Subject: Change Approval and Notification (Changes In and About a Stream) for Leandro Torrella - Request for more information (Your action required)

Leandro Torrella,

We have started to review your application with the tracking number 100305200 for Change Approval and Notification (Changes In and About a Stream). In order to proceed we will require the following information from you:

Please update your application with the following by Dec 23, 2019:

- 1) Since the works is overlapping with the District of Mission's land (Dewdney Trunk Road), please submit a letter or email of permission from the District of Mission to do the works.
- 2) Please update the applicant name to Hartshorne Holdings "Limited" instead of "Ltd." to match the land title.
- 3) Under the type of works section of the application form, please also select "construction of a temporary diversion around a worksite."

Thank you.

Please follow the instructions provided below to edit and successfully resubmit your application:

1. Open the link given below
2. Login using your BceID
3. Click on "Next" button at the bottom of "Post Logon" screen
4. Click on "Proceed" button and make required changes on your application
5. Go up to the last step of your application and click on "**SUBMIT APPLICATION**" button to complete the resubmission process.

<https://j200.gov.bc.ca/ext/vfcbc/Default.aspx?PossePresentation=External&PosseObjectId=117446793>

Once we have received the missing information we will continue to process your application. Please contact me if you have any questions or concerns.

PROPOSED WORKS

Detailed Description of Works:

The works consist of video inspection of the inside, headwalls and bank structure of existing 18-m length, 750 mm diameter CSP culvert crossing under access driveway. The inspection will assess the culvert conditions as part of a development application for a permitted asphalt plant. Dewatering of culvert section is required for assessment of structure. Isolation of culvert and stream bypass to remain active for one day only. If the assessment determines that repairs or replacement of the culvert are required, the proponent will submit another application specific for those repairs.
Methodology for video inspection:

- 1- Prepare blockage on both sides on the culvert headwalls using road plates or sand bags.
 - 2- Pump water from south side of culvert blockage to north side of blockage to maintain ditch flow.
 - 3- Fish salvage (permit in process) and dewatering of culvert section.
 - 4- Conduct video inspection of culvert structure with probe.
 - 5- Remove blockages and stop pumping. Restore flow and fish passage.
- 15 m2

Some applications may also be passed on to other agencies, ministries or other affected parties for referral or consultation purposes. A referral or notification is necessary when the approval of your application might affect someone else's rights or resources or those of the citizens of BC. An example of someone who could receive your application for referral purposes is a habitat officer who looks after the fish and wildlife in the area of your application. This does not apply to all applications and is done only when required.

Please enter contact information below for the person who would best answer questions about your application that may arise from anyone who received a referral or notification.

IMPORTANT NOTICES

Please review the "Important Notices" below and then check the declaration at the bottom confirming that everything in this application is complete and accurate.

- I understand that the submission of this application does not provide authority under the Water Sustainability Act to construct works in and about a stream. I also understand that my application must first be investigated and a decision made on the application as to whether an approval may be granted and, as part of that review, additional information may be requested of me.
- The application may be subject to further requirements under the federal Fisheries Act. Please refer to Fisheries and Oceans Canada Projects Near Water webpage (<http://www.dfo-mpo.gc.ca/pnw-ppe/index-eng.html>) for information on how to ensure your project complies with the Fisheries Act.

FrontCounter BC (FCBC) has accepted your application, assigned a tracking number, and forwarded it to Resource Management (RM) for their records.

RM does not necessarily provide a response to each notification submission. Your receipt of this email is confirmation that your work plan is on record and you need not follow up further with either FCBC or RM.

**The tracking number assigned to your application is: 100305200 Date Received: Dec 3, 2019
Work Window Aug 3, 2020 – Aug 17, 2020**

Additional considerations for the proposed works;

- (a) **You are advised that your project may be inspected during and/or post construction. A copy of the application and associated plans/drawings should be available for inspection, upon request, at any location where the changes in and about a stream are being undertaken.**
- (b) Care shall be exercised during all phases of the work to prevent the release of silt, sediment, sediment-laden water, raw concrete, concrete leachate or any deleterious substances.
- (c) Please refer to "Standards and Best Practices for Instream Works"
<http://www.env.gov.bc.ca/wld/documents/bmp/iswstdsbpsmarch2004.pdf> for additional guidance on the provincial Standards and Best Practices for any activity or construction within the stream channel that has or may have an impact on the stream.

*****Please Note:** Notification applications must be submitted at least **45 days** before commencing the change in and about a stream. The proponent must also comply with specified terms and conditions for the proposed change from the Habitat Officer. Please refer to this link for more information:
