Good morning,

As we continue to move further into fire season, we realize that Incident Management Teams assigned to specific incidents in your area may continue to engage directly with your office about those fires. Our Kamloops Fire Centre management team would like to extend an invitation any office that would be interested in a general fire centre overview outside of this. Please let us know if you would see value in having a session like this and if you have any preferred times/dates this week.

Thank you,
Taylor

Taylor MacDonald

Good morning Chris,

Unfortunately our management team is unavailable from 0900-1100 tomorrow morning. I will be sending out a group invitation for tomorrow afternoon at some point. If that doesn't work, we can try to connect with your office individually sometime this week.

Thank you,
Taylor

Good afternoon Taylor,

MLA Stewart would like to participate in the engagement session.

Does tomorrow at 10:15 am work?

Please send along the Zoom link so I can add it to his calendar.

Regards,

Chris Foreman, M.A.
Constituency Assistant

Good afternoon,

With fire season upon us, the Kamloops Fire Centre management team would like to host an engagement session with our MLA partners. This session will be used to answer any questions or comments you have as fire season is upon us. We would like to meet as soon as possible and hope to meet this afternoon. If you are able to meet with us today, please let us know your availability. If not, please let us know if you are available to meet next week.

Thank you,
Taylor

Report Wildfires: 1 800 663-5555 or *5555

Acknowledging the unceded, traditional lands of the Secwépemc Nation

Kamloops Fire Centre: Status Report

Prepared 08/07/2021

Zone Fire Danger Rating and Activity Level		
Zone	Fire Danger Rating	Activity Level
Kamloops	High to extreme	5
Vernon	High to extreme	4
Penticton	High to extreme	5
Merritt	High to extreme	5
Lillooet	High to extreme	4

Overview
<p>The fire danger rating throughout the Kamloops Fire Centre is currently high to extreme as we continue to see extreme heat conditions this week. We are currently seeing conditions that more closely resemble those in July and August with some temperatures above seasonal averages.</p> <p>As of June 30, 2021 at noon, campfires, Category 2 and Category 3 open fires will be prohibited across the province. This prohibition is being enacted to help prevent human-caused wildfires and protect public safety.</p>

Active Fires
<p>There are currently six Wildfires of Note in the Kamloops Fire Centre.</p> <p>The George Road wildfire (K70804) - 1035 hectares in size - classified as Out of Control. The McKay Creek wildfire (K71030) - 24,255 hectares in size - classified as Out of Control. Evacuation Order issued by the SLRD.</p> <p>The Sparks Lake wildfire (K21001) - 39,251 hectares in size and is classified as Out of Control. An Evacuation Alert and Order issued by the TNRD.</p> <p>The Durand Lake wildfire (K21232) - 277 hectares in size - classified as Out of Control. Evacuation Order issued by the TNRD.</p> <p>The Lytton Creek wildfire (K71086) - 7777 hectares in size - classified as Out of Control. Evacuation Orders have been issued by the Village of Lytton, TNRD, and SLRD.</p> <p>The Napier Lake wildfire (K21556) - 56 hectares in size - classified as Out of Control. Alert issued by the TNRD.</p>

Fire Activity			
Fires Currently Burning	82 (33 lightning-caused/ 9 human-caused) *Subtotals may not add up to the total, since fires not classified as "lightning-caused" or "human-caused" are still under investigation.		
New Fires Last Week	56		
	This Fire Season (since April 1)	Last Year (2020)	10-Year Avg. (2011 – 2020)
Total Fires to Date	241	41	116
Total Hectares to Date	75,867	117	9309

Fire Prohibitions and Restrictions		
 Open Fires Cat 2 – Prohibited Cat 3 – Prohibited	 Campfires Prohibited	 Forest Restriction Not in Effect
<p>For more information on specific activities that are prohibited during Category 2, Category 3 or campfire prohibition, visit https://www2.gov.bc.ca/gov/content/safety/wildfire-status/fire-bans-and-restrictions</p>		

Kamloops Fire Centre: Fire Zones	
	<p>Click here for more information about the Kamloops Fire Centre (Fire Danger Rating Maps, Danger Class Reports, Fire Weather Maps, Active Wildfire Map) or visit:</p> <p>https://www2.gov.bc.ca/gov/content/safety/wildfire-status</p>

Weather Forecast
<p>An upper low will be tracking from southwest to northeast south of the fire centre region today bringing isolated to scattered showers and thunderstorms starting this afternoon and which will dissipate this evening. Most of the convection will be in the southern parts of the region, although isolated showers or thunderstorms will occur in the north. Tomorrow, in a drier southwest flow, isolated showers or thunderstorms will take place in the North Thompson.</p> <p>A shortwave trough will be tracking north of the region Saturday which may bring some convection to the North Thompson. Elsewhere the day will be mainly sunny. Temperatures will be in the low to mid thirties and winds will be light to moderate southwest. In a westerly flow Sunday will be mainly sunny with temperatures cooling to the high twenties to low thirties. Winds will be light northwest.</p>

