

May 27 Pender Harbour Dock Strategy Mtg
Lindsay Jones
Paul Carey
Heather Macknight
Roshen
Dale Bates
Jasmine Paul

Agenda

- ① DMP - Prairie edits (Heather)
- ② Release / Agreement / Conciliations - lawyers
(address existing + future docks) connecting?

- ④ ⑤ Zoning map.

- ② ③ Council discussion - how do they see the future working.

- ⑤ Land matters (Narrows etc)

DMP - Prairie edits

HM zoning map we haven't had a look yet
- need to do due diligence
- zones make sense, but need to check against our own mapping; particularly @ edges

May 27 HM DMP

- consolidates: zones

BMPs

process

- BMPs became - Requirements (musts) - \$7

- guidelines (shoulds) - \$8

additions/changes - refinement

section 2 wording

4 - zoning - description

5 - review process

② BMPs - need to better understand a few

R Focus on everything except 4+5 to start

HM changes based on Prairie jurisdiction
definition established by Supreme Court
- highlighted places w/ issues related to
jurisdictional cutt.

W definitions have been adjusted

s.14

HM

HM must vs should

May 27 HM 7.2 - what is intent of this requirement
- requested by council

s.16

DB

May 27 HM Arch is 7.8, 7.9 + 6.4

+HM 8.12 - Flag issues re: Riparian veg
private land → do not have jurisdiction.
we left it in but we ~~can~~ do not have
authority.

W Does RAR apply on archeo marine

+HM 7.8 clarification b/w H.C Act +
Shishalki

JP Shishalki addresses arch
Require PFR (pedestrian review)
No ADA's on computers
ATA may be require

all land altering activities require review

- all materials found repatriated
to shishalki museum

- shishalki works collaboratively w/
Arch branch Re:

HCA does not require

DB No it does not. Grey area.

DFO

Regional Govt are pushing setbacks in DCP

HM Added Section 9+10

- give tech change, info change
make provision for changes to plan
- separated major/minor amendment

W separated decision mak

R NO delegation for decisions
either referendum or ch't council

HM 5 yr review.

We will be limited to exclusion on deck's
5 yrs to see if we are achieving objectives
reflect on this timeline

needs to cover first 3.

R - noted 3 bullet of 1.0
- concerns from C+C

2.0 - agree w/ map - map is fine

2.1 d) marinas included

v

HM we haven't defined 'substantial upgrades'

R not clear on Replacements / upgrades

what is tenure instrument?

HM Specific permission

(can't cancel contract (licences))
Sp. P.

EF

2.2

HM
Ref

HM grandfather clause

HM From engagement to notification?

JP Review structure

Compare to BMRs + require them to meet Reg. post-impact assessment

HM we need to reflect on that
- difficult to require this of existing uses.

local govt refer this to: "legal non-conforming"
allowed to continue legally, but bylaws
that define when no longer legal
- so to destruction
ceases to be used for a specified time

Legal documents / tenure docs changed to
incorporate new laws.

R Relates to cumulative impacts issue
'future' issue
- some built to old standards

More discussion need on 2.2
↳ 286 decisions

May 27 HM

provincial juris vs private
change is where soil + veg change

"ordinary" high water mark not
highest of high

W Natural boundary is a court definition

not biophysical def, but Prov.
jurisdictional control.

HM will send doc electronically

BREAK

R. JP + DB will setup a technical call

Jasmine spoke w/ council to brief
on May 13 mtg

what the council's future vision is.
(not covered in SIB's letters)

JP Council sees BMPs + zones
concern re: ongoing and cumulative impact
has many more docks in area?
supportive of improving the process

R no comfort w/ what future will look like?
↳ Where is the space for discussion or
accommodation
- how to address that reality

heard from Steve - more clear prescribed
process
- is there space to discuss cumulative
impacts

some councillors not happy that we're not
considering pulling out existing structures

Roshan's interpretation to council that
dock by dock approach not possible

council knows can't deal w/ accom.

Roshan's thoughts:
Some sort of trigger to discuss
accommodation eg. 20 docks

Council generally happy w/ BMPs
zones - generally supportive

lay 27 W community referendum?

R community process but not ratification.

W Province will likely have to do public consultation

R triggers - ?

