Good afternoon,

I'd like to request a meeting with the Finance Minister to discuss the priorities that the Canadian Taxpayers Federation have for the next B.C. budget and fiscal plan.

We will be releasing and disseminating a pre-budget report in the next weeks and would like the opportunity to discuss our report with the minister before releasing it.

Thank you and all the best,

Carson H. Binda
British Columbia Director
Canadian Taxpayers Federation

The good news is that the federal government has delayed its gun ban and buyback until at least October, 2025.

The bad news is that it doesn't mean it's gone for good.

You know that Prime Minister Trudeau's buyback scheme won't work, but you need to make sure that everyone else knows too.

Other countries have tried gun bans and so-called "buy backs," and such schemes have not worked.

In New Zealand, gun crime went up after the government implemented its buy-back and administration costs for the program soared.

I'm a licenced firearm owner myself, so I spoke with Michael Dowling. He's the head of New Zealand's largest firearm organization, the Council of Licenced Firearms Owners. He gave me the full story about what happened in his country.

More Canadians need to know about this failure!

Please watch the interview and help us share it with as many Canadians as possible.

Minister Conroy

As a BC resident and taxpayer it is my feeling that your government is missing all the marks on how to help everyone living in BC. I have read over the recommendations that the Canadian Taxpayers Federation have put forward and agree with their findings. s.22 , I know that a balanced budget is the only way to sustain a profitable company or a profitable province. I would urge you and your party to look at these recommendations and implement them in your next budget. If you do not, then you are not working in the best interest of BC. And as a taxpayer I am sick and tired of paying all these taxes and government officials just keep spending and giving special interest group almost anything they want.

In closing; If one looks at the polling, the BC NDP party is polling ahead of the rest of the parties, but keep in mind that in the short time that the BCCP party has become organized they have gained a HUGE amount of votes in that same polling. With an election coming soon, the NDP party has been put on notice that the people in BC are not happy with some or all of their policies. I am one of those people. Get back to Common Sense governing.

The Canadian Taxpayers Federation has recommended what they would like to see in BC's next budget and it sounds good to me:

Here are our key recommendations:

- * Balance the budget
- * Scrap corporate welfare
- * Reduce the Employer Health Tax
- * Axe the fuel tax
- * Review spending to find savings

I have an additional suggestion: stop subsidizing fossil fuel companies.

If they cannot stand on their own, then maybe they should just vanish.

Apparently, BC's credit rating is getting worse and worse. It will keep getting worse unless you find a way to pay the debts back.

Dear Sir or Madame,
Please follow the Canadian Taxpayers Federation's recommendations for British Columbia. The current NDP government in BC is making big mistakes and overspending to the detriment of its citizens. Do Better!!
