Dear MLAs and Ministers,

On April 10th, 2018, we met with many MLAs/Ministers from the Island concerning our watersheds.

On May 8th, we sent a follow up letter to each of those we met with asking for timelines to address the concerns we presented to you on the 10th of April.

To date, we have not had one response from any of you.

We are wondering when you may take action on any or all of the items we have raised?

Many of the Community groups that belong to VIWWC will be scheduling community town halls over the next two months to apprise the citizens in each community of what we have done to date as well as what we need the government to undertake on all of

our behalf's. Can you please provide us with some kind of timelines for address so we can in turn apprise the citizens in each of the communities?

Sincerely,

June Ross

Hello Lisa,

If possible, could we move the Wood Innovation pre-briefing currently scheduled for MDD on Mon, June 25th

10 – 10:30 to 8 am on the same day?

Also, Staff and the DM are requesting to move the Coast Forest CEO pre-briefing currently at 11 on June 25th to Friday, June 22 in the morning. Would the Minister be able to call in? If that does not work June 21 at 3:30 would also be preferable.

This is because the Corporate Executive Meeting was moved to the 25th.

Hi Sandra,

Following up on this ministerial order. Minister was briefed on it on Friday.

The order contains a proposed change to shorten the Skeena South bull moose general open season, which affects how many LEH authorizations may be issued. The LEH draw is scheduled to run overnight tonight.

May I please request the minister's decision by the end of day today to ensure the draw runs with the correct numbers?

Dear Ministers,

I am writing to offer the opportunity for a briefing with **Bruce Anderson, Chair of Abacus Data**, on the afternoon of June 21st or morning of June 22 in either Vancouver or Victoria.

COFI commission Abacus Data to undertake a province-wide survey of 1,500 British Columbians between March 22 and April 2, 2018. We know that positive relations with indigenous groups, communities and the public are important part of the social license for our sector and the survey results demonstrate how the industry is viewed in this regard. We would like to share the results with you and your staff so you have a good understanding of the forest sector's reputation in BC. We would very much appreciate the opportunity to review this research with you. We will follow up with your office to see if we can schedule this briefing.

Hi Sandra,

Following up on this ministerial order. Minister was briefed on it on Friday.

The order contains a proposed change to shorten the Skeena South bull moose general open season, which affects how many LEH authorizations may be issued. The LEH draw is scheduled to run overnight tonight.

May I please request the minister's decision by the end of day today to ensure the draw runs with the correct numbers?

Wes,

Drafting is now mostly complete (we got a green tag which might be a ministry first). Final editing review and compiling the package is underway which means you should get the package for approval very soon.

I was hoping that DMO could set up time for Minister Donaldson to be briefed on and consider signing the document.

We're targeting Cabinet on July 4th, which means the official target deadline for signature is today. We obviously won't make that but should be ok if Georgina can swing us an extension.

All all:

Updated session outline attached. More explicit on the underlying questions implied in V1, and informed by our discussion last week. No case study :)

Interested in your feedback.

Tim - I've tried to give some indication of where I see the Minister starting off the discussion topic so you can prepare him accordingly.

All- I'm hoping you can reflect on all the questions noted, propose one example of a successful model, and come with 3 specific (and concisely worded) recommendations on what it takes for successful implementation of change.

It would help if you could email me in advance the example you propose we share. We'll select 1 – 2 for the session itself and having a sense of what you're thinking will help me facilitate this...

I also want to introduce everyone to Chris Tucker - cc'd. Chris will be helping to compile the questions from the audience and will be sending them to me in real time during the session, for inclusion and our deliberation as appropriate. Chris is a long time colleague, currently at Deloitte Risk Advisory Services, bio below.

Tristain: I guessed on Tim's email so please forward/ccing me thx.

All for now, see you next week! Please be in touch if you have any concerns, comments, etc.

Thanks for the intro John on your leadership on what is shaping up to be a very interesting conference.

I am very much looking forward to our panel. I know it will be engaging and interesting, and it will be my sincere pleasure to be a part of it all with you.

I'll be back in touch soon with a framework to guide the discussion.

Tony - exactly right - different concepts and values around "ownership" and "benefit", historically entrenched in law and policy, now evolving - in some places - into new governance structures and changing roles for all parties involved.

I am keen for us to look at examples and trends from different parts of the world, including Canada.

I am interested in exploring what ownership/benefit confers in terms of responsibility, taking us into practical roles and areas of mutual interest - e.g. knowledge/information systems, monitoring, decision making, planning. In other words looking at the practical implications of the topic, not just focusing on the definition of "authority".

I am thinking of proposing a particular scenario that we all need to respond to...

More soon.

Thanks again for agreeing to participate.

Kind regards,
Jessica

John, Jessica,

Thanks for this. I will reflect on this and come back to you with further thoughts.

However, an immediate reaction that comes to me is that I would like to touch on the difficulty/challenge/reality of dealing with the discordance between evolving societal values and a legal/regulatory regime that may be nested in values of a previous time.

Warm regards,

Subject: RFG2018 Dialogue session - important information

Dear All,

The purpose of this e-mail is to connect the moderator, Jessica Bratty, and panel members of the Dialogue session - "Who owns resources and who benefits" that will take place on Wednesday June 20, 13:30-15:00 at the Resources for Future Generations conference in the Vancouver Convention Centre - West Building.

Attached is a summary of the session, potential discussion topics, guidelines and information.

This is a very important session. As suggested in the attached, Jessica will provide more background information and we hope to arrange a conference call and/or separate calls ahead of the conference to help build the themes and discussion points. We do not want a scripted conversation but we want to help Jessica, your moderator, capture key points and coordinate your input.

If you have any questions, please let me or Jessica know.

We look forward to seeing you in Vancouver in four weeks, and hearing your views.

Regards,

John

Hello Lisa,

If possible, could we move the Wood Innovation pre-briefing currently scheduled for MDD on Mon, June 25th

10 – 10:30 to 8 am on the same day?

Also, Staff and the DM are requesting to move the Coast Forest CEO pre-briefing currently at 11 on June 25th to Friday, June 22 in the morning. Would the Minister be able to call in? If that does not work June 21 at 3:30 would also be preferable.

This is because the Corporate Executive Meeting was moved to the 25th.

Staff are recommending that this is not a FLNRO issue. They suggest that it goes to JTST or Citizen Services. Can you confirm that this is a fit for FLNRO or let me know if it will go to another Ministry?

Regarding the materials, staff would like to confirm that materials are needed. The reasoning is that FLNRO has not had previous involvement with this subject and staff do not have existing background to go on. However, staff can request details from another Ministry if directed. Please let me know whether to go forward with staff and material or to change course. Thank you.

Good Afternoon Minister Donaldson,

I am emailing you today to request a meeting on behalf of Bill Tam, Co-Chair of Canada's Digital Technology Supercluster. As you may know, the Digital Technology Supercluster is a consortium of companies, research organizations and post-secondary that will work together to solve some of the most pressing productivity, health and sustainability challenges facing British Columbia (and the world) today.

Bill would like to meet with you to discuss the provincial interest in both the supercluster, and projects that may arise from it.

Bill will be in Victoria on June 13th and 14th, but is also available in Vancouver at your convenience.

I will follow up with your office shortly.

Thank you for your time,

Geoff Ingram

So having to go thru 8 sub folders with multiple files in each to determine if they've been signed. Waste of time. Can you find out why they haven't been removed? Who do I need to talk to about getting this resolved?

Minister Donaldson,

Thanks for taking time out of your busy schedule to meet with me s.22

I thought we had a valuable and productive meeting and that it was a good use of my time.

Thanks also to Tim, Rick, Mike (and Tim) for joining the meeting.

I thought I would recap some of our discussion as I believe there was the opportunity and willingness to move some of these files forward.

Mandate Letter:

Some initial slow progress due to the distraction of the 2017 fire season, coupled with the post season effectiveness analysis but progressing now.

Some discussion about nursery capacity as a challenge that was of interest to Tolko, both as a licensee, and also as a nursery operator/owner.

Revenue Sharing With First Nations:

s.16,s.17

Fire Salvage:
s.17

I look forward to meeting with you again so our staff can provide us with progress updates.
I would suggest that your staff and Bob Fleet work on the logistics of an Okanagan visit, and on moving these files forward.

Brad

Exploring Options for a Golden Community Forest with Minister Donaldson, June 12th 2018

Meeting June 12th, 2018, regarding Golden obtaining a community tenure:

Minister of NRFLRD Donaldson, Senior Ministerial Assistant, Tim Renneberg, Resource Manager Revelstoke, Kurt Huettmeyer, Regional Executive Director, Garth Wiggill, Volunteers; Denise English, RPF, and Brian Amies, RPF, Director CSRD Area A, Karen Cathcart, Golden Mayor Ron Ozsust, Golden Town Administrator Jon Wilsgard.

Our meeting with Minister Donaldson had a very positive tone.

