Oct Quarterly Mtg Minister - Item 3 - Sept 2021 PAB meeting - EY report summary extract.pdf

Jenn, here is some background information for the minister in support of the next Site C progress report meeting.

Minister, for the upcoming quarterly meeting on Site , here is:

1. Extracts of BC Hydro's Quarterly Report (expected to be file with the BCUC by Sept 30 further to instructions from MBR). Some highlights:
 - The exec summary runs from PDF pages 6 – 23.
 - The summary dashboard is on PDF pages 12 – 18.
 - Overall project health, cost and schedule sits at amber, an improvement from the reds a few months earlier, largely due to the updated budget and schedule approved by TB.
 - It prudently remains amber (as a project this size should) because there are still quite a few uncertainties around COVID-19, right bank and approach channel design development, First Nation matters and other risks.
 - Note too that permits, Indigenous relations and litigation also show amber, largely to the Blueberry River court case uncertainty and the knock on effect with the West Moberly court case.
 - PDF page 7 shows an update on COVID-19 and briefly covers off the Blueberry decision.
 - Things were looking good as of June 23rd, when Northern Hlth Authority declared and end of the COVID-19 Site outbreak that started April 28th.
 - But in the second week of August, Site C was notified of more than 30 new cases and Northern Health declared another outbreak on August 18th.
 - BC Hydro has been working hard with Northern Health and as of Aug 31, there were 9 active cases and 45 isolations remaining.
 - As of June 30, 2021, the on-site clinic had administered a total of 2,995 vaccinations (1,731 first doses and 1,264 second doses).
 - BC Hydro estimates, as of June 30, 2021, approximately 70 to 75 per cent of active Site C workers had been vaccinated, either at the onsite clinic or through their local communities.
 - PDF pages 25 – 47 provides a table of key risks and strategies. The Blueberry decision is noted at the end.
 - PDF pages 29 – 34 provides a summary of labour stats and training activities.
 - PDF pages 35 – 38 provides a summary of community engagement and outreach activities for the first quarter ending June 20th.
2. A Site C summary from the most recent PAB meeting on Sept 27, 2021. Some highlights:
