Hi David,

Would Like to discuss. Our AC Kathleen Fleurant will assist in some of this so I've copied her and our new MA Cassandra Dycke on this email. Mindy is currently on leave and won't be accessing any government systems for now.

Are you available for a call today?

Thanks,  
Shannon

Good morning,

2 requests:

- 1<sup>st</sup>, Office of the Premier would like to know exact time this IDIR account was disabled. Need this information as soon as possible.
- 2<sup>nd</sup>, CITZ Minister Office staff have requested a snapshot of the former Minister mailbox for FOI purposes is this OK to proceed?

Current information:

**Timelines:**

- Surface was in the Minister's office as of last week
- iPhone and iPad were acquired by Minister Office staff from Legislative Assembly (East annex at 2:55pm October 7<sup>th</sup>)
- IDIR account was disabled Friday night – October 4<sup>th</sup>, confirming time still

**Device Status:**

- Surface PC, iPhone and iPad have been secured from Minister office and forms signed and documented. Located in a secure room, in a secure cabinet and then in a Faraday bag. All devices turned off. The SIM cards for iPhone and iPad removed
- My Director – Ryan Thibadeau – (cc'd) witnessed the above actions
- One further item on security: My team has keys to the room, but Ryan (whom doesn't have a room key) has the only key to the cabinet
- If further security is required, happy to transfer these onwards as appropriate

David,

I recommend the items are logged, secured and isolated - immediately upon coming into your possession.

Confirm who you received them from, record the S/N or device number, date & time and signature of the person you received the items from.

Here is one of our forms as a template – I don't know if you're near a printer to print this off – we would use one per item and increment the Exhibit Number for each individual item (PHONE, LAPTOP/Workstation, iPad) – If you can't print it off, use a piece of paper and get the general items recorded.

**Importance:** High

Good morning,

2 requests:

- 1<sup>st</sup>, Office of the Premier would like to know exact time this IDIR account was disabled. Need this information as soon as possible.
- 2<sup>nd</sup>, CITZ Minister Office staff have requested a snapshot of the former Minister mailbox for FOI purposes is this OK to proceed?

Current information:

**Timelines:**

- Surface was in the Minister's office as of last week
- iPhone and iPad were acquired by Minister Office staff from Legislative Assembly (East annex at 2:55pm October 7<sup>th</sup>)
- IDIR account was disabled Friday night – October 4<sup>th</sup>, confirming time still

**Device Status:**

- Surface PC, iPhone and iPad have been secured from Minister office and forms signed and documented. Located in a secure room, in a secure cabinet and then in a Faraday bag. All devices turned off. The SIM cards for iPhone and iPad removed
- My Director – Ryan Thibadeau – (cc'd) witnessed the above actions
- One further item on security: My team has keys to the room, but Ryan (whom doesn't have a room key) has the only key to the cabinet
- If further security is required, happy to transfer these onwards as appropriate

David,

I recommend the items are logged, secured and isolated - immediately upon coming into your possession.

Confirm who you received them from, record the S/N or device number, date & time and signature of the person you received the items from.

Here is one of our forms as a template – I don't know if you're near a printer to print this off – we would use one per item and increment the Exhibit Number for each individual item (PHONE, LAPTOP/Workstation, iPad) – If you can't print it off, use a piece of paper and get the general items recorded.

Hi Alex, that is correct for the IDIR account.

Note: eBinder access is done with a IDIR & password account the Minister/MLAs do not know.

All Cabinet documents and Minister office documents were removed from network share by 9pm Friday.

Note on the iPad if a sync to server was **not** done by the MLA Sims, some documents could still be on the device.

We have not accessed any devices to check status.

Good morning,

2 requests:

- 1<sup>st</sup>, Office of the Premier would like to know exact time this IDIR account was disabled. Need this information as soon as possible.
- 2<sup>nd</sup>, CITZ Minister Office staff have requested a snapshot of the former Minister mailbox for FOI purposes is this OK to proceed?

Current information:

**Timelines:**

- Surface was in the Minister's office as of last week
- iPhone and iPad were acquired by Minister Office staff from Legislative Assembly (East annex at 2:55pm October 7<sup>th</sup>)
- IDIR account was disabled Friday night – October 4<sup>th</sup>, confirming time still

**Device Status:**

- Surface PC, iPhone and iPad have been secured from Minister office and forms signed and documented. Located in a secure room, in a secure cabinet and then in a Faraday bag. All devices turned off. The SIM cards for iPhone and iPad removed
- My Director – Ryan Thibadeau – (cc'd) witnessed the above actions
- One further item on security: My team has keys to the room, but Ryan (whom doesn't have a room key) has the only key to the cabinet
- If further security is required, happy to transfer these onwards as appropriate

David,

I recommend the items are logged, secured and isolated - immediately upon coming into your possession.

Confirm who you received them from, record the S/N or device number, date & time and signature of the person you received the items from.

Here is one of our forms as a template – I don't know if you're near a printer to print this off – we would use one per item and increment the Exhibit Number for each individual item (PHONE, LAPTOP/Workstation, iPad) – If you can't print it off, use a piece of paper and get the general items recorded.

David,  
For the 2 requests:

- 1) This Office was advised the account was disabled and in the SecureOU by 2122 hrs by ISM staff – working on getting a definitive time of revocation
- 2) Request for FOI extract can proceed

Device Status:  
These controls currently seem sufficient for the short term.

When/if I am able to provide an exact time of disablement I will advise all on this list.
