Old Growth Strategy / Integrated Land Management Policy Framework

Treasury Board Staff Briefing

Brian Bawtinheimer, Executive Director
Provincial Stewardship Strategies and Planning
Ministry of Forests, Lands, Natural Resource Operations and Rural Development

Old Growth: Background

- Announced in 2019, the independent panel report publicly released by ministry in September 2020. 14 complex recommendations affecting forestry broadly. All highly interconnected and each with complex implementation advice.
- A fall 2020 election issue, Minister mandate direction, and confirmation of commitment to full implementation by Cabinet in April 2021.
- This is new work for the ministry. A new Unit was developed with a small group of risk-managed staff to prepare for initiating engagement, policy development, Minister briefings and support, and a path towards delivery of a new Old Growth Strategy for British Columbia by 2023.
- Given the policy options require development, we know the resources needed to get to a final strategy, but do not know longer-term requirements for complete implementation.

Integrated Land Policy: Background

- Old growth is one of many conservation pressures on the land base. Each land use decision is a trade-off with other socio-economic interests.
- Cabinet discussed these pressures in spring 2020 and 2021. Direction was to develop an integrated land management policy framework (ILMPF) to modernize and integrate stewardship approaches so as to reduce economic impacts while maximizing stewardship outcomes and addressing pressures.
- ILMPF is related to the governance/organization work being examined through the initiative to explore a new ministry, and to the negotiations with Canada on a new Nature Agreement that could see more federal funding for British Columbia. ILMPF is new work for the ministry.
- Old growth, deferrals and protections can not be effectively delivered without also aligning to new integrated stewardship approaches.

Hi Ray,

Just reaching out as we are putting final touches on a TB submission for Old Growth which we hope to get finalized in next couple of days.

s.12; s.13; s.17

Is this something you can provide? If not can you suggest where I can get this?

Thanks so much.

Treasury Board – Request for Decision

Minister: Honourable Katrine Conroy

Ministry: Ministry of Forests, Lands, Natural Resource Operations and Rural Development (FLNR)

Date: 06/15/2021

Ministry Document #: 06-22

Title: Old Growth Strategic Review

Issue:

As part of its election platform, government committed to implement fully the 14 recommendations within the report *A New Future for Old Forests* (the Report). To support engagement, policy development and implementation, the Ministry of Forests, Lands, Natural Resource Operations and Rural Development (FLNRO) is seeking approval for access to contingency funding of up to \$25.17 million spanning FY21/22 through the first half of FY23/24 to fund operations.

The work is aligned to Cabinet direction for a new integrated land management policy framework (ILMPF) that integrates and addresses the variety of current conservation pressures including old growth, species at risk habitat protection, and new protected areas resulting from modernized land use planning projects. Concurrent work of addressing the 14 old growth recommendations and integrating approaches with other stewardship initiatives will aim to maximize land protections for multiple values while reducing the collective stewardship pressures which reduce financial impacts to government.

The immediate work on implementing the 14 old growth recommendations will include establishing temporary deferrals from harvesting in old growth stands that are at near-term risk of permanent biodiversity loss. Temporary deferrals will likely have an impact on government revenue and on local economies. s.12; s.13

s.12; s.13

Recommendation:

s.12; s.13; s.17

Page 0031 of 1664

Withheld pursuant to/removed as

s.12 ; s.13 ; s.16 ; s.17

- On April 28 2021, Cabinet approved the Ministry to seek Treasury Board approval for funding to support the implementation of the Old Growth Strategic Review (OGSR) and to begin engaging with Indigenous Nations and stakeholder to develop deferrals for old growth stands at near-term risk of permanent risk of biodiversity loss.
- On March 8, 2021 Cabinet approved direction for the Ministry to develop an integrated approach to address the range of conservation pressures through aligning stewardship policies and decisions across government.
- The work resulting from addressing the Report and from Cabinet direction for a new ILMPF is new work within the Ministry and not a shift in focus for existing work. This requires the development of a new Branch within the Ministry, new engagement-oriented teams for regional operations, and with new staff focused full time over the next two years to deliver integrated management and a new Old Growth Strategy. The Branch and regional teams will require extensive support from existing subject matter experts across other divisions and ministries in developing policy options and recommendations.

Background / Context:

s.12; s.13

s.12; s.13

s.12; s.13

This is also an opportunity to align work to the *Declaration on the Rights of Indigenous Peoples Act* through demonstrating joint leadership and collaboration with Nations.

The 14 recommendations will also provide clarity for industry and forest investment by ensuring an approach that can serve us well into the future and be part of a strong natural resource economy provincially and for resource-dependent communities.

Two high-priority recommendations of the Report were to engage with Indigenous leaders and organizations, and to pursue old growth harvesting deferrals where there was high risk of immediate (near-term) permanent biodiversity loss. In August 2020, discussions occurred between the Province and some Indigenous governments where ongoing issues related to old forest were already occurring. Agreements were made to defer 194,000 hectares of old forest across nine areas. Impacts from these deferrals were negligible as most were the subject of ongoing de facto deferral status due to conflicts. The deferrals developed in summer fall 2020 provided some protection, however further temporary protections will be needed to fully address recommendation #6.