HM what about a threshold of docks
- maximum # of docks

what we're getting out of DMP:

① no go zone + dilapidated dock.
- eventually

② limited zone - fewer docks

e.g. 300 docks

- maximum # of docks we will ever allow
- do not accept application

threshold becomes accommodation for cumulative impacts

W Trigger - art comes → what is trigger w/ art?
what other issues - Reg. by laws
- shoreline development

time - yearly basis
- 5yr Review

R council wants to see accommodation for docks
formula: land for dock

HM - we do not want to deal same way w/ every dock
- use DMP to put as much as possible to bed
- we get cumulative impact
efficient + effective process
needs to look to past + future
+ maximize what we can put to bed
- not keen to open discussion in future
- we see best way to address cum impacts
to control # of docks

R without some opening for discussion in future council will push harder on docks going thru process.

W get this irritant out of the way to approach bigger discussions / transactions

Lay 21 W This deal is a trigger to bigger deals

Province does not want to spend energy defending ourselves in court

R Council - this does not define what accommodation might include in future.

R is suggesting "safety valve" - a way for discussion to open.

LJ looking for agreement that is implementable

R^{s.14}

LJ Letter of Jan 14
all past mfr. related to dock tenures.

R information from Maria
Lmtg w/ Steve Munro in Nov.

HM Steve / Doug clarified that included all docks.

JP only dealing w/ 286
- never considered gr/lsl/com/marinas.

HM Nov 28 2012 Letter Referring to all dock tenures pt. 1, pg 2

LJ cover 4+5
Next Steps.

B&B HM + LP going thru 4

HM Public Consultation

- setting land use designations
- typically local govt jurisd.
- govt will want some step before decision
- b/c so much pr. property and level of impact to pr. owners
- due process → admin law

R Questions re: 286 vs all docks
Council is specific to 286.

Hill Our understanding is all moorage

May 27th

SCRD would like issues to be resolved

Next steps

- ① further techn. discussion
 - everything but process
 - this week

Lindsay

- ② → have a look @ map

- ③ Roshan to make comments on process

what about docks under 4.2

Rapid Appr.

- no concern in principle
- need to jointly develop
- concern JRC: cost of implementation of Rapid Appraisal / DMP

situation:

① Rapid Appraisal doesn't work if we don't have PFR done.
↳ need to catch this somehow.

Jordan - concern re: cost

HM - treasury board

R - capacity for implementation?

JP concern re: 10 days
- if PFR + QP sign off then more likely

- do not feel that group/strata storage needs more.

1. DMP

- agreed to @ technical level.

- Went thru DMP.

Replacements

- what to do with docks where only decision is replacement of the contract

- JP - we need to know what archaeological resources are there

- doc auth. docks that are non-conforming

R - Rapid Appraisal to identify Arch.

HM - those with existing tenure

- so long as terms + conditions are followed tenure continues or beyond expiry until tenure is replaced or cancelled

- of 311 some will be non-conforming some may be conforming

- difficult for Crown to act arbitrarily

- how to determine public interest in not renewing a tenure:

- major environmental, economic, social issues not considered

- upland owner's riparian access rights → removal of dock does not alter this right.

- environmental impact of removing docks.

Sunset clause

- what would seem to be reasonable?

- what is a lifespan of a dock?

- must demonstrate we are acting in public interest

- fair notice

- could withstand scrutiny

July R - Rapid Appraisal mechanism
to identify Replacements
to see SIB

HAT arch. is most imp.²

R - Red flag over new or all existing
docks²

- identify approach to deal
w/ higher risk tenures.

HM - look @ files

R - Look @ coming year's replacements
in a batch

HM - if we focus on arch we can do
this

R - Can the sunset clause apply to
non-conforming w/ design?

↳ incentive to upgrade to
conformance

↳ don't have to do anything

July 4 HM - best efforts?

R - substantial compliance w/ DMP
sections 8+9 should be
demonstrated

HM - firm that tenure holders complete
→ hire a QPZ
→ joint Review?

Stat Dec²

- Legally possible²

- impact on Release²

Replacements

- (A) - Annual batch - Red flag
- (B) - substantial conformance for docks
non-conf w/ design in zones 2, 3, 4

HM - lands (accrued/reconcile) is related to
legally tenured existing docks (S11)

R - past infringements

HM - DMP is for future docks
Reconciled issues

CART mtg = July 18

July 4R - level of activity impact to env.
goes down over time

- Dave Bates on a technical call?
- identify necessary studies

HM define process for Zone 3

Zone 3 - concern about # of docks in
this area

X number of
moorages per
parcel? → what about setting a maximum
number of docks?