Denise English shared a summary of what we hoped to achieve at the meeting, some background on how this meeting transpired and why we believe a community forest is in Golden's best interest.

Although the Minister could not give us a guarantee that Golden would be a successful candidate for a community forest, the Minister did agree in principle with community forests, even stating that community forests are part of this Government's mandate.

A key piece being that Golden is due for a timber supply review with an apportionment by the minister in 2020. This gives us time to work through what is needed to apply for a community forest tenure.

Garth Wiggill indicated that an important piece to consider is garnering support letters from interested stakeholders, naming specifically First Nations and industry.

Our group left the meeting agreeing in principle to move forward with an application to Rural Development, Lands and Innovation Division for funds to investigate options and develop support for a community forest tenure.

The survey was province-wide with of 1,500 adult British Columbians between March 22 and April 2, 2018. Provides good insight the forest sector's reputation in B.C.

I have also emailed Ministers Donaldson, Ralston and Heyman to seek a briefing with Ministers and their staff.

Please let me know if you have a date/time that works best with you, and we will coordinate a meeting with Bruce's schedule.

Hello Gabrielle, we had a very successful Tenures Diversification info session in Golden, April 25th. The end result of the meeting was a consensus amongst most attending and Mayor Oszust, Golden, Area A Director, Karen Cathcart, Town of Golden Councillors, Leslie Adams and Chris Hambruch, to move forward towards a community forest for Golden and Area A. Our next steps would be to form a working group, exploring our options for funding investigation into this venture. However we realize it is likely prudent to approach either the Minister Donaldson or the Minister and Premier to determine the Government's opinion the above.

Glen Ewan has informed me that both Minister Doug Donaldson and Premier Horgan will be in Revelstoke June 11th and 12th. Mayor Oszust, Golden, Area A Director, Karen Cathcart, Columbia Woodlot Association President, Brian Amies, and myself would appreciate if we could meet with Minister Donaldson or the Minister and Premier in Revelstoke sometime during these two days. Your attention to this matter is appreciated. Thank you. Denise English, MF, RPF

Hello Gabrielle, thank you for taking my phone call this morning. As I explained, in a round-about way, Tara DeCourcy, DM Selkirk Resource District has agreed to represent the ministry. This is great, but as I explained, Tara's role is limited under the current legislation, and although Tara can explain current Government's mandates, Tara cannot make commitments on the Government's behalf.

You suggested that (and I will paraphrase)" if the information session results in questions or

Jessica et al.

Thanks for sending on this re-make which I think is getting us very close to guiding us to have a fun and insightful conversation. Given you asked for our thoughts, I'm writing to give a quick reaction and offer a suggestion.

You have outlined six sections to the discussion. There are four of us. If we each address the six sections, that's 24 interventions. There are 90 minutes on the panel. These minutes will flash by once we start. If we each take 3 minutes on each of the 24 "parts," there will be inadequate time for questions from the audience, and panel conversation.

The questions you raise and detailed thoughts on page 2 are exactly what we need. But I wonder if some kind of "grouping" might be helpful, something like the following. This kind of structure will ensure we hear from each panellist (but not overly so), that conversation between panellists occurs, and that there is ample time for audience questions. For each of the three parts, I would switch the order of panellists around as you see fit. The time estimates are guidelines – you will have to control us!!

Facilitators Opening – total of 3 minute. Panel objectives, introduction of panellists. *(Note, the audience has the panellists' bios, these can be referenced and you can give a one liner summary for each of us)*

Part 1. The Issue. Total of 18 minutes

A. Opening comment by panellists. 2 minutes each, total of 8 minutes: What does this topic mean to you; how did we get here; what is the key issue today?

B. Panellists' conversation. 10 minutes

Part 2. Barriers to change, sparking change; concrete solutions. Total of 18

minutes

- A. Second comment by panellists. 2 minutes each, total of 8 minutes. What is the most significant barrier to change that needs addressing; what is the most important change (or changes) required to bring a better state of ownership, benefits etc; what are three concrete recipes for change – three “solutions” – that should be considered.
- C. Panellists’ conversation. 10 minutes

Part 3. Concrete Recommendations. Total of 18 minutes

- A. Third comment by panellists. 2 minutes each, total of 8 minutes. If you could make one recommendation to bring positive change to each of the following, what would you say: (1) the World Bank Group? (2) home-country governments? (3) Indigenous peoples’ governments? (4) financial services industry? (5) insurance industry? (6) resource companies? (7) civil society? (8) Other?
- B. Panellists’ conversation. 10 minutes

Questions from the audience. Interspersed total of 30 minutes

Facilitator’s Summary – Total of 3 minutes. Key insights, differences, common ground, concrete actions, thanks.

