Siberian's Tiger was done today at cinezoo, 151 5e rang, Ste-Anne de la Rochelle, Quebec, Canada. His name is Simbad and he's 12 years old. No disease was noticed, the fur was pretty good, and no nasal, ocular or ear discharges was noticed. The appetite is good and the stool and the activity are normal. He's thin but it's his normal condition since years. So this animal is in good condition.

BLANKET ADDITIONAL INSURED

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

1. The following is added to SECTION II-WHO IS AN INSURED:

Any person or organization that you agree in an oral contract or agreement or a "written contract requiring insurance" to include as an additional insured on this Coverage Part is an insured, but:

- a. Only with respect to liability for "bodily injury", "property damage" or "personal injury"; and
- b. If, and only to the extent that, the injury or damage is caused by your acts or omissions or "your work" or by your subcontractor in the performance of "your work" to which the oral contract or agreement or "written contract requiring insurance" applies.

The person or organization does not qualify as an additional insured with respect to the independent acts or omissions of such person or organization.

The insurance provided to such additional insured is limited as follows:

- a. In the event that the Limits of Insurance of this Coverage Part shown in the Declarations exceed the limits of liability required by the "written contract requiring insurance", the insurance provided to the additional insured will be limited to the limits of liability required by that "written contract requiring insurance". In the absence of a "written contract requiring insurance", the limits of insurance available to the additional insured will be \$1,000,000 for the sum of all damages because of "bodily injury", "property damage" and "personal injury". This endorsement will not increase the limits of insurance described in Section III - Limits Of Insurance.
 - b. The insurance provided to the additional insured will be limited to the more restrictive of:
 - (1) The scope of coverage required by contract or agreement; or
 - (2) What is insured by this Coverage Part
 - c. The insurance provided to the additional insured does not apply to "bodily injury" or "property damage" included in the "products-completed operations hazard" unless the "written contract requiring insurance" specifically requires you to provide such coverage for that additional insured, and then the insurance to the additional insured applies only to "bodily injury" or "property damage" that occurs before the end of the period of time for which the "written contract requiring insurance" requires you to provide such coverage or the end of the policy period, whichever is earlier.
 - d. If you agreed to provide insurance to the additional insured pursuant to an oral contract or agreement or a "written contract requiring insurance" with a "third-party media production company" then the insurance provided to the additional insured will be limited to liability for "bodily injury", "property damage" or "personal injury" caused by or arising from the specific media being produced on your behalf.
- 2. The insurance provided to the additional insured by this endorsement is excess over any valid and collectible other insurance, whether primary, excess, contingent or on any other basis, that is available to the additional insured for a loss we cover under this endorsement. However, if a "written contract requiring insurance" specifically requires that this insurance apply on a primary basis or a primary and non-contributory basis, this insurance is primary to other insurance available to the additional insured which covers that person or organization as a Named Insured for such loss, and we will not share with that other insurance. But the insurance provided to the additional insured by this endorsement still is excess over any valid and collectible other insurance, whether primary, excess, contingent or on any other basis, that is available to the additional insured when that person or organization is an additional insured under such other insurance.**
- 3. The following is added to Paragraph 2., Duties In The Event Of Occurrence, Offense, Claim Or Suit, but only with respect to coverage provided to any additional insured by this endorsement:**
- e. The additional insured must give us written notice as soon as practicable of an "occurrence" or an offense which may result in a claim. To the extent possible, such notice should include:

- (1) How, when and where the "occurrence" or offense took place;
- (2) The names and addresses of any injured persons and witnesses; and
- (3) The nature and location of any injury or damage arising out of the "occurrence" or offense.
- f. If a claim is made or "suit" is brought against the additional insured, the additional insured must:
 - (1) Immediately record the specifics of the claim or "suit" and the date received;
 - (2) Notify us as soon as practicable; and
 - (3) See to it that we receive written notice of the claim or "suit" as soon as practicable.
- g. The additional insured must immediately send us copies of all legal papers received in connection with the claim or "suit", cooperate with us in the investigation or settlement of the claim or defense against the "suit", and otherwise comply with all policy conditions.
- h. The additional insured must tender the defense and indemnity of any claim or "suit" to any provider of other insurance which would cover the additional insured for a loss we cover under this Coverage Part. However, this condition does not affect whether the insurance provided to the additional insured is primary to other insurance available to the additional insured which covers that person or organization as a named insured as described in Paragraph 2. above.
- 4. Except with respect to the Limits of Insurance, and any rights or duties specifically assigned in this Coverage Part to the First Named Insured, this insurance applies:
 - a. As if each Named Insured were the only Named Insured; and
 - b. Separately to each insured against whom claim is made or "suit" is brought.
- 5. The following is added to the **DEFINITIONS** Section:

