To The Honourable Carol James
Minister of Finance

Thank you for taking the initiative to impose Land Registry rules on real estate in BC to deal with speculation the situation has been completely out of control for far too long and this is a critical step.

As a mother I have seen the heartbreak of my grown children as they work so hard to try and get into a cruelly difficult real estate market. As a Richmond city councillor I am constantly asked to "do something", when there is little I can do other than allow for diversification. It has become clear however that more new housing does not lower prices because so many sit empty and become a place to park money. It also concerns me that real estate sales are offered abroad before the locals have a chance to buy, this must stop! New homes should be offered to locals first then potentially to offshore buyers.

Please keep up the good work and continue to undo some of the damage done by lack of interest by the provincial and federal governments. Your bravery is noticed by many and the end result will be a brighter future for the younger generation.

PS :We can finally buy a tiny hold house in Richmond for under one million dollars.

Best regards,

Carol Day
Richmond City Councillor

Hi Carole and Rob,

I addressed the comments in the QA and BG and added to the QA re: revenues, implementation and non-profits. NR didn't need any work.

I wanted to provide you a copy of this mid year review that is being distributed to our members and partners later today. It cites Canadian and BC headwinds and economic slowing but continuation of tight labour markets, and near capacity operation of the economy in BC with both upside and downside risks to the forecast.