Engagement throughout the initiative is paramount to a successful old growth strategy. The Ministry will need to carefully work with Nations, industry, environmental organizations, labour groups and local governments to develop new policies and approaches that can be supported by all the parties. Engagement with industry,

Hello,

I hope you are both well today.

Just following up on our previous conversations around old growth deferral expectations, are you able to provide a ballpark of deferral costs per year over the next 5 years?

Let me know if you have any questions.

Thanks,

Hi all – a quick update...we had hoped to have the information from the panel all in order early this week but as you have seen we were unable to make that time frame. This, of course, means we need to push analysis out a bit.

If we can, lets aim for end of day Tuesday and have a quick email check in mid-day Tuesday to see how it is going.

Again, appreciate the difficult timelines we are facing.

Subject: RE: forestry employment

Hi Brian,

Not sure about the average, but 2020 data came in below 50,000. Here's the latest from three Stat Can sources. We usually quote the SNA which was roughly s.13

s.13

2020 Comparison - British Columbia Forest Sector

Number of Jobs, by Industry, B.C.	SEPH	SNA	LFS
Forestry, logging and support activities	15,394	16,800	17,200
Forestry and logging [113]	10,131	9,800	
Support activities for forestry [1153]	5,263	7,000	
Wood product manufacturing	23,037	19,175	21,400
Sawmills and wood preservation [3211]	12,458	8,900	11,500
Veneer, plywood and engineered wood product manufacturing [3212]	4,245	3,510	
Other wood product manufacturing [3219]	6,334	6,765	
Paper manufacturing	6,597	6,910	10,200
Pulp, paper and paperboard mills [3221]	5,432	5,505	
Converted paper product manufacturing [3222]	1,165	1,405	
TOTAL FOREST SECTOR	45,028	42,885	48,800

Mapping/Analysis/Data support team for Old Growth Strategic Review implementation

From: Kachanoski, Steve B FLNR:EX <Steve.Kachanoski@gov.bc.ca>
To: Westmacott, Susan FLNR:EX <Susan.Westmacott@gov.bc.ca>, Walton, Adrian P FLNR:EX <Adrian.Walton@gov.bc.ca>, Tesch, David ENV:EX <David.Tesch@gov.bc.ca>, Erwin, Corey W ENV:EX <Corey.Erwin@gov.bc.ca>

Susan and Adrian...

Thanks again for taking a leadership role on the mapping/analysis/data side of OG. I see a small team forming with:

- Susan – GeoBC
- Adrian – FAIB
- Chantelle – Tenures
- Alex – Economics

A couple gaps may be:

- Regions. Do we have one or two contacts? (John Sunde? Ian Blackburn?, etc)
- Environment. May want to approach someone in David Tesch's shop – Knowledge Management – at ENV.

Dave and Corey, included you both here. Let me know if you see a role here for your group, and if so, who could get engaged.

All – are there other gaps?

Steve

Hi Jennifer,
Should be pretty straightforward, but could take longer if there are substantial changes in methodology or data provided by FAIB.

Brian,

Thanks we'll coordinate to have our review and AAC impacts estimates together for next week. For the AAC impacts, I anticipate the approach to be similar to what we did on the panel recommendation options, though we may need to vary how we summarize and report.

Once ready, the impacts will be sent to Peter and Alex for economic parameters to be added.

Jim

Hi Adrian,

We are doing an analysis of the overall potential impact to MPS so we want to see the geographic spread of the potential deferral areas across the different pricing units. So the overview maps will be a start for us on that front. Alex will use the harvest impact data that you generate for the regular economic impact

It now sounds like we will not get anything this week.... Hopefully we hear directly from Brian about that, but was just speaking with Ray and their GIS guy got an email from FAIB that nothing will be coming this week.

Subject: RE: Coordination Call for OG Analysis

I asked for an update on data/maps and the response I got was "Shooting for the end of the week."

I am not quite sure what that will mean for our work, but will endeavor to find out.

Hi all – a quick update...we had hoped to have the information from the panel all in order early this week but as you have seen we were unable to make that time frame. This, of course, means we need to push analysis out a bit.

If we can, lets aim for end of day Tuesday and have a quick email check in mid-day Tuesday to see how it is going.

Again, appreciate the difficult timelines we are facing.

Subject: RE: Economic analysis - OG for next week

Hi all – a quick update...we had hoped to have the information from the panel all in order early this week but as you have seen we were unable to make that time frame. This, of course, means we need to push analysis out a bit.

If we can, lets aim for end of day Tuesday and have a quick email check in mid-day Tuesday to see how it is going.

Again, appreciate the difficult timelines we are facing.

Brian Bawtinheimer

Following Monday's meeting, I'm wondering if a short call at noon tomorrow might be in order just for a quick check-in?

Might be useful just to check progress, answer any questions, and it ensure all aspects are covered?

Hate to intrude people's lunch hour but might be best chance to get as many as possible.

Who am I missing from this list I should invite?

Hi Teresa. I just talked to Brian and he gave me some context. Apparently there was a call yesterday where additional analysis was requested (not sure if you or Alex attended the call). JERI has approached FLNRORD to s.12; s.13

Brian will also be scheduling a call tomorrow morning to discuss the context and will be inviting you, Alex and myself (in Jennifer's absence).