↳ subject to further study

↳ additional requirements

eg. design size

Public / Local Review

- both parties will discuss independently and come back to table w/ this
- communication plan on agenda for next face to face
- Province wants to see what public reaction to this.

After Lunch

Space for Dock Reconciliation - triggers
- specific to docks

- further reconciliation measures
(could be land OR otherwise)
- about the number of docks
- should be about the number of private moorage tenures

Cap - what does this number mean?

- other than reconciliation?

JL → no only in reference to discussions

GP → why not include graps etc in #s.

Jordan - wants to think of their own number

Presented 483

- includes baseline

JL → concern re: if 10 parcels put in 1 strata moorage, then less ability to reach 483.

→ conce...

R → trigger is more related to new future

Jy 4

LJ - put this back on STB

R - time is a possible trigger
- consider all docks.
- objective trigger

HM - effectiveness of process?

Chief - 25 docks - infringement on rights + title
- other accommodation possible
- undercut (forestry)
- shellfish tenure

Release

LJ
- 311 docks, list will be connected to release in some way.
- needs to stand the test of time

LJ - how will release be done by council

R - once signature -
council - BCR
Administrative decision authorizes signing

s.14

R -

HM - we are still considering replacement issues/ideas.

Land Review.

LJ - Process - Surveyor general issues instructions to surveyor after agreement signed

s.17

- survey will happen Spring 2014
- parcels raised as title, crown grant
- approval is a ministerial order
- what entity will receive the land?
↳ Sechelt Indian Band
- may provide automatic exemption from property transfer tax.

Chief = s.16

Egmont - CEP - no conflict
Narrans Inlet - policy of crown to not limit access to lands beyond
- option - along existing bridge

uly 13. JP^{s.16}

- will be equity partner
- working directly w/ proponent
- transmission going thru SBL

Salmon Inlet

- discussed in mtg w/ Steve
- needs more work - existing tenure, environmental sensitivities, clean up work
- commit in an MOU agreement to a process but not to a result.

JP - how to clean up w/out damaging the site

- LJ - Level 1 environmental assessment
- establish what is the env. liability on the site
 - buried oil tank, aldrums on site

HM - tenure holder is responsible for clean up.

JP - the SIB have sent a crew out to site and are developing a plan to deal w/ site

- LJ - need to determine what is there
- then develop a clean up plan.
- want tenure holder to be accountable for cost
- Lindsay will define process

R - SIB will layer in their thoughts

- ④ July 11, Nanaimo 10am start
July 18 Sechelt
July 25 Victoria

4. Narrows Inlet - Access
SIB do not believe that Access for future
users should be maintained → do not
believe Lindsay made this clear.

Luigi: must keep some sort of
corridor for access for future
users

Roshan: SIB will not cut out a
corridor for future non-confirmed
uses.

: do not want to increase access into
area.

s.13,s.16

: further discussion needs SIB

PMV Head Lease Tenures

- pressure from tenureholders

s.14,s.15

- most other provisions in DMP remain.
- remove trigger for future Reconciliation on docks
- Salmon Inlet land would be provided "as-is", but due diligence around encumbrances (and possible compensation)

↳ maintain Sib Reserve and proceed w/ tenuring (eg IUL)

Agenda

- Summary
- "Cap and benefit"
- SCRD Monday meeting

Summary

- will be release for 327 w/ land transfer
- DMP - done @ Tech. level
- sunset clause - uncertainty
- accommodation framework for future docks

↳ cap on total # of docks and "benefit" to SIB

- outstanding issues on RA
- access for NI

-

SCRD Mtg - more political, full council
1:30pm @ band office will be

Nov 14

PH

"Cap continued.."

"Cap and Benefit"

- 2 ways - zones.
- total number
- no firm # or benefit

PW - cannot be in a situation where we transfer land

How do we come up w/ a number.
- any principled way?

SIB principles - FN values - fisherers
arch sites
preserve areas

- when did the build out happen?
~ 1980s.

↳ already a lot of docks

SIB numbers

total # parcels w/out dock 358

Red zone 93

Purple zone 54

Yellow 89

Green 124

av14

PH cont.

- Rather see cap on PM
 ↳ SIB seemed ok w/ this idea.

358

93

265 What zone?

Zone 2 54/3 = 17 new docks?

shoreline	zone	Zone	possible #s	327 existing	60 sunset clause
				50 illegal	
33%	93	Red	0		
19%	54	purple	18+		
14%	89	yellow	45 (cnt hab mapping until mediate)		
34%	124	green	62 (50%) 452 (

R-ground truth are assumptions?

