Kevin C already shared his FN update directly with Sharon. Attached is permitting information from Susan Fitton.

A few more FYIs for Sharon:

- Linda Beltrano has a great handle on the permitting expectations of TM. A finer level of detail is being put on permit decision priorities and Kevin H advised yesterday that an update would be forthcoming the week of August 14<sup>th</sup>.
- Fish and Wildlife permitting is being bundled for the South Coast as mechanism to efficiently manage environmental risk and permit volume.

Colleagues:

On August 10th, 2017 government announced initial action on its commitment to protect British Columbia's interests in the face of the proposed expansion of the Kinder Morgan pipeline and associated increases in tanker traffic.

In addition to announcing the appointment of Mr. Thomas Berger, QC as external counsel, government also highlighted its commitment to fulfill its duty to meaningfully consult with Indigenous people and foreshadowed future work aimed at clarifying government's policy framework for decision-makers. This memo provides you and your agencies with further information regarding these last two items.

The Province of B.C. currently has in place robust policies relating to the requirements of Indigenous consultation as it pertains to applications for Crown authorizations. These policies have

been developed in response to changing jurisprudence, among other things, and are subject to refinement and revision on an on-going basis. The recent announcement reaffirms government's commitment to fulfill its duty to consult, meaning that – until new consultation policy is developed and approved by government – Ministries' work on current permitting activities should continue as per current practice ensuring that legal requirements for Indigenous consultation are met.

Government also announced its intent to review relevant policies to further meet its commitments to defend our air, land and water. Any changes to these policies will take the form of new advice to decision-makers. While this work is underway, it is not yet complete. Until it is, the current policy framework under which your decision-makers operate remains unchanged.

I trust this memo clarifies some of the most relevant aspects of government's recent announcement, and assists you and your agencies in continuing to fulfill your constitutional and statutory duties.
