Good afternoon Brian,

During our site visit last week, we were able to meet with the landowner and take a ride out along
s.15

s.15

s.15 I did note that the
landowner has quite a large pond located entirely within a historical wetland area. He let us know
that he uses this pond to irrigate through the summer months. He will require a new groundwater
use permit (purpose: irrigation) for this pond, and we discussed on-site that this permit would be a
separate issue s.15

Hi Angela,

I am interpreting this message from 's.22 to mean that s.22 may be attempting to better understand what area MoF's order may be in reference too and how much flexibility the ministry will allow.

My thoughts are as follows:

s.15; s.22

Afternoon Brian

I have been working at trying to find folks to help me work this through.

I would like to know if you could find some time for a visit ,where we could discuss some thoughts I have about my site ?

Thanks for your consideration .