↳ "undocked" parcels

↳ zone 2 → look @ parcel size re:
subdivision

(e.g. may need to go up.)

↳ green → 50% build rate

↳ yellow →

→ develop a range of 400+ - 4xx

e.g. 400-450 docks

Nov 14 PH cent...

② concern re: ~~PM~~ establishing a cap while keeping the sunset clause.
 ↳ Luigi brought this up.

③ Hesley to "ground-truth" the numbers w/ Jasmine.

Benefit

Narrans + Egmont → existing docks.

Real Estate info - prepared by Jasmine
 ↳ Peter has this info.

SIB's interests (possible "benefit")

- Salmon Inlet
- Narrans 250ha (now is 150ha)
- forestry interests → "undercut"
- ↳ provide to SIB
- Water licences for CEP → "good" licences being held by companies not actively using / pursuing

↳ SIB is interested in obtaining "some" of these.

NW 14 PH cont...

PW - need to do formal land status

Jasmine will send map to Luigi w/
extra 100ha @ Narrans.

R-timing issues w/ landing this

- X A need to flag to Luigi + Peter that
~~the Salmon~~ Salmon is supposed to
deal w/ future docks

teleconf. next week - Friday

- KJ
 - we will set aside policy
 - any involvement w/ govt? → NO.

move on to agenda

HM - are we agreeing on the same area?

JP - yes.

HM - unknown docks in yellow

- may be trespass
- may be mapping area

53 - unknar. → no known to be 40

⑥ spreadsheet of all tenures to JASMINE

40 unknowns - May take trespass action

s.16,s.18

Paverpoint

2. History - Tim Etherick SB edits

→ 14 matts written, 12 matts w/o comments

R SIBs perspective - there is value ahead of docs

- Jasmine + Dave fleshed out those docs.

↳ Best Practices list (DMP edits)

↳ notion around zones

↳ ongoing future study on certain values.

- joint structure to implement

- joint working group - ensuring BMPs are being followed; zone are being applied, implementing long term studies.

this is framework

PPT - classic shared doc. making model

↳ shifted to mgmt plan approach

DB

BMP for docks in suns. coast - DRAFT

SIB BMP - added value.

changes include: re-ordering
added additional values
critical marine foresore

WD Revisions are based on technical expert.

nearshore VS foreshore

foreshore - chart datum

nearshore - not defined - will vary based on critical spp.

W mapping of kelp

DB - other spp of algae

- rockfish conservation

R assuming gov't does not support a moratorium

- highlights on future studies needed

W define dock VS float

DB dock/float same thing

SIB does not differentiate \rightarrow attached to land permanently + providing moorage

- not attached to land

anchorage, possible changes shoreline

④ greenshares DFO.

refined riparian - above high water mark

Riparian Reg does not apply to marine.

W where could we find this?

DB creek OCP - (not Pender Harbour)
eg Roberts Creek
Reg Distr.

4b feature on beaches provide habitat for forage fish

eg. low slopes, sandy, classic swimming beach
surf smelt, sand lance

↳ find this: air photo, when ~~new~~ new applicant should identify

QEP \rightarrow prof. assn & on whether or area can support forage fish.

6.

JB want designers of docks

should VS must

DB - do not want wiggle-room

- clearly understand for public, but not encouraging rule breaking

R clear implementation - concern are

W wants to make sure flexibility, page 12 of 18 FNR-2015-51581

DB - critical habitat 'should' be avoided
→ if you

#15.

HM - all approvals are tenure holders responsibility.

R - How will DMP be used in decision making

HM - importance of certainty

-

R - can we adopt plan 'jointly'?

- does Province have to bind this with Statute²

HM - joint agreement able
- need it to be revisable.

- eg. CCLRMP, S2SLRMP

- may not need cabinet approval?

- more like policy as per Ministry guidance for SDM

discuss how DMP would be incorporated into decision making

HM - zones
- Reserve

R - ~~Are~~ Does SIBS have any other general statements - ? Maybe.

Dock definition

- private group, strata + marina

R - settlement is Re: private moorage

HM - NW 2012 - Jan 2013

#5. all dock tenures

↳ release for past is Re: all docks
(including marinas)
does not include trespass.

