Subject: BC Liberals MLAs-Elect May 15/13
Attachments: May 2013 Liberal MLAs-Elect.docx

Hi everyone – in case useful, I'm attaching a catalogue of incoming Government MLAs-Elect (both new and re-elected). The info comes from the BC Liberal site and MLA bios, but has been edited in some cases to make it fit onto one page. (Filed for now under government transition folder).

Cheers,
Carol Anne

Subject: For Premier Christy Clark and Ralph Sultan, W. Van Capilano MLA, from S 22
S 22 15 May 2013

Dear Madam Premier:

My wife, S 22 and I congratulate you on the well deserved victory of the BC Liberal Party, won under your able leadership, in the May 2013 election. You confounded the pollsters and newspaper pundits. It was a delight to read the admission of Vaughan Palmer in today's Vancouver Sun: "Everyone was wrong except for the Liberals and the voters."

Your strong leadership and commitment to a five point program to ensure the economic well being of British Columbians was the message voters wanted to hear. With you at the helm we are confident BC's economy will continue on an even keel, and that the oil and gas pipelines will be built with the requisite environmental safeguards. We need strong leadership in BC, we have it in you.

We live in the West Vancouver - Capilano Riding which has been ably represented by Ralph Sultan for several terms. Ralph won his seat by the largest majority of any candidate in BC...this attests to his popularity. We are disappointed that Ralph has not been given a senior cabinet post. We hope this cerebral and talented MLA, who in addition to his political career is also a member of academia and a Professional Engineer, will be given a position of importance in your cabinet.

We wish you and your team success. Look after your health. You are needed to serve BC and Canada for many more years to come.

Once again congratulations and our best wishes to you and your family.

With kind regards,

S 22

Thank you, S 22 for your very kind words. We are all very excited and sharing in this wonderful celebration.

We note that you would like to see MLA Ralph Sultan appointed to a Cabinet position. Your message will be brought to the attention of the Premier at our earliest opportunity – she will certainly appreciate hearing from you.

Subject: Ralph Sultan

Honourable Christy Clark
Premier of BC

I have supported financially and worked in my small way for the Liberal Party since 2001, when I got involved on Ralph Sultan's campaign. Ralph Sultan, is one of the most experienced , well-educated and hard-working members of your party.

I also looked at what he has accomplished lately in 3 areas during his term(s) of office in finance, mining, and health care (accomplishments taken off his website)

- Finance: conducting a special examination of securities regulation in B.C.; running a public consultation on the rewriting of the Insurance Act; helping revive IFC (International Financial Institutions) activity in B.C.; encouraging new government venture capital measures.
- Mining: chairing the Mining Task Force; maintaining close liaisons with the industry; working on such projects as the Highway 37 power line extension and the maintaining of Kemess; arranging for the capital funding of an endowed chair in mining research at UBC.
- Health Care: advocating for the new \$45 million mental health and addictions building at Lions Gate Hospital; assisting the HIV-AIDS Centre of Excellence at Providence Health Centre with plans to roll-out their proven therapies province-wide; obtaining a \$25 million commitment to the UBC Brain Health Centre addressing issues from autism to dementia; serving as Chair of the Legislative Health Committee, guiding a large consultative report on Childhood Obesity; serving on the government's Act Now Committee for healthy living; assisting the BC Cancer Agency on governance issues.

A Harvard colleague of Ralph told me in 1981 about his humble beginnings and what he had accomplished:

- Bachelor of Science in Engineering from UBC, 1956
- MBA, MA and Ph.D. from Harvard University
- Senior office and director positions in mining, forestry and technology companies
- Chief Economist of the Royal Bank of Canada
- Senior Vice-President, Global Energy and Minerals Group, Calgary, AB
- Executive Vice-President, Hudson Bay Mining and Smelting Company
- Chair, Curragh Resources in the Yukon.
- Chair of the Government caucus Committee for the Economy and BC Mining Task Force.
- Harvard designation as Baker Scholar and Ford Foundation as Fellow.

To top it off in this last election, he earned by hard work one of the highest levels of support for any Liberal Party candidate in BC.

S 22

However, the Liberal Party needs all the talent they can muster, and relegating Ralph as a back bencher after his former appointments to Minister of State for Seniors and Minister of Advanced Education, Innovation and Technology is a mistake, Ralph, at his age is a firebrand and he should have been appointed to a Minister position worthy of his education and experience. He is one the those very talented people we need in BC for the Liberal Party to accomplish the goals you campaigned for.

Again, congratulations on your provincial election standings.

Regards,

S 22

Thank you S 22 for your comments. One of the hardest jobs for the Premier is selecting a Cabinet from a group of very talented people. We have noted your support of Mr. Sultan and will share your comments with the Premier at the earliest opportunity. We do appreciate hearing from you.

Subject: mad as hell

Premier Christie.....???

I also worked in Radio, I started the talk shows in Canada 1. Jack Webster 2. Pat Burns "Hot Line" tjhe two best talk brains in Canada.

I know what catches headlines. 1. dropping Ralph Sultan's ;seniors portfolio is a blatant mistake. My wife and lots of other West Vancouverite's worked hard to get Ralph and the liberals re elected.....this is a slap in the face ! Ralph is an honorable and brilliant asset to the Liberal Cabinet.

2. Compounding this egregious error you summarily went to the public trough to raise salaries by 18% how irresponsible of an act is that???. You may lose the re election in Kelowna over this blunder. We are strong supporters of the B.C.Liberal party but this premature move is totally irresponsible. And we in West Vancouver want you to re instate the Honorouble Ralph Sultan to his senior portfolio.

We anticipate these errors corrected forthwith.

