Subject: Fw: Range Act amendments

The BCWF have serious concerns and questions with respect to

**BILL 5 — 2014 FORESTS, LANDS AND NATURAL RESOURCE
OPERATIONS STATUTES AMENDMENT ACT, 2014**

They include:

Do these regulatory changes allow for extended grazing tenures to be issued on conservation lands purchased in partnership with conservation organizations and designated and managed by the Crown for habitat values?

Have those charitable partners been advised that their lands are now being used to sustain the ranching industry and provide a revenue stream for the Crown?

Does the minister feel it is appropriate for cattle to be grazed on lands purchased by charitable organizations for wildlife habitat and biodiversity conservation?

If such tenures have been issued already, inadvertently or otherwise, will the crown pay the compensation required to remove such tenures from conservation lands?

Has there been any consideration of off setting the loss of conservation surcharge funding with the elimination of the Assistant Guiding Licence?

Will you confirm that these amendments do not affect the ability

of residents to obtain permits to accompany non residents to hunt in BC?

We would appreciate answers to the questions in advance of Third Reading of Bill 5

Regards,
Al Martin

Subject: Follow Up: Conservation Lands and Range Act Tenure Overlap - Project Charter

Hello,

Attached is a 1-Page DRAFT Project Charter based on separate discussions with Chris Ritchie and Rodger Stewart. Cariboo operations staff will work through overlap issues with FLNR HQ staff. Learnings from the Cariboo work will be used to develop the provincial policy that will guide

addressing overlap issues in remaining regions.

A meeting with Government Project team members is planned for next week (Calendar Invite will be coming out later this week). A date for a joint meeting with our external stakeholders will be determined shortly.

Thank you.

Perry

Subject: MoE comments on the Range and Conservation lands BN

Good afternoon Tom/Rick:

Overall, we're OK with the Range and Conservation lands BN prepared by Andy W but I wanted to pass along a couple of staff comments:

MINISTRY OF FORESTS, LANDS AND NATURAL RESOURCE OPERATIONS

INFORMATION NOTE

Date: February 21, 2014
CLIFF/tracking #: 205066

PREPARED FOR: Tom Ethier, ADM Resource Stewardship Division and Rick Manwaring, ADM South Area

ISSUE: Conservation Lands and overlapping Range Act tenures

BACKGROUND:

Conservation lands are properties secured for fish and wildlife conservation purposes and administered by the Ministry of Forests, Lands and Natural Resource Operations (FLNR). The primary purpose of conservation lands is to conserve and manage important habitat for the benefit of regionally, nationally or internationally significant fish and wildlife species

The majority of these lands were originally acquired by government via one of the following means:

1. Fee simple acquisition of private land (by the Crown and HCTF) via purchase, exchange or donation
2. Fee simple acquisition by a private landowner (e.g. Nature Trust of BC) and leased to the Crown
3. Crown land transfer of administration from another ministry
4. Wildlife Management Area (WMA) designation under the *Wildlife Act* (note: administration of WMA lands was first acquired by one the above three means).

At the time of purchase, fee simple leased lands were free and clear of any grazing or hay cutting authority. A number were acquired with the specific purpose of extinguishing range tenures or acquiring control over future range use to meet wildlife objectives. Key partners in these acquisitions included MoE, The Nature Trust of BC, the Habitat Conservation Trust Foundation, Ducks Unlimited Canada, The Land Conservancy of BC and the Canadian Wildlife Service. The legal agreements used to secure the lands (including purchase and sale, lease or management agreements) may contain conditions that preclude or constrain grazing or hay cutting activities. Consent from the Wildlife Act Regional Manager is required for use of land or resources for these lands and lands where administration was transferred and did not have an existing Range tenure. Approval by the land owner is required for fee simple leased land.

Range use activities can result in long-term (50+ yrs), persistent impacts to native plant communities and wildlife.

It has been determined that Range Act tenure boundaries cover a large area of conservation lands across the province. A recent preliminary GIS analysis of overlapping Range Act tenures and conservation properties has found approximately 57 administered conservation land parcels out of approximately 240 sites affected by overlaps with range tenures.

s.13, s.14

s.13, s.14

All conservation lands are recorded in the Crown land registry system (Tantalis) for at least 10 years. Prior to that leased lands were shown as private land. A conservation lands' layer was created close to a year ago in the BC Government Warehouse (BCGW). This information has not been recognized in the status reporting process for some range tenures. It is not known if there are other tenure types that have similarly not been recognized.

Amendments to the Range Act have come forward in the spring legislative session and are through first reading. Changes include extending certain 5-year Range Act permits and all 10-year licences to longer term (15-25 year) licences with continual 'evergreen' renewal clauses.

There is an inconsistent approach to how we are managing Conservation Lands and overlapping Range Act tenures across the province. There is also an apparent lack of trust between Conservation and Range program staff, both at the headquarters and local level.

Mark here is the note that went up on the FLNRO side on this issue. Our staff have had a look at the note and are generally ok with it, but had a few concerns as listed below that you should be aware of.

