Biography

MINISTER OF INTERNATIONAL TRADE ED FAST

s22

BRITISH COLUMBIA MINISTER OF INTERNATIONAL TRADE TERESA WAT

Teresa Wat was elected to represent the riding of Richmond Centre on May 14, 2013. She was appointed Minister for International Trade and Minister Responsible for the Asia Pacific Strategy and Multiculturalism on June 10, 2013.

She also serves as a member of the Cabinet Committee on Strong Economy and the Priorities and Planning Committee.

Teresa was the president and CEO of Mainstream Broadcasting Corporation CHMB AM1320 and has also served as the news director at Channel M Television (now OMNI TV), and previously served as a communications advisor at B.C.'s Cabinet Policy and Communications Secretariat.

Teresa was instrumental in the launch of B.C.'s first-ever live Cantonese, Mandarin and Punjabi daily television news programs. In 2013, Teresa received the Queen Elizabeth II Diamond Jubilee Award for her community service work. In 2010, she was appointed to the Canadian Women Voters Congress Advisory Board and was recognized as one of B.C.'s top 100 most influential women by the Vancouver Sun. She is also currently a board member of the school of journalism at UBC.

Speaking Points

- Thank you for that introduction Colin and good morning.
- I would like to begin by acknowledging that we are gathered on the traditional territory of the Coast Salish peoples.
- On behalf of British Columbia and Premier Christy Clark, I would like to welcome and acknowledge His Excellency Dr. LIM Hong Hin ...
- ... Deputy Secretary-General of the Association of Southeast Asian Nations.
- The Honourable Ed Fast, Canada's Minister of International Trade.
- His Excellency Mahendra SIREGAR, Chairman of BKPM, Indonesia Investment Coordinating Board...
- ... I look forward to your remarks on behalf of ASEAN later in this morning's program.

- And all of the Ministers, delegations, ambassadors, and Consul Generals representing our valued ASEAN partners.
- We also appreciate all of the ASEAN, Canadian and B.C. business representatives joining us today.

[PAUSE]

- It gives me great pleasure to welcome all of you to Vancouver and to today's luncheon ...
- ... as we continue to deepen the relationships between the ASEAN region, Canada, and British Columbia.
- We strongly value those relationships because British Columbia is Asia's gateway to North America.
- Investment and trade between Asia and British Columbia are aligning our interests with the rest of the Asia-Pacific region.

- For example, we are proud to be working with PETRONAS of Malaysia and other Southeast Asian partners ...
- ... such as Brunei, Indonesia and Singapore and across the region ...
- ... as we develop our liquefied natural gas industry.
- Paper Excellence, an affiliate of Indonesia's Sinar Mas Group, recently purchased the Chetwynd pulp mill, its fourth such investment in British Columbia ...
- ... and announced that they will reopen it and create a significant number of jobs.
- Singapore's Temasek Holdings is a valued partner in Vancouver-based Ivanhoe Mines.
- Viking Air of Victoria, B.C. has sold its amazing Twin Otter aircraft to the Vietnam Navy ...
- ... and Viking affiliate Pacific Sky Aviation Inc. has provided training to the pilots flying those planes on search and rescue missions.

- Delegations and businesses are travelling between B.C. and Southeast Asia ...
- ... taking part in conferences, trade shows and meetings that drive global business and cement partnerships.
- A delegation from Thailand, Singapore and Indonesia attended Globe 2014 in Vancouver in March ...
- ... and a delegation from Thailand, Singapore and Brunei will attend Food Pro West in Vancouver later this month ...
- ... with both visits co-organized by the B.C. Ministry of International Trade and Canada's Department of Foreign Affairs, Trade and Development.
- And later this month, 22 B.C. information and communications technology executives will be heading to Singapore to attend CommunicAsia 2014 ...

- ... and they will continue on to the Philippines where they will meet with some of its leading telecommunication companies.
- These inbound and outbound missions ...
- ... supported by federal and provincial governments ...
- ... will increase the number of B.C. businesses with active links in Southeast Asia.
- Joining companies such as fuel-cell leader Ballard Power Systems in Malaysia...
- ... HootSuite and ZE Power Systems in Singapore ...
- ... TELUS in the Philippines, and Hatfield Consultants in Indonesia.

[PAUSE]

- As we forge those trade and investment links, our government is also pleased with the commitment demonstrated by Trans Pacific Partnership members ...

- ... including Brunei, Vietnam, Singapore, Malaysia and Minister Fast and our Canadian colleagues ...
- ... as they work toward concluding a deal that will give us improved market access and investment opportunities ...
- ... and strengthen commercial relationships between our jurisdictions.

[PAUSE]

- In addition to this growing list of business and government connections ...
- ... B.C. is home to a large and vibrant ASEAN community ...
- ... with roots in the Philippines, Laos, Thailand, Cambodia and all the countries of the ASEAN ...
- ... contributing day by day to the family, economic, and cultural bonds that connect us ...
- ... and that allow us to work together toward our shared goals.

- All of those connections are why Premier Clark recently led her second trade mission to the ASEAN region.
- She visited Malaysia and Singapore with Deputy Premier and Minister of Natural Gas Development Rich Coleman and industry delegates ...
- ... Because as we strengthen our relationships with companies and governments with keen interests in delivering on our vast LNG potential ...
- ... we recognize that Southeast Asia and the growing ASEAN economies are key partners markets.
- B.C. and Premier Clark announced two agreements during the trade mission ...
- ... signing a Letter of Intent with PETRONAS to secure long-term investments in British Columbia's LNG sector ...
- ... and a Letter of Intent with Singapore's Woodfibre to advance the growth of LNG in B.C.

- Those companies and many others are poised to make the most of British Columbia's competitive advantages.
- We have lower shipping costs thanks to our proximity to growing markets.
- We have a vast supply of natural gas to meet demands.
- We have strong relationships with B.C.'s First Nations and continue to work toward mutually beneficial partnerships.
- We have a multicultural and highly-skilled workforce.
- And B.C. has a 50-year record of safely recovering oil and gas resources as well as world-leading environmental standards.
- Our natural gas sector is safe and responsible ...
- ... just as our economy is stable and growing ...
- ... with B.C. remaining a safe harbour for investment in turbulent times.

[PAUSE]

- To help us promote these advantages, attract investment and increase our ties to Asia ...
- ... B.C. has established a Special Representative in Asia, successful businessman and former cabinet minister Ben Stewart.
- He will act as the official Province of British Columbia on-the-ground representative in Asia, including acting as official signatory for the Province.
- We want to build stronger, closer and more sustained government-to-government relationships ...
- ... and our new Special Representative in Asia will help us do that.
- His new role is part of our strategic efforts to open and expand markets for our goods and services...
- ... to build on the strengths of the priority sectors we identified in our B.C. Jobs Plan.

- ... key sectors such as natural resources and LNG, clean technology and the green economy ...
- ... and international education and tourism.
- Now we are connecting those sectors to partners, investors and institutions throughout Southeast Asia and around the world...
- ... working with regionally based international organizations such as the Association of Southeast Asian Nations ...
- ... to get everyone in the same room, to find out what we need and what we have in common ...
- ... and then working together meet our goals.

[PAUSE]

- We are thrilled that you can be here to experience British Columbia's natural beauty ...
- ... during this very promising time in our shared history as we develop our LNG industry ...

- ... and make new inroads in the relationship between B.C. and the ASEAN region.
- I look forward to spending a good portion of the day with senior ASEAN officials ...
- ... and getting to know more about them, their countries, and the opportunities we share.
- Thank you.

Speaking Points

- Thank you for that introduction Greg.
- I would like to acknowledge that we are gathered on the traditional territory of the Coast Salish peoples.
- And welcome and acknowledge His Excellency Dr. LIM Hong Hin ...
- ... Deputy Secretary-General of the Association of Southeast Asian Nations.
- The Honourable Ed Fast, Canada's Minister of International Trade.
- His Excellency Dr. Kan Zaw, Myanmar's Minister for National Planning and Economic Development.
- ... who will speak tonight on behalf of our ASEAN visitors.
- On behalf of British Columbia and Premier Clark, it is my pleasure to welcome all of our valued ASEAN partners and guests to tonight's dinner.

- I hope during your time here you have seen that B.C. is a great place to visit, work, study and invest.

[INSERT PERSONAL ANECDOTE ABOUT TIME IN SINGAPORE / ASEAN REGION IF DESIRED]

- Now I am proud to be part of the B.C. team working to make this beautiful province a North American hub for trans-Pacific trade, business and cultural exchange.
- We talked at today's luncheon about Canada's and British Columbia's energy plans ...
- ... as we develop our LNG sector to its full potential.
- This afternoon you were able to hear about and then see firsthand British Columbia's transportation infrastructure ...
- ... as we build upon our geographic advantages ...
- ...our proximity to Asian markets and short shipping times.

- Now we are actively and strategically taking steps to increase our ties to Southeast Asia ...
- ... to make sure the whole world knows what we have to offer, and that B.C. is open for business.
- We are working to build a collaborative model with our key partners...
- ... including our federal counterparts ...
- ... organizations such as Export Development Canada and the Canadian Commercial Corporation who are with us here today ...
- ... and the Business Council of British Columbia ...
- ... to make the case that Asian companies should invest and locate their North American operations and head offices in B.C.
- We are promoting the investment and location advantages you have seen during this visit ...

- ... our work days that overlap with key markets in the United States and Europe ...
- ... our multicultural and highly-educated workforce and our diversified, stable economy...
- ... with a triple-A credit rating, low debt ...
- ... and exports that are tied to high-growth Asian economies.
- Together, ASEAN markets rank fifth among destinations for B.C. goods exports ...
- And we see exports and opportunities increasing in the years to come ...
- ... as growing ASEAN economies seek new investment and business partners ...
- ... and the region works towards the establishment of the ASEAN Community.
- We look forward to working with you as those goals become a reality.

- And as British Columbia develops its LNG industry and other key sectors such as clean technology, international education and tourism ...
- ... to their full potential working together with our ASEAN partners.
- In closing, I would like to thank Minister Fast and the Department of Foreign Affairs, Trade and Development for their support with this visit.
- And I hope you enjoy the rest of your visit to British Columbia and Canada.
- Thank you.
