Subject: The Trump building

I have to preface this by saying I am a B.C. Liberal and have always supported the leader, but I was just watching the local news and saw Christie Clark say that the Trump building was not really welcome in Vancouver - I was speechless - let me get this right - millions and millions of voters in the USA have voted for someone, but a little old Premier in B.C. knows better than they know - she knows that Donald Trump is a racist!!!! I expect that from the mayor of Vancouver because he is just plain stupid, but I don't expect it from FREE ENTERPRISE Christie Clark - she accepts all this money from China not knowing where it is even coming from, but doesn't want the Trump name. Wow that just makes total sense to me. I am so surprised that Christie would even enter such a stupid small minded conversation especially in front of the press - I think she should keep her mouth shut on topics that she knows nothing about, but then again she is a politician and they just can't do it can they.

I also want you to understand I am a Canadian so I am not a Trump voter or a Clinton voter, but I believe that what Clark said was wrong - I could think of so many names that she has probably even accepted money from that would fall into her classification. I am very disappointed in her very very and I am just another B.C. voter that also has sent money to her so maybe I should be careful not to name a building after myself!!! Come on grow up.

Subject: Donald Trump inquiry

March 14, 2016

TO:

Christy Clark

Premier of British Columbia

Dear Premier Clark,

I am sure you have heard of the website "Cape Breton If Donald Trump Wins"? I was born in Newfoundland and Labrador, and I would like to see if you know anything about it. I believe that many Americans who would leave their country if Donald Trump, as the likely Republican Party nominee in the 2016 election, wins over the Democratic Party nominee (most likely to be Hillary Clinton), it would bring extra publicity to British Columbia.

I believe a Donald Trump presidency would not be good, either for America or for Canada.

I would be interested in seeing your response to this issue. Thank you for taking the time.

Sincerely,

s.22

Subject: I'm Really Disappointed ...

Hi Christy,

I just wanted to let you know that I am very disappointed with the budget introduced last week, most especially the never-ending increases in MSP premiums.

This cash grab is especially devastating for once-middle-class-but-no-longer seniors like myself and my wife. It's bad policy and bad politics.

You should be thankful that there is no BC version of Donald Trump on the horizon, because you won't be getting my vote again.

Subject: Barbara Jordan Was Donald Trump's Immigration Policy Predecessor

Attention Premier Clark and Fellow MLA's (1) :

For your information, Immigration Watch Canada sends you our latest bulletin : " Barbara Jordan Was Donald Trump's Immigration Policy Predecessor "

Canada's Quisling CBC and other media seize every opportunity to ridicule the immigration-related statements of U.S. Presidential candidate Donald Trump. In their ignorance, they say nothing about Barbara Jordan, the African-American Congresswoman who led the U.S. Commission on Immigration Reform in the mid-1990's. The goals of Ms. Jordan and her group were to introduce laws which would reduce substantially both illegal and legal immigration to the U.S. Their reason : both legal and illegal immigration were serious threats to the job hopes of millions of Americans, particularly those of unemployed Blacks.

Legal / illegal immigration has had the same negative effects on the lives of millions of Canadians, yet our Quisling CBC and other media cheer-lead it. They ridicule Trump in order to stifle the development of any such movement in Canada.

Respectfully,
s.22

Hi Carole,

A significant amount of water has flowed under the bridge since we had our lunch; however, Trump seems to continue to be paddling along. Attached is one person's take on why this is so.

I recently read an article on Bloomberg explaining to Americans how our Federal Government is able to implement significant policy changes that are intended to help the middle class. We will see.

s.22

As discussed over lunch, attached is the CV of s.22

s.22 Given the anticipated infrastructure projects in British Columbia, s.22 experience and expertise could be of benefit to the Provincial Government.

Looking forward to staying in touch.

John