"Written contract requiring insurance" means that part of any written contract or agreement under which you are required to include a person or organization as an additional insured on this Coverage Part, provided that the "bodily injury" and "property damage" occurs, and the "personal injury" is caused by an offense committed:

 - a. After the signing and execution of the contract or agreement by you;
 - b. While that part of the contract or agreement is in effect; and
 - c. Before the end of the policy period.

Fish and Wildlife Branch

RE: CAS Application of Jean Cardinal

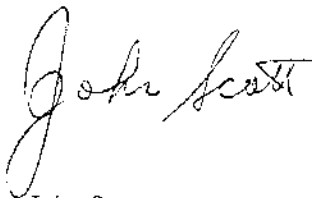

My name is John Scott. I am the Animal Unit Manager on a T.V. Series called Zoo. I have been in the film business for over 45 years and have never had an accident between humans and animals. Six of these pictures have been Academy Award winners.

On behalf of Jean Cardinal, I am trying to help him secure his permit for his tiger, as he is in Quebec and misunderstand some of your questions in English. Jean Cardinal has asked that I respond to your questions on his behalf.

I will try and address the concerns of each CAS PAC member separately to hopefully assist you with the answers you need and to help the Director of Wildlife with the application.

Thank you very much on behalf of Jean Cardinal.

Sincerely,

John Scott
Animal Unit Manager

P.S. I would like to invite all of you to come and see this tiger -- the beautiful shape he is in and his love for his trainer.

ULTRA PRODUCTIONS INC.
9/330 - 555 BROOKSBANK AVENUE
NORTH VANCOUVER, BC V7J 3S5
P: 604.983.5111 | F: 604.983.5112 | E: zoo2productionoffice@gmail.com

To CAS PAC Member #1

This is a very separate application from CAS # 99957. There are no other animals on the set than Jean Cardinal's tiger. There are no other animals being housed with this tiger at the offset housing.

The tiger is loaded in a cube van truck to travel in his travel cage from the Cine Zoo to Dorval Airport then onto Air Canada. The flight time is 4 hours and 23 minutes – animals are not allowed to fly over 5 hours. This flight will be direct from Dorval to Vancouver.

Jean Cardinal's assistant trainers will fly out to Vancouver in advance to meet the tiger when he arrives. The tiger is the last freight loaded on the plane and the first offloaded. The tiger will be offloaded into an enclosed trailer with double locks. Another trainer who possesses the permit of a shotgun and tranquilizer dart gun will be added to the delivery of the tiger from the airport to Action Animals Compound. This compound was picked because Fish and Wildlife had requested that cats on the show called "The 100" be housed there. The tiger will be put into a larger compound that is a tiger approved cage with plenty of room for exercise. I have been to the offset housing facility and found it to be secure for this animal. There will be 24 hour security on this animal wherever he goes. s.22 is the owner of the property and is one of the six people in Canada qualified to work with exotic cats. This is why he was chosen.

Another option we have is to go to a compound called "s.15", s.22
s.22. This brings to five, the trainers that will be around this animal. Three from CINE Zoo and two from Vancouver, being members of Teamsters Local 155. This compound has been in business for over 25 years and is also well known to Fish and Wildlife. Their cages and enclosures are very safe and secure, as they also hold bears here.

Our company Ultra Productions Inc. has insured this animal for 50,000.00 and we do not want a scratch on him or any harm to him.

The tiger will be moved in the same trailer that he is picked up in from the plane. It is 24' long and 8'6" in width and he will have circulation vents in the roof. This trailer will accommodate a large cage to bring the animal to set. The cage contains a built in water supply. Jean Cardinal has flown his animals to other shows and sets.

The American Humane Association representative, Chris Obansawin, who is working with us on Season 2 of Zoo will be monitoring all actions in and around the tiger. The housing of the animal will be in a large cage to transport him to the set inside the enclosed trailer. Once at the set the animal truck and trailer will be brought into the compound where we are going to film. The compound where we shoot is a 10' steel fence as is shown in the attached photos. No one except trainers will be allowed into the compound.

