Hi Everyone,

As I am sure you are aware, the BC Utilities Commission (BCUC) has released its Site C report. Attached to this e-mail you will find key messages, Q&A and a suggested response for correspondence. This has also been sent to all MLAs and Constituency Assistants.

I ask that you walk through these notes with your Ministers. If you have any questions, do not hesitate to reach out.

Thanks again,

Layne

The email below explains why eApprovals wasn't working for us.

My proposal is that I send you a reminder about once a week to look at eApprovals and you can go through them all when you have some time at your computer. Would that work?

Hi Jen and Molly,

I asked the iCollaborate (eApprovals support) team about eApps not working on iPads, and this is what they said:

- Users must use the Chrome browser on iPads (not Safari).
- They must have the eApprovals home page marked as a Bookmark and then they navigate accordingly from within Chrome. If an item has been assigned to them, they go to the My Items tab.
- It is recommended that users only action (approve/not approve/send to) the eApprovals items on the iPad and not edit the attachments (they would need MS Word and/or Excel installed to edit attachments).

If they have tried using Chrome and it still doesn't work, please let me know.