I hope the above is useful . . . As I said on the phone call, I’m happy to go with your direction and am not thin skinned on whether or not any of these suggestions are used!! I will come back to you with my thoughts on “solutions” and recommendations in a subsequent e-mail.

I look forward to meeting everyone on Wednesday at 1:00 pm in Room 107.

Warm regards,

Tony

All all:

Updated session outline attached. More explicit on the underlying questions implied in V1, and informed by our discussion last week. No case study :)

Interested in your feedback.

Tim - I've tried to give some indication of where I see the Minister starting off the discussion topic so you can prepare him accordingly.

All- I'm hoping you can reflect on all the questions noted, propose one example of a successful model, and come with 3 specific (and concisely worded) recommendations on what it takes for successful implementation of change.

It would help if you could email me in advance the example you propose we share. We'll select 1 – 2 for the session itself and having a sense of what you're thinking will help me facilitate this...

I also want to introduce everyone to Chris Tucker - cc'd. Chris will be helping to compile the questions from the audience and will be sending them to me in real time during the session,

for inclusion and our deliberation as appropriate. Chris is a long time colleague, currently at Deloitte Risk Advisory Services, bio below.

Tristain: I guessed on Tim's email so please forward/ccing me thx.

All for now, see you next week! Please be in touch if you have any concerns, comments, etc.

Hello all:

Quick note to gauge your availability for a call all together this Thursday, to share ideas on our session.

I am flex all day, as is John who will also join us.

I'll circulate a call in number and confirmed time once I hear back from you.

If it is not possible for us to all connect, I'll arrange individual follow up.

All for now,

Jessica

Thanks for the intro John on your leadership on what is shaping up to be a very interesting conference.

I am very much looking forward to our panel. I know it will be engaging and interesting, and it will be my sincere pleasure to be a part of it all with you.

I'll be back in touch soon with a framework to guide the discussion.

Tony - exactly right - different concepts and values around "ownership" and "benefit", historically entrenched in law and policy, now evolving - in some places - into new governance structures and changing roles for all parties involved.

I am keen for us to look at examples and trends from different parts of the world, including Canada.

I am interested in exploring what ownership/benefit confers in terms of responsibility, taking us into practical roles and areas of mutual interest - e.g. knowledge/information systems, monitoring, decision making, planning. In other words looking at the practical implications of the topic, not just focusing on the definition of "authority".

I am thinking of proposing a particular scenario that we all need to respond to...

More soon.

Thanks again for agreeing to participate.

Jessica

John, Jessica,

Thanks for this. I will reflect on this and come back to you with further thoughts.

However, an immediate reaction that comes to me is that I would like to touch on the difficulty/challenge/reality of dealing with the discordance between evolving societal values and a legal/regulatory regime that may be nested in values of a previous time.

Warm regards,

Tony

Subject: RFG2018 Dialogue session - important information

Dear All,

The purpose of this e-mail is to connect the moderator, Jessica Bratty, and panel members of the Dialogue session - "Who owns resources and who benefits" that will take place on Wednesday June 20, 13:30-15:00 at the Resources for Future Generations conference in the Vancouver Convention Centre - West Building.

Attached is a summary of the session, potential discussion topics, guidelines and information.

This is a very important session. As suggested in the attached, Jessica will provide more background information and we hope to arrange a conference call and/or separate calls ahead of the conference to help build the themes and discussion points. We do not want a scripted conversation but we want to help Jessica, your moderator, capture key points and coordinate your input.

If you have any questions, please let me or Jessica know.

We look forward to seeing you in Vancouver in four weeks, and hearing your views.

Regards,

John

Minister Donaldson,

As a follow up to our recent meeting where we discussed having a follow up in early June I wanted to write to see about setting up another call or face to face meeting.

It would be great if we could do this prior to the June 28 meeting regarding coastal forestry.

An end of day call might work best as we are on the road with regional engagement workshops for next four weeks. Including a conflict on the 28th when we are scheduled in Smithers.

Hopefully we can find a time to catch up.

For: Coast CEO follow-up meeting

Time: 3 hour time slot for meeting required

Can I leave this with the three of you to find a time that best works with schedules?

Let me know if further details are required. Once the date is confirmed please let me know.