The animal will be removed from the trailer and walked on a leash by two trainers from Point A to Point B, where he will work. Then he will be allowed to work free from Point A to Point B, but a cable leash is still attached to his collar while working free. There will be a vet present that day that is hired by Ultra Productions Inc. There is also two City of Vancouver Police Officers with us all day.

I think there is a mix up on where we are keeping the animal for offset housing. The facility is open to Fish and Wildlife anytime they want and they had insisted previously that the animals from "The 100" show go to this facility. If you do not like this facility we would be happy to move to one of your choice. This is why we came up with the option of going to the compound "s.15" with s.22 s.22

The American Humane Association Officer, Chris Obansawin will be travelling with the tiger from offset housing to the movie set and return to the offset housing. Both he and the vet will monitor this and the vet will monitor the off loading from the plane and also the loading up of the animal on the plane to return to Quebec.

There is no negative reinforcement training practices with this tiger. He was raised from a kitten by Jean Cardinal and they have a great partnership.

Our Locations department has blocked off a wide area where we are going to film this scene and this area is under the control of Vancouver City Police and several officers that are employed by our locations department. The public is not allowed to come into our locked off area as per the Vancouver City Police.

The Vancouver film office has approved our permit to film on this location please see the attached pictures.

To CAS PAC Member #2

The public safety plan for the filming with the tiger is an enclosed area as per our maps attached. The steel fence is 10' high on the exterior near high walled buildings. The interior of the compound will have a hot wire within which the tiger will work.

We had chosen the Action Animals facility in Matsqui, a district of the City of Abbotsford, for storage of the animal because Fish and Wildlife had insisted that the animals from a show "The 100" be kept there. s.22 is the owner of the facility and is one of six people in Canada qualified to work exotic cats. He has handled these kinds of cats for over 35 years with no accidents and no complaints of mistreatment.

Another option for offset housing is a compound called 's.15' owned by s.22 who has been a s.22 trainer for over 25 years. This is probably the facility we will go to depending upon your approval.

The tiger will be transported in a cage in an enclosed trailer with double locks. There will be four trainers with the trailer and one American Humane Association officer with the trailer. A vet will be on site at the film location at all times. A safety trailer with our show contains electric fence, bear spray, CO2 fire extinguisher. Canes, ropes and heavy duty leashes are available and used if needed. The animal is in a double contained holding at the set, inside a hot wire which is inside a 10' high steel mesh fence.

The tiger truck and trailer is also inside the 10' fence. The tiger walks from the trailer on the set to his spot where he works with two trainers with a leash on him. We will have two City of Vancouver Police Officers to keep the public away and several officers will have the streets blocked off as per our Locations department.

Should the animal escape – there are two police officers, one trainer licensed with a shotgun as is specified by CINE Zoo. One trainer with a tranquilizer gun as specified, and one vet on set. The animal is enclosed inside a hot wire inside a 10' high steel fence with police supervision outside of the compound to keep the public away. The tranquilizer gun is loaded with a combination of ketaset and rompen.

We will be contacting the Conservation Officer Service to monitor everything we are doing when the tiger arrives. The police of jurisdiction is the Vancouver City Police and the City of Vancouver film office at 604-257-8840 which has approved our permit for our location. The transport routes and schedules would be relayed to COS and everyone involved depending upon which offset housing you are approving.

To CAS PAC Member #3

The transport cage is only for the tigers' travel while on the plane. This cage is big enough for him to stand up and turn around. He will be transferred to a much larger enclosure while at the offset housing and exercised every morning and evening. He will also have a large cage to move to the movie set and to relax in during filming. The cage to travel is an approved IATA cage.

To CAS PAC Member #4

The cage measurements sent to you was for a travel cage. The tiger will be kept in a large compound at the offset housing where he will be made comfortable and exercised.

There will be 4 trainers with this animal at all times along with a vet when at the film set. The American Humane Association officer, Chris Obansawin will be with the tiger coming to the set and returning to the offset housing. There will be security on the tiger at the offset housing. This compound is double fenced all the way around.