④ definitions around types of moorage

Jasmine will send doc electronically.
→ cancel hash & reviewed revisions.

HM - If DMP → followed and zones play out may meet SIBS interests.

④ technical mtg w/ DB + JP

Definition.

Freshwater / nearshore
docks/floats

(A) check policy for definitions

Break.

Zoning discussion

(B) meeting w/ Bob + JC re: P/H trespass.

Lunch.

Process re: BMP + zoning

LJ process must meet our obligations
in terms of FN consultation

R - look @ zones w/ new applic.
- analyse

- both parties have role to police zones +
BMPs
Yellow zone

- might be sticking point

- acknowledge possibility of disagreement

HU How do we go about resolving disagr.

R Do we want a dispute res. process?
obvious issue e.g. yellow zone - Prairie approves,
SIB does not
↳ don't know how formalized to get.

LJ Zone 1 NO GO

- no interaction
- BC accepts application → deep consultation
(handshake)

Zone 4 Green zone / BMP

- little interaction
- BC satisfied re: BMP commitment + then
notification to SIB of decision
- BMPs not met → engagement
@ technical working group

Zone 2 - Strata / Group coverage only

- engagement only if individual app (own
coverage)
- notification only if gr. / strata ^{coverage} change

Zone 3 - Yellow - Proceed w/ caution

- engagement on each application
accepted by BC
- engag. @ tech. working gr.

R - concern w/ watering down zone + BMP
- Zone 3 - deep consultation

BMPs - to determine if an application
meets you will require a conversation w/
SIB.

W actions which BMPs SIB has interest in

R How do we see that BMPs are being
followed?

W What is "little" engagement

R engag. to make sure BMPs are followed

Hm How is this diff from current process.

JP - Diff. is in no-go + strata analysis

LJ - define "little engagement" (Zone 4+2)
- define timelines

- we need to know which BMPs
require SIB knowledge.

Talk about studies

DB Summary of information gaps

- same info

- effort to more clearly define sensitive
habitats + water quality.

Water quality - initially brought forward by
Francee

will send documents

Hm - Identify which studies are outstanding
- timing → prioritization of projects/studies

LJ What is information that we need to
make the zoning system better

↳ what biophysical information would
improve implementation of zones

What are thoughts on monitoring?

DB - Monitoring is a concern.

LJ compliance vs effectiveness

DB Require final sign off by QP.

WS Salmon Inlet

DB SIB requires a follow up.

Salmon Inlet

LJ - lands will not be transferred in fee simple until further reconciliation.

- will not bind future govt for timeline

↳ depends on mandate

- open to working w/ SIB to help define vulnerable areas

- future establishment of rights

what is SIB's vision?

R Jasmine needs to speak to council

LJ consider forms of tenure that may lead to a transfer

Boat tour of lands

Action Items.

BMP

- digital copy
- we will respond
- add definitions

Zoning

- think about responses
- digitized map

Process discussion

- SIB further flesh out

Salmon Inlet

- SIB to respond

Follow up mtg

Future studies

④ Arch survey process in SIB territory.

Narrans - R/W for Road?

Meeting (conf call) w/ Jasmine + Dave Bates

Lindsay's agenda:

① Definitions:

Items for SIB to define

- wed/thurs
 - names for zones / zone definition
 - "little engagement"
- ✓ - nearshore
- ✓ - riparian
- ✓ - forage fish spawning habitat
- ✓ - riparian cover / vegetation

Provincial definitions: (as per land use policies)

- ✓ - dock
- ✓ - freshshore
- ✓ - group moorage facility
- ✓ - private moorage facility
- ✓ - strata title or condominium moorage facility

② Information we expect to receive

- electronic copy of BMPs
- zoning map
- existing/proposed studies

③ Meeting agenda for May 27

Jasmine (2pm May 27)

Dave Bates

Lindsay

Paul

Susan

- how to apply definition (private moorage)
- Nearshore definition → 15m in reference to light penetration.
 - thru Dave's work (not in policy/regs)

freshshore - chart datum to high water

* natural boundary

Dave will circulate freshshore definition.

freshshore Riparian - Dave will provide def.

Definition of zones - end of wed / early Thurs
and levels of engagement

BMPs → wed / thurs

zoning map → wed / thurs

process to implement → wed / thurs

Specific Projects -

May 13

LJ

Future dock mgmt

- step towards reconciliation
- land near Salmon Inlet

Discussions about proj.

