Warning Ticket:

ERA Case #:

Description and Comments:

Upon receiving a complaint of damage to a range licence holder's fence. Natural Resource Officers EMSLIE and DYKE conducted a site inspection of the Range Licence Area RAN076539 fence line that borders and crosses to the west side of Road Permit R19606. Officer EMSLIE noted several locations between coordinates 56.49593, -121.43861 and 56.48920, -121.43708 where the fence was damaged by debris that appeared to be pushed and piled on top as a result of road construction and maintenance. A gate at coordinate 56.49593, -121.43861 was present; however, buried under piled debris, gravel and mud from the road rendering it unusable.

COMPLIANCE NOTICE:

The Road Permit Holder: LOUISIANA-PACIFIC CANADA LTD., C/O CANADIAN FOREST PRODUCTS Client: 00165599 Location Code: 09

is hereby requested to remove any and all debris from the fence adjoining R19606 Road between coordinates 56.49593, -121.43861 and 56.48920, -121.43708, to repair any downed wire and to place new posts where posts have been knocked over and damaged by the piling of debris. These repairs will be made to the satisfaction of Natural Resource Officer Chris Emslie on or before June 1, 2016. Inaction or failure to repair the aforementioned

range development could result in Administrative Action. Consultation efforts with the range licence holder of RAN076539 are strongly encouraged beyond the scope of these repairs as recent forestry operations throughout the range licence area have opened up areas that once acted as a natural range barrier. As a result, there is an increased opportunity for cattle to access older fence lines that previously required no maintenance. Contact Natural Resource Officer Chris Emslie for further information at (250)262-3308.

Natural Resource Officer: [Christopher Emslie]

Signature: X

I certify that this inspection conforms to Ministry compliance procedures.
