Just following up on our previous conversations around old growth deferral expectations, are you able to provide a ballpark of deferral costs per year over the next 5 years?

Let me know if you have any questions.

Hi all – a quick update...we had hoped to have the information from the panel all in order early this week but as you have seen we were unable to make that time frame. This, of course, means we need to push analysis out a bit.

If we can, lets aim for end of day Tuesday and have a quick email check in mid-day Tuesday to see how it is going.

Again, appreciate the difficult timelines we are facing.

Hi Brian,

Is it possible for you to confirm these numbers on stumpage/tax revenue (that were provided in the JERI deck) and is it possible to find out the break down for options 2 and 3.

(assuming – those options are still moving forward).

s.12; s.13; s.17

Sera (TB) is working on a table to try and pinpoint the potential costs (snapshot below) – and she has asked if we can get the break down for the other options?
