Rick:

Thanks for your assistance for March 7 lunch event at the Leg : La Journee de la Francophonie.

In case you have not seen it, attached is the draft NR approved by Minister Dix's office.

One key element is the announcement of the Francophone historic sites that will be made at the event by Minister Donaldson. Final approval by Minister Donaldson is still pending – his staff has referred the material to him. I am wondering if you could liaise with his office to make sure so that approval of the sites is received as it is part of the NR that needs to be translated in French, but the list will also be displayed in a Power Point Presentation (PPP) that will be shown on a large screen at the event. The PPP will also need to be translated in French.

Thanks again,

Pierrette

Request

A short comment regarding the letter the City of Campbell River sent to the Ministry regarding the Snowden Demonstration Forest, and the need for long-range plans for the area, especially since BC Timber Sales is already working on plans with stakeholders on harvesting timber in the area this year.

I understand the Ministry sent back a letter acknowledging receipt of Campbell River's request, but I was wondering if there's a timeline on when the Ministry will make a decision or where the Ministry is at in terms of looking at the situation in Campbell River.

Background

An article from today: <https://www.mycampbellrivernow.com/33689/city-council-to-send-another-letter-to-ministry-of-lands-forests-about-snowden/>

Recommendation

You can attribute the following to the Ministry of Forests, Lands, Natural Resource Operations and Rural Development:

The Snowden Demonstration Forest was established in the 1980s as means of demonstrating integrated resource management and how different activities could co-exist.

The ministry remains committed to working with the Snowden Advisory Group, on how sustainable harvesting can be done in a way that reflects all interests.

The most recent advisory group meeting just started to explore potential harvest and road locations. The next step, as a group, will be to develop a detailed 5-year plan and broader 20-year plan.

BCTS is not developing any harvest or road construction plans within the Snowden, and will not proceed until this planning process is complete.

Release is more or less fine, but for this paragraph:

As part of Budget 2019, wildfire management funding has increased by 58% to \$101 million annually. The additional funding will help the BC Wildfire Service add to its fire response capabilities (e.g. firefighting crews, aerial capacity, technology) and spend more on fire prevention activities, including a more comprehensive prescribed burning program backed by an initial \$10 million.

Hi Tim,

Saw the announcement today - exciting. It reminded me to follow-up on the Minister's interest in WoodRise (<https://woodrise2019.ca/en/>) and the use of a BC logo on behalf of the FII contribution.

Let me know when you have a chance.

Best regards, Tim

I would like to catch-up this month when you have some time. I'll be in Victoria a few dates over the coming weeks, which may make it easier.

Primarily, wanting to bounce some ideas around regarding the coast, the vision for BC forestry and a check in on how FPI/BC's R&D Enterprise can best support the direction.

The FOI Request is [JTT2018-87827](#). Here's the suggested response I sent to Tim R for review (who is on the road) after getting input from Brad, Sarena and Don Z.

1.- Is the visit being rescheduled? If not what measures are being taken by your ministry to make the case for B.C. in China?

- As you may be aware the Minister of Forests traditionally leads a forest sector trade mission to Asia each fall to help expand the markets in Asian countries for B.C. wood products. Planning for these missions usually begins in the summer.
- B.C. values its relationship with China, our second-largest trading partner.
- Ministry staff in B.C. and in our four trade and investment representative offices in China continue to support trade and investment activities between B.C. and China.

3.-Why, exactly, did the minister decide not to proceed into China? Was there a security concern? We have the results of an FOI request that sheds a great deal of light on this situation, but were interested in your explanation of this?

- Based on the information available at the time, the Minister made the decision not to proceed to China. He didn't want his presence as a government minister to distract from the business meetings that had already been scheduled.

Hi Tim and Vivian,

Sage also received a similar request from Ian Bailey on the forestry trade mission and China. Want to make sure we are coordinated in responses.

Could you copy me on the proposed response?

Also – would you have a copy of the FOI response that he refers to in the request?

Request from Hub:

Last December, your minister, Mr. Donaldson, called off a visit to China in light of the Meng Wanzhou arrest in Vancouver. As you know, this came in the midst of a trade mission to Asia. I understand that business members of the delegation went on to China.