Subject: Request: Coast CEO Follow Up Meeting Date
Keira, Lisa, Orla

The Coast CEO meeting is now 1 week away. Thanks for your help to date coordinating all the pre-brief and prep meetings for Minister, Don and Tim.

We have been asked to schedule one more meeting in advance of next week. Here are the details

When: Week of September 17 (or September 24th at the latest)

For: Coast CEO follow-up meeting

Time: 3 hour time slot for meeting required

Can I leave this with the three of you to find a time that best works with schedules?

I understand we are hoping to have the time blocked off in September prior to next week's meeting so Minister/Don/Tim can consider announcing the date of the follow up meeting.

Let me know if further details are required. Once the date is confirmed please let me know.

Thanks in advance

Cheers,

Dana Eckardt

Hi Talea. Randy Cowling is in the USA until later this month and we wanted to explore when we could meet with Minister Farnworth in early July to follow up our discussions with him, and subsequently Minister Donaldson, DM Denlinger, Parliamentary Secretary Rice, and the Fire Commissioner for BC, Mr. Anderson, held February 21st in Victoria.

We understand there may be some initiatives being put in place – some of which were discussed at the February 21st meeting – and WASP wished to offer our assistance with these initiatives.

Thank you for your support and encouragement for WASP to assist in lessening the effects of damage to structures in areas of Forest Fires.

Please let us know alternative dates that may work for Minister Farnworth's schedule in July.

We were very pleased to read that principles WASP has been suggesting for mitigation opportunities in areas of Forest Fires, were included in sections of the Report.

The Team will consolidate their thoughts/comments and will be back in contact with Minister Farnworth (you) to ask what our next steps should be to implement the specific recommendations in the report where WASP can address the needs identified.

Subject: New FOI Request: FNR-2018-84181 Estimate Due June 20

The Ministry received a formal FOI request made under the *Freedom of Information and Protection of Privacy Act* from Political Party.

Request Wording:

Records of any and all emails, text messages, BBMs, slack messages, and WhatsApp messages – excluding attachments – sent from the Minister's Ministerial Assistant(s), where such a position existed and was staffed (Date Range of search: May 1 2018 – May 31 2018)

This is cross government request XGR-2018-84156. The request was sent to all ministries and the Office of the Premier.

Note: This request is assigned to Minister's Office

Check your records (emails, physical documents – printed and/or black books, LAN, etc.) to see if you have anything pertaining to this request.

Please email the following information back to me by: June 20.

Number of physical pages (printed documents)	
Number of electronic pages (excluding emails)	
Number of emails with & without attachments	
How many hours did it take you to calculate the records quantity?	
How many hours will it take you to actually gather the records?	

If applicable, please respond to the following as soon as possible:

- Does the request require clarification?
- Can the records be directly released from the program area? No harms associated?
- Are responsive records publicly available, e.g. Government websites/publications?
- Will responsive records be published within 60 days?

- Are there suggestions to narrow/focus the request?

Subject: Call for Records FNR-2018-84181 Due June 28, 2018 Analyst Tyler Barbon

Your Ministry has received a formal request made under the *Freedom of Information and Protection of Privacy Act* (FOIPPA). The request is for:

Records of any and all emails, text messages, BBMs, slack messages, and WhatsApp messages – excluding attachments – sent from the Minister's Ministerial Assistant(s), where such a position existed and was staffed (Date Range of search: May 1 2018 – May 31 2018) – Date Format: MM/DD/YYYY

This is cross government request XGR-2018-84156. The request was sent to all ministries and the Office of the Premier.

Please complete the attached Call for Records form.

- If search and retrieval time is anticipated to exceed 3 hours and/or the total volume of records exceeds 200 pages, complete **only** sections 1 & 2 of the Call for Records form as we may be in a position to issue a fee estimate. Return the form to IAO by June 20, 2018. Please await further instruction from IAO as the records will not be required until the fee estimate process has been completed. Once fees have been paid or waived, IAO will contact you to continue the call for records process.
- **If no fees apply** then complete the attached Call for Records form and return it to IAO by June 28, 2018.
- Send records via email in **PDF format**. Before you turn emails into PDFs, ensure that you have included all attachments. If email is not possible, please put the records on the **File Share** and notify IAO that the records are available.

You should be aware that *FOIPPA* obligates us to assist the applicant and to respond without delay, openly, accurately, and completely. In the event that your Ministry must defend the adequacy of its search to the Information and Privacy Commissioner at Inquiry, those involved in searching for records may be required to sign affidavits confirming they have conducted an adequate search for relevant records.

