Yes.

Attached the version in our records. Hopefully this is what John received originally.

**Subject:** Softwood duties.

When the final AR1 rates were established Jennifer pulled a table together. For me showing the breakdown of the components and their contribution to total rate. Can't find it anywhere. Can you?

## RE: Softwood Lumber TB Sub

This looks great. Would love to walk through it but I am pretty booked solid until next week. I am happy to have a concurrent review process take place so we don't hold it up.

**Subject:** Softwood Lumber TB Sub

Hi Melissa,

This will come to you for formal review, but we wanted to give you an opportunity to review before we send to Mark Walker to start the formal approval route.

First, a huge thanks to Linda and Charli that did the work to pull this together, we have maintained the same format of the sub for the last 3-4 years, with just updates to numbers and key facts, so hopefully there will not be too much back and forth on content with TB staff.

I am happy to set up a time to go over the different budget pieces, the softwood budget is messy in how it is currently configured.

I know Mark is eager to get a copy of the sub as I think they are hoping to get it at TB meeting before the end of the month. If you could let us know if you want some time to review before we send to Mark, or if a concurrent review process works.