Two questions:

- 1.- Is the visit being rescheduled?
- 2.-If not what measures are being taken by your ministry to make the case for B.C. in China?
- 3.-Why, exactly, did the minister decide not to proceed into China? Was there a security concern?

We have the results of an FOI request that sheds a great deal of light on this situation, but were interested in your explanation of this?

Any clarification you could provide on this by day's end today would be greatly appreciated.

I have cc'd the jobs, trade and technology ministry on this query.

Hi Vivian

Do we have policies regarding use of the Govt logo?

MO is considering use of the logo to the event page for WoodRise as a way to promote BC given our partnership with FPInnovations and FII.

WoodRise (<https://woodrise2019.ca/en/>) "The registration page is open and it is currently missing a BC logo, which is appropriate since BC is a key partner with FPInnovations and FII is organizing a booth at the event."

See below. We have a request for the minister to attend and we are considering. Two things:

- 1) do we have policies regarding use of the Govt logo? I think there's good argument for us to have visual representation there
- 2) if MDD attended, is there a greater likelihood for a ministry delegation, and if so, what would that look like?

Hi Tim,

The current schedule would have Minister Donaldson open the even with the Minister of NRCan and the Forest Minister from Quebec - there will also be a key note speaker that evening. This would be on the Monday evening. Minister Donaldson would be free to discuss action in BC to promote TallWood building and promote BC forest products and service capacity to meet the needs of this emerging sector. Each minister is scheduled to have 10 minutes.

That said, we recognize it is a long way to fly and difficult to be away from the legislature.

On the other note, was there any discussion on the use of the BC logo on the communications? The registration page is open and it is currently missing a BC logo, which is appropriate since BC is a key partner with FPIInnovations and FII is organizing a booth at the event.

Best regards, Tim

Hello Tim,
Please see below the request from Mayor Durkan of Seattle, asking for a call with the Premier.

At the request of Geoff Meggs and with recommendation from IGRS, we are deferring this request to your office to set up for MDD.

We will not be responding further to this request and ask that you make contact with their office at your earliest convenience and let them know that MDD is responding obo of the Premier.

Thank you for providing us with the time for this call and any issues that arise or any follow up that may be required.

Subject: Re Update Re: Call w/ Seattle Mayor Jenny Durkan

Hi Chris, IGRS advises that the Premier should defer the call to Minister Donaldson given the following:

- the Mayor wrote to the Premier in August, and Minister Donaldson replied on behalf of the Premier
- the Premier had a call with the Mayor on Feb 11, 2019, and the Premier mentioned Minister Donaldson on the call as one of the decision-makers on this file.

The Skagit issue – the issue the Mayor is interested in – is a land use issue, and Minister Donaldson could phone the Mayor at his convenience. In our view, there is no urgency to do so, but a call sometimes in April would be appropriate. Having MDD returning the Mayor's call, will ensure continuity and consistency in the communications with the Mayor. IGRS can coordinate the preparation of material for the call.

Subject: REVIEW/APPROVE: NR - Kluskus Connector

Here's draft news release for review and approval. We have it scheduled for 11:45 a.m. Monday, and I know MDD was hoping to get this out before it came up in Estimates.

"Building this road will provide safety to citizens in the area, as well as socioeconomic benefits to residents of the Kluskus Nation settlement," said Doug Donaldson, Minister of Forests, Lands, Natural Resource Operations and Rural Development. "The decision to do so aligns with recommendations from the Abbott/Chapman report and supports the Province's commitment to implementing the United Nations Declaration on the Rights of Indigenous Peoples."

Cheers,

Vivian

Probably best to remove the word:^{s.13} . All else is fine.

Hello Tim!

I'm writing in regards to a greeting that my office (Premier's Correspondence) is writing for the BC Wildlife Federation. I've been in contact with Kenn about it but, since we need to send it out today, I'm hoping you wouldn't mind reviewing the sentences below and giving us the okay. The information is pulled from an info sheet Kenn provided.

Thank you for your time!

Kayla

"It is a priority for our government to ensure that our environment is protected for future generations and our commitment of \$14 million over three years to improve wildlife management and habitat conservation is just the beginning. We are working hard to engage the public, Indigenous communities and key stakeholders to develop and implement a new long-term Wildlife and Habitat Strategy^{s.13}