Please do not hesitate to contact IAO to discuss: whether the records may be routinely releasable; whether the information is being prepared for public release or is already publicly available; ways in which an applicant may want to narrow/focus their request to reduce potential fees; and/or any other questions or concerns relating to this request.

Thank you for your assistance,

That is pretty steep. What am I paying for first night? Guess u could check Coast Coal Harbour for two nights.
Would have to rent car Monday night, pay for two more nights parking at Coast so not sure how much saved with an extra 1.5 day car rental and two nights parking.

Keira, Lisa, Orla

The Coast CEO meeting is now 1 week away. Thanks for your help to date coordinating all the pre-brief and prep meetings for Minister, Don and Tim.

We have been asked to schedule one more meeting in advance of next week. Here are the details

When: Week of September 17 (or September 24th at the latest)

For: Coast CEO follow-up meeting

Time: 3 hour time slot for meeting required

Can I leave this with the three of you to find a time that best works with schedules?

I understand we are hoping to have the time blocked off in September prior to next week's meeting so Minister/Don/Tim can consider announcing the date of the follow up meeting.

Let me know if further details are required. Once the date is confirmed please let me know.

Thanks in advance

Judy – could you please suggest a few dates and times that may work for MLA Olsen later in the summer?

As discussed this morning, I'd like to set up a briefing with **Bruce Anderson, Chair of Abacus Data**, about the public opinion research on forestry in BC we just completed. Bruce will be in town on the afternoon of June 21 or morning of June 22nd and we could do a briefing in either Vancouver or Victoria and make a conference line available for folks not in either of those locations.

The survey was province-wide with of 1,500 adult British Columbians between March 22 and April 2, 2018. Provides good insight the forest sector's reputation in B.C.

I have also emailed Ministers Donaldson, Ralston and Heyman to seek a briefing with Ministers and their staff.

Please let me know if you have a date/time that works best with you, and we will coordinate a meeting with Bruce's schedule.

Thank

Hi Dana and Alanah, as requested, in advance of Dave and Nikki's briefing with MDD this Monday, June 25 at 3:00, please find the material attached and Dave's covering email the Minister.

Minister, attached is a package of information for our briefing on June 25 regarding Engineered Wood. The following documents are included in the package (note that some of these documents are very large, and this makes a VERY big package of information in total; you may only wish to review the first document listed below and just consider the other 5 for future reference):

1. The powerpoint presentation that we drafted for the DMCSSP presentation that has now been postponed – I thought this would be a good document to guide our discussion
2. The proposed action plan – this would be for background only, in case we want to discuss the specific actions our cross-agency team

recommended

3. A draft public document – again this would be for background only, as an example of the kind of public document that could be circulated around this initiative

4-6. Three background reports commissioned as part of this project, that collectively provide much more information on engineered wood, opportunities, barriers and challenges.

I look forward to discussing this more with you on Monday.

Hi Paula,

Two of our three item on the June 14 Treasury Board agenda have now been postponed:

(1) s.12,s¹² will now be on the June 19 TB

a. as MSF and Doug will be on the tour to Fort St James—Trish Balcaen will present to TB on MSF/Doug's behalf

b. so, MSF doesn't need to go...you should probably put an "FYI" hold at the top of MSF's calendar on June 19 to show that Trish will present at TB

(2) s.12,s.13 now be on the July 11 TB at 1:00 – 4:00 PM

a. MSF will need to attend this, so please enter it in his calendar

b. As this is a joint sub with FLNR, MDD will also need to attend. FLNR should already be aware but please inform Lisa Silverio to be safe

c. Doug Caul and Heinz Dyck will attend to support

The only item we now still have on the June 14 TB is s.12,s¹². However, it may also get postponed. I'll keep you posted.

On June 13 from 12:00 – 1:30 PM, we have a briefing with MSF and MDD (he'll join for 30 minutes of the briefing at the end) on the s.12,s.13 (we did the s.12,s.13 on May 31). We can keep the s.12,s portion of the briefing with MSF (as it's been postponed only one week to the June 19 TB, so the June 13 briefing date isn't too far out). However, with s.12,s now postponed all the way to July 11, we need to postpone the s.12,s.13 of the TB briefing, which includes MDD.

Please inform MDD's office's that the June 13 staff briefing with MDD needs to be postponed.

Connie had mentioned MDD would be out of the country on July 5 (for the Maanulth meeting). **Can you please check with MDD's office to see when he'll be leaving the country and for how long so that we can reschedule the s.12,s briefing to be closer to the July 11 TB?** We need to move the s.12,s.13 closer to the July 11 TB date but we also need to, ideally, have MDD a part of that briefing. Once you find his availability in June/early July, we can look into rescheduling the s.12,s portion of that briefing.