The name and address of the offset housing is as follows:

s.15

RE: CAS Application of Jean Cardinal

My name is John Scott. I will be answering your questions once again, on behalf of Jean Cardinal, as John Cardinal is French Canadian and misunderstands some of the questions. We talk three times a day trying to help him secure the permit needed.

I am enclosing his cover letter to me to show you he speaks mostly in French.

Thank you very much on behalf of Jean Cardinal.

Sincerely,

A handwritten signature in cursive script that reads 'John Scott'.

Hello Jean Cardinal,

Thank you for your written response to our letter of February 18, 2016 regarding your Transitory Controlled Alien Species (CAS) permit application.

After a review, conducted the Controlled Alien Species Permit Advisory Committee (CAS PAC) and the Lower Mainland regional office, of the information submitted by you in your email of February 22, 2016 there are additional comments that should be addressed so

RE: CAS Application of Jean Cardinal

I will try to address CAS PAC Member #1 and Member #2 at the same time as opposed to two different correspondence.

In response to the public safety concern please note that, the Vancouver Film Commission has approved our film permit for shooting this scene with the tiger at the location, s.15 which is at the corner of s.15 and s.15 in East Vancouver, as was enclosed in the previous map sent. The map depicts the exact location of the set, and where we will be implanting road closures with the help of the Vancouver Police Department.

Our Location Scout, Karen Sanderson, who is working hand in hand with the Vancouver Police Department, has arranged to have at least two Police Officers with us at all times. The Vancouver Police Department phone number is 604-717-3321. Due to the privacy act we cannot give out the Officers' cell phone numbers. The Officers on set will be on our radio frequency while on set. Their main job is to keep the public away from the compound. Again, I reiterate there will be no public access allowed near this compound. The streets are also blocked off by other Vancouver Police squad cars and personnel.

The tiger will not be out in the open on set. He will be working inside a double fenced compound. The interior fence will have hot wire, and the outer fence is 10' high and made of steel. The tiger will never leave the compound, as the safety trailer he is transported in will be driven into the fenced compound to ensure maximum security. The safety of our crew members is of utmost priority, thus, all cameras will be operated outside of the fence.

You are correct that the American Humane Society Officer does not have legal authority in Canada, but they do have contractual authority with the production company to inform the proper authorities of any mistreatment to make a complaint.

I fully see the COS monitoring everything that deals with this animal and their presence would be over and above the Vancouver Police. The V.P.D. are there for controlling the public. The COS Officer is there to monitor everything connected with this animal. We are also willing to pay this officer time and expenses for doing this. The officer will be advised of the location, times, transportation, filming schedule of the tiger as soon as I know who the COS will be. The COS will have access to inspect the tiger's containment at all times, wherever the tiger is present. I will happily supply the COS officer with all names and phone numbers of the trainers, support staff, animal coordinator, production personnel, veterinarian, police officers and A.H.A. officer.

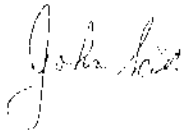

ULTRA PRODUCTIONS INC.
9/330 - 555 BROOKSBANK AVENUE
NORTH VANCOUVER, BC V7J 3S5
P: 604.983.5111 | F: 604.983.5112 | E: zoo2productionoffice@gmail.com

I was informed by the two cat trainers that Fish and Wildlife Officers had requested that the Cats on two different shows "The 100" and "The Interview" be housed at Action Animals. I detected some resistance from CAS PAC Member #1 about offset housing at Action Animals and said we would go to a place of his choice if he preferred. No choice came forward so we took it upon ourselves to go to s.15 , a compound owned by s.15 . The Address was enclosed previously.

This will be the location of the offset housing for this tiger. If and when the permit is approved the COS will be notified immediately and we can bring up to speed with our plans whatever officer they choose.

Thank you very much. I hope this clarifies your concerns.

Sincerely,

John Scott
Animal Coordinator

RE: CAS Application of Jean Cardinal - Locations

Please find the addresses of all the locations that the tiger will be filming and housed in while in British Columbia.

Offset Housing:

s.15

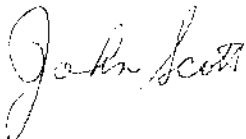

Filming Location:

s.15

These two are the only locations that the tiger will be travelling to and from during its stay in British Columbia.

Please feel free to contact me with any other questions or concerns.

Sincerely,

A handwritten signature in cursive script that reads "John Scott".

John Scott
Animal Coordinator
