Here you go, Jen.

Comment from PJH on MSR and inflation from a media avail last week:

Horgan: We're continuing to look at initiatives all the time. Minister Robinson has been directed by me to look at efforts to bring forward initiatives to assist with inflation. We'll see how that goes. I don't want to say we'll have something to say in a few weeks, because then the questions will start tomorrow. But Minister Robinson is seized of this. Her responsibility as Finance Minister is to try and find ways to use the strength of a \$70b economy to try and make sure we reduce the challenges for BCers. And I know she's steeped in that and she's been working on it for months and will continue to work on it in the days ahead.