Thanks,

S 22

I ask myself why would he give up his seat. What will he get for it. A nice job in the government as an adviser. Will watch for his name in the future.

WHAT.

may 15, 2013

Premier;

I wanted to congratulate you on the stunning victory in last nights election.

The only solace I can take from it is that you lost your seat.

Since the speculation is rampant that Ms. Ried S 22 step down
for you to run in her seat. A cushy job no doubt in her future, to say nothing if that big, fat
pension with her name on it.

If you have ever wondered why people are disengaged from the political process, this cynical
move to get yourself into the Legislature, might be a good example.

Since Richmond-East is my riding, I will be looking forward to the election again. Since I am not
expecting to see you anywhere except in tightly controlled photo-ops, I will have to work as hard
as I can to defeat you a second time.

Have a nice day.

Subject: By-election to obtain a seat in the legislature

Dear Premier Clark,

I endorse Jane Thornthwaite and North Vancouver-Seymour as the MLA riding for you to run in. She did not "take responsibility" when caught in a roadside drinking/driving scenario and will likely never be in cabinet as that stellar Naomi Yamamoto is in the seat next door, yet was re-elected quite handily. North Van is an easy harbour-to-harbour commute from Victoria as well as has a group of S 22 to facilitate the commute there and is a hockey hotbed for youth.

It smacks of agism those people looking at Linda, Ralph, and Moira to move over for you. Those members are credentialed and effective.
sincerely,

--

Subject: ...find a riding in Vancouver

Best of luck in finding a riding so you will have a seat in the legislature, but not in White Rock. It makes no sense and Gordon Hogg is too much a part of this community. The backlash could be catastrophic.

Mr. Dan Doyle
Chief of Staff
Office of the BC Premier Christy Clark – Executive Branch

Mr. John Dyble
Deputy Minister to the Premier and Cabinet Secretary and Head of the Public Service
Office of the BC Premier Christy Clark

Re: FPIInnovations – BC Bio-Economy R&D Program 2013-14 (currently held with the Ministry of Advanced Education Innovation and Technology)

Dear Mr. Doyle, dear Mr. Dyble,

First, congratulations on the recent BC Provincial election and majority mandate provided by the people of British Columbia. FPIInnovations has developed, over the years, a very good working relationship with the BC government, and we sincerely hope that this public-private partnership will continue to grow in the future.

I would like to bring to your attention a letter that FPIInnovations sent in February 2013 to the Minister of Advanced Education, Innovation and Technology (MAEIT) in which we requested continued funding of the FPIInnovations BC Bio-Economy R&D Program. This request was supported, in writing, by senior forest industry executives of the BC Bio-Economy Transformation Council (see document attached). We also understand that the executive staff from the Ministries of Forests, Lands and Natural Resource Operations (MFLNRO) and Jobs, Tourism and Skills Training (MJTST) are advocating such funding, based on their experience and previous participation in this results-driven R&D Program.

It is important to note that on April 3, 2013, the Minister of FLNRO provided a positive response to this request in a letter to industry in which you were copied (see attached).

This letter is following up on this recent exchange of communications. FPIInnovations is requesting your direct involvement in securing full funding (\$1,215,000) of the BC Government contract with FPIInnovations to continue the BC Bio-Economy R&D Program. Further, to ensure optimal value and improved coordination, we propose that this investment in the BC Bio-Economy be guided via the interests and expertise of the BC MFLNRO during the 2013/14 fiscal year.

In addition, it should be noted that the BC R&D funding for this contract is matched and leveraged by Federal investments through FPIInnovations. The following are the key objectives of the Program:

- Maximize sustainable utilization of wood biomass to support a vibrant 21st century bio-economy in British Columbia
- Technology Transfer to enable investment via business and communities collaboratively linked to the resource economy
- Develop, pilot and guide implementation of novel bio-products for BC's competitive advantage and highest return for its resource
- Design and engineer solutions for advanced building systems to support development of environmentally superior, cost-effective, tall wood for commercial, residential and institutional buildings.

These focus areas are directly linked to recent BC Forest Policy Reports, Ministry strategic plans and the interests of the commercial sector.

The program is already achieving measurable progress in the development of the bio-economy in British Columbia, and its related jobs, communities and GDP contribution. Here are some examples:

- Identified and now developing the five most competitive bio-economy product platforms for the BC Bio-Economy – a potential \$200 billion global market
- Developed and now piloting a new technology tool kit for resource inventory assessment and economic delivery of wood biomass to processing locations – meeting the environmental goals of best fibre application and utilization
- Research, design and maintenance of wood and integrated wood building systems construction guides/codes and standards for Canadian and US architects and engineers for tall commercial institutional and residential wood buildings. This is potentially as significant to the BC economy as the development of the China market for BC wood products (a 50% penetration of the greater than six-storey building construction market in North America represents 3.5 billion bf/yr expansion for wood product).

There is very aggressive global competition in the bio-economy field. British Columbia needs to act quickly in order to maintain its competitive position and fully realize its opportunities.

If you are interested, my colleagues and I would be pleased to meet with you to discuss how we can further advance this program and our overall partnership in the development of a socially, economically and environmentally responsible BC Forest Resource Economy.

Sincerely,

Pierre Lapointe
President and CEO

P.S.: In order to facilitate your review and decision, I have attached to this letter relevant electronic documents.

cc: Honourable Steve Thomson – Minister of Forests, Lands and Natural Resource Operations
Honourable Ralph Sultan – Minister of Advanced Education, Innovation and Technology
Mr. John Rustad – Parliamentary Secretary for Forestry to the Minister of Forests, Lands and Natural Resource Operations
