Hi Adrian,

Could I get those number asap?

s.12,s.13,s.17

Cheers,

C

Adrian, could you please provide the info on the number of fractional territories and their valuations that we disposed of in the last two years?

FWIW, the Omineca is now pretty much fully subscribed, so no additional fractions are available for disposition.

With recent Minister decision on wildlife allocation policy which takes these off the table for now, I'm relieved. We had 11 applications for fractional area expansions. None have proceeded.

Ted Z. has some recent experience with these in Omineca it think

John

I am now trying to get a sense of the scope of the issue.

Could you tell me how often you assign fractional guide areas? And how much revenue is typically generated from an assignment?

Much appreciated.

If you want additional information on the nature of the problem please let me know and I'll send a more detailed email.

Cheers,

C