Hi Connie,

I wasn't aware but the s.12,s.13 that MSF will present at the June 7 TB is actually joint with FLNR. Can you see if MDD can join MSF in his June 5 morning briefing at any point go over that sub?

FYI, MSF/MDD are up first at 1:00 PM on Thursday and then MSF will follow for MIRR's s.12,s.13 .

No that's ok, let's just play it all by ear, MSF might decide he needs to ask more questions, so let's just leave it for now and they can figure it all out during the Prep!

Do you want to cut down the staff portion of MSF's review time to 12:30 – 1:30 to give MSF 30 minutes on his own and then briefing time on s.12,s followed by time with MDD on s.12,s. ? (or we can do staff attend 12:45 – 1:30)

As discussed on the phone, can you please see if MDD can join the June 13 briefing to discuss the s.12,s.13 I forgot that it's a joint MIRR/FLNR sub.

Also, I said, Heinz won't take long to brief MSF, so he'll still have lots of time to review the subs on his own.

Thanks. Also, if it's okay with MO, can we split the June 12 and 13 briefings (to prepare for the June

14 TB) to focus on two subs in one briefing and the other two subs in the second briefing?
The reason I ask is because Heinz is the lead on s.12,s.13 and he's available for the June 13, 12:00 – 1:30 PM time slot but not the other briefing time slot. If he could cover his two subs in one briefing that'd be great.

So, we can do June 13 briefing on s.12,s.13 with attendees as Doug, Heinz, and Leanne. Is that okay?

FYI, we might be able to cancel the June 12 staff briefing. We now have this week's s.12,s.13. Also, s.12, might get postponed to a later TB. I'll keep you posted.

I spoke with Al Martin and President Harvey Andrusak of the BC Wildlife Federation. They would like a meeting with MDD in mid July. however they agreed to a call in July, and a meeting in September sometime. They would like to talk about species at risk strategy and rural development.

Possible for Doug to give Harvey a call on July 13th from the constit? I do not think it would be long, 15 min – ½ hour. Possibly with staff.

The meeting in September could take place later in the month, in the week of 24th – 28th?

Sound doable?

Hi Lisa,

MDD would like to travel to Atlin on July 23 and return July 26th for Ministry related meetings.

I have investigated flights and these are the ones he would like booked.

Monday, July 23 – Terrace – Whitehorse AC 11:00 -17:03

Thursday, July 26 – Whitehorse – Smithers AC 11:05-16:34

I had to make sure there was accommodation available for July 23, 24 in Atlin, so I booked the rooms as well (in calendar).

Accommodation will also be required for Wednesday night in Whitehorse (I haven't looked in to any options there)

For now we are still working out ground transportation to Terrace. (As flights are out of Terrace and back in to Smithers)

A rental car will be required for pick-up in Whitehorse.

I will be accompanying him.

Let me know if you have any questions.

Thanks,

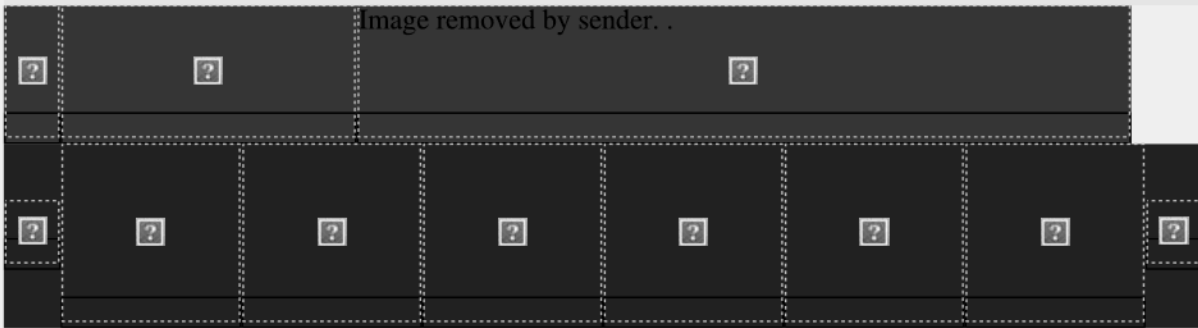

Tristan

Subject: UC/Workstation Refresh project

Hello,

The PREM Integrated UC/Workstation Refresh project is in the process of refreshing your workstations and replacing your phone lines with UC. In order to accomplish this we will need to be on site to conduct an inventory.