Kamloops Fire Centre: Status Report

Prepared 30/06/2021

Zone Activity Level	
Level 1: (Exporting)	
<ul style="list-style-type: none"> Low to normal fire activity; no additional resource support is anticipated Adequate resources to deal with anticipated fire demands Monitor and anticipate possible support for non-wildfire provincial emergencies Zone resources may be deployed to other zones, fire centres, and out of province 	
Level 2: (Exporting/ Holding)	
<ul style="list-style-type: none"> There is an increase in fire activity; zone resources are adequate to meet their demands Monitor and anticipate possible support for non-wildfire provincial emergencies Limited resources may be deployable to other zones, fire centres, or out of province 	
Level 3: (Holding)	
<ul style="list-style-type: none"> There is an increase in fire activity; zone may not be able to meet local resource demands Resources from other zones / fire centres may be requested to assist zone activity Long term strategic planning becomes critical in determining what resources are needed where Zone staff on standby based on anticipated needs 	
Level 4: (Holding/ Importing)	
<ul style="list-style-type: none"> The zone is experiencing a high level of fire activity Zone resources will need to be supplemented from other zones / fire centres / type 2 crews Out of province resource requests for specific or critical resources may be required if provincial resource capacity is not able to handle fire demands 	
Level 5: (Importing)	
<ul style="list-style-type: none"> The zone is experiencing very significant fire activity, and/or extreme fire behaviour; heavy demands on provincial and fire centre resources are occurring and anticipated to continue Resource capacity is supplemented with staff from Wildfire TEAMS, other Ministries, the forest sector, Fire Departments, and type 2/3 resources 	
Fire Stages of Control	
Out of Control	Describes a wildfire that is not responding (or only responding on a limited basis) to suppression action, such that the perimeter spread is not being contained.
Being Held	Indicates that (with the resources currently committed to the fire) sufficient suppression action has been taken that the fire is not likely to spread beyond existing or predetermined boundaries under the prevailing and forecasted conditions.
Under Control	The fire has received sufficient suppression action to ensure no further spread of the fire.

Disclaimer: The information in this status report is intended for general purposes only and should not be relied on for operational decisions as fires are dynamic and situations change quickly. The BC Wildfire Service makes no warranties or guarantees either expressed or implied as to the completeness, accuracy or correctness of the information, nor accept any liability arising from any incorrect, incomplete or misleading information contained therein.

Fire Danger Rating	
Status	Description
Low	Fires may start easily and spread quickly but there will be minimal involvement of deeper fuel layers or larger fuels.
Moderate	Forest fuels are drying and there is an increased risk of surface fires starting. Carry out any forest activities with caution.
High	Forest fuels are very dry and the fire risk is serious. New fires may start easily, burn vigorously, and challenge fire suppression efforts. Open burning and industrial activities may be restricted.
Extreme	Extremely dry forest fuels and the fire risk is very serious. New fires will start easily, spread rapidly, and challenge fire suppression efforts. Open burning, industrial activities and campfires may be restricted.
Wildfire Ranks	
Rank	Description
1	Characteristics: Smouldering ground fire, no open flame, white smoke, slow (i.e. creeping) rate of fire spread. Firefighting tactics: Direct attack with ground crews using hand tools and water delivery systems (i.e. pumps and hose).
2	Characteristics: Surface fire, visible, open flame, unorganised or inconsistent flame front, slow rate of spread. Firefighting tactics: Direct attack with ground crews using hand tools, water delivery systems, or heavy equipment. Hand constructed control lines and lines that have been cleared of combustible material will likely be successful.
3	Characteristics: Organised flame front – fire progressing in organised manner, occasional candling may be observed along the perimeter and/or within the fire, moderate rate of spread. Firefighting tactics: Hand constructed control lines alone are likely to be challenged, ground crews conducting direct attack may require air support from fixed-wing air tankers, skimmers or helicopters conducting bucketing or tanking operations. Control lines constructed by heavy equipment will generally be effective.
4	Characteristics: Grey to black smoke, organised surface flame front, moderate to fast rate of spread on the ground, short aerial bursts through the forest canopy, short-range spotting. Firefighting tactics: Ground operations may not be successful at the head of the fire, indirect tactics may be required to bring the head of the fire under control. Parallel attack may be used along the flanks of the fire to direct the head into favourable ground or fuels. Air operations may be required to support ground personnel.
5	Characteristics: Black to copper smoke, organised crown fire front, moderate to long-range spotting and spot fire growth. Firefighting tactics: The limited options available include indirect attack and planned ignitions to remove fuel in the path of this type of fire behaviour. Ground operations are often restricted to fighting the least active sections of the fire or conducting ground ignition operations from secure control lines with readily available escape routes and safety zones.
6	Characteristics: Organised crown fire front, long-range spotting and independent spot fire growth, possible fireballs and whirls, violent fire behaviour probable, a dominant smoke column may develop which influences fire behaviour. Firefighting tactics: Firefighting under these conditions is extremely dangerous. Suppression efforts will be well away from active fire behaviour and may include preparing structure protection measures or conducting indirect large-scale ignition operations in an attempt to steer the fire. Often, the safest and most prudent strategy is to pull resources back to safe areas, ensure that personnel and the general public are safe, and wait for fire behaviour to lessen before re-engaging in fire suppression operations.

Subject: MLA Engagement Session for Kamloops Fire Centre

Good morning,

As we continue to move further into fire season, we realize that Incident Management Teams assigned to specific incidents in your area may continue to engage directly with your office about those fires. Our Kamloops Fire Centre management team would like to extend an invitation any office that would be interested in a general fire centre overview outside of this. Please let us know if you would see value in having a session like this and if you have any preferred times/dates this week.

Thank you,
Taylor
