ATTENTION: Don Burns

Dear Sirs:

Reference is made to your request that a reserve for stream gauging station and cableway purposes be established over an unsurveyed portion of Lot 2587 and unsurveyed Crown foreshore, situated within the Blueberry River, Peace River District.

Please be advised that a map reserve has been established on the Ministry's records over that area shown in red on the attached sketch, pursuant to Section 12 of the Land Act, withdrawing the Crown land from disposition.

The reserve has been established for a period of five years, commencing July 20th, 1982.

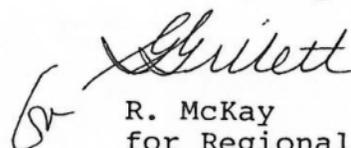

The reserve established by this letter will terminate on July 20th, 1987 and application to renew same must be made in writing 30 days prior to its termination date.

Application for renewal must be made on the form prescribed by this Ministry, providing justification for continuation of this reserve.

Also, you are advised that a map reserve does not convey any rights for the use of the Land. Any use of the Land by Environment Canada will require a Letter of Consent, pursuant to Section 10(a) of the Land Act, renewable on an annual basis.

The original reserve (#65281) which was located approximately 3,000 feet upstream from this site has been recorded as abandoned on the Ministry's records. A field inspection will be carried out to ensure the site has been left in a safe, clean and sanitary condition.

Yours truly,

R. McKay
for Regional Director