Below is what you can expect from our on-site visit, with some communication back and forth for clarification throughout the process.

We will need:

- A window of time to conduct the inventory (preferably over the span of a week)
- As many workstations on site as possible
- Help from our contact to identify active phone lines, people and positions

NOTE: We will not need staff to be at their desk while we conduct the inventory

The inventory will take an average of 30 minutes per office and consist of a team on site verifying the following:

- PCs (W#)
- Printers (both network and personal)
- Peripheral devices (model types)
- Monitors (size and model)
- Active phone lines
- People and positions associated with the active phone lines

Charlynn Gustafson's team will be in touch to make arrangements with each of your offices. Her contact is below.

Hi,

I don't think we need to log this as a meeting request. The incoming was sent directly to PJH and the outgoing addressed the fact that MDD along with other Ministers have already met with City of Delta. We were copied on this correspondence so should be logged as FYI/File.

Hi Sandra,

CSS logged the attached incoming (240306), but are not sure if it warrants a response or if it should be treated as a meeting request (original incoming to Premier Horgan was a meeting request). It references a meeting between staff and Delta on April 17, 2018.

We'll leave with you to action, unless CSS needs to be involved in further correspondence.

Hi Lisa,

Our computer system doesn't pull the provincial government one way rate correctly, so the invoice is always a very confusing mess. The rate is \$46.50/ day with 200 free km, \$0.15 any additional KM's and a \$100 drop fee. There is a credit on the rental for \$154.20, which is a credit for the Unauthorized drop fee and the mileage minus the additional 12km @ \$0.15. If you have any more questions, let me know. I'm sorry it is so confusing!

Subject: Arranging a meeting to discuss the caribou crisis

Dear Minister Donaldson,

On May 1st I wrote to you and Minister Heyman (see attached) requesting a meeting with representatives of 11 ENGOs working together on caribou. Several of my colleagues had attended meetings with you earlier in the year and you had responded positively to such a meeting. On background I would add that I have worked on a number of community initiatives with Ministers James and Fleming among others. I met with Minister James on March 26 and she was very supportive of a meeting. I understand her staff reached out to you on her behalf. On May 10 I met with Minister Fleming who also was very supportive of a meeting and asked his staff to contact staff in your office and Minister Heyman's to pursue it. My understanding is that Minister Heyman's office agreed to a meeting and your staff expressed a positive inclination but were not ready to set a date. It is nearly 2 months since my May 1st letter.

With all due respect, this matter is urgent. Two BC herds suffered extinctions this spring. Federal action under the Species at Risk Act is imminent. The province is working on a caribou recovery strategy with staff indicating a draft will be produced by September. While there was a public input process, and industry is being actively consulted the most knowledgeable ENGOs do not have a channel to easily participate. It is only fair that you hear from us directly on behalf of our constituents. We asked for this meeting to offer our help, insights and knowledge. The decisions you and Minister Heyman will soon make will determine whether caribou in BC will recover or move closer to extinction. We ask that you meet with us at the earliest possible date and take advantage of our considerable expertise. I look forward to your earliest reply. Thank you.

Hello,

My name is Charlynn and I'm the Communications Lead on the PREM UC/Workstation Integrated Refresh project.

From my understanding you've received an email communication from Kate similar to the one below.

Would each of you be able to confirm a timeframe for the Workstation and Phone Lines Inventory?

1. Is there a week in Mid-July or August that would work best for the tech teams to conduct a phone line and workstation inventory?

Once I receive your answers I'll consolidate them and work with everyone to pick a week that works for everyone.

Please let me know if you have any questions.

Thank you,

Hello,

The PREM Integrated UC/Workstation Refresh project is in the process of refreshing your workstations and replacing your phone lines with UC. In order to accomplish this we will need to be on site to conduct an inventory.

Below is what you can expect from our on-site visit, with some communication back and forth for clarification throughout the process.

We will need:

- A window of time to conduct the inventory (preferably over the span of a week)
- As many workstations on site as possible
- Help from our contact to identify active phone lines, people and positions

NOTE: We will not need staff to be at their desk while we conduct the inventory

The inventory will take an average of 30 minutes per office and consist of a team on site verifying the following:

- PCs (W#)
- Printers (both network and personal)

- Peripheral devices (model types)
- Monitors (size and model)
- Active phone lines
- People and positions associated with the active phone lines

Please let me know if you have any questions.

Thank you,

2. We will have a number of communications templates to be sent out to staff.