I spoke to Mark about this, and we both came to the conclusion that it should probably be Allan's shop that tries to fix this and we can ensure that our/Cindy's comments & concerns are included. It will be a bit more compelling coming through them, so maybe just let Cindy know to coordinate with Karen, and it sounds like they are anyway. Mark is aware of the issue and can follow up if it comes up in his discussions,

Subject: Conservation lands and Range Act

Hi Dave. Karen and I have heard rumours that the Range Branch is considering a Range Act amendment.

s.13, s.14

s.13, s.14

s.13, s.14 I also have an interest in general in the proposed changes and how they might affect Crown land and Crown land values. When the previous (2004/5) Range Act changes were made there was no consultation with other Ministries and I think MOE and conservation lands staff now in FLNRO would have had some concerns in regards to some of the content changes made at that time.

I should get some time with you Mark.

Tom and I just met with the NGO's this morning, shared a review of the real effect of Bill 5 and scoped solutions and a way forward for conservation lands and range. Would be glad to include MOE.

I will as CA to get us 15 mins. Thanks for the note.

Here is the final note that FLNRO sent up. Here also are Cindy's comments on it.

I have no time to do anything further with this as I am booked up in interviews for today and tomorrow, so I am sending along to you because you stress urgency around this.

Subject: Fw: Range Act amendments

The BCWF have serious concerns and questions with respect to

**BILL 5 — 2014 FORESTS, LANDS AND NATURAL RESOURCE OPERATIONS
STATUTES AMENDMENT ACT, 2014**

They include:

Do these regulatory changes allow for extended grazing tenures to be issued on conservation lands purchased in partnership with conservation organizations and designated and managed by the Crown for habitat values?

Have those charitable partners been advised that their lands are now being used to sustain the ranching industry and provide a revenue stream for the Crown?

Does the minister feel it is appropriate for cattle to be grazed on lands purchased by charitable organizations for wildlife habitat and biodiversity conservation?

If such tenures have been issued already, inadvertently or otherwise, will the crown pay the compensation required to remove such tenures from conservation lands?

Has there been any consideration of off setting the loss of conservation

surcharge funding with the elimination of the Assistant Guiding Licence?

Will you confirm that these amendments do not affect the ability of residents to obtain permits to accompany non residents to hunt in BC?

We would appreciate answers to the questions in advance of Third Reading of Bill 5

Hi Andy – Cindy and I were talking about yesterday’s article (below) referencing MFLNRO’s review of lands owned by conservation groups that have been leased for cattle range. Cindy is very interested to be involved in this work, and I expect her technical knowledge and policy experience would be invaluable. I presume that you may be looking for some extra support, and so I thought I would let you know that I completely support Cindy’s involvement here.

Hi James. Did you get my note re: the briefing note on the conservation land issue? I had a few minutes now to go over the note prepared for FLNRO and I need some help to decide who to direct a parallel note to in our Ministry, ie Wes? Also what content of the original note should I leave in and potentially add to.

I can call you if you have a few minutes.

Cindy

Subject: FYI - Range teams
Date: December-03-13 4:21:00 PM

I just spoke to Perry Grilz from Range Branch. He is developing charters for two different project teams – one dealing with policy related to FRPA and a second around conservation lands.

Cindy – You are our most logical participant and we are extremely thin on the FRPA side right now. Perhaps you could do FRPA and just provide support to CL as needed ... or perhaps there is a role of BC Parks on that side ...?

Eva – Not sure if you think one of your staff should also be taking part. Perry is developing charters, and I can forward when he provides. Or you can follow up in advance if you already know what you want.

James

Just a heads up on some concern being expressed about Bill 5 and the Range Act.

From: Alan Martin [mailto:Alan_Martin@shaw.ca]
Sent: Thursday, February 20, 2014 1:59 PM
To: Harrison, Scott FLNR:EX; Minister, FLNR FLNR:EX; Thomson.MLA, Steve LASS:EX
Cc: Ethier, Tom FLNR:EX; Bill Bosch
Subject: Fw: Range Act amendments

The BCWF have serious concerns and questions with respect to

**BILL 5 — 2014 FORESTS, LANDS AND NATURAL RESOURCE
OPERATIONS STATUTES AMENDMENT ACT, 2014**

They include:

Do these regulatory changes allow for extended grazing tenures to be issued on conservation lands purchased in partnership with conservation organizations and designated and managed by the Crown for habitat

values?

Have those charitable partners been advised that their lands are now being used to sustain the ranching industry and provide a revenue stream for the Crown?

Does the minister feel it is appropriate for cattle to be grazed on lands purchased by charitable organizations for wildlife habitat and biodiversity conservation?

If such tenures have been issued already, inadvertently or otherwise, will the crown pay the compensation required to remove such tenures from conservation lands?

Has there been any consideration of off setting the loss of conservation surcharge funding with the elimination of the Assistant Guiding Licence?

Will you confirm that these amendments do not affect the ability of residents to obtain permits to accompany non residents to hunt in BC?

We would appreciate answers to the questions in advance of Third Reading of Bill 5

Regards,
Al Martin

Subject: RE: Re: Conservation Lands and Range Act tenures /Proposed Range Act changes

Thanks Cindy and Karen, this is a good note and I completely agree it needs to go up to executive ASAP. Please convert the note for our purposes and send up our chain through James as soon as it is ready.

Thanks for your work on this.

Alec

Hi Alec and James.

Please find attached the draft briefing note that Karen Wipond and I have developed for Tom Ethier, FLNRO (still under review within FLNRO but expected to go forward on Friday or Monday) on the issues

of:

s.13, s.14

s.13

Thank you
Cindy
