I only have a short window to read cab material for tomorrow while at a meeting tonight that I'm in. I go to synced folders then to cab folder that says its synced then only a reference library folder appears and there is only an old doc in that. And nothing different in the ebinder docs folder under In The Cloud.

Some rejigging:

I am going to PJH speech at COFI Friday but I will go over Thurs night. So if you can extend my stay at Waterfront Fairmont for Thursday night as well and then I'm going to stay Friday as a get away that I will pay myself but if you can just book Friday too then I will separate it out on the invoices and pay for that night when I check out on Sat. As far as flights...if I can get over ASAP on Thursday so either HA or Helijet after leg finishes. Then return to Vic on Saturday on the 3:30 Helijet s.22

Hi Allison;

Yes, please have staff prepare a brief for comment on the DFO aquatic invasive species program. I agree with the email below that a written submission is the way to go. Staff haven't been involved.

Staff do feel that we should provide input, if it isn't too late staff would recommend that Minister participate, but likely due to the lateness of this request perhaps best we prepare and submit a written submission. Staff are already working on it.

Can you please send me a copy of the letter that was sent to MDD?

Here is a article that provides a bit more context and a urgency that the Province participate.

Ministry staff have not been involved. There was no communication from the feds as a lead up.

Because there is a large component that is with Invasive Mussels, MOE should be included.

Staff haven't been involved.

Staff do feel that we should provide input, if it isn't too late staff would recommend that Minister participate, but likely due to the lateness of this request perhaps best we prepare and submit a written submission. Staff are already working on it.

Let me know how you would like to proceed.

Alison,

Can you please send me a copy of the letter that was sent to MDD?

Here is a article that provides a bit more context and a urgency that the Province participate.

Ministry staff have not been involved. There was no communication from the feds as a lead up.

Because there is a large component that is with Invasive Mussels, MOE should be included.

Hi Allison;

Yes, please have staff prepare a brief for comment on the DFO aquatic invasive species program. I agree with the email below that a written submission is the way to go. The urgency for this program to achieve success is paramount. I am certain that MDD would like to highlight the need and importance of this to BC.

I look forward to seeing the brief.

Subject: TNO transcript

Hi all,

Tim or Kenn – may I ask you provide this doc to MDD? It's the TNO transcripts he asked for during QP prep.

Thanks,

Hello Rick and Mike

The attached note and attachments regarding the state of Port Renfrew cut blocks have been provided to the Premier's office
This was approved by Ray Luchkow and Craig Sutherland, however you have not had an opportunity to review.

We received the request from the Ministers office yesterday at 3:45pm,

materials were due today. The Premier's office advised this morning they needed it for noon so it was sent it over as soon as Craig signed off at noon.

Hopefully there are no concerns.

Subject: TSA Process / Interior Policy Summary

This was my quick interpretation of the announcement for the PO. It can serve as some initial holding messages pending a project plan.

Subject to Vivian's lens on this of course....

Intent of the TSA Process:

- The process announced is about industry competitiveness and community stability
- In principle, the belief is the future of the industry and the communities that depend on it are best mapped and planned by local leadership interests, rights holders and tenured harvesting rights holders who have both a strong understanding of the area, and long-term interest in the area. This is the basis for the TOR and focus of the invites to the tables.
- A strong and collaborative coalition of leadership is best positioned to engage with the provincial government as they understand the local and regional solutions that can lead to industry competitiveness and derive the mutual benefit for rights holders and communities.
- We expect 2-3 TSA's underway by early summer and into the fall

Relationship to Interior Forest Policy Renewal:

- The industry competitiveness and community stability TSA tables will be informed by and will feed into the parallel engagement and policy development process under Renewed Forest Policy initiative that will kick off this spring. Intent is for a broad engagement in the interior communities (being planned) and based on some concept papers on topics such as waste, utilization, bioproducts, adding value, tenure etc...
- The coordination of the timing and the linkage between these processes is deliberate.

Relationship to Land Use Plans and the Modernised Land Use Planning Process

- The forums will obviously be subject to existing land use plans, but expectation is that these strategic engagements could generate change proposals to change existing land use plans in the drive towards local solutions.

- The modernised Land Use Planning priority projects have been established in BC, however, government will be watchful for forum tables that make significant progress and identify strong competitiveness and community stability opportunities that can be enabled by additional Modernised Land Use Planning investments.

Relationship to proposed Forest and Range Practices Act 2.0 changes under the Renewed Forest Policy initiative:

- The industry competitiveness and community stability TSA tables will enable FRPA 2.0 proposed changes at the local level.
- Development of a TSA level competitiveness vision and affirmation through a strong coalition of local leaders will prepare TSA interests and rights holders for the collaborative Sustainable Forest Management Planning operational planning contemplated by FRPA 2.0. Optimised and efficient collaborative planning of the mid term timber supply is one key outcome at the operational level.
- The sequence of these with FRPA changes is deliberate.

Hi Lisa,

Please find attached the house amendment document for Minister Donaldson's signature. After this is signed, the amendment form needs to be handed to the Table at the Legislative Assembly today (either via page or directly to the clerk). However, if that is not possible, the amendment can be delivered to the Table the day of Committee of the Whole, which I understand is tomorrow.

This amendment is not significant but is required by legislative counsel (the amendment adds two commas).

Thanks,

Ryan Munroe

Can you line me up a meeting with Eamon ASAP to get the latest on discussions he has had with the Crisis Team or any other meetings. I imagine I'll be getting some local media requests soon. I need some quick facts like when the sport season opens this year in the rivers and what sections of the rivers the Huwilt are talking about.