↳ exploratory

↳ recommendations will require endorsement by new
gov't

R

Decision making policy

- unrelated to work today.

LJ

Diff dec. making policy

- what bearing on today's mtg.

R

- does not relate to discussion today

- no need to review it today

-

LJ

- are policies applicable.

R

- SIB ready to adopt a mgmt plan proposal for
Fender Flasore

Mgmt plan to be presented is reflected in policy.

LJ

- executive concerned about unilateral policy

R

- unilateral policy → consultation

Hi Kevin,

I have reviewed the document and noticed a few inconsistencies with our conversation. I have therefore revised 4.2 (ii), 7.1, and 7.2. Also, have you considered constructing a template for management plan that would accompany the document? I think a template would make all of our work easier. I will be out of the office tomorrow but can be reached on my cell phone at s.22

Kind regards,

Jasmine

Hi Jasmine. Here is the DMP, I believe in keeping with our discussion on Monday. While it looks like a lot of 'red ink' in the track changes, the significant changes are the few we discussed (adding the QP for replacement management plans, re-inserting the 'encourage group moorages' in Zone 3, etc.). Moved a couple of sections, updated the definitions as discussed...I hope you can find some time before next week's meeting to review this, and if there are red flags for you, please let me know. I think we are "really close". I will be trying to do the same tomorrow morning with the MOU/SDM Agreement.

As mentioned in the last note, the outstanding issue that I do want to talk about is the application of this for the first round of replacements – all the current stuff on the books. I believe this is a significant misunderstanding. I'm on calls all afternoon but open tomorrow. If you're around in the morning, let me know and I'll call you to clear this one up. Thanks Jasmine,

{ps – and thanks Jacqueline for the help in bringing this document to "near" closure!}.

Jasmine, I made a couple more changes, as follows:

1. Date on header
2. Sec. 1.0 and 2.0: DMP instead of Plan
3. Sec. 4.2 (ii): deleted DMP and added BMP's – believe this is consistent with 6.2
4. Sec. 7.1: Removed repairs and added a comment
5. Sec. 7.2: Clarified as discussed application of QP review.

With your "ok" conceptually, I will be asking Jacqueline to accept the changes and offer me a clean copy tomorrow s.22
s.22

I will be working on the weekend and will respond to comments,

changes etc. and should be on track for Monday's meeting.

I will also (!!) do the MOU comments on the weekend...much easier to catch up then! Thanks,

Hi Jasmine – later than promised, next steps on the DMP.

Attached are two near “identical” copies of the DMP; the older one that I sent you on December 1, with all the comments, deletions, etc.; and a new cleaner version, with the only outstanding comments / highlights / edits being this current (and perhaps last, for now?) s.13
s.13

Jasmine, we don’t want to discourage existing tenure holders from “maintaining” safe private moorage structures s.13
s.13

Finally, we will soon reach an agreement regarding how we will move forward together managing the private moorages in Pender Harbour / kalpilin. If the current DMP is not working to meet the objectives that we collectively agree upon, our working group can discuss and propose changes to ensure that the DMP remains relevant and effective.

I hope that this approach makes sense to you, and we can move forward this week onto some “next steps”. Again, my apologies for the delayed response; see you on Friday,

Thanks for the offer of a call on the cell...hope you had a nice weekend. I haven't gotten back to Jasmine.

I'm in a meeting with Musqueam this AM – should be around by noon, I hope, afternoon is pretty much RMT etc. I'm prepared to say "OK" to the proposed changes, subject to a couple of clarifications...

s.13,s.16

I'll check in with you / or see a response?? ...once I get back from Musqueam; I'll try and pin down Heather to let her know that I'm going this way; then we both (?) have a call at 1300 for 30 minutes to prep for Sechelt tomorrow. I'll try and get back to Jasmine in there someplace... Thanks Jacqueline,

Kevin

Hi Jasmine

As Kevin requested below, I went through the draft DMP with a fine toothed comb. I made a few minor grammatical edits and a couple of comments.

s.13,s.16

Would you be available for a conference call for March 30 or 31 to discuss the following:

- draft DMP prior to printing for the Open House
- Open House logistics and materials
- Q&A

Jasmine – find attached two copies of the DMP as discussed.

1. Latest version with the track changes, and
2. That same version with changes all accepted (clean).

Jacqueline: When you return, could you find some time for a critical read of the clean version – fine-toothed comb? I did that, but your comb might be better...

Thanks all for all the support getting to here...
