Hey Craig – here's a two pager in line with workplan. If this resonates with you and Lori then I can integrate into a final product. Now working on drafting options for early next week.

This has been reviewed by: AGRI, LRNO Secretariat, ENV and WCR, SCR (Sharon, Allan) and Jeff. FYI.

Sharon & Jeff noted the high level nature of doc. My perspective is that this will be a high level doc with targeted actions that we should strive to start implementing in year three of this mandate.

Subjects.12; s.13 Update and Question

Hi Lori,

Update on thes.12; s.13 following the last conversation between you, Craig, Charlie and I:

- Charlie and I connected with colleagues at ENV and AFF to develop the VENN diagram and timeline
 appendices we discussed for the decision note. The note is updated and we're almost ready on those
 additional materials.
- As discussed on our last call, we are scheduled for ADMCNR on March 18 and DMCNR on March 29. We'll
 look to get the materials into the appropriate PPT templates for those committees.

Would like to confirm if Minister Cullen is anticipating anything in advance of our going to the committees. Perhaps we could schedule a meeting with the four of us next week and look to line up a brief with Minister Cullen in early March? If so I can connect with Sara to set up a time for the four of us.

Hi Charlie,

The Minister received the incoming Jennifer just sent along. Shipping and piloting are definitely a federal issue and the writer even references that. He has asked for a meeting with the Minister, so I am trying to figure out how the MO should respond. If there is any part of this that concerns the Province, they will likely defer the meeting request to you for a response of some kind. If you think this is entirely outside provincial jurisdiction, I can have them just decline the meeting and send regrets.

December 3rd 1:00 pm to 2:00 pm does not work for Craig because he has a Premier's office briefing at 1:45 pm. I have discussed this with Craig and he is of the view that David Muter's Division should lead this briefing on the fish habitat aspect. Craig Sutherland and Sharon Hadway can support the meeting on the aquaculture aspect if it is a time they are available.

Hon. Nathan Cullen,

Minister of State for Lands and Natural Resource Operations

Sent by email: FLNR.Minister@gov.bc.ca

Dear Minister Cullen,

On behalf of the Canadian Parks and Wilderness Society's BC Chapter (CPAWS-BC) and our 40,000 members across the province, congratulations on your recent appointment as Minister of State for Lands and Natural Resource Operations.

CPAWS-BC has been leading efforts to protect lands, coastal resources, and wildlife in the province for nearly three decades. We're pleased with the proposed new Lands and Natural Resource Operations Ministry, and are thrilled to see strong commitments in your mandate letter to improving habitat protection and wildlife management and modernizing land use planning.

In addition, CPAWS-BC has been collaborating with West Coast Environmental Law over the past two years to conduct research on coastal strategies throughout the world while also meeting with various coastal communities and organizations throughout BC. We are excited to see the commitment to start developing a coastal strategy along with Parliamentary Secretary Greene and Parliamentary Secretary Donnelly. Please see the attached brief with further information.

We would like to request a virtual meeting with you at your earliest convenience to discuss how we can assist in delivering this important work, and put nature at the heart of the path forward for BC.

In a recent <u>province-wide survey</u> on environment and conservation issues, the majority of British Columbians placed a high priority on safeguarding BC's lands, wildlife, and ocean:

- 87% think the province should commit to protecting 25% of BC's lands and ocean by 2025
- 83% agree that the province should prioritize new habitat protections to stop the declines of wildlife populations in BC
- 94% say it is very important or extremely important that ocean and coastal ecosystems are healthy
- 81% support the creation of a new plan and law for BC's coast

With this strong showing of public support, there is a significant opportunity to get it right for nature, wildlife, and people. We are eager and ready to get to work in supporting you to deliver on your new mandates, and look forward to building a shared vision for a healthy and resilient future for BC. In light of your busy schedule, thank you in advance for your consideration of this meeting request. I can be reached by email at jessie@cpawsbc.org, or by phone at (604)685-7445 x25, and look forward to hearing from you.

Sincerely,

Jessie Corey (she/her)

Hi, there may be an opportunity to update the Minister and Minister of State's mandate letters. Tim isn't available until later this afternoon so I have not been able to confirm what MO is thinking but as per John's request can you please identify to me by Monday morning 10am with any input you have on what could be put forward.

Please send everything you can think of even if you have already discussed with John or Rick - we don't want to miss anything so if I get duplicates I'm happy to sort through that.

Bullet form is fine, I will reach out if I need clarification.

Hey Craig – here's a couple other documents for our 2pm meeting. I understand the MOS NC has 13c in hand, but that doesn't really have the background or resourcing request. So, we have an old BN that's still relevant in terms of additional background and the other cab template documents that show the resourcing asks 13a in particular. We have some time at 11am to go over.

Hey Craig – brief summary from meeting yesterday. Let me know if this captures things.

- ADM Sutherland and ED Charlie Short, Coast Area met with Minister of State Nathan Cullen (MOS NC) on January 13, 2021 to brief on new \$.12; \$.13
 mandate commitment;
- Other attendees included DM Lori Halls (FLNRORD), Ministerial Advisors and David Travia (ED, AGRI and FLNRORD Lands and Natural Resource Operations Secretariat member);
- Meeting focused on summarizing the cabinet template documents for MOS NC and a brief overview of our marine programs was provided;
- MOS NC noted the challenge with scoping and managing expectations and said it would be good to start
 drafting some options and implications for different types of approaches and scope for further cabinet
 review
 - This is consistent with the cabinet documents provided
- Staff noted the challenge with limited resources and MOS NC acknowledged this and suggested be clear on resourcing requirements in the options
- Over the next month or so, staff with draft and vet some options for further review in prep for a broader cabinet meeting on the topic (yet to be scheduled)
- MOS NC note that it would be good to also brief PS Donnelly (AGRI) and PS Greene (ENV) on the subject –
 these will be set up by respective MOs.

 additional materials.
- As discussed on our last call, we are scheduled for ADMCNR on March 18 and DMCNR on March 29. We'll look to get the materials into the appropriate PPT templates for those committees.

Would like to confirm if Minister Cullen is anticipating anything in advance of our going to the committees. Perhaps we could schedule a meeting with the four of us next week and look to line up a brief with Minister Cullen in early March? If so I can connect with Sara to set up a time for the four of us.

Subject: RE: Agenda Item for March 18th ADMCNR and March 29th DMCNR

Hi Jennifer, no problem I will flag for ADMCNR March 18th. Do you already have a cabinet date?

No we don't provide meeting invites, meeting details and timing can be found on the agenda itself and will need to be added to their calendars. During the meeting I will send a message to attendees to let them know when to join.

Materials are due one week in advance.

Please kindly complete the table below:

Agenda item	For Decision: s.12; s.13	Options

Craig – here are the upcoming dates for DMC and ADMs.

DMCNR - March - 1, 15 or 29.

ADMCNR - March 4 and 18.

What do you think we should shoot for. Also - can use marine adms as a alternative to full adms?

Hello, there is room on the agenda next week, do we want to bring either of these items forward?:

s.12; s.13; s.16

I will be packaging up the agenda by end of day today.

Thanks!
